Exhibit

1. Press Release dated August 5, 2008

Exhibit 1

Textainer Group Holdings Limited Reports Second Quarter 2008 Results and Declares Quarterly Dividend

HAMILTON, Bermuda, August 5, 2008 (BUSINESS WIRE) — Textainer Group Holdings Limited (NYSE:TGH) ("Textainer"), the world's largest lessor of intermodal containers based on fleet size, today reported results for the second quarter ended June 30, 2008.

Total revenues for the quarter increased by \$8.9 million, or 15%, to \$69.6 million compared to \$60.7 million in the prior year quarter primarily due to a \$6.3 million, or 158%, increase in trading container sales proceeds to \$10.4 million compared to \$4.0 million in the prior year quarter. EBITDA(1) for the quarter increased by \$11.9 million, or 34%, to \$47.3 million compared to \$35.4 million in the prior year quarter.

Net income excluding unrealized (gains) losses on interest rate swaps, net(1) for the quarter was \$24.5 million, a 53% increase over the \$16.0 million earned in the prior year quarter. Net income per diluted common share excluding unrealized (gains) losses on interest rate swaps, net(1) for the quarter was \$0.51 per share, a 24% increase over the \$0.41 per share in the prior year quarter. Net income for the quarter was \$30.4 million, an 83.2% increase over the prior year quarter. Textainer's net income per diluted common share increased by \$0.21 per share, or 49%, to \$0.64 per share for the second quarter of 2008 from \$0.43 per share in the prior year quarter.

There were three significant items that impacted income before income tax and minority interest expense during the second quarter of 2008. First, Textainer recognized a gain on lost U.S. military containers, net of \$1.7 million for 4,368 owned and 495 subleased containers that were on lease to them and unaccounted for. Second, income tax expense decreased by \$1.5 million compared to the prior year quarter primarily due to a re-measurement of our income tax reserves following the conclusion of an audit by the U.S. Internal Revenue Service. Finally, the resolution of a dispute with a container manufacturer resulted in the reversal of a \$0.8 million reserve and an additional gain of \$0.3 million as part of the resolution.

"I am very pleased with our second quarter 2008 results. Overall demand for our containers through June remained strong. Textainer's utilization increased by over 1% to around 94% from the first quarter of 2008 to the second quarter of 2008," commented John A. Maccarone, President and CEO of Textainer.

He continued, "Our container resale segment had another great quarter. Second quarter resale income before taxes of \$3.7 million, which represents an increase of \$1.8 million, or 101%, over the prior year quarter's results of \$1.9 million was primarily due to an increase in the number of trading containers we were able to source and sell."

As previously announced, in April 2008, Textainer Limited ("TL"), which is a wholly-owned subsidiary of Textainer, entered into a \$205 million, five-year revolving credit agreement with a group of financial institutions. Also, as previously announced, in July, Textainer Marine Containers Limited ("TMCL"), Textainer's primary asset owning subsidiary, extended and increased the size of its secured debt facility. The secured debt facility was extended over an initial two-year revolving period, and the total commitment under the secured debt facility was increased from \$300 million to \$475 million.

Mr. Maccarone added, "We are extremely pleased to have been able to increase the size and the term of TL's revolver and to extend and increase the size of TMCL's securitization facility. Given the current challenging conditions in the credit markets in general, and the asset-backed market in particular, we believe that the success of this transition demonstrates the participating banks' strong confidence and commitment to Textainer."

“The successful completion of both of these transactions strengthens our liquidity position. Together, we believe these facilities will help to ensure that we have access to the financing necessary to position Textainer for future growth.”

Outlook

We believe that the drivers of our strong performance during the first half of 2008 remain in place. Strong demand for both our new production and in-fleet containers is the result of several factors, including, among other things:

- new vessels entering service;
- lower shipping line profits due to higher operating expenses, especially fuel;
- the “credit crunch,” which is making it more difficult to borrow, and causing higher spreads; and
- higher prices for new containers.

Our customers have become more dependent on leasing than they were in the past three years. Shipping lines are also keeping their own and leased containers in their respective fleets longer. This has created a shortage of older containers in the secondary market, and has kept prices strong. We do not see any signs that these drivers will materially change in the next few months.

In the first half of 2008, Textainer originated over 164,000 twenty-foot equivalent units (“TEU”) of owned and managed long-term leases and 18,600 TEU of direct financing and sales-type leases. New owned and managed standard dry freight containers ordered for delivery through August 2008 totaled 104,450 TEU at a cost of \$229 million. In addition, 2,750 owned and managed 40’ High Cube refrigerated containers costing \$48 million were ordered for delivery through September 2008.

In July 2008, Textainer also entered into a purchase leaseback transaction with a major international shipping line for 8,500 containers valued at \$12.3 million.

Textainer expects that secondary prices for containers will remain attractive. However, given the decline in the availability of trading containers and the likelihood that containers purchased under purchase leaseback transactions are likely to stay on-lease in the near future, the profitability of Textainer’s Resale Division is unlikely to continue at the same pace as during the first half of 2008.

Dividend

On August 1, 2008, Textainer’s board of directors approved and declared a quarterly cash dividend of \$0.23 per share on Textainer’s issued and outstanding common shares, payable on August 22, 2008 to shareholders of record as of August 15, 2008. This represents an increase of \$0.01 per share, or 5%, from the first quarter 2008 cash dividend of \$0.22 per share.

Investors’ Webcast

Textainer will hold a conference call and a Webcast at 2:00 p.m. EDT on Wednesday August 6, 2008 to discuss Textainer’s second quarter 2008 results. An archive of the Webcast will be available one hour after the live call through August 6, 2009. The dial-in number for the conference call is 1-877-440-5803; outside the U.S. call 1-719-325-4927. To access the live Webcast or archive, please visit Textainer’s website at <http://www.textainer.com>.

About Textainer Group Holdings Limited

Textainer has operated since 1979 and is the world’s largest lessor of intermodal containers based on fleet size. We have a total of more than 1.3 million containers, representing over 2,000,000 TEU, in our owned and managed fleet. We lease containers to more than 400 shipping lines and other lessees. We principally lease dry freight containers, which are by far the most common of the three principal types of intermodal containers, although we also lease specialized and refrigerated containers. We have also been one of the largest purchasers of new containers among container lessors over the last 10 years. We believe we are also one of the largest sellers of used containers, having sold an average of more than 53,000 containers per year for the last five years. We provide our services worldwide via a network of 14 regional and area offices and over 350 independent depots in more than 130 locations.

Important Cautionary Information Regarding Forward-Looking Statements

This press release contains forward-looking statements within the meaning of U.S. securities laws. Forward-looking statements include statements that are not statements of historical facts and include, without limitation, statements regarding (i) Textainer's belief that the drivers of Textainer's strong performance during the first half of 2008 remain in place and will not materially change in the next few months; (ii) Textainer's expectation that both its customers' growing dependency on leasing and shipping lines' keeping their own and leased containers in their fleet longer will not change in the next few months; (iii) Textainer's expectation that secondary prices for containers will remain attractive; and (iv) Textainer's expectations that the profitability of its Resale Division is unlikely to continue at the same pace as during the first half of 2008. Readers are cautioned that these forward-looking statements involve risks and uncertainties, are only predictions and may differ materially from actual future events or results. These risks and uncertainties include, without limitation, that gains and losses associated with the disposition of equipment may fluctuate; Textainer's ability to finance continued purchase of containers; the demand for leased containers depends on many political and economic factors beyond Textainer's control; lease and freight rates may decline; the demand for leased containers is partially tied to international trade; Textainer faces extensive competition in the container leasing industry; the international nature of the container shipping industry exposes Textainer to numerous risks; and other risks and uncertainties, including those set forth in Textainer's filings with the Securities and Exchange Commission. For a discussion of some of these risks and uncertainties, see Item 4 "Risk Factors" in Textainer's Quarterly Report on Form 6-K for the three months ended March 31, 2008, filed with the Securities and Exchange Commission on May 14, 2008.

Textainer's views, estimates, plans and outlook as described within this document may change subsequent to the release of this press release. Textainer is under no obligation to modify or update any or all of the statements it has made herein despite any subsequent changes Textainer may make in its views, estimates, plans or outlook for the future.

TEXTAINER GROUP HOLDINGS LIMITED AND SUBSIDIARIES
Non-GAAP Reconciliation of Net Income to EBITDA and Net Income to Net Income Excluding
Unrealized (Gains) Losses on Interest Rate Swaps, Net
Three and Six Months Ended June 30, 2008 and 2007
(Unaudited)

(All currency expressed in United States dollars in thousands, except per share amounts)

(1) The following is a reconciliation of net income to EBITDA, a reconciliation of net income to net income excluding unrealized (gains) losses on interest rate swaps, net and a reconciliation of net income per diluted common share to net income per diluted common share excluding unrealized (gains) losses on interest rate swaps, net for the three and six months ended June 30, 2008 and 2007. EBITDA (defined as net income before interest income and interest expense, realized and unrealized (gains) losses on interest rate swaps, net, income tax (benefit) expense, minority interest expense, depreciation and amortization expense and the related impact on minority interest expense), net income excluding unrealized (gains) losses on interest rate swaps, net (defined as net income before unrealized (gains) losses on interest rate swaps, net and the related impact on income tax (benefit) expense and minority interest expense) and net income per diluted common share excluding unrealized (gains) losses on interest rate swaps, net (defined as net income per diluted common share before unrealized (gains) losses on interest rate swaps, net and the related impact on income tax (benefit) expense and minority interest expense) are not financial measures calculated in accordance with U.S. generally accepted accounting principles ("GAAP") and should not be considered as an alternative to net income, income from operations or any other performance measures derived in accordance with GAAP or as an alternative to cash flows from operating activities as a measure of our liquidity. EBITDA, net income excluding unrealized (gains) losses on interest rate swaps, net and net income per diluted common share excluding unrealized (gains) losses on interest rate swaps, net are presented solely as supplemental disclosures. Management believes that EBITDA may be a useful performance measure that is widely used within our industry. EBITDA is not calculated in the same manner by all companies and, accordingly, may not be an appropriate measure for comparison. Management also believes that net income excluding unrealized (gains) losses on interest rate swaps, net and net income per diluted common share excluding unrealized (gains) losses on interest rate swaps, net are useful in evaluating our operating performance because unrealized (gains) losses on interest rate swaps, net is a non-cash, non-operating item. We believe EBITDA, net income excluding unrealized (gains) losses on interest rate swaps, net and net income per diluted common share excluding unrealized (gains) losses on interest rate swaps, net provides useful information on our earnings from ongoing operations. We believe that EBITDA provides useful information on our ability to service our long-term debt and other fixed obligations and on our ability to fund our expected growth with internally generated funds. EBITDA, net income excluding unrealized (gains) losses on interest rate swaps, net and net income per diluted common share excluding unrealized (gains) losses on interest rate swaps, net have limitations as analytical tools, and you should not consider either of them in isolation, or as a substitute for analysis of our operating results or cash flows as reported under GAAP. Some of these limitations are:

- They do not reflect our cash expenditures, or future requirements, for capital expenditures or contractual commitments;
- They do not reflect changes in, or cash requirements for, our working capital needs;
- EBITDA does not reflect interest expense or cash requirements necessary to service interest or principal payments on our debt;
- Although depreciation is a non-cash charge, the assets being depreciated may be replaced in the future, and neither EBITDA, net income excluding unrealized (gains) losses on interest rate swaps, net or net income per diluted common share excluding unrealized (gains) losses on interest rate swaps, net reflects any cash requirements for such replacements;
- They are not adjusted for all non-cash income or expense items that are reflected in our statements of cash flows; and
- Other companies in our industry may calculate these measures differently than we do, limiting their usefulness as comparative measures.
