4Q 2018 Earnings Call Presentation

February 21, 2019

Forward Looking Statements

Certain information included in this presentation and other statements or materials published or to be published by the Company are not historical facts but are forward-looking statements relating to such matters as anticipated financial performance, business prospects, technological developments, new and existing products, expectations for market segment and growth, and similar matters. In connection with the "safe harbor" provisions of the Private Securities Litigation Reform Act of 1995, the Company provides the following cautionary remarks regarding important factors which, among others, could cause the Company's actual results and experience to differ materially from the anticipated results or other expectations expressed in the Company's forward-looking statements. The risks and uncertainties that may affect the operations, performance, development, results of the Company's business, and the other matters referred to above include, but are not limited to: (i) changes in the business environment in which the Company operates, including global GDP changes, the level of international trade, inflation and interest rates; (ii) changes in taxes, governmental laws, and regulations; (iii) competitive product and pricing activity; (iv) difficulties of managing growth profitably; and (v) the loss of one or more members of the Company's management team.

As required by SEC rules, we have provided a reconciliation of the non-GAAP financial measures included in this presentation to the most directly comparable GAAP measures in materials on our website at www.textainer.com.

Current Market Environment

Strong lease-out market continues

- Rental rate yields in low doubledigits
- Average new production operating lease terms with Asia-focused return schedules
- Shipping lines favoring lease vs. purchase

Current container price around \$1,700/CEU

 Prices have decreased due to a weakening Renminbi and steel prices and lower seasonal demand

Positive container trade growth

- 2019 GDP growth forecast at 3.5%
- Container trade expected to grow at a multiple of GDP
- Increases in vessel capacity and slow steaming also stimulate container demand

Containers demand is strong and utilization at high levels

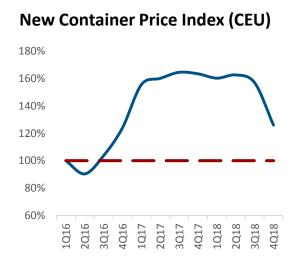

Limited inventory supply worldwide

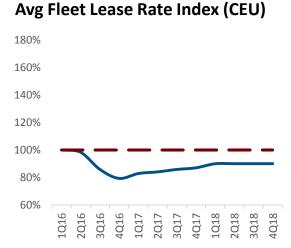

Used containers are being sold at high prices significantly above book value

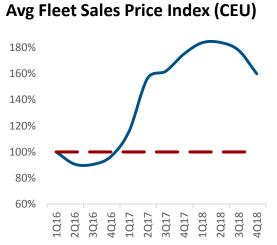

Most market factors remain positive, amid a decrease in new container prices

Drivers of Improved Financial Performance

Projected upside from improvements

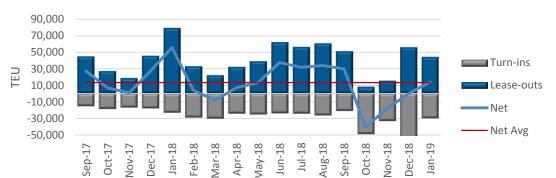

Estimated Annual Pre-Tax Income Impact of Key Metrics							
1% increase in utilization	\$9M						
\$0.01 increase in average per diem rate	\$10M						
\$100 increase in used container sales price	\$10M						

- Key indicators remain positive
- \$830M containers received YTD
- Utilization currently at 98.3%

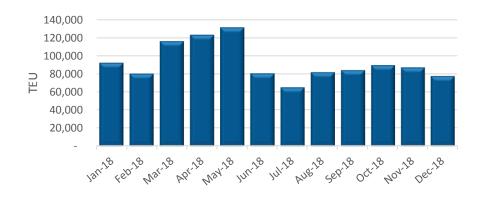

Fundamentals remain attractive albeit a decrease in new container prices

Inventory Supply and Lease-Outs

New production (factory) inventory

- Over 500,000 TEU leased in 2018; including over 375,000 TEU of new production
- Lease-out to return ratio averaging 1.4 to 1.0 in 2018
- Optimized inventory supply to meet the immediate needs of our customers

We manage our inventory to maximize supply opportunities to our customers

Reclassification in the Consolidated Statements of Comprehensive Income

- We revised the presentation of the lease rental activity of our third-party owned managed fleet
- Upon a re-evaluation of the management agreements of the third-party fleet we manage, we and our auditors concluded these agreements convey to us the right to control the managed fleet, therefore meeting the definition of a lease based on the guidance of ASC 840 Leases
- As a result, lease management fee income, previously presented on a net basis, was reclassified and presented on a gross basis for the entire managed fleet
- The following table highlights the resulting changes in the Consolidated Statement of Comprehensive Income, noting no impact to net income

Reclassification is only a gross-up on the Statement of Comprehensive Income

¹⁾ After the reclassification, management fees include only sales commission and acquisition fees earned on the managed fleet. Management fees on the lease rental income is grossed-up in the two new line items below

²⁾ Two new line items added to the Consolidated Statement of Comprehensive Income. The net of these two items agree to the management fee earned on the lease rental income of our managed fleet
