Textainer Group Holdings Limited Reports Fourth Quarter 2007 and Full Year Results and Declares Quarterly Dividend

HAMILTON, Bermuda (BUSINESS WIRE) – February 21, 2008. Textainer Group Holdings Limited (NYSE: TGH) ("Textainer"), the world's largest lessor of intermodal containers based on fleet size, today reported results for the fourth quarter and the year ended December 31, 2007.

Total revenues for the quarter increased by \$12.9 million, or 22%, to \$70.6 million compared to \$57.7 million in the prior year quarter primarily due to an increase in trading container sales proceeds of \$9.6 million, or 377%, to \$12.2 million compared to \$2.6 million in the prior year quarter. EBITDA (1) for the quarter increased by \$5.1 million, or 14%, to \$41.2 million compared to \$36.1 million in the prior year quarter.

Net income for the quarter was \$15.0 million, which was a decrease of \$2.0 million, or 12%, compared to \$17.1 million in the prior year quarter. Textainer recorded \$3.8 million more in unrealized losses on interest rate swaps, net in the fourth quarter of 2007 compared to the prior year quarter. Excluding this non-cash, non-operating item⁽¹⁾ Textainer's net income would have increased 6% from \$17.3 million in the fourth quarter of 2006 to \$18.4 million in the fourth quarter of 2007. Textainer's net income per diluted common share decreased by \$0.12 per share, or 27%, to \$0.32 per share for the fourth quarter of 2007 from \$0.44 per share in the prior year quarter. The decrease in Textainer's net income per diluted common share was partly due to the increase in Textainer's weighted average number of shares outstanding for the fourth quarter of 2007 as a result of the additional shares issued in Textainer's initial public offering in that quarter.

Total revenues for the year ended December 31, 2007 increased by \$29.3 million, or 13%, to \$255.8 million compared to \$226.5 million for the year ended December 31, 2006. EBITDA(1) for the year ended December 31, 2007 increased by \$21.6 million, or 16%, to \$154.0 million compared to \$132.4 million for the year ended December 31, 2006.

Net income for the year ended December 31, 2007 was \$67.7 million, which was an increase of \$11.4 million, or 20%, compared to \$56.3 million for the prior year. Textainer recorded \$7.7 million more in unrealized losses on interest rate swaps, net in the year ended December 31, 2007 compared to the prior year. Excluding this non-cash, non-operating item(1), Textainer's net income would have increased \$16.6 million, or 29%, from \$56.7 million in 2006 to \$73.3 million in 2007. Textainer's net income per diluted common share increased by \$0.20 per share, or 14%, to \$1.66 per share for the year ended December 31, 2007 compared to \$1.46 per share for the year ended December 31, 2006. Textainer's net income for the year ended December 31, 2007 included a gain on disposal of \$4.6 million that was recorded in the third quarter due to the reported loss by the U.S. military of approximately 28,000 on-lease containers. The U.S. military may report additional losses in the future, but we do not expect such losses, if any, to be of such a significant number of containers.

"I am very pleased with our 2007 fourth quarter and full year results. Overall demand for our containers through December was strong. Textainer's utilization continued to remain above 93% during the fourth quarter of 2007", commented John A. Maccarone, President and CEO of Textainer.

He continued, "Our container resale segment had the best quarter in its history. Full year resale income before taxes of \$10.3 million exceeded last year's record results by \$4.8 million, or 89%, compared to \$5.5 million in the prior year."

"For us, the major event in the fourth quarter was our initial public offering in October which allowed us to raise approximately \$138 million, net of underwriting discounts and offering expenses. We used a portion of the proceeds to repay approximately \$56 million that we had previously borrowed under our secured debt facility to fund our purchase of the exclusive rights to manage the approximately 500,000 TEU container fleet of Capital Lease, a competitor. We also used a portion of the proceeds to purchase, for \$71 million, additional shares of Textainer Marine Containers Limited (TMCL), representing 50% of the shares formerly owned by Fortis Bank, our joint venture partner. For many years one of our primary goals has been to increase the size of our owned container fleet, which is now 40% of our total fleet of over 2 million TEU. We believe the return earned on investments in containers remains very attractive. The TMCL transaction was a significant step toward achieving this goal."

Outlook

The initial outlook for 2008 is somewhat complex due to forecasts of lower GDP growth in many countries, including China. Lower China export growth in 2008 would reflect lower demand for imports in both North America and the European Union, and would also impact intra-Asia trade. There is also uncertainty about freight rates due to the large number of new vessels forecasted to enter service this year. If freight rates decline, and liner profitability weakens, there is a good chance that Textainer's customers may decide to lease a larger portion of their total container requirements in 2008 than in the previous three years. The cost of borrowing is also increasing and some shipping lines may even find that their ability to borrow, regardless of cost, has been reduced. This is another reason which may cause shipping lines to lease a larger portion of their total container requirements in 2008.

Management believes that Textainer is well positioned to win a significant share of leased container opportunities in 2008 due to Textainer's access to competitively priced capital, and container buying power. Textainer has already ordered 39,600 TEU of new containers for first quarter 2008 delivery. Management also believes that limited access to credit for some lessors may present acquisition opportunities for Textainer.

As we announced on January 3, 2008, Textainer re-entered the refrigerated container market, which we had exited in the 1990's, because we perceive conditions in that market to now be favorable. Management believes that it can place at least \$30 million worth of refrigerated containers into service on long term leases in 2008, which would increase Textainer's capital expenditures by about 10% above its original budget. Textainer already has sales/marketing and operations/technical expertise in-house, and refrigerated containers are leased by our existing customer base, which is supported by Textainer's current sales team. Therefore, the incremental overhead costs to Textainer for entering and operating in this market are expected to be minimal.

Textainer also expects that its Resale Division will continue to experience attractive pricing and relatively high sales volumes.

Dividend

On February 20, 2008, Textainer's board of directors approved and declared a quarterly cash dividend of \$0.21 per share on Textainer's issued and outstanding common shares, payable on March 10, 2008 to shareholders of record as of March 3, 2008. This is an increase of \$0.01 per share, or 5%, from the third quarter 2007 cash dividend of \$0.20 per share.

Investors' Webcast

Textainer will hold a conference call and a Webcast at 2:00 p.m. EST on Friday February 22, 2008 to discuss Textainer's fiscal fourth quarter 2007 and full year results. An archive of the Webcast will be available one hour after the live call through February 22, 2008. The dial-in number for the conference call is 1-877-675-4757; outside the U.S. call 1-719-325-4930. To access the live Webcast or archive, please visit Textainer's website at http://www.textainer.com.

About Textainer Group Holdings Limited

Textainer has operated since 1979 and is the world's largest lessor of intermodal containers based on fleet size. We have a total of more than 1.3 million containers, representing over 2,000,000 twenty-foot equivalent units (TEU), in our owned and managed fleet. We lease containers to more than 400 shipping lines and other lessees. We principally lease dry freight containers, which are by far the most common of the three principal types of intermodal containers. We have also been one of the largest purchasers of new containers among container lessors over the last 10 years. We believe we are also one of the largest sellers of used containers, having sold an average of more than 50,000 containers per year for the last five years. We provide our services worldwide via a network of 14 regional and area offices and over 350 independent depots in more than 130 locations.

Important Cautionary Information Regarding Forward-Looking Statements

This press release contains forward-looking statements within the meaning of U.S. securities laws. Forward-looking statements include statements that are not statements of historical facts and include, without limitation, statements (i) that the return earned on investments in containers remains very attractive, (ii) that Textainer is on track to purchase more than the 39,600 TEU of new containers that Textainer has already ordered, (iii) that the U.S. military may report additional losses in the future, but management does not expect such losses, if any, to be of such a significant number of containers, (iv) Textainer is well positioned to win a significant share of leased container opportunities in 2008, (v) limited access to credit for some lessors may present acquisition opportunities for Textainer, (vi) Textainer can place at least \$30 million worth of refrigerated containers into service on long term leases in 2008, (vii) regarding the expected incremental overhead costs for entering and operating in the refrigerated container market and (viii) regarding Textainer's expectations for its Resale Division. Readers are cautioned that these forward-looking statements involve risks and uncertainties, are only predictions and may differ materially from actual future events or results. These risks and uncertainties include that gains and losses associated with the disposition of equipment may fluctuate; Textainer's ability to finance continued purchase of containers; the demand for leased containers depends on many political and economic factors beyond Textainer's control; lease and freight rates may decline; the demand for leased containers is partially tied to international trade; Textainer faces extensive competition in the container leasing industry; and the international nature of the container shipping industry exposes Textainer to numerous risks. For a discussion of such risks and uncertainties, see "Risk Factors" in Textainer's final prospectus relating to Textainer's initial public offering dated October

Textainer's views, estimates, plans and outlook as described within this document may change subsequent to the release of this statement. Textainer is under no obligation to modify or update any or all of the statements it has made herein despite any subsequent changes Textainer may make in its views, estimates, plans or outlook for the future.

Non-GAAP Reconciliation of Net Income to EBITDA and Net Income to Net Income Excluding Unrealized Losses on Interest Rate Swaps, Net
Three Months and Years Ended December 31, 2007 and 2006

(Unaudited)

(All currency expressed in United States dollars in thousands, except per share amounts)

(1) The following is a reconciliation of net income to EBITDA and a reconciliation of net income to net income excluding unrealized losses on interest rate swaps, net for the three months and years ended December 31, 2007 and 2006. EBITDA (defined as net income, before interest income and interest expense, realized and unrealized (gains) losses on interest rate swaps, net, income tax expense, minority interest expense and depreciation and amortization expense) and net income excluding unrealized losses on interest rate swaps, net (defined as net income, before unrealized losses on interest rate swaps, net and the related impact on income tax expense and minority interest expense) are not financial measures calculated in accordance with U.S. generally accepted accounting principles ("GAAP") and should not be considered as an alternative to net income, income from operations or any other performance measures derived in accordance with GAAP or as an alternative to cash flows from operating activities as a measure of our liquidity. EBITDA and net income excluding unrealized losses on interest rate swaps, net are presented solely as supplemental disclosures. Management believes that EBITDA may be a useful performance measure that is widely used within our industry. EBITDA is not calculated in the same manner by all companies and, accordingly, may not be an appropriate measure for comparison. Management also believes that net income excluding unrealized losses on interest rate swaps, net is useful in evaluating our operating performance because unrealized losses on interest rate swaps, net is a non-cash, non-operating item. We believe EBITDA and net income excluding unrealized losses on interest rate swaps, net both provide useful information on our earnings from ongoing operations. We believe that EBITDA provides useful information on our ability to service our long-term debt and other fixed obligations and on our ability to fund our continued growth with internally generated funds. EBITDA and net income excluding u

- · They do not reflect our cash expenditures, or future requirements, for capital expenditures or contractual commitments;
- They do not reflect changes in, or cash requirements for, our working capital needs;
- EBITDA does not reflect interest expense or cash requirements necessary to service interest or principal payments on our debt;
- Although depreciation is a non-cash charge, the assets being depreciated may be replaced in the future, and neither EBITDA or net income excluding unrealized losses on interest rate swaps, net reflects any cash requirements for such replacements;
- They are not adjusted for all non-cash income or expense items that are reflected in our statements of cash flows; and
- Other companies in our industry may calculate these measures differently than we do, limiting their usefulness as comparative measures.
