FINANCIAL HIGHLIGHTS

(All figures in millions of U.S. dollars except for per share data and percentage calculations)

	2009	2008	2007
Consolidated Operating Results			
Total revenue ^(a)	\$ 237.3	\$ 277.1	\$ 255.8
Operating income	\$ 103.7	\$ 136.8	\$ 125.5
Income before income tax and noncontrolling interest	\$ 108.8	\$ 93.1	\$ 91.4
Net income attributable to TGH Limited common shareholders	\$ 90.8	\$ 85.2	\$ 67.7
Basic net income per share	\$ 1.90	\$ 1.79	\$ 1.66
Diluted net income per share	\$ 1.88	\$ 1.78	\$ 1.66
Dividend per share	\$ 0.92	\$ 0.89	\$ 1.14
Return on average stockholders' equity ^(b)	19.1%	19.9%	23.8%
Return on average assets ^(b)	7.0%	6.9%	6.5%
Leverage ratio ^(c)	122%	143%	134%
Consolidated Financial Position			
Total assets	\$1,360.0	\$1,303.8	\$1,128.3
Long-term debt (including current portion)	\$ 686.9	\$ 724.6	\$ 581.4
Total stockholders' equity	\$ 500.3	\$ 449.6	\$ 404.1
Total stockholders' equity per outstanding share	\$ 10.48	\$ 9.44	\$ 9.90

- Notes:
- (a) Does not include leasing revenue for containers managed but not owned by Textainer.
 - (b) Average based on monthly balances.
 - (c) Debt includes container contracts payable and equity includes noncontrolling interest.
 - (d) Leasing revenue and net operating income includes all managed containers, including containers not owned by Textainer.

TO OUR SHAREHOLDERS:

2009 was a year of considerable success for Textainer, as the Company reported strong results and enhanced its industry leadership during the most challenging period in the 52-year history of containerized shipping. Highlighting our accomplishments in 2009, we posted the second best net income attributable to Textainer Group Holdings Limited common shareholders in our Company's 30-year history and invested in accretive transactions that totaled more than \$200 million. Importantly, we also continued to distribute sizeable dividends to shareholders.

Accretive Growth

During 2009, we are pleased to have taken advantage of the industry downturn by capitalizing on multiple transactions which were all accretive to earnings in 2009 and will continue to add to results in future years. Specifically, we expanded our owned and managed container fleet by 15% on a TEU basis. We also increased our strategic presence in the refrigerated container business, purchased containers for trading, entered into purchase-leaseback transactions with shipping lines and retired debt at favorable prices. Complementing these notable achievements, we sold a record 100,000 older containers in 2009, representing a 16.3% increase from our previous high.

Profitability and Return on Equity

Textainer's ongoing success increasing the percentage of its fleet on fixed contracts enabled the Company to maintain solid profitability despite the challenges that endured throughout the year. We achieved total revenue for 2009 of \$237.3 million, net income attributable to Textainer Group Holdings Limited common shareholders of \$90.8 million and return on average equity excluding unrealized gains on interest rate swaps, net ⁽¹⁾ of 16.7%. Net income attributable to Textainer Group Holdings Limited common shareholders excluding unrealized gains on interest rate swaps, net ⁽¹⁾ was \$81.6 million and EBITDA ⁽¹⁾ was \$168.7 million.

Dividends

Textainer has a long and distinguished history of distributing dividends to shareholders and we are pleased to have achieved this important objective for twenty consecutive years. Since our initial public offering in October 2007, Textainer has declared ten quarterly dividends totaling \$2.24 per share. The fourth quarter 2009 dividend was \$0.23 per share, and \$0.92 per share for 2009. A total of \$107 million in dividends has been declared since our IPO.

It is our goal to pay dividends equal to about 50% of net income attributable to Textainer Group Holdings Limited common shareholders, excluding unrealized gains or losses on interest rate swaps, net of non-controlling interest. We believe this properly rewards our shareholders and still enables us to achieve our capital expenditure and acquisition goals. Our Board reviews our policy on a quarterly basis subject to market conditions, current and future capital expenditures, debt repayments, and many other factors.

Outlook for 2010

Industry

In terms of the industry's prospects, Drewry, a shipping consultancy firm, is forecasting a modest expansion in container traffic of 3-4% in 2010. Further, they have suggested that the industry may have passed through the worst of the downturn. Counterparty risk has been reduced as several major container shipping lines have been recapitalized. Despite the continued challenging environment to date, Textainer has seen neither any bankruptcies among our major customers nor any major container shipping line failures.

We believe virtually no new standard dry freight containers were manufactured from the fourth quarter of 2008 through the end of 2009. We estimate that the world container fleet declined by approximately 4% in 2009 as a result of the continued retirement of older containers. Container manufacturers lost a majority of their skilled work force due to long shutdowns, limiting their production capacity in 2010. Additionally, many shipping lines are still seeking to strengthen their balance sheets, and therefore may not have the capital to purchase new containers in 2010. Due to these factors, container manufacturers in China forecast 2010 production of only 600,000 to 1,000,000 TEU, compared to an average of about 3,000,000 TEU per year between 2004 and 2008. With this anticipated decrease in production, combined with the continued ordinary retirement of older containers, the world container fleet could decline again in 2010. This would help maintain the supply and demand balance for containers or, possibly, result in a shortage of containers.

Textainer's Operations

Since hitting a low in September 2009, Textainer has experienced increased utilization. The Company's total fleet had a utilization of 91.5% as of March 12, 2010, an improvement of 5.7 percentage points from September. Going forward, we expect demand for containers to increase among our customers. As noted, many shipping lines do not plan to buy new containers in 2010 and, as production capacity is limited, we believe we may see increased lease rates and further improvement in the current leasing industry utilization of approximately 90%.

TO OUR SHAREHOLDERS (continued)

Based on our current fleet size, we estimate that every 1% change in utilization equates to approximately \$4.4 million in annual pre-tax income and every \$0.01 improvement in lease rates equates to approximately \$3.3 million in annual pre-tax income.

We have already realized an increase in sale prices for our older containers during the last half of 2009. This trend is expected to continue, especially if utilization of in-fleet containers continues to improve, thus reducing the supply of older containers available for sale.

The refrigerated container market remained strong in 2009, and this trend is expected to continue in 2010. Textainer has invested approximately \$50 million per year in new refrigerated containers since entering into the refrigerated container market in 2008. We expect investments in this business during 2010 will be similar to past levels.

We have also resumed buying significant quantities of new standard dry freight containers in 2010. And have already ordered 50,000 TEU for delivery through May 2010.

Neil I. Jowell
CHAIRMAN

Except for the repurchase of our outstanding debt, which was a non-recurring event, we expect that each of the investments we made in 2009 will contribute to net income attributable to Textainer Group Holdings Limited common shareholders in 2010.

Strategic Focus

As we progress through 2010, Textainer maintains both the financial strength and commitment to continue to act opportunistically for shareholders. With over \$270 million in available liquidity and a low debt-to-equity ratio of 1.2 to 1, we intend to continue to pursue acquisitions, purchase-leasebacks, trading deals, and the purchase of containers we currently manage, as we have consistently done in the past, and thereby further strengthen our position as the industry leader.

We would also like to thank our shareholders, suppliers, customers, and employees for their confidence in Textainer.

John A. Maccarone
PRESIDENT AND CEO

1. The following is a reconciliation of net income attributable to Textainer Group Holdings Limited common shareholders to net income attributable to Textainer Group Holdings Limited common shareholders excluding unrealized (gains) losses on interest rate swaps, net and a reconciliation of net income attributable to Textainer Group Holdings Limited common shareholders to EBITDA for the years ended December 31, 2009 and 2008. Net income attributable to Textainer Group Holdings Limited common shareholders excluding unrealized (gains) losses on interest rate swaps, net (defined as net income attributable to Textainer Group Holdings Limited common shareholders before unrealized (gains) losses on interest rate swaps, net and the related impact on net income (loss) attributable to the noncontrolling interest) and EBITDA (defined as net income attributable to Textainer Group Holdings Limited common shareholders before interest income and interest expense, realized and unrealized losses (gains) on interest rate swaps, net, income tax expense (benefit), net income attributable to the noncontrolling interest, depreciation and amortization expense and the related impact on net income attributable to the noncontrolling interest) are not financial measures calculated in accordance with U.S. generally accepted accounting principles ("GAAP") and should not be considered as an alternative to net income attributable to Textainer Group Holdings Limited common shareholders, income from operations or any other performance measures derived in accordance with GAAP or as an alternative to cash flows from operating activities as a measure of our liquidity. Net income attributable to Textainer Group Holdings Limited common shareholders excluding unrealized (gains) losses on interest rate swaps, net and EBITDA are presented solely as supplemental disclosures. Management believes that net income attributable to Textainer Group Holdings Limited excluding unrealized (gains) losses on interest rate swaps, net may be a useful performance measure because Textainer intends to hold its interest rate swaps until maturity and over the life of an interest rate swap held to maturity the unrealized (gains) losses will net to zero. Management believes that EBITDA may be a useful performance measure that is widely used within our industry. Management also believes that net income attributable to Textainer Group Holdings Limited common shareholders excluding unrealized (gains) losses on interest rate swaps, net is useful in evaluating our operating performance because unrealized (gains) losses on interest rate swaps, net is a noncash, non-operating item. EBITDA is not calculated in the same manner by all companies and, accordingly, may not be an appropriate measure for comparison. We believe net income attributable to Textainer Group Holdings Limited common shareholders excluding unrealized (gains) losses on interest rate swaps, net and EBITDA provide useful information on our earnings from ongoing operations. We believe that EBITDA provides useful information on our ability to service our

long-term debt and other fixed obligations and on our ability to fund our expected growth with internally generated funds. Net income attributable to Textainer Group Holdings Limited common shareholders excluding unrealized (gains) losses on interest rate swaps, net and EBITDA have limitations as analytical tools, and you should not consider either of them in isolation, or as a substitute for analysis of our operating results or cash flows as reported under GAAP. Some of these limitations are:

- They do not reflect our cash expenditures, or future requirements, for capital expenditures or contractual commitments;
- They do not reflect changes in, or cash requirements for, our working capital needs;
- EBITDA does not reflect interest expense or cash requirements necessary to service interest or principal payments on our debt;
- Although depreciation is a noncash charge, the assets being depreciated may be replaced in the future and neither net income attributable to Textainer Group Holdings Limited excluding unrealized (gains) losses on interest rate swaps, net or EBITDA reflects any cash requirements for such replacement;
- They are not adjusted for all noncash income or expense items that are reflected in our statements of cash flows; and
- Other companies in our industry may calculate these measures differently than we do, limiting their usefulness as comparative measures.

Amounts in millions

	Years Ended December 31,	
	2009	2008
Reconciliation of net income attributable to Textainer Group Holdings Limited common shareholders excluding unrealized (gains) losses on interest rate swaps, net:		
Net income attributable to Textainer Group Holdings Limited common shareholders	\$ 90.8	\$ 85.2
Adjustments:		
Unrealized (gains) losses on interest rate swaps, net	(11.1)	15.1

This Annual Report contains forward-looking statements within the meaning of U.S. securities laws. Forward-looking statements include statements that are not statements of historical facts and include, without limitation, statements regarding our goal to pay about 50% of net income attributable to Textainer Group Holdings Limited common shareholders excluding unrealized (gains) losses on interest rate swaps in dividends and our outlook for 2010. Readers are cautioned that these forward-looking statements involve risks and uncertainties, are only predictions and may differ materially from actual future events or results. For a discussion of such risks and uncertainties, see Item 3, “*Key Information—Risk Factors*” in Textainer’s Annual Report on Form 20-F filed with the Securities and Exchange Commission on March 17, 2010.

Textainer’s views, estimates, plans and outlook as described within this Annual Report may change subsequent to the release of this Annual Report, Textainer is under no obligation to modify or update any or all of the statements it has made herein despite any subsequent changes Textainer may make in its views, estimates, plans or outlook for the future.

This Annual Report contains market data and industry forecasts that were obtained from industry publications, third-party market research and publicly available information. These publications generally state that the information contained therein has been obtained from sources believed to be reliable, but the accuracy and completeness of such information is not guaranteed.

In this Annual Report on Form 20-F, unless indicated otherwise, references to: (1) "Textainer," "TGH," "the Company," "we," "us" and "our" refer, as the context requires, to Textainer Group Holdings Limited, which is the registrant and the issuer of the class of common shares that has been registered pursuant to Section 12(b) of the Securities Exchange Act of 1934, as amended, or Textainer Group Holdings Limited and its subsidiaries; (2) "TEU" refers to a "Twenty-Foot Equivalent Unit," which is a unit of measurement used in the container shipping industry to compare shipping containers of various lengths to a standard 20' dry freight container, thus a 20' container is one TEU and a 40' container is two TEU; (3) "CEU" refers to a Cost Equivalent Unit, which is a unit of measurement based on the approximate cost of a container relative to the cost of a standard 20' dry freight container, so the cost of a standard 20' dry freight container is one CEU; the cost of a 40' dry freight container is 1.6 CEU; and the cost of a 40' high cube dry freight container (9'6" high) is 1.68 CEU; (4) "our owned fleet" means the containers we own; (5) "our managed fleet" means the containers we manage that are owned by other container investors; (6) "our fleet" and "our total fleet" mean our owned fleet plus our managed fleet plus any containers we lease from other lessors; (7) "container investors" means the owners of the containers in our managed fleet; and (8) "Trencor" refers to Trencor Ltd., a public South African container and logistics company, listed on the JSE Limited in Johannesburg, South Africa, which, together with certain of its subsidiaries, are the discretionary beneficiaries of a trust that indirectly owns a majority of our common shares (such interest, "beneficiary interest"). See Item 4 "Information on the Company" for an explanation of the relationship between Trencor and us.

Dollar amounts in this Annual Report on Form 20-F are expressed in thousands, unless otherwise indicated.

INFORMATION REGARDING FORWARD-LOOKING STATEMENTS; CAUTIONARY LANGUAGE

This Annual Report on Form 20-F, including the sections entitled Item 3, “*Key Information — Risk Factors*,” and Item 5, “*Operating and Financial Review and Prospects*,” contains forward-looking statements within the “safe harbor” provisions of the U.S. Private Securities Litigation Reform Act of 1995. Forward-looking statements include all statements that are not statements of historical facts and may relate to, but are not limited to, expectations or estimates of future operating results or financial performance, capital expenditures, introduction of new products, regulatory compliance, plans for growth and future operations, as well as assumptions relating to the foregoing. In some cases, you can identify forward-looking statements by terminology such as “may,” “will,” “should,” “could,” “expect,” “plan,” “anticipate,” “believe,” “estimate,” “predict,” “intend,” “potential,” “continue” or the negative of these terms or other similar terminology. Forward-looking statements include, among others, statements regarding: (i) our expectation of low levels of new container production for 2010, (ii) our intent on continuing to pursue opportunities in accretive acquisitions, purchase lease-backs, trading deals, and the purchase of containers we currently manage; (iii) Drewry’s forecast of a modest expansion in container traffic of 3-4% in 2010; (iv) our observation that many shipping lines are still seeking to strengthen their respective balance sheets, and therefore may not have the expected capital budget to purchase new containers in 2010; (v) our belief that the world container fleet could decline again in 2010; (vi) our expectation that the demand for containers will increase among our customers; (vii) our belief that lease rates may increase in 2010; (viii) our expectation that the trend in sales price increases for older containers will continue if utilization of in-fleet containers continues to improve; (ix) our expectation that the refrigerated container market will continue to be strong in 2010 and that our investments in this business during 2010 will be similar to past levels; (x) our expectation to resume buying significant quantities of new standard dry freight containers in 2010; and (xi) our expectation that each of the investments we made in 2009 will contribute to our net income in 2010.

Although we do not make forward-looking statements unless we believe we have a reasonable basis for doing so, we cannot guarantee their accuracy, and actual results may differ materially from those we anticipated due to a number of uncertainties, many of which cannot be foreseen. Our actual results could differ materially from those anticipated in these forward-looking statements for many reasons, including, among others, the risks we face that are described in the section entitled Item 3, “*Key Information — Risk Factors*” and elsewhere in this Annual Report on Form 20-F.

We believe that it is important to communicate our future expectations to potential investors, shareholders and other readers. However, there may be events in the future that we are not able to accurately predict or control and that may cause actual events or results to differ materially from the expectations expressed in or implied by our forward-looking statements. The risk factors listed in Item 3, “*Key Information — Risk Factors*,” as well as any cautionary language in this Annual Report on Form 20-F, provide examples of risks, uncertainties and events that may cause our actual results to differ materially from the expectations we describe in our forward-looking statements. Before you decide to buy, hold or sell our common shares, you should be aware that the occurrence of the events described in Item 3, “*Key Information — Risk Factors*” and elsewhere in this Annual Report on Form 20-F could negatively impact our business, cash flows, results of operations, financial condition and share price. Potential investors, shareholders and other readers should not place undue reliance on our forward-looking statements.

Forward-looking statements regarding our present plans or expectations for fleet size, management contracts, container purchases, sources and availability of financing, and growth involve risks and uncertainties relative to return expectations and related allocation of resources, and changing economic or competitive conditions, as well as the negotiation of agreements with container investors, which could cause actual results to differ from present plans or expectations, and such differences could be material. Similarly, forward-looking statements regarding our present expectations for operating results and cash flow involve risks and uncertainties related to factors such as utilization rates, per diem rates, container prices, demand for containers by container shipping lines, supply and other factors discussed under Item 3, “*Key Information — Risk Factors*” or elsewhere

in this Annual Report on Form 20-F, which could also cause actual results to differ from present plans. Such differences could be material.

All future written and oral forward-looking statements attributable to us or any person acting on our behalf are expressly qualified in their entirety by the cautionary statements contained or referred to in this section. New risks and uncertainties arise from time to time, and we cannot predict those events or how they may affect us. We assume no obligation to, and do not plan to, update any forward-looking statements after the date of this Annual Report on Form 20-F as a result of new information, future events or developments, except as required by federal securities laws. You should read this Annual Report on Form 20-F and the documents that we reference and have filed as exhibits with the understanding that we cannot guarantee future results, levels of activity, performance or achievements and that actual results may differ materially from what we expect.

Industry data and other statistical information used in this Annual Report on Form 20-F are based on independent publications, reports by market research firms or other published independent sources. Some data are also based on our good faith estimates, derived from our review of internal surveys and the independent sources listed above. Although we believe these sources are reliable, we have not independently verified the information.

In this Annual Report on Form 20-F, unless otherwise specified, all monetary amounts are in U.S. dollars. To the extent that any monetary amounts are not denominated in U.S. dollars, they have been translated into U.S. dollars in accordance with our accounting policies as described in Item 18, “*Financial Statements*” in this Annual Report on Form 20-F.

ITEM 3. KEY INFORMATION

A. Selected Financial Data

The selected financial data presented below under the heading “Statement of Income Data” for the years ended December 31, 2009, 2008 and 2007 and under the heading “Balance Sheet Data” as of December 31, 2009 and 2008 have been derived from our audited consolidated financial statements included in Item 18, “*Financial Statements*” in this Annual Report on Form 20-F. The selected financial data presented below under the heading “Statement of Income Data” for the years ended December 31, 2006 and 2005 and under the heading “Balance Sheet Data” as of December 31, 2007, 2006 and 2005 are audited and have been derived from our audited consolidated financial statements not included in this Annual Report on Form 20-F. The data presented below under the heading “Other Financial and Operating Data” are not audited. Certain reclassifications of prior year amounts have been made in order to conform with the 2009 financial statement presentation. Historical results are not necessarily indicative of the results of operations to be expected in future periods. You should read the selected consolidated financial data and operating data presented below in conjunction with Item 5, “*Operating and Financial Review and Prospects*” and with Item 18, “*Financial Statements*” in this Annual Report on Form 20-F.

	Fiscal Year Ended December 31,				
	2009	2008	2007	2006	2005
(Dollars in thousands, except per share data)					
Statement of Income Data:					
Revenues:					
Lease rental income	\$ 189,779	\$ 198,600	\$ 192,342	\$ 186,093	\$ 188,904
Management fees	25,228	28,603	24,125	16,194	15,472
Trading container sales proceeds	10,925	34,231	25,497	14,137	16,046
Gain on sale of containers, net	11,350	15,647	13,544	9,558	10,456

(1) EBITDA (defined as net income attributable to Textainer Group Holdings Limited common shareholders before interest income and interest expense, realized and unrealized (gains) losses on interest rate swaps and caps, net, income tax expense (benefit), net income attributable to the noncontrolling interest and depreciation and amortization expense) is not a financial measure calculated in accordance with United States generally accepted accounting principles ("GAAP") and should not be considered as an alternative to net income, income from operations or any other performance measures derived in accordance with GAAP or as an alternative to cash flows from operating activities as a measure of our liquidity. EBITDA is presented solely as a supplemental disclosure because management believes that it may be a useful performance measure that is widely used within our industry. EBITDA is not calculated in the same manner by all companies and, accordingly, may not be an appropriate measure for comparison. We believe EBITDA provides useful information on our earnings from ongoing operations, our ability to service our long-term debt and other fixed obligations, and our ability to fund our expected growth with internally generated funds. EBITDA has limitations as an analytical tool, and you should not consider it in isolation, or as a substitute for analysis of our operating results or cash flows as reported under GAAP. Some of these limitations are as follows:

- EBITDA does not reflect our cash expenditures, or future requirements, for capital expenditures or contractual commitments;

- EBITDA does not reflect changes in, or cash requirements for, our working capital needs;
- EBITDA does not reflect interest expense or cash requirements necessary to service interest or principal payments on our debt;
- although depreciation is a non-cash charge, the assets being depreciated may be replaced in the future, and EBITDA does not reflect any cash requirements for such replacements;
- EBITDA is not adjusted for all non-cash income or expense items that are reflected in our statements of cash flows; and
- other companies in our industry may calculate these measures differently than we do, limiting their usefulness as comparative measures.

The following is a reconciliation of net income attributable to Textainer Group Holdings Limited common shareholders to EBITDA:

	Fiscal Year Ended December 31,				
	2009	2008	2007	2006	2005
	(Dollars in thousands)				
	(Unaudited)				
Reconciliation of EBITDA:					
Net income attributable to Textainer Group Holdings Limited common shareholders	\$ 90,776	\$ 85,241	\$ 67,668	\$ 56,281	\$ 62,979
Adjustments:					
Interest income	(61)	(1,482)	(3,422)	(2,286)	(1,086)
Interest expense	11,750	26,227	37,094	33,083	27,491
Realized losses (gains) on interest rate swaps and caps, net	14,608	5,986	(3,204)	(2,848)	4,153
Unrealized (gains) losses on interest rate swaps, net	(11,147)	15,105	8,274	574	(8,688)
Income tax expense (benefit)	3,471	(871)	6,847	4,299	4,662
Net income attributable to the noncontrolling interest	14,554	8,681	16,926	19,499	22,393
Depreciation expense	48,473	48,900	48,757	54,330	60,792
Amortization expense	7,080	6,979	3,677	1,023	—
Impact of reconciling items on net income attributable to the noncontrolling interest	(10,823)	(17,020)	(28,595)	(31,598)	(28,636)
EBITDA	\$168,681	\$177,746	\$154,022	\$132,357	\$144,060

- (2) We measure the utilization rate on the basis of containers on lease, using the actual number of days on hire, expressed as a percentage of containers available for lease, using the actual days available for lease. Prior to fiscal year 2007, we calculated containers available for lease to include all containers in our fleet ("Former Computation"). Utilization rate figures above for periods prior to 2007 are calculated in the latter manner. Starting in fiscal year 2007, to conform to the method used by most of our competitors, we began calculating containers available for lease by excluding containers that have been manufactured for us but have not been delivered yet to a lessee and containers designated as held-for-sale units ("New Computation").

B. Capitalization and Indebtedness

Not applicable.

C. Reasons for the Offer and Use of Proceeds

Not applicable.

D. Risk Factors

An investment in our common shares involves a high degree of risk. You should carefully consider the following risk factors, together with the other information contained elsewhere in this Annual Report on Form 20-F, including our financial statements and the related notes thereto, before you decide to buy, hold or sell our common shares. Any of the risk factors we describe below could adversely affect our business, cash flows, results of operations and financial condition. The market price of our common shares could decline and you may lose some or all of your investment if one or more of these risks and uncertainties develop into actual events.

Risks Related to Our Business and Industry

The downturn and other adverse developments in the global economy, including the current global financial crisis and the current global recession, may materially and negatively impact our business, results of operations, cash flows, financial condition and future prospects.

During 2009, the global financial crisis, particularly affecting the credit markets as well as equity markets, accelerated and the global recession deepened. Global containerized cargo volume contracted significantly on most trade routes although we have seen some improvement since the second half of 2009. Though we cannot predict the extent, timing or ramifications of the global financial crisis and the global recession, we believe that the current downturn in the world's major economies and the constraints in the credit markets have heightened or could heighten a number of material risks to our business, results of operations, cash flows and financial condition, as well as our future prospects, including the following:

- Containerized cargo volume growth—A contraction or slowdown in containerized cargo volume growth or negative containerized cargo volume growth would likely create a surplus of containers, lower utilization, higher direct costs, weaker shipping lines going out of business, pressure for us to offer lease concessions and lead to a reduction in the size of our customers' container fleets.
- Credit availability and access to equity markets—Continued issues involving liquidity and capital adequacy affecting lenders could affect our ability to fully access our credit facilities or obtain additional debt and could affect the ability of our lenders to meet their funding requirements when we need to borrow. Further, the high level of volatility in the equity markets may make it difficult for us to access the equity markets for additional capital at attractive prices, if at all. If we are unable to obtain credit or access the capital markets, our business could be negatively impacted.
- Credit availability to our customers—We believe that many of our customers are reliant on liquidity from global credit markets and, in some cases, require external financing to fund their operations. As a consequence, if our customers lack liquidity, it would likely negatively impact their ability to pay amounts due to us.

Many of these and other factors affecting the container industry are inherently unpredictable and beyond our control.

The demand for leased containers depends on many political and economic factors beyond our control.

Substantially all of our revenue comes from activities related to the leasing, managing and selling of containers. Our ability to continue successfully leasing containers to container shipping lines, earning management fees on leased containers and sourcing capital required to purchase containers depends, in part, upon the continued demand for leased containers.

Demand for containers depends largely on the rate of world trade and economic growth, with worldwide consumer demand being the most critical factor affecting this growth. Demand for leased containers is also driven by our customers' "lease vs. buy" decisions. Economic downturns in the U.S., Europe, Asia and countries with consumer-oriented economies could result in a reduction in world trade volume and demand by container shipping lines for leased containers. Thus, a decrease in the volume of world trade may adversely affect our utilization and per diem rates and lead to reduced revenue and increased operating expenses (such as storage and repositioning costs), and have an adverse effect on our financial performance. We cannot predict whether, or when, such downturns will occur. As a result of the global financial crisis and the global recession, global containerized cargo volume contracted on most trade routes during the first half of fiscal year 2009. Many of our customers reported slower growth in cargo bookings during fiscal year 2009 compared to fiscal year 2008. Growth in cargo bookings were affected by the following factors, among others: (i) a slowdown in the global economy resulted in less import and export growth; (ii) a stronger Chinese Yuan affected cargo growth; (iii) some factories in southern China closed due to new labor laws in China making them less competitive; and (iv) reductions in export tax credits.

Other general factors affecting demand for leased containers, utilization and per diem rates include the following:

- prices of new and used containers;
- economic conditions, competitive pressures and consolidation in the container shipping industry;
- shifting trends and patterns of cargo traffic;
- fluctuations in demand for containerized goods outside their area of production;
- the availability and terms of container financing;
- fluctuations in interest rates and U.S. and non-U.S. currency values;
- overcapacity, undercapacity and consolidation of container manufacturers;
- the lead times required to purchase containers;
- the number of containers purchased by competitors and container lessees;
- container ship fleet overcapacity or undercapacity;
- increased repositioning by container shipping lines of their own empty containers to higher demand locations in lieu of leasing containers;
- consolidation or withdrawal of individual container lessees in the container leasing industry;
- import/export tariffs and restrictions;
- customs procedures, foreign exchange controls and other governmental regulations;
- natural disasters that are severe enough to affect local and global economies or interfere with trade; and
- other political and economic factors.

Many of these and other factors affecting the container industry are inherently unpredictable and beyond our control. These factors will vary over time, often quickly and unpredictably, and any change in one or more of these factors may have a material adverse effect on our business and results of operations. In addition, many of these factors also influence the decision by container shipping lines to lease or buy containers. Should one or more of these factors influence container shipping lines to buy a larger percentage of the containers they operate, our utilization rate could decrease, resulting in decreased revenue and increased storage and repositioning costs, which would harm our business, results of operations and financial condition.

Lease rates may decrease, which could harm our business, results of operations and financial condition. Furthermore, lessee defaults may harm our business, results of operations and financial condition by decreasing revenue and increasing storage, repositioning, collection and recovery expenses.

We compete mostly on price and the availability of containers. Lease rates for our containers depend on a large number of factors, including the following:

- the supply of containers available;
- the price of new containers (which is positively correlated with the price of steel);
- the type and length of the lease;
- interest rates;
- embedded residual assumptions;
- the type and age of the container;
- the location of the container being leased;
- the number of containers available for lease by our competitors; and
- the lease rates offered by our competitors.

Most of these factors are beyond our control. In addition, lease rates can be negatively impacted by, among other things, the entrance of new leasing companies, overproduction of new containers by factories and the over-buying by shipping lines, leasing competitors and tax-driven container investors. For example, during 2001 and again in the second quarter of 2005, overproduction of new containers, coupled with a build-up of container inventories in Asia by leasing companies and shipping lines, led to decreased utilization rates. If future market lease rates decrease, revenues generated by our fleet will likely be adversely affected, which could harm our business, results of operations, cash flows and financial condition.

Our containers are leased to numerous container lessees. Lessees are required to pay rent and to indemnify us for damage to or loss of containers. Lessees may default in paying rent and performing other obligations under their leases. A delay or diminution in amounts received under the leases (including leases on our managed containers), or a default in the performance of maintenance or other lessee obligations under the leases could adversely affect our business, results of operations and financial condition and our ability to make payments on our debt.

Our cash in-flows from containers, principally container rental revenue, management fee revenue, gain on disposition of used equipment and commissions earned on the sale of containers on behalf of container investors, are affected significantly by our ability to collect payments under leases and purchase and sale agreements, which is subject to external economic conditions and the operations of lessees and others that are not within our control.

When lessees default, we may fail to recover all of our containers, and the containers that we do recover may be returned to locations where we will not be able to quickly re-lease or sell them on commercially acceptable terms. We may have to reposition these containers to other places where we can re-lease or sell them, which could be expensive, depending on the locations and distances involved. Following repositioning, we may need to repair the containers and pay container depots for storage until the containers are re-leased. For our owned containers, these costs directly reduce our income before taxes and for our managed containers, lessee defaults decrease rental revenue and increase operating expenses, and thus reduce our management fee revenue. While we maintain insurance to cover some defaults, it is subject to large deductible amounts and significant exclusions and, therefore, may not be sufficient to prevent us from suffering material losses. Additionally, this insurance might not be available to us in the future on commercially reasonable terms or at all. While defaults by

lessees, as measured by our experience and reflected on our financial statements as a bad debt expense, averaged 1.1% of lease rental revenue over the past 5 years, it increased to 1.7% in fiscal 2009 and future defaults may be more material. Any such future defaults could harm our business, results of operations and financial condition.

Sustained reduction in either the prices of new containers or the production of new containers could harm our business, results of operations and financial condition. A contraction or slowdown in containerized cargo growth or negative containerized cargo growth would lead to a surplus of containers and a lack of storage space. Furthermore, if we are unable to lease our new containers shortly after we purchase them, our risk of ownership of the containers increases.

If there is a sustained downturn in new container prices, the lease rates of older, off-lease containers would also be expected to decrease. As of December 31, 2009, we had an average cost of \$1,574 per CEU for our owned fleet. If there is a sustained reduction in the price of new containers such that the market lease rate for all containers is reduced, this trend could harm our business, results of operations and financial condition, even if this sustained reduction in price would allow us to purchase containers at a lower cost.

With respect to supply, we estimate virtually no new standard dry freight containers were manufactured from the fourth quarter of 2008 through the end of 2009. We estimate that the world container fleet declined by approximately 4% in 2009 as a result of the continued retirement of older containers in the ordinary course. During this period, container manufacturers lost up to 60% of their skilled work force due to long shutdowns, and have limited production capacity in 2010. If there is a sustained reduction in the production of new containers, it could impact our ability to expand our fleet, which could harm our business, results of operations and financial condition, even if we could purchase used containers at a lower cost.

Lease rates for new containers are positively correlated to the fluctuations in the price of new containers, which is positively correlated with the price of steel, which is a major component used in the manufacture of new containers. In the past five years, we have purchased new containers at prices ranging from \$1,429 per CEU to \$2,686 per CEU. Our average new container cost per CEU decreased 7.8% during 2009. If we are unable to lease the new containers that we purchase within a short period of time of such purchase, the market price of new containers and the corresponding market lease rates for new containers may decrease, regardless of the high cost of the previously purchased containers. This decline could harm our business, results of operations and financial condition.

Further consolidation of container manufacturers or the disruption of manufacturing for the major manufacturers could result in higher new container prices and/or decreased supply of new containers. Any increase in the cost or reduction in the supply of new containers could harm our business, results of operations and financial condition.

We currently purchase almost all of our containers from manufacturers based in the People's Republic of China (the "PRC"). If it were to become more expensive for us to procure containers in the PRC or to transport these containers at a low cost from the manufacturer to the locations where they are needed by our container lessees because of changes in exchange rates between the U.S. Dollar and Chinese Yuan, further consolidation among container suppliers, increased tariffs imposed by the U.S. or other governments, increased fuel costs, or for any other reason, we may have to seek alternative sources of supply. While we are not dependent on any single manufacturer for our supply of containers, we may not be able to make alternative arrangements quickly enough to meet our container needs, and the alternative arrangements may increase our costs.

In particular, the availability and price of containers depend significantly on the capacity and bargaining position of the major container manufacturers. There has recently been a consolidation in the container manufacturing industry, resulting in two major manufacturers having market share of approximately 70% of that industry. This increased bargaining position has led to sustained increases in container prices. Although the

increase in container prices may not be sustainable in the future due to a decrease in the demand for new containers resulting from the global recession, if the cost of purchasing containers does increase and it is not matched by an increase in lease rates, our business, results of operations and financial conditions would be harmed.

Terrorist attacks, the threat of such attacks or the outbreak of war and hostilities could negatively impact our operations and profitability and may expose us to liability.

Terrorist attacks and the threat of such attacks have contributed to economic instability in the U.S. and elsewhere, and further acts or threats of terrorism, violence, war or hostilities could similarly affect world trade and the industries in which we and our container lessees operate. For example, worldwide containerized trade dramatically decreased in the immediate aftermath of the September 11, 2001 terrorist attacks in the U.S., which affected demand for leased containers. In addition, terrorist attacks, threats of terrorism, violence, war or hostilities may directly impact ports, depots, our facilities or those of our suppliers or container lessees and could impact our sales and our supply chain. A severe disruption to the worldwide ports system and flow of goods could result in a reduction in the level of international trade and lower demand for our containers.

Our lease agreements require our lessees to indemnify us for all costs, liabilities and expenses arising out of the use of our containers, including property damage to the containers, damage to third-party property and personal injury. However, our lessees may not have adequate resources to honor their indemnity obligations upon a terrorist attack. Our insurance coverage is limited and is subject to large deductibles and significant exclusions and we have very limited insurance for liability arising from a terrorist attack. Accordingly, we may not be protected from liability (and expenses in defending against claims of liability) arising from a terrorist attack.

A substantial portion of our containers is leased out from or manufactured at locations in the PRC and a significant number of our major shipping line customers is domiciled in either the PRC (including Hong Kong) or Taiwan. Therefore, our results of operations are subject to changes resulting from the political and economic policies of the PRC.

A substantial portion of our containers is leased out from locations in the PRC because of the large volume of goods being shipped from the PRC to the U.S. or Europe. The main manufacturers of containers are also located in the PRC. These business operations could be restricted by the political environment in the PRC. The PRC has operated as a socialist state since 1949 and is controlled by the Communist Party of China. In recent years, however, the government has introduced reforms aimed at creating a “socialist market economy” and policies have been implemented to allow business enterprises greater autonomy in their operations. Changes in the political leadership of the PRC may have a significant effect on laws and policies related to the current economic reform programs, other policies affecting business and the general political, economic and social environment in the PRC, including the introduction of measures to control inflation, changes in the rate or method of taxation, and the imposition of additional restrictions on currency conversion, remittances abroad, and foreign investment. Moreover, economic reforms and growth in the PRC have been more successful in certain provinces than in others, and the continuation of or increases in such disparities could affect the political or social stability of the PRC.

Although we believe that the economic reform and the macroeconomic measures adopted by the PRC have had a positive effect on the economic development of the PRC, the future direction of these economic reforms is uncertain. This uncertainty may affect the economic development in the PRC, thereby affecting the level of trade with the rest of the world and the corresponding need for containers to ship goods from the PRC. In addition, a large number of our shipping line customers are domiciled either in the PRC (including Hong Kong) or in Taiwan. In fiscal year 2009, approximately 29.5% of our revenue was attributable to shipping line customers that were either domiciled in the PRC (including Hong Kong) or in Taiwan. The manufacturing facilities of the container manufacturers from which we purchased the majority of our containers in 2008 are also located in the PRC. Political instability in either the PRC or Taiwan could have a negative effect on our major customers, our ability to obtain containers and correspondingly, our results of operations and financial condition.

The legal systems in the PRC and other jurisdictions have inherent uncertainties that could limit the legal protections available to us.

We currently purchase all of our containers from manufacturers based in the PRC. In addition, a substantial portion of our containers is leased out from locations in the PRC. California law governs almost all of these agreements. However, disputes or settlements arising out of these agreements may need to be enforced in the PRC. The PRC legal system is based on written statutes. Prior court decisions may be cited for reference but have limited precedential value. Since 1979, PRC legislation and regulations have significantly enhanced the protections afforded to various forms of foreign investments in the PRC. However, since these laws and regulations are relatively new and the PRC legal system continues to evolve, the interpretations of many laws, regulations and rules are not always uniform and may be subject to considerable discretion, variation, or influence by external forces unrelated to the legal merits of a particular matter. The enforcement of these laws, regulations, and rules involves uncertainties that may limit remedies available to us. Any litigation or arbitration in the PRC may be protracted and may result in substantial costs and diversion of resources and management attention. In addition, the PRC may enact new laws or amend current laws that may be detrimental to us, which may have a material adverse effect on our business operations. If we are unable to enforce any legal rights that we may have under our contracts or otherwise in the PRC, our ability to compete and our results of operations could be harmed.

In addition, as our containers are used in trade involving goods being shipped from the PRC to the United States, Europe or other regions, it is not possible to predict, with any degree of certainty, the jurisdictions in which enforcement proceedings may be commenced. Litigation and enforcement proceedings have inherent uncertainties in any jurisdiction and are expensive. These uncertainties are enhanced in countries that have less developed legal systems where the interpretation of laws and regulations is not consistent, may be influenced by factors other than legal merits and may be cumbersome, time-consuming and even more expensive. For example, repossession from defaulting lessees may be difficult and more expensive in jurisdictions whose laws do not confer the same security interests and rights to creditors and lessors as those in the United States and where the legal system is not as well developed. As a result, the remedies available and the relative success and expedience of collection and enforcement proceedings with respect to the containers in various jurisdictions cannot be predicted.

The demand for leased containers is partially tied to international trade. If this demand were to decrease due to increased barriers to trade, or for any other reason, it could reduce demand for intermodal container leasing, which would harm our business, results of operations and financial condition.

A substantial portion of our containers is used in trade involving goods being shipped from the PRC to the United States, Europe or other regions. The willingness and ability of international consumers to purchase PRC goods is dependent on political support, in the United States, Europe and other countries, for an absence of government-imposed barriers to international trade in goods and services. For example, international consumer demand for PRC goods is related to price; if the price differential between PRC goods and domestically-produced goods were to decrease due to increased tariffs on PRC goods, demand for PRC goods could decrease, which could result in reduced demand for intermodal container leasing. A similar reduction in demand for intermodal container leasing could result from an increased use of quotas or other technical barriers to restrict trade from or to the PRC. The current regime of relatively free trade may not continue.

Because substantially all of our revenues are generated in U.S. dollars, but a significant portion of our expenses are incurred in other currencies, exchange rate fluctuations could have an adverse impact on our results of operations.

The U.S. dollar is our primary operating currency. Almost all of our revenues are denominated in U.S. dollars, and approximately 62% of our direct container expenses were denominated in U.S. dollars for the year ended December 31, 2009. Accordingly, a significant amount of our expenses are incurred in currencies other

than the U.S. dollar. This difference could lead to fluctuations in net income due to changes in the value of the U.S. dollar relative to the other currencies. For the years ended December 31, 2009 and 2008, 38% of the Company's direct container expenses were paid in 17 different foreign currencies for the year ended December 31, 2009 and 15 different foreign currencies for the year ended December 31, 2008. A significant amount of these payments was due to containers on lease to the U.S. military under our contract with the Surface Deployment and Distribution Command ("SDDC"), which contains a provision to protect us from fluctuations in exchange rates for payments made in foreign currencies. A decrease in the value of the U.S. dollar against non-U.S. currencies in which our expenses are incurred translates into an increase in those expenses in U.S. dollar terms, which would decrease our net income.

Sustained Asian economic instability could reduce demand for leasing, which would harm our business, results of operations and financial condition.

Many of our customers are substantially dependent upon shipments of goods exported from Asia. From time to time, there have been health scares, such as Severe Acute Respiratory Syndrome and avian flu, financial turmoil, natural disasters and political instability in Asia. If these events were to occur in the future, they could adversely affect our container lessees and the general demand for shipping and lead to reduced demand for leased containers or otherwise adversely affect us. Any reduction in demand for leased containers would harm our business, results of operations and financial condition.

We own a large and growing number of containers in our fleet and are subject to significant ownership risk.

Ownership of containers entails greater risk than management of containers for container investors. As we increase the number of containers in our owned fleet, we will increase our exposure to financing costs, changes in per diem rates, re-leasing risk, changes in utilization rates, lessee defaults, repositioning costs, storage expenses, impairment charges and changes in sales price upon disposition of containers. The number of containers in our owned fleet fluctuates over time as we purchase new containers, sell containers into the secondary resale market, and acquire other fleets. As part of our strategy, we are focused on increasing the number of owned containers in our fleet and we therefore expect our ownership risk to increase correspondingly. In 2009 and 2008, we paid \$146.3 million and \$319.3 million, respectively, to purchase containers for our owned fleet. We believe we will be able to find container investors to purchase the desired portion of the new containers that we want to manage. If we are unable to locate container investors to purchase these containers, we may purchase the containers ourselves and operate them as part of our owned fleet.

As we increase the number of containers in our owned fleet, we will have significant capital at risk and may need to incur more debt, which could result in financial instability.

As we increase the number of containers in our owned fleet, either as a result of planned growth in our owned fleet or as a result of our inability to attract investment to purchase containers from container investors, we will likely have more capital at risk and may need to maintain higher debt balances at a level that may adversely affect our return on equity and reduce our ability to raise capital, including our ability to borrow money to continue expanding our owned fleet. Future borrowings may not be available under our revolving credit facility or our secured debt facility, and we may not be able to refinance these facilities, if necessary, on commercially reasonable terms or at all. We may need to raise additional debt or equity capital in order to fund our business, expand our sales activities and/or respond to competitive pressures. We may not have access to the capital resources we desire or need to fund our business. These effects, among others, may reduce our profitability and adversely affect our plans to maintain the container management portion of our business.

If we are unable to finance our continued purchase of containers or other capital expenditures, our competitive position may diminish and our business, growth plans and results of operations may be harmed.

Our container lessees typically prefer newer containers. Also, a portion of our container fleet is disposed of due to age or other factors every year. To grow our business, we must add new containers to our fleet. We have

typically funded a significant portion of the purchase price of new containers through borrowings under our revolving credit facility and our secured debt facility and intend to use borrowings under our revolving credit facility and our secured debt facility for such funding in the future. Future borrowings may not be available under our revolving credit facility or our secured debt facility, and we may not be able to refinance these facilities, if necessary, on commercially reasonable terms or at all. We may need to raise additional debt or equity capital in order to fund our capital expenditures. We may not have access to the capital resources we desire or need to fund our capital expenditures. If we are unable to make the necessary capital expenditures, our fleet of containers may be less attractive to our container lessees and our business, results of operations and financial condition could suffer.

We derive a substantial portion of our revenue from each of our Container Ownership and Container Resale segments from a limited number of container lessees, and the loss of, or reduction in business by, any of these container lessees could harm our business, results of operations and financial condition.

We have derived, and believe that we will continue to derive, a significant portion of our revenue and cash flow from a limited number of container lessees. Our business comprises four reportable segments for financial statement reporting purposes: Container Ownership, Container Management, Container Resale and Military Management. Revenue for our Container Ownership segment comes primarily from container lessees that lease containers from our owned fleet. Revenue for our Container Management segment is also primarily dependent on the lease revenue of those containers that we manage. Lease billings from our 25 largest container lessees by revenue represented \$317.3 million or 75.7% of the total fleet billings for the fiscal year ended December 31, 2009, with lease billings from our single largest container lessee accounting for \$51.4 million, or 12.1% of container lease billings during such fiscal year.

We do not distinguish between our owned fleet and our managed fleet when we enter into leases with or lease containers to container shipping lines. Accordingly, the largest lessees of our owned fleet are typically among the largest lessees of our managed fleet, and our management fee revenue is based on the number and performance of managed containers on lease to container lessees. As a result, the loss of, or default by, any of our largest container lessees could have a material adverse effect on the revenue for both our Container Ownership segment and our Container Management segment, and could harm our business, results of operations and financial condition.

We face extensive competition in the container leasing industry.

We may be unable to compete favorably in the highly competitive container leasing and container management businesses. We compete with a relatively small number of major leasing companies, many smaller lessors, companies and financial institutions offering finance leases, and promoters of container ownership and leasing as a tax-efficient investment. In addition, shipping lines own a significant amount of the world's intermodal containers and effectively compete with us. Some of these competitors have greater financial resources and access to capital than we do. Additionally, some of these competitors may have large, underutilized inventories of containers, which could, if leased, lead to significant downward pressure on per diem rates, margins and prices of containers. Competition among container leasing companies depends upon many factors, including, among others: per diem rates; supply reliability; lease terms, including lease duration, drop-off restrictions and repair provisions; customer service; and the location, availability, quality and individual characteristics of containers. New entrants into the leasing business have been attracted by the high rate of containerized trade growth and the extent of investment from a number of container investors in recent years. New entrants may be willing to offer pricing or other terms that we are unwilling or unable to match. Shipping lines may prefer to use containers they own instead of leasing containers from us. As a result, we may not be able to maintain a high utilization rate or achieve our growth plans.

The international nature of the container shipping industry exposes us to numerous risks.

Our ability to enforce lessees' obligations may be subject to applicable law in the jurisdiction in which enforcement is sought or the country of domicile of the lessee. As containers are predominantly located on

international waterways and the lessees domiciled in many different countries, it is not possible to predict, with any degree of certainty, the jurisdictions in which enforcement proceedings may be commenced. For example, repossession from defaulting lessees may be difficult and more expensive in jurisdictions in which laws do not confer the same security interests and rights to creditors and lessors as those in the U.S. and in jurisdictions where recovery of containers from defaulting lessees is more cumbersome. As a result, the relative success and expedience of enforcement proceedings with respect to containers in various jurisdictions cannot be predicted.

We are also subject to risks inherent in conducting business across national boundaries, any one of which could adversely impact our business. These risks include:

- regional or local economic downturns;
- fluctuations in currency exchange rates;
- changes in governmental policy or regulation;
- restrictions on the transfer of funds or other assets into or out of different countries;
- import and export duties and quotas;
- domestic and foreign customs and tariffs;
- war, hostilities and terrorist attacks, or the threat of any of these events;
- government instability;
- nationalization of foreign assets;
- government protectionism;
- compliance with export controls, including those of the U.S. Department of Commerce;
- compliance with import procedures and controls, including those of the U.S. Department of Homeland Security;
- consequences from changes in tax laws, including tax laws pertaining to the container investors;
- potential liabilities relating to foreign withholding taxes;
- labor or other disruptions at key ports;
- difficulty in staffing and managing widespread operations; and
- restrictions on our ability to own or operate subsidiaries, make investments or acquire new businesses in various jurisdictions.

One or more of these factors or other related factors may impair our current or future international operations and, as a result, harm our business, results of operations and financial condition.

We rely on our proprietary information technology systems to conduct our business. If these systems fail to perform their functions adequately, or if we experience an interruption in their operation, our business, results of operations and financial condition could be harmed.

The efficient operation of our business is highly dependent on our proprietary information technology systems. We rely on our systems to record transactions, such as repair and depot charges, purchases and disposals of containers and movements associated with each of our owned or managed containers. We use the information provided by these systems in our day-to-day business decisions in order to effectively manage our lease portfolio, reduce costs and improve customer service. We also rely on these systems for the accurate tracking of the performance of our managed fleet for each container investor. The failure of our systems to perform as we expect could disrupt our business, adversely affect our results of operations and cause our relationships with lessees and

container investors to suffer. Our information technology systems are vulnerable to damage or interruption from circumstances beyond our control, including fire, natural disasters, power loss and computer systems failures and viruses. Even though we have developed redundancies and other contingencies to mitigate any disruptions to our information technology systems, these redundancies and contingencies may not completely prevent interruptions to our information technology systems. Any such interruptions could harm our business, results of operations and financial condition.

Consolidation and concentration in the container shipping industry could decrease the demand for leased containers.

We primarily lease containers to container shipping lines. We believe container shipping lines require a quantity of containers equal to just under two times the total TEU capacity on their container ships to support their operations. The container shipping lines have historically relied on a large number of leased containers to satisfy their needs. The shipping industry has been consolidating for a number of years, and further consolidation is expected. Consolidation of major container shipping lines could create efficiencies and decrease the demand that container shipping lines have for leased containers because they may be able to fulfill a larger portion of their needs through their owned container fleets. Consolidation could also create concentration of credit risk if the number of our container lessees decreases. Additionally, large container shipping lines with significant resources could choose to manufacture their own containers, which would decrease their demand for leased containers and could harm our business, results of operations and financial condition.

We may incur significant costs to reposition our containers, which could harm our business, results of operations and financial condition.

When lessees return containers to locations where supply exceeds demand, we sometimes reposition containers to higher demand areas. Repositioning expenses vary depending on geographic location, distance, freight rates and other factors, and may not be fully covered by drop-off charges collected from the previous lessee of the containers or pick-up charges paid by the new lessee. We seek to limit the number of and impose surcharges on containers returned to low demand locations. Market conditions, however, may not enable us to continue such practices. In addition, we may not be able to accurately anticipate which locations will be characterized by higher or lower demand in the future, and our current contracts will not protect us from repositioning costs if locations that we expect to be higher demand locations turn out to be lower demand locations at the time the containers are returned. Any such increases in costs to reposition our containers could harm our business, results of operations and financial condition.

The U.S. military could inform us that containers they lease from us are unaccounted for, which could lead to the loss of future rental income.

Since the inception of our contract with the SDDC, the U.S. military has informed us that a total of 45,072 containers that they leased from us were unaccounted for. Per the terms of our contract with the U.S. military, they paid a stipulated value for each of these containers. Due to the loss of these containers, future rental income from the U.S. military on these containers ceased. If the U.S. military informs us that additional containers that they lease from us are unaccounted for, future rental income that we receive from the U.S. military on containers that they lease from us could be adversely impacted, which would harm our business, results of operations and financial condition.

U.S. investors in our company could suffer adverse tax consequences if we are characterized as a passive foreign investment company for U.S. federal income tax purposes.

Based upon the nature of our business activities, we may be classified as a passive foreign investment company (“PFIC”) for U.S. federal income tax purposes. Such characterization could result in adverse U.S. tax consequences to direct or indirect U.S. investors in our common shares. For example, if we are a PFIC, our U.S.

investors could become subject to increased tax liabilities under U.S. tax laws and regulations and could become subject to burdensome reporting requirements. The determination of whether or not we are a PFIC is made on an annual basis and depends on the composition of our income and assets from time to time. Specifically, for any taxable year we will be classified as a PFIC for U.S. tax purposes if either:

- 75% or more of our gross income in a taxable year is passive income, or
- the average percentage of our assets (which includes cash) by value in a taxable year which produce or are held for the production of passive income is at least 50%.

In applying these tests, we are treated as owning or generating directly our pro rata share of the assets and income of any corporation in which we own at least 25% by value. In addition, the composition of our income and assets will be affected by how, and how quickly, we spend the cash we have raised.

If you are a U.S. investor and we are a PFIC for any taxable year during which you own our common shares, you could be subject to adverse U.S. tax consequences. Under the PFIC rules, unless a U.S. investor is permitted to and does elect otherwise under the Internal Revenue Code, such U.S. investor would be liable to pay U.S. federal income tax at the then prevailing income tax rates on ordinary income plus interest upon excess distributions and upon any gain from the disposition of our common shares, as if the excess distribution or gain had been recognized ratably over the investor's holding period for our common shares. Based on the composition of our income, valuation of our assets (including goodwill), and our election to treat certain of our subsidiaries as disregarded entities for U.S. federal income tax purposes, we do not believe we were a PFIC for any period after the IPO date and we do not expect that we should be treated as a PFIC for our current taxable year. However, there can be no assurance at all in this regard. Because the PFIC determination is highly fact intensive and made at the end of each taxable year, it is possible that we may be a PFIC for the current or any future taxable year or that the IRS may challenge our determination concerning our PFIC status.

We may become subject to unanticipated tax liabilities that may have a material adverse effect on our results of operations.

Textainer Group Holdings Limited is a Bermuda company, and we believe that a significant portion of the income derived from our operations will not be subject to tax in Bermuda, which currently has no corporate income tax, or in many other countries in which we conduct activities or in which our customers or containers are located. However, this belief is based on the anticipated nature and conduct of our business, which may change. It is also based on our understanding of our position under the tax laws of the countries in which we have assets or conduct activities. This position is subject to review and possible challenge by taxing authorities and to possible changes in law that may have retroactive effect.

A portion of our income is treated as effectively connected with our conduct of a trade or business within the U.S., and is accordingly subject to U.S. federal income tax. It is possible that the U.S. Internal Revenue Service will conclude that a greater portion of our income is effectively connected income that should be subject to U.S. federal income tax.

Our results of operations could be materially and adversely affected if we become subject to a significant amount of unanticipated tax liabilities.

Our U.S. subsidiaries may be treated as personal holding companies for U.S. federal tax purposes now or in the future.

Any of our direct or indirect U.S. subsidiaries could be subject to additional U.S. tax on a portion of its income if it is considered to be a personal holding company ("PHC") for U.S. federal income tax purposes. This status depends on whether more than 50% of the subsidiary's shares by value could be deemed to be owned

(taking into account constructive ownership rules) by five or fewer individuals and whether 60% or more of the subsidiary's adjusted ordinary gross income consists of "personal holding company income," which includes certain forms of passive and investment income. The PHC rules do not apply to non-U.S. corporations. We believe that none of our U.S. subsidiaries should be considered PHCs. In addition, we intend to cause our U.S. subsidiaries to manage their affairs in a manner that reduces the possibility that they will meet the 60% income threshold. However, because of the lack of complete information regarding our ultimate share ownership (*i.e.*, particularly as determined by constructive ownership rules), our U.S. subsidiaries may become PHCs in the future and, in that event, the amount of U.S. federal income tax that would be imposed could be material.

The U.S. government has special contracting requirements that create additional risks.

We have entered into a firm, fixed price, indefinite quantity contract with the Surface Deployment and Distribution Command ("SDDC") to supply leased marine containers to the U.S. military. As an indefinite quantity contract, there is no guarantee that the U.S. military will pay more than the minimum guarantee, which guaranteed amount is substantially below the total amount authorized under the contract. Thus, the expected revenues from the SDDC contract may not fully materialize. If we do not perform in accordance with the terms of the SDDC contract, we may receive a poor performance report that would be considered by the U.S. military in making any future awards. Accordingly, we cannot be certain that we will be awarded any future government contracts.

In contracting with the U.S. military, we are subject to U.S. government contract laws, regulations and other requirements that impose risks not generally found in commercial contracts. For example, U.S. government contracts require contractors to comply with a number of socio-economic requirements and to submit periodic reports regarding compliance, are subject to audit and modification by the U.S. government in its sole discretion, and impose certain requirements relating to software and/or technical data that, if not followed, could result in the inadvertent grant to the U.S. government of broader licenses to use and disclose such software or data than we intended.

These laws, regulations and contract provisions also permit, under certain circumstances, the U.S. government unilaterally to:

- suspend or prevent us for a set period of time from receiving new government contracts or extending existing contracts based on violations or suspected violations of laws or regulations;
- terminate the SDDC contract;
- reduce the scope and value of the SDDC contract;
- audit our performance under the SDDC contract and our compliance with various regulations; and
- change certain terms and conditions in the SDDC contract.

In addition, the U.S. military may terminate the SDDC contract either for its convenience at any time or if we default by failing to perform in accordance with the contract schedule and terms. Termination for convenience provisions generally enable the contractor to recover only those costs incurred or committed, and settlement expenses and profit on the work completed prior to termination. Termination for default provisions do not permit these recoveries and make the contractor liable for excess costs incurred by the U.S. military in procuring undelivered items from another source.

In addition, the U.S. government could bring criminal and civil charges against us based on intentional or unintentional violations of the representations and certifications that we have made in the SDDC contract. Although adjustments arising from U.S. government audits and reviews have not seriously harmed our business in the past, future audits and reviews could cause adverse effects. We could also suffer serious harm to our reputation if allegations of impropriety were to be made against us.

Gains and losses associated with the disposition of used equipment may fluctuate and adversely affect our business, results of operations and financial condition.

We regularly sell used containers at the end of their useful economic lives in marine service or when we believe it is financially attractive for us to do so, considering the location, sale price, cost of repair, and possible repositioning expenses. The residual value of these containers affects our profitability. The volatility of the residual values of used containers may be significant. These values depend upon, among other factors, demand for used containers for secondary purposes, comparable new container costs, used container availability, condition and location of the containers, and market conditions. Most of these factors are outside of our control.

Containers are typically sold if it is in the best interest of the owner to do so after taking into consideration the prevailing sales price, as affected by the above factors, location, earnings prospects, remaining useful life, repair condition, and suitability for leasing or other uses. Gains or losses on the disposition of used container equipment and the sales fees earned on the disposition of managed containers will also fluctuate and may be significant if we sell large quantities of used containers. Any such fluctuations could harm our business, results of operations and financial condition. See Item 5, “ *Operating and Financial Review and Prospects*” for a discussion of our gains or losses on the disposition of used container equipment.

We may choose to pursue acquisitions or joint ventures that could present unforeseen integration obstacles or costs.

We may pursue acquisitions and joint ventures. Acquisitions involve a number of risks and present financial, managerial and operational challenges, including:

- potential disruption of our ongoing business and distraction of management;
- difficulty integrating personnel and financial and other systems;
- hiring additional management and other critical personnel; and
- increasing the scope, geographic diversity and complexity of our operations.

In addition, we may encounter unforeseen obstacles or costs in the integration of acquired businesses. Also, the presence of one or more material liabilities of an acquired company that are unknown to us at the time of acquisition may have a material adverse effect on our business. Acquisitions or joint ventures may not be successful, and we may not realize any anticipated benefits from acquisitions or joint ventures.

A reduction in the willingness of container investors to have us manage their containers could adversely affect our business, results of operations and financial condition.

A significant percentage of our revenue is attributable to management fees earned on services related to the leasing of containers owned by container investors. This revenue has very low direct operating costs associated with it. Accordingly, fluctuations in our management fee revenue in any period will have an impact on our profitability in that period. Our ability to continue to attract new management contracts depends upon a number of factors, including our ability to lease containers on attractive lease terms and to efficiently manage the repositioning, storage and disposition of containers. In the event container investors perceive another container leasing company as better able to provide them with a stable and attractive rate of return, we may lose management contract opportunities in the future, which could affect our business, results of operations and financial condition.

Our senior executives are critical to the success of our business and any inability to retain them or recruit new personnel could harm our business, results of operations and financial condition.

Our senior management has a long history in the container leasing industry, with our four most senior officers having an average of approximately 18 years of service with us and an average of 23 years in the

container leasing industry. We rely on this knowledge and experience in our strategic planning and in our day-to-day business operations. Our success depends in large part upon our ability to retain our senior management, the loss of one or more of whom could have a material adverse effect on our business. Our success also depends on our ability to retain our experienced sales force and technical personnel as well as recruiting new skilled sales, marketing and technical personnel. Competition for these individuals in our industry is intense and we may not be able to successfully recruit, train or retain qualified personnel. If we fail to retain and recruit the necessary personnel, our business and our ability to obtain new container lessees and provide acceptable levels of customer service could suffer. We have employment agreements with all of our executive officers.

The lack of an international title registry for containers increases the risk of ownership disputes.

Although the Bureau International des Containers registers and allocates a unique four letter prefix to every container in accordance with ISO standard 6346 (Freight container coding, identification and marking) there is no internationally recognized system of recordation or filing to evidence our title to containers nor is there an internationally recognized system for filing security interest in containers. Although this has not occurred to date, the lack of a title recordation system with respect to containers could result in disputes with lessees, end-users, or third parties who may improperly claim ownership of the containers.

We may incur costs associated with new cargo security regulations, which may adversely affect our business, results of operations and financial condition.

We may be subject to regulations promulgated in various countries, including the U.S., seeking to protect the integrity of international commerce and prevent the use of containers for international terrorism or other illicit activities. For example, the Container Security Initiative, the Customs-Trade Partnership Against Terrorism and Operation Safe Commerce are among the programs administered by the U.S. Department of Homeland Security that are designed to enhance security for cargo moving throughout the international transportation system by identifying existing vulnerabilities in the supply chain and developing improved methods for ensuring the security of containerized cargo entering and leaving the U.S. Moreover, the International Convention for Safe Containers, 1972, as amended, adopted by the International Maritime Organization, applies to containers and seeks to maintain a high level of safety of human life in the transport and handling of containers by providing uniform international safety regulations. As these regulations develop and change, we may incur compliance costs due to the acquisition of new, compliant containers and/or the adaptation of existing containers to meet new requirements imposed by such regulations. Additionally, certain companies are currently developing or may in the future develop products designed to enhance the security of containers transported in international commerce. Regardless of the existence of current or future government regulations mandating the safety standards of intermodal shipping containers, our competitors may adopt such products or our container lessees may require that we adopt such products. In responding to such market pressures, we may incur increased costs, which could have a material adverse effect on our business, results of operations and financial condition.

Our indebtedness reduces our financial flexibility and could impede our ability to operate.

We currently utilize three types of borrowings: (i) issuance of bonds; (ii) borrowings under our revolving credit facility and (iii) borrowings under our secured debt facility. Our revolving credit facility is a bank revolving facility involving an aggregate commitment amount of up to \$205.0 million to one of our subsidiaries, Textainer Limited ("TL"). Our secured debt facility is a conduit facility, which allows for recurring borrowings and repayments, granted to Textainer Marine Containers Limited ("TMCL"), which is a subsidiary of TL. TMCL is also the issuer of our bonds. We have typically funded a significant portion of the purchase price of new containers through borrowings under our revolving credit facility and our secured debt facility and intend to use borrowings under our revolving credit facility and our secured debt facility for such funding in the future. We intend for containers to be typically purchased by TL using proceeds from our revolving credit facility. TL then sells these containers at book value to TMCL, which then finances part of the purchase price with draw downs from our secured debt facility. In 2001 and 2005, at such time as the secured debt facility reached an appropriate

size, the secured debt facility was refinanced through the issuance of bonds to institutional investors. We anticipate a similar refinancing at such time as the secured debt facility reaches a balance of between \$450.0 million and \$475.0 million. This timing will depend on the level of future purchases of containers for our owned fleet.

As of February 28, 2010, we had (i) outstanding borrowings of \$126.0 million under our revolving credit facility, (ii) \$160.5 million of outstanding borrowings under our secured debt facility and (iii) \$270.4 million outstanding under our bonds payable. We expect that we will maintain a significant amount of indebtedness on an ongoing basis.

Payments of principal on our secured debt facility are not scheduled to be due until July 1, 2010, although we have the option of repaying the principal on those borrowings at any time. If we do not refinance the secured debt facility prior to July 1, 2010, we will need to make monthly principal payments. Payments of principal on our bonds are due monthly. The borrowings and related interest under our revolving credit facility are due in full on April 22, 2013, although we have the option of repaying principal prior to that date. There is no assurance that we will be able to refinance our outstanding indebtedness on terms that we can afford or at all. If we are unable to refinance our outstanding indebtedness, it could limit our ability to grow our business.

The amount of our indebtedness could have important consequences for us, including the following:

- require us to dedicate a substantial portion of our cash flow from operations to make payments on our debt, thereby reducing funds available for operations, investments and future business opportunities and other purposes;
- limit our flexibility in planning for, or reacting to, changes in our business and the industry in which we operate;
- reduce our ability to make acquisitions or expand our business;
- make it more difficult for us to satisfy our debt obligations, and any failure to comply with such obligations, including financial and other restrictive covenants, could result in an event of default under the agreements governing such indebtedness, which could lead to, among other things, an acceleration of our indebtedness or foreclosure on the assets securing our indebtedness, which could have a material adverse effect on our business or financial condition;
- limit our ability to borrow additional funds, or to sell assets to raise funds, if needed, for working capital, capital expenditures, acquisitions or other purposes; and
- increase our vulnerability to general adverse economic and industry conditions, including changes in interest rates.

We may not generate sufficient cash flow from operations to service and repay our debt and related obligations and have sufficient funds left over to achieve or sustain profitability in our operations, meet our working capital and capital expenditure needs or compete successfully in our industry.

We will require a significant amount of cash to service and repay our outstanding indebtedness, fund future capital expenditures, and our ability to generate cash depends on many factors beyond our control.

Our ability to make payments on and repay our indebtedness and to fund planned capital expenditures will depend on our ability to generate cash in the future. It is possible that:

- our business will not generate sufficient cash flow from operations to service and repay our debt and to fund working capital requirements and future capital expenditures;
- future borrowings will not be available under our current or future credit facilities in an amount sufficient to enable us to refinance our debt; or

-
- we will not be able to refinance any of our debt on commercially reasonable terms or at all.

Our revolving credit facility, secured debt facility and bonds impose, and the terms of any future indebtedness may impose, significant operating, financial and other restrictions on us and our subsidiaries.

Restrictions imposed by our revolving credit facility, secured debt facility and bonds may limit or prohibit, among other things, our ability to:

- incur additional indebtedness;
- pay dividends on or redeem or repurchase our common shares;
- enter into new lines of business;
- issue capital stock of our subsidiaries;
- make loans and certain types of investments;
- incur liens;
- sell certain assets or merge with or into other companies or acquire other companies;
- enter into certain transactions with shareholders and affiliates; and
- restrict dividends, distributions or other payments from our subsidiaries.

We are also required to comply with certain financial ratio covenants. These restrictions could adversely affect our ability to finance our future operations or capital needs and pursue available business opportunities. A breach of any of these restrictions, including a breach of financial covenants, could result in a default in respect of the related indebtedness. If a default occurs, the relevant lenders could elect to declare the indebtedness, together with accrued interest and fees, to be immediately due and payable and proceed against any collateral securing that indebtedness, which will constitute substantially all of our container assets.

If we are unable to enter into interest rate swaps and caps on reasonable commercial terms or if a counterparty under our interest rate swap and cap agreements defaults, our exposure associated with our variable rate debt could increase.

We have typically funded a significant portion of the purchase price of new containers through borrowings under our revolving credit facility and our secured debt facility and intend to use borrowings under our revolving credit facility and our secured debt facility for such funding in the future. In 2001 and 2005, at such time as the secured debt facility reached an appropriate size, the facility was refinanced through the issuance of bonds to institutional investors. We anticipate a similar refinancing at such time as the secured debt facility reaches a balance between \$450.0 million and \$475.0 million. As of February 28, 2010, we had (i) outstanding borrowings of \$126.0 million under our revolving credit facility, (ii) \$160.5 million of outstanding borrowings under our secured debt facility and (iii) \$270.4 million outstanding under our bonds payable. All of these outstanding amounts are subject to variable interest rates. We have entered into various interest rate swap and cap agreements to mitigate our exposure associated with variable rate debt. The swap agreements involve payments by us to counterparties at fixed rates in return for receipts based upon variable rates indexed to the London Inter Bank Offered Rate. Our interest rate swap agreements have expiration dates between January 2010 and December 2014. Our interest rate cap agreements have expiration dates between March 2010 and November 2015. There can be no assurance that these interest rate caps and swaps will be available in the future, or if available, will be on terms satisfactory to us. If we are unable to obtain such interest rate caps and swaps or if a counterparty under our interest rate swap and cap agreements defaults, our exposure associated with our variable rate debt could increase.

Environmental liability and regulations may adversely affect our business, results of operations and financial condition.

We are subject to federal, state, local and foreign laws and regulations relating to the protection of the environment, including those governing the discharge of pollutants to air, ground and water, the management and disposal of hazardous substances and wastes and the cleanup of contaminated sites. We could incur substantial costs, including cleanup costs, fines and costs arising out of third-party claims for property or natural resource damage and personal injury, as a result of violations of or liabilities under environmental laws and regulations in connection with our or our lessees' current or historical operations. Under some environmental laws in the U.S. and certain other countries, the owner or operator of a container may be liable for environmental damage, cleanup or other costs in the event of a spill or discharge of material from the container without regard to the fault of the owner or operator. While we typically maintain certain limited liability insurance and typically require lessees to provide us with indemnity against certain losses, the insurance coverage may not be sufficient to protect against any or all liabilities and such indemnities may not be sufficient, or available, to protect us against losses arising from environmental damage. Moreover, our lessees may not have adequate resources, or may refuse to honor their indemnity obligations and our insurance coverage is subject to large deductibles, coverage limits and significant exclusions.

We may be affected by potential global climate change or by legal, regulatory or market responses to such potential change.

Concern over climate change, including the impact of global warming, has led to significant U.S. and international legislative and regulatory efforts to limit greenhouse gas emissions. For example, in the past several years, the U.S. Congress has considered various bills that would regulate greenhouse gas emissions. While these bills have not yet received sufficient Congressional support for enactment, some form of federal climate change legislation is possible in the future. Even in the absence of such legislation, the Environmental Protection Agency, spurred by judicial interpretation of the Clean Air Act, may regulate greenhouse gas emissions, and this could impose substantial costs on our customers. Until the timing, scope and extent of any future regulation becomes known, we cannot predict its direct or indirect effect on our business, cash flows, results of operations, financial condition and share price. It is reasonably possible, however, that such legislation or regulation could impose material costs on the container shipping industry. Moreover, even without such legislation or regulation, increased awareness and any adverse publicity in the global market place about greenhouse gas emissions emitted by companies in the container shipping industries could harm their reputation and reduce customer demand for our services.

We could face litigation involving our management of containers for container investors.

We manage containers for container investors under management agreements that are negotiated with each container investor. We make no assurances to container investors that they will make any amount of profit on their investment or that our management activities will result in any particular level of income or return of their initial capital. We believe that as the number of containers that we manage for container investors increases, the possibility that we may be drawn into litigation relating to these managed containers may also increase. Although our management agreements contain contractual protections and indemnities that are designed to limit our exposure to such litigation, such provisions may not be effective, and we may be subject to a significant loss in a successful litigation by a container investor.

Certain liens may arise on our containers.

Depot operators, manufacturers, repairmen and transporters may come into possession of our containers from time to time and have amounts due to them from the lessees or sublessees of the containers. In the event of nonpayment of those charges by the lessees or sublessees, we may be delayed in, or entirely barred from, repossessing the containers, or be required to make payments or incur expenses to discharge such liens on our containers.

We may not always pay dividends on our common shares.

We may not be able to pay future dividends because they depend on future earnings, capital requirements, and financial condition. The declaration and payment of future dividends is at the discretion of our board of directors and will be dependent on our future operating results and the cash requirements of our business. There are a number of factors that can affect our ability to pay dividends and there is no guarantee that we will pay dividends in any given year. In addition, we will not pay dividends in the event we are not allowed to do so under Bermuda law, are in default under (or such payment would cause a default under) our revolving credit facility, or if such payment would cause us to breach any of our covenants. These covenants include certain financial covenants, which would be directly affected by the payment of dividends, such as (i) a minimum net worth level (which level would decrease by the amount of any dividend paid) and (ii) a maximum ratio of consolidated funded debt to consolidated tangible net worth (which amount would decrease by the amount of any dividend paid). The reduction or elimination of dividends may negatively affect the market price of our common shares. Furthermore, since we are a holding company, substantially all of the assets shown on our consolidated balance sheet are held by our subsidiaries. Accordingly, our earnings and cash flow and our ability to pay dividends are largely dependent upon the earnings and cash flows of our subsidiaries and the distribution or other payment of such earnings to us in the form of dividends.

The calculation of our income tax expense requires significant judgment and the use of estimates.

We periodically assess tax positions based on current tax developments, including enacted statutory, judicial and regulatory guidance. In analyzing our overall tax position, consideration is given to the amount and timing of recognizing income tax liabilities and benefits. In applying the tax and accounting guidance to the facts and circumstances, income tax balances are adjusted appropriately through the income tax provision. Reserves for income tax uncertainties are maintained at levels we believe are adequate to absorb probable payments. However, due to the significant judgment required in estimating those reserves, actual amounts paid, if any, could differ significantly from these estimates.

Future changes in accounting rules could significantly impact how both we and our customers account for our leases.

Our consolidated financial statements are prepared in accordance with GAAP. If there are future changes in GAAP with regard to how we and our customers must account for leases, it could change the way we and our customers conduct our businesses and, therefore, could have the potential to have an adverse effect on our business.

Risks Related to Our Common Shares**The market price and trading volume of our common shares, which may be affected by market conditions beyond our control, have been volatile and could continue to remain volatile.**

The market price of our common shares has been, and may continue to be highly volatile and subject to wide fluctuations. In addition, the trading volume in our common shares has fluctuated and may continue to fluctuate, causing significant price variations to occur. Since our initial public offering, our common shares have fluctuated from an intra-day low of \$4.23 per share to an intra-day high of \$22.97 per share. If the market price of the shares declines significantly, the value of an investment in our common shares would decline. The market price of our common shares may fluctuate or decline significantly in the future. Some of the factors that could negatively affect the price of our common shares or result in fluctuations in the price or trading volume of our common shares include:

- variations in our quarterly operating results;
- failure to meet our earnings estimates;

-
- publication of research reports about us, other intermodal container lessors or the container shipping industry or the failure of securities analysts to cover our common shares or our industry;
 - additions or departures of key management personnel;
 - adverse market reaction to any indebtedness we may incur or preference or common shares we may issue in the future;
 - changes in our dividend payment policy or failure to execute our existing policy;
 - actions by shareholders;
 - changes in market valuations of similar companies;
 - announcements by us or our competitors of significant contracts, acquisitions, dispositions, strategic partnerships, joint ventures or capital commitments;
 - speculation in the press or investment community;
 - changes or proposed changes in laws or regulations affecting the container shipping industry or enforcement of these laws and regulations, or announcements relating to these matters; and
 - deleveraging associated with the global financial crisis.

Recently and in the past, the stock market has experienced extreme price and volume fluctuations. These market fluctuations could result in extreme volatility in the trading price of our common shares, which could cause a decline in the value of your investment in our common shares. In addition, the trading price of our common shares could decline for reasons unrelated to our business or financial results, including in reaction to events that affect other companies in our industry even if those events do not directly affect us. You should also be aware that price volatility may be greater if the public float and trading volume of our common shares are low.

One of our shareholders, Halco Holdings Inc., is a company owned by a trust in which Trenchor and certain of its affiliates are discretionary beneficiaries and could act in a manner with which other shareholders may disagree or that is not necessarily in the interests of other shareholders.

Halco Holdings Inc. (“Halco”) currently beneficially owns approximately 62.1% of our issued and outstanding common shares. Accordingly, Halco has the ability to influence the outcome of matters submitted to our shareholders for approval, including the election of directors and any amalgamation, merger, consolidation or sale of all or substantially all of our assets. Six of our eleven directors are also directors of Trenchor. In addition, Halco has the ability to control the management and affairs of our company. Halco may have interests that are different from yours. For example, it may support proposals and actions with which you may disagree or which are not in your interests as a shareholder of our company. The concentration of ownership could delay or prevent a change in control of us or otherwise discourage a potential acquirer from attempting to obtain control of us, which in turn could reduce the price of our common shares.

Affiliates of Halco and Trenchor may compete with us and compete with some of our customers.

Halco and Trenchor, through their affiliates, are free to compete with us, and have engaged in the past and will likely continue to engage in businesses that are similar to ours. In particular, Leased Assets Pool Company Limited (“LAPCO”), an affiliate of Halco, owns containers, has competed against us and our customers through its investment in containers and has used our competitors to manage some of its containers in the past. Thus, although we have a management agreement with LAPCO to manage a majority of its containers, we expect that we will continue to compete with LAPCO in the future, which may result in various conflicts of interest.

Our current management and share ownership structure may create conflicts of interest.

Six of our eleven directors are also directors of Trenchor. These directors owe fiduciary duties to each company and may have conflicts of interest in matters involving or affecting us and Trenchor, including matters

arising under our agreements with Trenchor and its affiliates. In addition, to the extent that some of these directors may own shares in Trenchor, they may have conflicts of interest when faced with decisions that could have different implications for Trenchor than they do for us. Furthermore, Trenchor, as a South African company, endorses for itself and for its subsidiaries, the Code of Corporate Practices and Conduct in the King II Report on Corporate Governance. The King II Report on Corporate Governance is a document promulgated by the South African Institute of Directors which, among other things, suggests that corporations in their corporate decision-making consider the following stakeholders in addition to the owners of shares: parties who contract with the enterprise; parties who have a non-contractual nexus with the enterprise (including civic society and the environment); and the state. Trenchor may seek to or be required to impose these corporate governance practices on us, which may result in constraints on management and may involve significant costs. Your interests as a holder of our common shares may not align with the interests of Trenchor and its affiliates and shareholders.

We are a holding company with no material direct operations and rely on our operating subsidiaries to provide us with funds necessary to meet our financial obligations and to pay dividends.

We are a holding company with no material direct operations. Our principal assets are the equity interests we directly or indirectly hold in our operating subsidiaries, which own our operating assets. As a result, we are dependent on loans, dividends and other payments from our subsidiaries to generate the funds necessary to meet our financial obligations and to pay dividends on our common shares. Our subsidiaries are legally distinct from us and may be prohibited or restricted from paying dividends or otherwise making funds available to us under certain conditions. If we are unable to obtain funds from our subsidiaries, we may be unable to, or our board may exercise its discretion not to, pay dividends on our common shares.

Our ability to issue securities in the future may be materially constrained by Trenchor's South African currency restrictions and JSE Listings Requirements.

Trenchor, a South African company listed on the JSE, has beneficiary interest in a majority of our share capital. Six of our eleven directors are also directors of Trenchor. Both South African exchange control authorities and the JSE impose certain restrictions on Trenchor.

South Africa's exchange control regulations provide for restrictions on exporting capital from South Africa. These restrictions require Trenchor to obtain approval from South African exchange control authorities before engaging in transactions that would result in dilution of their share interest in us below certain thresholds, whether through their sale of their own shareholdings or through their approval of our issuance of new shares. The exchange control authorities may decide not to grant such approval if a proposed transaction were to dilute Trenchor's beneficiary interest in us below certain levels. While the South African government has, to some extent, relaxed exchange controls in recent years, it is difficult to predict whether or how it will further relax or abolish exchange control measures in the future. The above requirements could restrict or limit our ability to issue new shares. In addition, Trenchor is required to comply with JSE Listings Requirements in connection with its holding or sale of our common shares.

Trenchor currently has an indirect beneficiary interest in 62.1% of our issued and outstanding shares. The above requirements could limit our financial flexibility by, among other things, impacting our future ability to raise funds through the issuance of securities, preventing or limiting the use of our common shares as consideration in acquisitions, and limiting our use of option grants and restricted share grants to our directors, officers and other employees as incentives to improve the financial performance of our company.

It may not be possible for investors to enforce U.S. judgments against us.

We and all of our subsidiaries, except Textainer Equipment Management (U.S.) Limited, are incorporated in jurisdictions outside the U.S. A substantial portion of our assets and those of our subsidiaries are located outside of the U.S. In addition, most of our directors are non-residents of the U.S., and all or a substantial portion of the

assets of these non-residents are located outside the U.S. As a result, it may be difficult or impossible for U.S. investors to serve process within the U.S. upon us, our non-U.S. subsidiaries, or our directors, or to enforce a judgment against us for civil liabilities in U.S. courts. In addition, you should not assume that courts in the countries in which we or our subsidiaries are incorporated or where our assets or the assets of our subsidiaries are located would enforce judgments of U.S. courts obtained in actions against us or our subsidiaries based upon the civil liability provisions of applicable U.S. federal and state securities laws, or would enforce, in original actions, liabilities against us or our subsidiaries based on those laws.

We are a foreign private issuer and, as a result, under New York Stock Exchange rules, we are not required to comply with certain corporate governance requirements.

As a foreign private issuer, we are permitted by the New York Stock Exchange (“NYSE”) to comply with Bermuda corporate governance practice in lieu of complying with certain NYSE corporate governance requirements. This means that we are not required to comply with NYSE requirements that:

- the board of directors consists of a majority of independent directors;
- independent directors meet in regularly scheduled executive sessions;
- the audit committee satisfy NYSE standards for independence (although we must still comply with independence standards pursuant to Rule 10A-3 of the U.S. Securities Exchange Act of 1934, as amended (the “Exchange Act”));
- the audit committee have a written charter addressing the committee’s purpose and responsibilities;
- we have a nominating and corporate governance committee composed of independent directors with a written charter addressing the committee’s purpose and responsibilities;
- we have a compensation committee composed of independent directors with a written charter addressing the committee’s purpose and responsibilities;
- we establish corporate governance guidelines and a code of business conduct;
- our shareholders approve any equity compensation plans; and
- there be an annual performance evaluation of the nominating and corporate governance and compensation committees.

Our board of directors has adopted an audit committee charter, a compensation committee charter and a nominating and governance committee charter. However, we use some of the exemptions available to a foreign private issuer. As a result, our board of directors may not consist of a majority of independent directors and our compensation committee may not consist of any or a majority of independent directors. Accordingly, our shareholders may not have the same protections afforded to shareholders of companies that are subject to all of the NYSE corporate governance requirements.

Market interest rates may have an effect on the trading value of our common shares.

One of the factors that investors may consider in deciding whether to buy or sell our common shares is our dividend rate, as a percentage of our share price, relative to market interest rates. If market interest rates increase, prospective investors may demand a higher dividend yield on our common shares or seek alternative investments paying higher dividends or interest. As a result, interest rate fluctuations and capital market conditions can affect the market value of our common shares.

If securities analysts do not publish research or reports about our business or if they change their financial estimates or investment recommendation, the price of our common shares could decline.

The trading market for our common shares relies in part on the research and reports that industry or financial analysts publish about us or our business. We do not control or influence the decisions or opinions of these analysts and analysts may not cover us. If any analyst who covers us changes his or her financial estimates or investment recommendation, the price of our common shares could decline. If any analyst ceases coverage of our company or our industry, we could lose visibility in the market, which in turn could cause our share price to decline.

Required public company corporate governance and financial reporting practices and policies have increased our costs, and we may be unable to provide the required financial information in a timely and reliable manner.

We are subject to the reporting requirements of the Exchange Act and the other rules and regulations of the SEC. The SEC, as directed by Section 404 of the Sarbanes-Oxley Act of 2002, has adopted rules that require us to conduct an assessment by management of the effectiveness of our internal controls over financial reporting. In addition, our independent auditors must attest to and report on the effectiveness of such internal controls over financial reporting. Our management may not be able to meet the regulatory compliance and reporting requirements that are applicable to us as a public company. If we are not able to meet the regulatory and reporting requirements that are applicable to us as a public company, our independent auditors may not be able to attest as to the effectiveness of our internal controls over financial reporting. This result may subject us to adverse regulatory consequences, and could lead to a negative reaction in the financial markets due to a loss of confidence in the reliability of our financial statements. We could also suffer a loss of confidence in the reliability of our financial statements if we disclose material weaknesses in our internal controls. In addition, if we fail to maintain effective controls and procedures, we may be unable to provide the required financial information in a timely and reliable manner or otherwise comply with the standards applicable to us as a public company. Any failure by us to timely provide the required financial information could materially and adversely impact our financial condition and the market value of our common shares. Furthermore, testing and maintaining internal controls can divert our management's attention from other matters that are important to our business. These regulations have increased our legal and financial compliance costs, we expect the regulations to make it more difficult to attract and retain qualified officers and directors, particularly to serve on our audit committee, and make some activities more difficult, time consuming and costly.

Our failure to comply with required public company corporate governance and financial reporting practices and regulations could materially and adversely impact our financial condition, operating results and the price of our common shares.

The Sarbanes-Oxley Act of 2002 requires that we maintain effective internal controls for financial reporting and disclosure controls and procedures. If we do not maintain compliance with the requirements of Section 404 of the Sarbanes-Oxley Act of 2002, or if we or our independent registered public accounting firm identify deficiencies in our internal controls over financial reporting that are deemed to be material weaknesses, we could suffer a loss of investor confidence in the reliability of our financial statements, which could cause the market price of our stock to decline. We can also be subject to sanctions or investigations by the NYSE, the Securities and Exchange Commission or other regulatory authorities for failure to comply with public company corporate governance and financial reporting practices and regulations.

Our internal controls over financial reporting may not detect all errors or omissions in the financial statements.

Section 404 of the Sarbanes-Oxley Act requires an annual management assessment of the effectiveness of internal controls over financial reporting and a report by our independent registered public accounting firm. If we

fail to maintain the adequacy of internal controls over financial accounting, we may not be able to conclude on an ongoing basis that we have effective internal controls over financial reporting in accordance with the Sarbanes-Oxley Act of 2002 and related regulations. Although our management has concluded that adequate internal control procedures are currently in place, no system of internal controls can provide absolute assurance that the financial statements are accurate and free of material errors. As a result, the risk exists that our internal controls may not detect all errors or omissions in the financial statements.

A large number of shares that had been previously restricted from immediate resale are eligible for future sale into the public market. We may also issue additional shares without your approval. This could cause the market price of our common shares to decline significantly.

Sales of substantial amounts of common shares by our existing shareholders, or the perception that such sales will occur, may cause the market price of our common shares to decline significantly. Upon completion of our initial public offering in October 2007, our officers, directors and existing pre-IPO shareholders representing 96.6% of the pre-initial public offering shares were subject to lock-up agreements providing that they would not sell any of our common shares until 180 days from the date of our initial public offering, without the prior written consent of the representatives of the underwriters. Prohibitions on selling shares under these lock-up agreements expired in April 2008.

On December 10, 2007, we filed a registration statement on Form S-8 under the U.S. Securities Act of 1933, as amended (the “Securities Act”), to register the common shares that we have subsequently issued and may issue in the future under our 2007 Share Incentive Plan, and such registration statement became effective upon filing. We have reserved a maximum of 3,808,371 common shares for issuance under our 2007 Share Incentive Plan. The common shares to be issued pursuant to awards under our 2007 Share Incentive Plan will be freely tradable under the Securities Act. Further, effective February 15, 2008, the SEC revised Rule 144, which provides a safe harbor for the resale of restricted securities, shortening applicable holding periods and easing other restrictions and requirements for resales by our non-affiliates, thereby enabling an increased number of our outstanding restricted shares to be resold sooner into the public market. If, as a result of the foregoing, a large number of our common shares are sold into the public market, or if there is an expectation of such sales, these sales or expectations of these sales, could reduce the trading price of our common shares and impede our ability to raise future capital.

We have anti-takeover provisions in our bye-laws that may discourage a change of control.

Bermuda law and our bye-laws contain provisions that could make it more difficult for a third party to acquire us without the consent of our board of directors. These include provisions:

- requiring the approval of not less than 66% of our issued and outstanding voting shares for a merger or amalgamation transaction that has not been approved by our board of directors;
- prohibiting us from engaging in a business combination with an interested shareholder for a period of three years after the date of the transaction in which the person becomes an interested shareholder, unless certain conditions are met;
- authorizing our board of directors to issue blank-check preference shares without shareholder approval;
- establishing a classified board with staggered three-year terms;
- only authorizing the removal of directors (i) for cause by the affirmative vote of the holders of a majority of the votes cast at a meeting or (ii) without cause by the affirmative vote of the holders of 66% of the common shares then issued and outstanding and entitled to vote on the resolution; and
- establishing advance notice requirements for nominations for election to our board of directors.

These provisions may make it difficult and expensive for a third party to pursue a tender offer, change in control or takeover attempt that is opposed by our management and/or our board of directors. Public shareholders who might desire to participate in these types of transactions may not have an opportunity to do so. These anti-takeover provisions could substantially impede the ability of public shareholders to benefit from a change in control or change our management and board of directors and, as a result, may adversely affect the market price of our common shares and your ability to realize any potential change of control premium.

As a shareholder of our company, you may have greater difficulties in protecting your interests than as a shareholder of a U.S. corporation.

The Companies Act 1981 of Bermuda, as amended (the “Companies Act”), applies to our company and differs in material respects from laws generally applicable to U.S. corporations and their shareholders. Taken together with the provisions of our bye-laws, some of these differences may result in your having greater difficulties in protecting your interests as a shareholder of our company than you would have as a shareholder of a U.S. corporation. This affects, among other things, the circumstances under which transactions involving an interested director are voidable, whether an interested director can be held accountable for any benefit realized in a transaction with our company, what approvals are required for business combinations by our company with a large shareholder or a wholly-owned subsidiary, what rights you may have as a shareholder to enforce specified provisions of the Companies Act or our bye-laws, and the circumstances under which we may indemnify our directors and officers.

Our bye-laws restrict shareholders from bringing legal action against our officers and directors.

Our bye-laws contain a broad waiver by our shareholders of any claim or right of action, both individually and on our behalf, against any of our officers or directors. The waiver applies to any action taken by an officer or director, or the failure of an officer or director to take any action, in the performance of his or her duties, except with respect to any matter involving any fraud or dishonesty on the part of the officer or director. This waiver limits the right of shareholders to assert claims against our officers and directors unless the act or failure to act involves fraud or dishonesty.

ITEM 4. INFORMATION ON THE COMPANY

A. History and Development of the Company

Our business began operations in 1979. We reorganized our business in 1993 and incorporated Textainer Group Holdings Limited under the laws of Bermuda as a holding company of a group of corporations involved in the purchase, ownership, management, leasing and disposal of a fleet of intermodal containers. Textainer Group Holdings Limited is incorporated with an indefinite duration under registration number EC18896. Textainer Group Holdings Limited’s common shares are listed on the New York Stock Exchange (“NYSE”). Textainer Group Holdings Limited’s registered office is located at 16 Par-La-Ville Road, Hamilton HM 08 Bermuda and our telephone number is (441) 296-2500.

Textainer Group Holdings Limited has two directly-owned subsidiaries:

- Textainer Equipment Management Limited (“TEM”), our wholly-owned subsidiary incorporated in Bermuda, which provides container management, acquisition and disposal services to affiliated and unaffiliated container investors;
- Textainer Limited (“TL”), our wholly-owned subsidiary incorporated in Bermuda, which owns containers directly and via a subsidiary, Textainer Marine Containers Limited (“TMCL”), in which TL and TCG Fund I, L.P. (“TCG”), an exempted limited partnership organized under the laws of the Cayman Islands, currently hold voting interests of 75% and 25%, respectively; and

Our internet website address is www.textainer.com. The information contained on, or that can be accessed through, our website is not incorporated into and is not intended to be a part of this Annual Report on Form 20-F.

Significant Events

On July 23, 2007, we purchased the exclusive rights to manage the container fleet of Capital Lease Limited, Hong Kong (“Capital”) for \$56.0 million. Capital was the world’s eighth largest container leasing company as measured by fleet size according to *Containerisation International Market Analysis: Container Leasing Market 2007*, with over 500,000 TEU in its fleet. We began management of the Capital fleet on September 1, 2007. We funded the \$56.0 million purchase price through a borrowing under our secured debt facility, subsequently repaid with a portion of the proceeds from our initial public offering. The purchase price will be fully amortized over the expected 12-year life of the contract on a pro-rata basis to the expected management fees.

The U.S. military informed us in 2009, 2008 and 2007 that 3,663, 11,144 and 27,925 containers, respectively, that they leased from us were unaccounted for. Of this total, 17,116 were owned containers, 18,981 were managed for third party owners and 6,635 were subleased. Per the terms of our contract with the U.S. military, they paid a stipulated value for each of these containers. Due to the loss of these containers, future rental income from the U.S. military on these containers will cease, but we did record gains of \$0.9 million, \$2.3 million and \$4.6 million on the owned and subleased portion of these unaccounted for containers during the fiscal years ended December 31, 2009, 2008 and 2007, respectively.

We completed an initial public offering (“IPO”) of our common shares at \$16.50 per share on October 15, 2007 and listed our common shares on the NYSE under the symbol “TGH.” We sold an aggregate of 9,000,000 common shares and generated proceeds of \$138.0 million, after deducting underwriting discounts and other offering expenses.

On November 1, 2007, our wholly owned subsidiary, TL purchased 3,000 additional Class A shares of TMCL for cash consideration of \$71.1 million. TMCL, which operated as a joint venture between TL and Fortis, is engaged in the business of owning and leasing marine containers. TL’s total ownership interest in Class A common shares before and after the step acquisition was 50% and 75%, respectively. We have consolidated TMCL since the inception of the entity in 2001. We accounted for this transaction as a step acquisition, allocating the purchase price based on the fair value of the assets and liabilities acquired in proportion to the percentage of shares acquired. As a result of this purchase, TL and Fortis now hold voting interests in TMCL of 75% and 25%, respectively. In addition, voting matters related to commencing bankruptcy proceedings and amending related board and shareholder meeting requirements require the approval of a separate Class C common shareholder, which does not have any economic ownership interest in TMCL. We anticipate the reduction in net income attributable to the noncontrolling interest will result in higher net income attributable to TGH in future periods. The purchase price adjustments recorded did not have a material impact on the results of operations for the fiscal years ending December 31, 2009, 2008 and 2007 and we do not believe that they will have a material impact on the results of operations of future periods.

On January 3, 2008, we announced that we had entered the refrigerated container market. We purchased approximately \$45.3 million and \$48.2 million of new refrigerated containers in 2009 and 2008, respectively, for our owned and managed fleet.

On April 22, 2008, we terminated TL’s then revolving credit facility and replaced this revolving credit facility with a new credit agreement with the same banks that were party to TL’s original credit facility, as well as additional banks, to provide a new revolving credit facility (the “2008 Credit Facility”) in an aggregate commitment amount of up to \$205.0 million (which also includes within such amount a \$50.0 million letter of credit facility). The 2008 Credit Facility provides for payments of interest only during its term beginning on its inception date through April 22, 2013 when all borrowings are due in full. Interest on the outstanding amount due under the 2008 Credit Facility at December 31, 2009 was based either on the U.S. prime rate or London Inter

Bank Offered Rate (“LIBOR”) plus a spread between 0.5% and 1.5%, which varies based on TGH’s leverage. There is also a commitment fee of 0.20% to 0.30% on the unused portion of the 2008 Credit Facility, which is payable monthly in arrears.

On July 2, 2008, we extended our secured debt facility and increased the aggregate commitment under this facility from \$300.0 million to \$475.0 million. The secured debt facility provides for payments of interest only during an initial two-year revolving period, with a provision for the secured debt facility to then convert to a 10-year, but not to exceed 15-year amortizing note payable. Interest on the outstanding amount due under the secured debt facility is payable monthly in arrears and equals LIBOR plus 1.25% during an initial two-year revolving period. There is also a commitment fee of 0.30% on the unused portion of the secured debt facility, which is payable monthly in arrears.

During the first half of 2009, we re-purchased \$39.9 million of our bonds for \$20.2 million, resulting in a gain on early extinguishment of debt of \$19.4 million, net of the write-off of \$0.3 million of deferred debt financing costs (a \$15.3 million gain net of related net income attributable to noncontrolling interest and income tax expense).

On April 15, 2009, we purchased the exclusive rights to manage the approximately 145,000 TEU container fleet of Amphibious Container Leasing Limited (“Amficon”) for \$10.6 million. The purchase price will be fully amortized over the expected 11-year life of the contract on a pro-rata basis to the expected management fees. On October 1, 2009, we purchased approximately 53,000 TEU of the containers that we had been managing for Amficon for \$63.7 million.

On June 12, 2009, we purchased the exclusive rights to manage the approximately 154,000 TEU container fleet of Capital Intermodal Limited, Capital Intermodal GmbH, Capital Intermodal Inc., Capital Intermodal Assets Limited and Xines Limited (collectively “Capital Intermodal”) for \$3.0 million. The purchase price will be fully amortized over the expected 11-year life of the contract on a pro-rata basis to the expected management fees.

On July 16, 2009, we completed a purchase-leaseback transaction for approximately 28,900 containers with an Asian shipping line for \$11.9 million. The total purchase price and leaseback rental rates were below market rates. The purchase price was allocated based on the fair value of the assets and liabilities acquired.

On August 1, 2009, we purchased approximately 28,700 containers that we had been managing for a large institutional investor, including related accounts receivable, due from owners, net, accounts payable and accrued expenses for a purchase price of \$34.2 million.

On September 1, 2009, we entered into a trading deal with a large Asian shipping line for more than 11,000 containers. This was the tenth trading transaction with the same customer since 1996, demonstrating our ability to earn repeat business through long-term, mutually beneficial relationships with our customers. Over 6,000 of these containers were sold during 2009, making a contribution to our earnings.

Principal Capital Expenditures

Our capital expenditures for containers and fixed assets for fiscal years 2009, 2008 and 2007 were \$147.7 million, \$320.2 million and \$208.1 million, respectively. We received proceeds from the sale of containers and fixed assets for fiscal years 2009, 2008 and 2007 of \$58.8 million, \$68.3 million and \$70.2 million, respectively. In addition, we announced on January 3, 2008 that we had entered the refrigerated container market and have begun to expand our fleet in that market.

As all of our containers are used internationally, where no one container is domiciled in one particular place for a prolonged period of time, all of our long-lived assets are considered to be international with no single country of use. Our capital requirements are primarily financed through cash flows from operations, our secured debt facility and our 2008 Credit Facility.

B. Business Overview

Our Company

Operating since 1979, we are the world's largest lessor of intermodal containers based on fleet size, with a total fleet of 1.5 million containers, representing over 2,200,000 TEU. We lease containers to more than 400 shipping lines and other lessees, including each of the world's top 20 container lines, as measured by the total TEU capacity of their container vessels ("container vessel fleet size"). We believe we are one of the most reliable lessors of containers, in terms of consistently being able to supply containers in locations where our customers need them. We have provided an average of more than 96,000 TEU of new containers per year for the past 10 years, and have been one of the largest buyers of new containers among container lessors over the same period. We are one of the largest sellers of used containers among container lessors, having sold more than 100,000 containers during the last year to more than 1,000 customers. We provide our services worldwide via a network of regional and area offices and independent depots. Trencor, a company publicly traded on the JSE Limited (the "JSE") in Johannesburg, South Africa, and its affiliates currently have beneficiary interest in a majority of our issued and outstanding common shares.

We operate our business in four core segments.

- *Container Ownership.* As of December 31, 2009, we owned containers accounting for approximately 45% of our fleet.
- *Container Management.* As of December 31, 2009, we managed containers on behalf of 16 affiliated and unaffiliated container investors, providing acquisition, management and disposal services. These managed containers account for 55% of our fleet.
- *Container Resale.* We generally sell containers from our fleet when they reach the end of their useful lives in marine service or when we believe it is financially attractive for us to do so, considering location, sale price, the cost of repair, and possible repositioning expenses. We also purchase and lease or resell containers from shipping line customers, container traders and other sellers of containers.
- *Military Management.* We lease containers to the U.S. military pursuant to a contract with the Surface Deployment and Distribution Command ("SDDC") and earn a fee for supplying and managing its fleet of leased containers. We are the main supplier of leased intermodal containers to the U.S. military.

Our total revenues primarily consist of leasing revenues derived from the lease of our owned containers and, to a lesser extent, fees received for managing containers owned by third parties, equipment resale and military management. The most important driver of our profitability is the extent to which revenues on our owned fleet and management fee income exceed our operating costs. The key drivers of our revenues are fleet size, rental rates and utilization. Our operating costs primarily consist of depreciation and amortization, interest expense, direct operating expenses and administrative expenses. Our lessees are generally responsible for loss of or damage to a container beyond ordinary wear and tear, and they are required to purchase insurance to cover any other liabilities.

We believe that our strategy of owning containers as well as managing containers for other container investors offers several benefits, including:

- a larger fleet, which enables us to serve our shipping line customers more effectively;
- an enhanced franchise value, market presence and economies of scale associated with a larger fleet;
- the ability to leverage our existing infrastructure and workforce without increasing the capital at risk; and
- a more balanced revenue and expense model.

In general, owning containers during periods of high demand for containers provides higher margins than managing containers, since we receive lease revenues for the containers that we own but only a percentage of the net operating income of the containers as a management fee for the containers that we manage. On the other hand, managing containers during periods of low demand for containers reduces the negative financial impact of such periods since the container investors bear the cost of owning the containers.

For 2009, we generated revenues, income from operations and income before income tax and noncontrolling interest of \$237.3 million, \$103.7 million and \$108.8 million, respectively. For 2009, the proportion of our income before taxes generated from Container Ownership, Container Management, Container Resale and Military Management operating segments was 84%, 8%, 7% and 1%, respectively, before taking inter-segment eliminations into consideration. As of December 31, 2009, the utilization of our owned fleet was 87.2%.

We earn our revenue from international carriers who use containers for their global trade utilizing many worldwide trade routes. Substantially all of our leasing related revenues are denominated in U.S. dollars.

In the past, we have principally leased dry freight containers, which are by far the most common of the three principal types of intermodal containers. Dry freight intermodal containers are large, standardized steel boxes used to transport cargo by multiple modes of transportation, including ships, trains and trucks. On January 3, 2008, we announced that we had re-entered the refrigerated container market, which we had exited in the 1990's. We purchased a total of approximately \$79.9 million of new refrigerated containers in 2008 and 2009. Refrigerated containers have integral refrigeration units on one end that generally plug into an outside power source and are used to transport perishable goods. Compared to traditional shipping methods, intermodal containers typically provide users with faster loading and unloading as well as some protection from weather and potential theft, thereby reducing both transportation costs and time to market for our lessees' customers.

We primarily lease containers under four different types of leases. Term leases, which provide a customer with a specified number of containers for a specified period of time, typically ranging from three to five years, with an associated set of pick-up and drop-off conditions, represented 71.3% of our total on hire fleet as of December 31, 2009. Master leases, which provide a framework of terms and conditions valid for a specified period of time, typically one year, give customers greater flexibility than is typical in term leases and represented 19.0% of our total on hire fleet as of December 31, 2009. Spot leases, which provide the customers with containers for a relatively short lease period and fixed pick-up and drop-off locations, represented 5.3% of our total on hire fleet as of December 31, 2009. Finance leases, which provide customers an alternative means for purchasing containers, represented 4.4% of our total on hire fleet as of December 31, 2009.

Our expertise and flexibility in managing containers after their initial lease is an important factor in our success. The administrative process of leasing new containers is relatively easy because initial leases for new containers typically cover large volumes of units and are fairly standardized transactions. However, to successfully compete in our industry, we must not only obtain favorable initial long-term leases for new containers, but also increase the return generated by these containers throughout their useful life in marine service and their ultimate sale into the secondary market. To do that, we focus on renewing or extending our long-term container leases beyond their expiration date (typically three to five years from the start of the lease). In addition, we attempt to negotiate favorable return provisions, maintain an active presence in the master and spot lease markets, and work to increase our options for disposing of off-lease containers so that we have attractive alternatives if it is not possible to achieve reasonable renewal or extension of terms with the current lessee. Unlike some of our competitors, we have the capability and the infrastructure to re-lease or dispose of our containers at comparatively attractive terms, which increases our leverage with the lessees.

We believe that we have the ability to reposition containers that are returned in lower demand locations to higher demand locations at relatively low cost as a result of our experienced logistics team. Our large customer base of more than 400 lessees increases our ability to re-lease containers under master and other short-term lease

terms. Our contract to supply leased containers to the U.S. military enables us to supply containers in their demand locations, which are often lower demand locations for our shipping line customers. Our Container Resale segment is also positioned to sell the containers and optimize their residual value in multiple markets, including lower demand locations. This “life cycle” system of generating an attractive revenue stream from and achieving high utilization of our container fleet has enabled us to become the world’s largest container lessor and led to 23 consecutive years of profits.

Industry Overview

Containers are built in accordance with standard dimensions and weight specifications established by the International Organization for Standardization (“ISO”). The industry-standard measurement unit is the Twenty-Foot Equivalent Unit, or TEU, which compares the length of a container to a standard 20’ container. For example, a 20’ container is equivalent to one TEU and a 40’ container is equivalent to two TEU. Standard dry freight containers are typically 8’ wide, come in lengths of 20’, 40’ or 45’ and are either 8’6” or 9’6” high. The three principal types of containers are described as follows:

- *Dry freight standard containers.* A dry freight standard container is constructed of steel sides, roof, an end panel on one end and a set of doors on the other end, a wooden floor and a steel undercarriage. Dry freight standard containers are the least expensive and most commonly used type of container. They are used to carry general cargo, such as manufactured component parts, consumer staples, electronics and apparel. According to the latest available data, dry freight standard containers comprised approximately 86.0% of the worldwide container fleet, as measured in TEU, at mid-2008.
- *Dry freight specialized containers.* Dry freight specialized containers consist of open-top and flat-rack containers. An open-top container is similar in construction to a dry freight standard container except that the roof is replaced with a tarpaulin supported by removable roof bows. A flat-rack container is a heavily reinforced steel platform with a wood deck and steel end panels. Open-top and flat-rack containers are generally used to transport heavy or oversized cargo, such as marble slabs, building products or machinery. According to the latest available data, dry freight specialized containers comprised approximately 3.4% of the worldwide container fleet, as measured in TEU, at mid-2008.
- *Other containers.* Other containers include refrigerated containers, tank containers, 45’ containers, pallet-wide containers and other types of containers. The two most prominent types of such containers are refrigerated containers and tank containers. A refrigerated container has an integral refrigeration unit on one end which generally plugs into an outside power source and is used to transport perishable goods. Tank containers are used to transport liquid bulk products such as chemicals, oils, and other liquids. According to the latest available data, other containers comprised approximately 10.6% of the worldwide container fleet, as measured in TEU, at mid-2008.

Containers provide a secure and cost-effective method of transportation because they can be used in multiple modes of transportation, making it possible to move cargo from a point of origin to a final destination without repeated unpacking and repacking. As a result, containers reduce transit time and freight and labor costs, as they permit faster loading and unloading of shipping vessels and more efficient utilization of transportation containers than traditional break bulk shipping methods. The protection provided by containers also reduces damage, loss and theft of cargo during shipment. While the useful economic life of containers varies based upon the damage and normal wear and tear suffered by the container, we estimate that the useful economic life for a standard dry freight container used in intermodal transportation is on average 12 years.

According to *Containerisation International, World Container Census 2009*, container lessors owned approximately 39.0% of the total worldwide container fleet of 27.3 million TEU as of mid-2008. The percentage of leased containers utilized by shipping lines ranged from 39% to 54% from 1980 through 2007 and may increase in the next few years, given limited access to credit and competing needs for capital expenditures by our customers. Given the uncertainty and variability of export volumes and the fact that shipping lines have difficulty

in accurately forecasting their container requirements at different ports, the availability of containers for lease significantly reduces a shipping line's need to purchase and maintain excess container inventory. In addition, leasing a portion of their total container fleets enables shipping lines to serve their manufacturer and retailer customers better by:

- increasing flexibility to manage the availability and location of containers;
- increasing the shipper's ability to meet peak demand requirements, particularly prior to holidays such as Christmas and Chinese New Year; and
- reducing their capital expenditures.

While international containerized trade grew rapidly and was consistently positive for the twenty-six years through 2007, the global financial crisis accelerated and the global recession deepened during the second half of 2008 and continued through 2009. With virtually no new standard dry freight containers manufactured from the fourth quarter of 2008 through the end of 2009, we estimate that the world container fleet declined by approximately 4% in 2009 as a result of the continued retirement of older containers in the ordinary course. During this period, container manufacturers lost up to 60% of their skilled workers due to long shutdowns, and have limited production capacity in 2010. Additionally, we have observed that many shipping lines are still seeking to strengthen their respective balance sheets, and therefore may not have the expected capital budget to purchase new containers in 2010. Due to these factors, the container manufacturers in China forecast 2010 production of only 0.6 million to 1.0 million TEU, compared to an average of about 3.0 million TEU per year between 2004 and 2008. With this anticipated decrease in production combined with the continued retirement of older containers in the ordinary course, the world container fleet could decline again in 2010, helping to maintain the supply and demand balance for containers, or result in a shortage of containers.

Counterparty risk has been reduced as several major container shipping lines have been able to recapitalize. Despite the continued challenging environment, to date, we have neither seen any bankruptcies among our major customers nor seen any major container shipping line failures. Drewry, a shipping consultancy firm, is forecasting a modest expansion in container traffic of 3-4% in 2010, and has suggested that the industry may have passed through the worst of the global recession.

The shipping business has also been characterized by cyclical swings due to lengthy periods of excess or scarce vessel capacity. We believe that these sustained periods of vessel supply/demand imbalances are mainly a function of the multi-year ordering and production cycle associated with the manufacture of new vessels, which requires shipping lines to estimate market growth many years into the future. Container leasing companies are partially insulated from the risks of these shipping cycles by the relatively short production time associated with the manufacture of new containers. Lead-times for new container orders are typically only a few months, so the rate of new container ordering can be quickly adjusted to reflect unexpected market changes.

Additionally, for most leasing companies, the percentage of containers on long-term lease has grown over the past ten years, while the percentage on master lease has declined. As of December 31, 2009, approximately 71% of our total on hire fleet was on long-term leases, compared to approximately 30% ten years ago. As a result, changes in utilization have become less volatile for most leasing companies.

According to *Containerisation International Market Analysis, July 2009*, intermodal leasing companies, as ranked by total TEU, are as follows:

<u>Company</u>	<u>TEU(1)</u>
Textainer Group	2,285
Florens Group ⁽²⁾	1,603
Triton Container Intl.	1,425
TAL International	1,050
GESaCo	960
CAI-International Inc.	752
Gold Container	500
UES-Unit Equipment Services	495
Seacastle	425
Cronos Group	420
Dong Fang	347
Beacon Intermodal	125
Blue Sky Intermodal	93
CARU Schouten	91
Waterfront Cont. Leasing	68
Other	511
Grand Total	11,150

(1) TEU numbers in thousands.

(2) Includes containers leased to Cosco Container Lines.

Competitive Strengths

We believe that we have the following competitive strengths:

- One of our major strengths is our demonstrated ability to generate attractive revenue streams, relative to most of our competitors, throughout the economic life of a container in marine service, which in the past has averaged approximately twelve years. This strength is due to our large size and global scale, experienced management team, proprietary information technology systems, and strong customer relationships.
 - *Largest Container Lessor.* We operate the world's largest fleet of leased intermodal containers. We believe that our scale, global presence, business model and long history have made us one of the more reliable suppliers of leased containers in our industry. We believe that these factors have historically enabled us to supply containers in locations around the world where our customers need them with some consistency.
 - *Experienced Management Team.* Our senior management has a long history in the industry. Our four most senior officers have an average of approximately 18 years of service with us and an average of 23 years in the container leasing industry. They have been through many business cycles, and understand the key drivers of the container leasing business.
 - *Proprietary Information Technology Systems.* We have developed proprietary IT systems that allow us to monitor container status and offer our customers a high level of service. Our systems include internet-based updates regarding container availability and booking status. We also have the ability to produce complete management reports for each portfolio of containers we own and manage.
 - *Strong, Long-standing Relationships with Customers.* Our scale, long presence in the business and reliability as a supplier of containers has resulted in strong relationships with our customers. Our top

25 customers, as measured by revenue, have leased containers from us for an average of over 24 years. Our customers include each of the world's 20 largest shipping lines, as measured by container vessel fleet size.

- We have the international coverage, organization and resources to handle a variety of types of leases. Thus, at the termination of a term lease, we have the ability to either negotiate extending the term lease, accept the return of and re-lease the container, or to sell the containers utilizing our particular expertise in this area. This flexibility allows us more avenues to deploy our containers and therefore better optimizes our return.
 - *Lease Types and Structures.* We structure our initial long-term leases of new containers in an effort to reduce the percentage of containers that can be returned in lower demand locations. Our large customer base and worldwide presence makes us well-positioned to re-lease off-lease containers into a variety of master leases and special leases with other customers. We utilize our expertise in logistics to reposition off-lease containers from lower demand to higher demand locations where they can be re-leased at more attractive terms. Many of the U.S. military's demand locations are surplus locations for our shipping line customers. When containers are off-lease, we can re-lease them if the lease terms are acceptable, sell them at that location, or move them to a higher demand location or a better sale location.
 - *Leading Seller of Used Containers.* We believe we are one of the two largest sellers of used containers among container lessors. We believe that our experience in selling large quantities of containers at attractive prices generally optimizes the residual value of our fleet. It also enables us to serve some of our shipping line customers better by relieving them of the burden of disposing of their containers.
- We are able to mitigate the effects of the cyclical container shipping/leasing industry on our profitability by striking a balance between owned and managed containers and generating revenue streams from diverse sources.
 - *High Margin High Return Business Model.* We believe that our business model of balancing the proportion of owned versus managed containers in our container fleet provides us over time with higher operating margins and higher returns on capital than would a model in which we only owned or only managed containers.
 - *Diverse Revenue Streams.* We derive revenues from leasing our owned containers, managing containers owned by third parties, buying and selling containers and supplying leased containers to the U.S. military. These multiple revenue streams provide for a diverse income base, mitigate the effects of our cyclical industry on our profitability and allow us to optimize our use of capital.
- We have demonstrated our ability to increase the size of our container fleet by purchasing containers from container manufacturers and by acquiring existing container fleets or their management rights.
 - *Strong, Long-standing Relationships with Manufacturers.* As the leasing industry's largest buyer of new containers, averaging more than 96,000 TEU per year for the past 10 years, we have developed strong relationships with container manufacturers. These relationships, along with our large volume buying power and solid financial structure, enable us to purchase containers at attractive prices and foster our ability to source containers during periods of high demand.
 - *Experienced Consolidator.* Over the past 22 years, we have concluded twelve transactions involving other lessors' container fleets or management rights over those fleets, representing over 1,540,000 TEU in total. This experience provides us with a competitive advantage over other lessors who are less experienced in taking over ownership or management of other container fleets. We have demonstrated the ability to efficiently identify, analyze, structure and integrate the equipment and lease portfolios of other lessors. For example, we integrated the container fleet formerly managed by Capital Intermodal, comprising 154,000 TEU, in two months. Furthermore, due to the flexibility and

scalability of our infrastructure, these transactions result in significant increases in revenue without corresponding increases in expenses.

Business Strategies

We intend to grow our business profitably by pursuing the following strategies:

- *Leverage Our Status as the Largest Intermodal Container Lessor and Consistent Purchaser in the Industry*. While a number of our competitors' purchasing patterns have fluctuated over time, we have been a consistent purchaser of containers and intend to continue to make regular purchases of containers, as they become available, to replace older containers and increase the size of our fleet, thereby maintaining what we believe to be one of the youngest fleet age profiles among major lessors. We believe that our scale, consistent purchasing habits, and maintenance of a young fleet age profile have provided us with a competitive advantage that we will continue to exploit by maintaining strong relationships with manufacturers and growing our market share with our existing customers.
- *Pursue Attractive Acquisitions*. We will continue to seek to identify and acquire attractive portfolios of containers, both on an owned and on a managed basis, to allow us to grow our fleet profitably. There has been significant consolidation in our industry. We believe that this trend will continue and will likely offer us opportunities for growth. We also believe that the current downturn in the world's major economies and the constraints in the credit markets may also result in potential acquisition opportunities. As a result of renewing, amending and expanding our credit facilities, we have more than \$286.0 million in liquidity with our credit facilities and available cash and maintain low leverage relative to past levels. Despite the difficulty in projecting future results in the current economic environment, we intend to actively seek accretive acquisition opportunities in the near future.
- *Purchase and Leaseback Transactions*. We believe that the challenges facing our industry, which are noted above, may also allow us to grow through the purchase and leaseback of customer-owned containers. These purchase and leaseback transactions can be attractive to our customers because they free up cash for their other capital needs, such as vessel financing. We expect these purchase and leaseback transactions will enable us to buy attractively priced containers from customers and place them on leases for the remainder of their marine service lives.
- *Continue to Focus on Operating Efficiency*. We have a low cost structure, having brought down our fleet management cost from \$0.068 per CEU per day to \$0.035 per CEU per day and grown the number of CEU in our fleet per employee from 5,118 to 17,361, in each case over the last 10 years. Furthermore, we believe that we can continue to grow our fleet and therefore our revenue without a proportionate increase in our headcount, thereby spreading our operating expenses over a larger base and helping to improve our profitability.
- *Extend the Lease of In-fleet Containers*. Since many shipping lines are currently finding it difficult to access debt financing, but still must utilize scarce capital to finance vessels, it is possible that they will conclude in 2010, as they did in 2009, that it will be more cost-effective to extend leases of in-fleet containers than either to buy containers at higher prices or to lease new containers. Additionally, in order to keep our utilization as high as possible during the current economic downturn, our focus is to extend the leases of in-fleet containers as shipping lines seek to reduce operating costs because of lower freight rates.
- *Grow Our Container Resale Business*. Our container resale and trading business is a significant source of profits. We look to sell containers from our fleet when they reach the end of their useful lives in marine service or when we believe it is financially attractive for us to do so, considering the location, sales price, cost of repair, and possible repositioning expenses. In order to improve the sales price of our containers, we often move them from the location where they are returned by the lessee to another location that has a higher market price. We benefit not only as a result of the increased sales price but also because we often receive rental revenue from a shipping line for the one-way lease of the container. We also buy and lease or resell containers from shipping line customers, container traders and other

sellers of containers. We attempt to improve the sales price of these containers in the same manner as with containers from our fleet.

- *Grow Our U.S. Military Management Business*. Our status as the main provider of leased intermodal containers to the U.S. military has resulted in a complementary source of demand for containers, usually in locations with lower shipping line demand, which grants us more flexibility in managing the remainder of our fleet. We seek to broaden and deepen our relationship with the U.S. military in order to provide the best possible customer service, while continuing to grow the business. We are currently in the fifth year of the SDDC contract, which, due to yearly performance review and contract confirmation, has been extended by the U.S. military for a total contract period of ten years. Our latest performance rating in 2009 was “Excellent” with a score of 92.6%.
- *Maintain Access to Diverse Sources of Capital*. We have successfully utilized a wide variety of financing alternatives to fund our growth, including secured and unsecured debt financings, bank financing, and equity from third party investors in containers. We believe this diversity of funding, combined with our anticipated access to the public equity markets, provides us with an advantage in terms of both cost and availability of capital.

Operations

We operate our business through a network of regional and area offices and independent depots. We maintain four regional offices as follows:

- Americas Region in Hackensack, New Jersey, responsible for North and South America;
- European Region in London responsible for Europe, the Mediterranean, the Middle East, and Africa;
- North Asia Region in Yokohama responsible for Japan, South Korea, and Taiwan; and
- South Asia Region in Singapore, responsible for Southeast Asia, the PRC (including Hong Kong) and Australia.

Regional vice presidents are in charge of regional leasing and operations. Marketing directors and assistants located in the region and area offices handle day-to-day marketing and collection activities. Our operations include a global sales force, container operations group, container resale group, and logistics services group. Our principal administrative office is located in San Francisco, California. Our registered office is in Hamilton, Bermuda.

Our Container Fleet

As of December 31, 2009, we operated 2,239,037 TEU. We attempt to continually invest in our container fleet each year in an effort to replace the older containers being retired from marine service and to build our fleet size, when new containers become available. We purchased an average of more than 96,000 TEU per year over the past 10 years. Our ability to invest in our fleet on a consistent basis has been instrumental in our becoming the world’s largest container lessor. Our container fleet consists primarily of standard dry freight containers. However, as part of our entry into the refrigerated container market, which we announced on January 3, 2008, we have expanded our fleet to include refrigerated containers. The containers that we lease are either owned outright by us, owned by third parties and managed by us or leased-in from third parties. The table below summarizes the composition of our fleet, in TEU, by type of containers as of December 31, 2009 (unaudited):

	Standard Dry Freight	Dry Freight Specialized	Total	Percent of Total Fleet
Managed	1,194,069	27,758	1,221,827	54.6%
Owened	979,823	37,387	1,017,210	45.4%
Total fleet	2,173,892	65,145	2,239,037	100.0%

The amounts in the table above did not change significantly from December 31, 2009 to the date of this Annual Report on Form 20-F.

Our containers are designed to meet a number of criteria outlined by the ISO. The standard criteria include the size of the container and the gross weight rating of the container. This standardization ensures that the widest possible number of transporters can use containers and it facilitates container and vessel sharing by the shipping lines. The standardization of the container is also an important element of the container leasing business since we can operate one fleet of containers that can be used by all of our major customers.

Maintenance and repair of our containers is performed by independent depots that we retain in major port areas and in-land locations. Such depots also handle and inspect containers that are either picked up or redelivered by lessees, and store containers that are not leased.

Our Leases

Most of our revenues are derived from leasing our fleet of containers to our core shipping line customers. The vast majority of our container leases are structured as operating leases, though we also provide customers with finance leases. Regardless of lease type, we seek to exceed our targeted return on our owned and managed containers over the life of each container by managing container utilization, lease rates, drop-off restrictions and the used container sale process. We lease containers under three different types of operating leases and also under finance leases.

Term leases

Term leases (also referred to as long-term leases) provide a customer with a specified number of containers for a specified period, typically ranging from three to five years, with an associated set of pick-up and drop-off conditions. Our term leases generally require our lessees to maintain all units on lease for the duration of the lease. Such leases provide us with enhanced cash flow certainty due to their extended duration and typically carry lower per diem rates than other lease types. As of December 31, 2009, 71.3% of our total on hire fleet, as measured in TEU, was on term leases.

As of December 31, 2009, our term leases had an average remaining duration of 2.9 years, assuming no leases are renewed. However, we believe that many of our customers will renew leases for containers that are less than sale age at the expiration of the lease. In addition, our containers typically remain on-hire at the contractual per diem rate for an average of an additional 11 months beyond the end of the contractual lease term, for leases that are not extended, due to the logistical requirements our customers face by having to return containers to specific drop-off locations.

The following are the minimum future rentals for our total fleet at December 31, 2009, due under long-term leases (in thousands):

2010	65,130
2011	50,143
2012	34,737
2013	19,265
2014 and thereafter	27,153
	<u>\$ 196,428</u>

Some of our term leases give our customers Early Termination Options (“ETOs”). If exercised, ETOs allow customers to return containers prior to the expiration of the term lease. However, if an ETO is exercised, the customer is required to pay a penalty per diem rate that is applied retroactively to the beginning of the lease. As a result of this retroactive penalty, ETOs have historically rarely been exercised.

Master leases

Master leases provide a framework of terms and conditions pursuant to which lessees can lease containers on an as-needed basis for unspecified periods of time. Master lease terms and conditions are valid for a set period, typically one year, and provide the lessee with greater flexibility than is typical in term leases. Under our master leases, lessees know in advance their per diem rates and drop-off locations, subject to monthly drop-off port limits. In addition, under these master lease agreements, the lessee is generally not committed to leasing a minimum number of containers from us during the lease term and may generally return the containers to us at any time, subject to certain restrictions. Due to their flexibility and duration, master leases command higher per diem rates than term leases. A subset of master leases is our special leases, which are predominately round-trip Asia leases, allowing customers to return containers at any time but with restrictions on drop-off locations, generally in higher demand locations in Asia. As of December 31, 2009, 19.0% of our total on-hire fleet, as measured in TEU, was on master leases.

Spot leases

Spot leases provide the customer with containers for a relatively short lease period with fixed pick-up and drop-off locations. Spot leases are generally used to position a container to a desired location for subsequent lease or sale. As of December 31, 2009, 5.3% of our total on hire fleet, as measured in TEU, was on spot leases.

Finance Leases

Finance leases provide our lessees with an alternative method to finance their container acquisitions. Finance leases are long-term in nature, typically ranging from three to eight years, usually the remainder of the container's useful life in marine services, and require relatively little customer service attention. They ordinarily require fixed payments over a defined period and provide lessees with a right to purchase the subject containers for a nominal amount at the end of the lease term. Per diem rates include an element of repayment of capital and, therefore, typically are higher than rates charged under term leases. Finance leases require the container lessee to keep the containers on lease for the entire term of the lease. Finance leases are reflected as "Net investment in direct finance leases" on our balance sheet. As of December 31, 2009, approximately 4.4% of our total on hire fleet, as measured in TEU, was on finance leases with an average remaining term of 3.5 years.

Damage Protection

Under all of our leases, our lessees are generally responsible for loss of or damage to a container beyond ordinary wear and tear, and they are required to purchase insurance to cover any other liabilities. Any damage must be repaired at the expense of the lessee according to standardized guidelines promulgated by the Institute of International Container Lessors ("IICL"). Lessees are also required to obtain insurance to cover loss of the equipment on lease, public liability and property damage insurance as well as indemnify us from claims related to their usage of the leased containers. In some cases, a Damage Protection Plan ("DPP") is provided whereby the lessee pays us (in the form of either a higher per-diem rate or a fixed one-time payment upon the return of a container) to assume a portion of the financial burden of repairs up to a pre-negotiated amount. This DPP does not cover damages from war or war risks, loss of a container, constructive total loss of the container, damages caused by contamination or corrosion from cargo, damages to movable parts and any costs incurred in removing labels, which are all responsibilities of the lessees. DPP is generally cancelable by either party with prior written notice. Maintenance is monitored through inspections at the time that a container is leased out and returned. In 2009, DPP revenue was 4.0% of total lease rental income. We also maintain our own insurance to cover our containers when they are not on-hire to lessees or when the lessee fails to have adequate primary coverage, and third-party liability insurance for both on-hire and off-hire containers. In addition, we maintain insurance that would cover loss of revenue as a result of default under all of our leases, as well as the recovery cost or replacement value of all of our containers.

Lease Agreements

In general, our lease agreements consist of two basic elements, a master terms and conditions lease agreement, or a “Master Agreement,” and a lease schedule. Lease schedules contain the business terms (including daily rate, term duration and drop-off schedule, among other things) for specific leasing transactions, while Master Agreements outline the general rights and obligations of the lessor and lessee under all of the lease schedules covered by the Master Agreement. For most customers, we have a small number of Master Agreements (often one) and a large number of lease schedules.

Our standard Master Agreements generally require the lessees to pay rentals, depot charges, taxes and other charges when due, to maintain the containers in good condition and repair, to return the containers in good condition in accordance with the return conditions set forth in the Master Agreement, to use the containers in compliance with all laws, and to pay us for the value of the container as determined by us if the container is lost or destroyed. The default clause gives us certain legal remedies in the event that the lessee is in breach of the lease.

Re-leasing, Logistics and Depot Management

We believe that managing the period after termination of our containers’ first lease is one of the most important aspects of our business. The container shipping industry is characterized by large regional trade imbalances, with loaded containers generally flowing from export-oriented economies in Asia to North America and Western Europe. Because of these trade imbalances, container shipping lines have an incentive to return leased containers in North America and Western Europe to avoid the cost of shipping empty containers back to Asia. Successful management of the deployment of our containers after they come off their first lease requires disciplined re-leasing capabilities, logistics management, depot management, careful cost control and effective sales of used containers.

Re-leasing

Since our leases allow our lessees to return their containers, we typically lease a container several times during the time that it is part of our fleet. New containers can usually be leased with a limited sales and customer service infrastructure because initial leases for new containers typically cover large volumes of units and are fairly standardized transactions. Used containers, on the other hand, are typically leased in smaller transactions that are structured to accommodate pick-ups and returns in a variety of locations. Our utilization rates depend on our re-leasing capabilities. Factors that affect our ability to re-lease used containers include the size of our lessee base, ability to anticipate lessee needs, our presence in relevant geographic locations and the level of service we provide our lessees. We believe that our global presence and relationships with over 400 container lessees provide us an advantage in re-leasing our containers relative to many of our smaller competitors.

Logistics

Other methods of reducing off-lease risks include:

- *Limiting or prohibiting container returns to low-demand areas*. In order to reduce our repositioning costs, our leases typically include a prohibition on returning containers to specific locations, limitations on the number of containers that may be returned to lower demand locations, drop-off charges for returning containers to lower demand locations or a combination of these provisions.
- *Taking advantage of a robust secondary resale market when available*. In order to optimize the investment return on a container, we have sold containers in our excess inventory when an analysis indicates it is financially more attractive than attempting to re-lease the container.
- *Seeking one-way lease opportunities to move containers from lower demand locations to higher demand locations*. One-way leases may include incentives, such as free days, credits and damage waivers. The cost of offering these incentives is generally less than the cost we would incur if we were to pay to

reposition the containers. We also use one way leases to move containers from locations where the market price for selling containers is low to locations with a higher market price for containers, to improve the resale value of the containers.

- *Paying to reposition our containers to higher demand locations*. At locations where our inventories remain high, despite the efforts described above, we will selectively choose to reposition excess containers to locations with higher demand.
- *Consistently purchasing containers in the PRC*. We purchase all of our new containers from manufacturers in the PRC. Certain ports in the PRC, including the locations where we purchase containers, are also generally higher demand locations. By consistently purchasing containers in the PRC, we have increased flexibility to reposition our existing containers to other higher demand locations while still maintaining good coverage of the locations in the PRC.
- *Diversifying our customers*. We have sought to diversify our customers and correspondingly, the locations where containers are needed around the world. The U.S. military often requires containers in lower demand areas, which then allows us more flexibility in repositioning our containers.

Depot Management

As of December 31, 2009, we managed our container fleet through more than 540 independent container depot facilities in more than 200 locations. Depot facilities are generally responsible for repairing containers when they are returned by lessees and for storing the containers while they are off-hire. Our operations group is responsible for managing our depot contracts and periodically visiting the depot facilities to conduct quality assurance audits to control costs and ensure repairs meet industry standards. We also supplement our internal operations group with the use of independent inspection agents. Furthermore, depot repair work is periodically audited to prevent over-charging. We are in regular communication with our depot partners through the use of electronic data interchange ("EDI") and/or e-mail. The electronic exchange of container activity information with each depot is conducted via the internet. As of December 31, 2009, a large majority of our off-lease inventory was located at depots that are able to report notice of container activity and damage detail via EDI. We use the industry standard, ISO 9897 Container Equipment Data Exchange messages, for most EDI reporting.

Most of the depot agency agreements follow a standard form and generally provide that the depot will be liable for loss or damage of containers and, in the event of loss, will pay us the previously agreed loss value of the applicable containers. The agreements require the depots to maintain insurance against container loss or damage and we carry insurance to cover the risk when a depot's insurance proves insufficient.

Our container repair standards and processes are generally managed in accordance with standards and procedures specified by the IICL. The IICL establishes and documents the acceptable interchange condition for containers and the repair procedures required to return damaged containers to the acceptable interchange condition. At the time that containers are returned by lessees, the depot arranges an inspection of the containers to assess the repairs required to return the containers to acceptable IICL condition. As part of the inspection process, damages are categorized either as lessee damage or normal wear and tear. Items typically designated as lessee damage include dents in the container and debris left in the container, while items such as rust are typically designated as normal wear and tear. In general, lessees are responsible for the lessee damage portion of the repair costs and we are responsible for normal wear and tear. The lessees are generally billed the lessee damage portion at the time the containers are returned. As discussed above in "Operations—Our Leases," for an additional fee, we sometimes offer our lessees a DPP, pursuant to which we assume financial responsibility for repair costs up to a pre-negotiated amount.

Management Services

As of December 31, 2009, we owned approximately 45% of the containers in our fleet, and managed the rest, equaling 1,221,827 TEU, on behalf of 16 affiliated and unaffiliated container investors. We earn acquisition, management and disposal fees on managed containers. Our IT systems track revenues and operating expenses

attributable to specific containers and the container investors receive payments based on the net operating income of their own containers. Fees to manage containers typically include acquisition fees of 1 to 2% of the purchase price; daily management fees of 8 to 13% of net operating income; and disposal fees of 10% of cash proceeds when containers are sold. We earned combined acquisition, management and disposal fees on our managed fleet of \$25.2 million, \$28.6 million and \$24.1 million for the years 2009, 2008 and 2007, respectively. If operating expenses were to exceed revenues, the container investors would be obligated to pay the excess or we would deduct the excess, including our management fee, from future net operating income. In some cases, we are compensated for sales through a percentage sharing of sale proceeds over an agreed floor amount. We will typically indemnify the container investors for liabilities or losses arising from negligence, willful misconduct or breach of our obligations in managing the containers. The container investors will indemnify us as the manager against any claims or losses arising with respect to the containers, provided that such claims or losses were not caused by our negligence, willful misconduct or breach of our obligations. Typically, the terms of the management agreements are for the expected remaining useful life in marine services of the containers subject to the agreement.

Resale of Containers

Our Container Resale segment sells containers from our fleet, at the end of their useful lives in marine service, typically about 12 years, or when we believe it is financially attractive for us to do so, considering the location, sale price, cost of repair, and possible repositioning expenses. In addition, we buy used containers (trading containers) from shipping lines and other third parties that we then lease or resell. Our Resale Division has a global team of 21 container sales and operations specialists in five offices globally that manage the sale process for these used containers as of December 31, 2009. Our Container Resale segment is one of the largest sellers of used containers among container lessors, selling more than 100,000 containers during 2009 to more than 1,000 customers. Our Container Resale segment has become a significant profit center for us. From 2005 through 2009, this division has generated \$41.9 million in income before taxes, including \$8.0 million in fiscal year 2009. We generally sell to depots, domestic storage companies, freight forwarders (who often use the containers for one-way trips into less developed countries) and other purchasers of used containers.

Military

In June 2003, we entered into a contract with the SDDC pursuant to which we serve as a major supplier of leased marine containers to the U.S. military. Compared to our shipping line customers, we provide a much broader level of services to the U.S. military under the SDDC contract. We have developed and currently operate a proprietary information system for the U.S. military which provides the U.S. military real-time access to the status of its leased fleet. Furthermore, unlike our shipping line customers, who pick up from and return containers to container depots, for the U.S. military we are required to arrange transportation from a container depot to a military facility upon lease out and to pick up a container at a military facility and return it to a container depot when the lease period has ended. This requires us to arrange for movement of the empty containers by truck, rail and/or vessel. The SDDC contract provides added compensation for these services. In addition, since approximately half of these services are required in non-U.S. locations, our expenses for contracting for these services may be incurred in foreign currencies. The SDDC contract contains a foreign currency adjustment feature such that we are protected against many foreign currency risks for the expenses incurred under the SDDC contract.

The SDDC is the only lessee for which we are required, under the SDDC contract, to provide all containers that they request. In the event that containers are not available within our fleet, we fulfill our obligations under the SDDC contract by purchasing new or used containers or subleasing containers and equipment from other leasing companies. This contract also allows the U.S. military to return containers in many locations throughout the world, but the rate of return of containers that we have experienced to date has been very low. Since the inception of the SDDC contract, we have delivered or transitioned more than 127,000 containers and chassis to the U.S. military, of which fewer than 73,000 containers have been returned. However, over 45,000 containers

have been reported as unaccounted for and the U.S. Military paid a stipulated value for each such container. The SDDC contract was awarded with a one-year base period, with four one-year extension options, and with a potential for up to five additional one-year “award terms,” which award terms were considered and awarded based on an annual performance review and confirmation. We have been informed that we have been awarded our fifth SDDC contract extension, at this stage extending the term until June 23, 2013. We also received an “Excellent” rating for our performance under the SDDC contract for 2009 (the last period reviewed), pursuant to the annual performance review required there under. Due to these high evaluations, the total contract period under the SDDC contract has been extended for the full ten years.

The U.S. military informed us in 2009, 2008 and 2007 that 3,663, 11,144 and 27,925 containers, respectively, that they leased from us were unaccounted for. Of this total, 17,116 were owned containers, 18,981 were managed for third party owners and 6,635 were subleased. Per the terms of our contract with the U.S. military, they paid a stipulated value for each of these containers. Due to the loss of these containers, future rental income from the U.S. military on these containers will cease, but we did record gains of \$0.9 million, \$2.3 million and \$4.6 million on the owned and subleased portion of these unaccounted for containers during the fiscal years ended December 31, 2009, 2008 and 2007, respectively.

Underwriting and Credit Controls

We only lease to container shipping lines and other lessees that meet our credit criteria. Our credit approval process is rigorous and all of our underwriting and credit decisions are controlled by our credit committee, which is made up of senior management from different disciplines and includes our Chief Executive Officer, Chief Financial Officer and Executive Vice Presidents. Our credit committee sets different maximum exposure limits depending on our relationship and previous experience with each customer lessee and container sales customer. Credit criteria may include, but are not limited to, trade route, country, social and political climate, assessments of net worth, asset ownership, bank and trade credit references, credit bureau reports, operational history and financial strength.

Our credit department sets and reviews credit limits for new and existing customer lessees and container sales customers, monitors compliance with those limits on an on-going basis, monitors collections, and deals with customers in default. Our credit department actively maintains a credit watch report on our proprietary information technology systems, which is available to all regional and area offices. This credit watch report lists customer lessees and container sales customers at or near their credit limits. New leases of containers by customer lessees on the credit watch report would only be allowed with the approval of our credit department. Similarly, management may decide to stop sales of containers to purchasers whose payments are delinquent. Our underwriting processes are aided by the long payment experience we have with most of our customer lessees and container sales customers, our broad network of relationships in the container shipping industry that provide current information about customer lessees’ and container sales customers’ market reputations and our focus on collections.

Other factors reducing losses due to default by a lessee or customer include the strong growth in the container shipping industry, effective collection tools, our high recovery rate for containers in default situations and the re-marketability of our container fleet. The strong growth in the container shipping industry helps reduce the risk of customer defaults since the core assets of a poorly performing shipping line, its ships and containers, have historically been needed to meet the demand for world containerized trade. As a result, poorly performing shipping lines are often acquired by other shipping lines. In addition, the law in several major port locations is highly favorable to creditors and many of our large customers call on ports that will allow us to arrest, or seize, the customers’ ships or fuel storage bunkers, or repossess our containers if the customer is in default under our container leases. Finally, we also purchase insurance for equipment recovery and loss of revenue due to customer defaults, in addition to the insurance that our customers are required to obtain.

During 2006 through 2009, we recovered, on average, approximately 71% of the containers that were the subject of defaulted contracts which had at least 1,000 CEU on lease. We typically incur operating expenses such

as repairs and repositioning when containers are recovered after a default. However, all recovery expenses are typically covered under insurance and we are reimbursed above our deductible amount. Due to the above, over the last five years, our write-offs of customer receivables for our owned and managed fleet have averaged 1.1% of our lease rental income over such period, and we believe that our receivables and days outstanding are low for the container leasing industry.

Marketing and Customer Service

Our global sales and customer service force is responsible for developing and maintaining relationships with senior management staff at our shipping line customers, negotiating lease contracts and maintaining day-to-day coordination with operations staff at our customers. This close customer communication often assists us in negotiating lease contracts that satisfy both our financial return requirements and our customers' operating needs. It also makes us more likely to be aware of our customers' potential equipment shortages and makes our customer more likely to be aware of our available container inventories.

Our senior sales people have considerable industry experience and we believe that the quality of our customer relationships and the level of communication with our customers represent an important advantage for us. As of December 31, 2009, our global sales and customer service group consisted of approximately 71 people, with 17 in North America, 40 in Asia and Australia, 9 in Europe and 5 in Africa.

Customers

We believe that our staff, organization and long presence in the business has resulted in very strong relationships with our shipping line customers. Our top 25 customers, as measured by lease billings, have leased containers from us for an average of over 23 years and have an average Dynamar credit rating, a common credit report used in the maritime sector, of 3.6. The Dynamar credit rating ranges from 1 to 10, with 1 indicating low credit risk. We had one customer that individually accounted for 12% and 10% of our lease billings in 2009 and 2008, respectively and another customer that individually accounted for 11% of our lease billings in 2007. Our top 25 customers include 20 of the 25 largest shipping lines, as measured by container vessel fleet size. We currently have containers on-hire to more than 400 customers. Our customers are mainly international shipping lines, but we also lease containers to freight forwarding companies and the U.S. military. Our five largest customers accounted for approximately 34.8% of our total owned and managed fleet's 2009 lease billings. Our top five customers by lease billings in 2009 were CMA-CGM, Hapag-Lloyd AG, Evergreen Marine Corp Ltd., Mediterranean Shipping Co. and A.P. Møller—MAERSK A/S. Our largest customer is CMA-CGM, representing approximately 12% of our total owned and managed fleet's 2009 lease billings. For the fiscal years ended December 31, 2009, 2008 and 2007, lease billings from our 25 largest container lessees by lease billings represented 74.7%, 75.9% and 78.4% of our total owned and managed fleet's container leasing billings, respectively, with lease billings from our single largest container lessees accounting for \$51.4 million, \$44.7 million and \$33.0 million or 12.1%, 9.8% and 8.4% of our total owned and managed fleet's container lease billings during the respective periods. A default by any of these major customers could have a material adverse impact on our business, results from operations and financial condition. In addition, the largest lessees of our owned fleet are often among the largest lessees of our managed fleet. The largest lessees of our managed fleet are responsible for a significant portion of the billings that generate our management fee revenue.

Proprietary Information Technology

We have developed proprietary IT systems that allow us to monitor container status and offer our customers a high level of service. Our systems include internet-based updates regarding container availability and booking status. Our systems record the status of and provide the accounting and billing for each of our containers individually by container number. We also have the ability to produce complete management reports for each portfolio of equipment we own and manage. This makes us a preferred candidate to quickly assume management of competitors' container fleets. We also maintain proprietary systems in support of our military business.

In addition, our systems allow our business partners to conduct certain businesses with us through our website, *www.textainer.com*. These systems allow customers to check our container inventories, review design specifications, request bookings for container pick-ups and review and approve repair bills. Our website also allows depots to download recent statements for self-billing activity and to check the status of containers.

Suppliers

We have long relationships with all of our major suppliers. We currently purchase all of our containers in the PRC. There are two major manufacturers of dry freight standard and specialized containers. Our operations staff reviews the designs for our containers and periodically audits the production facilities of our suppliers. In addition, we use our Asian operations group and third party inspectors to visit factories when our containers are being produced to provide an extra layer of quality control. Nevertheless, defects in our containers do sometimes occur. We work with the manufacturers to correct these defects, and our manufacturers have generally honored their warranty obligations in such cases.

Competition

According to the latest available data, the top ten container leasing companies control approximately 88%, and the top five container leasing companies control approximately 62%, of the total equipment held by all container lessors. According to this data, we are the world's largest lessor of intermodal containers based on fleet size and we manage approximately 21% of the equipment held by all container leasing companies. The customers for leased containers are primarily international shipping lines.

We compete with approximately ten other large or medium size container leasing companies, many smaller lessors, companies and financial institutions offering finance leases, and promoters of container ownership and leasing as a tax-efficient investment. It is common for our shipping line customers to utilize several leasing companies to meet their container needs.

Other lessors compete with us in many ways, including pricing, lease flexibility and supply reliability, as well as the location, availability, quality and individual characteristics of their containers and customer service. While we are forced to compete aggressively on price, we emphasize our supply reliability and high level of customer service to our customers. We invest heavily in our endeavors to ensure container availability in higher demand locations. We dedicate a large part of our organization to building customer relationships, maintaining close day-to-day coordination with customers' operating staffs and have developed powerful and user-friendly systems that allow our customers to transact business with us through the internet. We believe that our close customer relationships, experienced staff, reputation for market leadership, scale efficiencies and proprietary systems provide important competitive advantages.

Legal Proceedings

On April 18, 2005, Textainer Equipment Income Fund; Textainer Equipment Income Fund II, L.P.; Textainer Equipment Income Fund III, L.P.; Textainer Equipment Income Fund IV, L.P.; Textainer Equipment Income Fund V, L.P.; and Textainer Equipment Income Fund VI, L.P. (collectively, the "TEIF Partnerships"), sold substantially all of their assets to RFH, Ltd. ("RFH"). At the time of this sale transaction, RFH engaged TEM, one of the general partners in each of the TEIF Partnerships, to manage the containers RFH bought.

Five lawsuits were filed between March 2005 and June 2007 in California state and federal court, initiated by certain limited partners of the TEIF Partnerships. The state cases were consolidated into one action in San Francisco Superior Court.

A second amended consolidated complaint was filed in the state action on June 7, 2007. The named plaintiffs in the consolidated state action were Leonard Labow, Alan P. Gordon (as Trustee), Michael S. Schwartz

(as Trustee of various trusts) and Stephen L. Craig. Plaintiffs sued Textainer Financial Services Corporation (“TFSC”), TEM, TL, Textainer Capital Corporation (“TCC”), and RFH, Ltd asserting claims for alleged breach of fiduciary duty, and alleged aiding and abetting breach of fiduciary duty. These claims are based on alleged self-dealing, conflicted transactions, and lack of due care in entering into the asset sale. The complaint seeks an unspecified amount of damages, equitable relief, interest, fees and costs.

In the federal case, plaintiff Stephen L. Craig sued TEM, TFSC, TCC, TL, Textainer Group Holdings, Ltd., John Maccarone and RFH, Ltd. Asserting claims similar to the claims in the state action and violations of federal securities laws because proxy statements issued in connection with the sale of assets were allegedly materially false or misleading. The lawsuit sought equitable relief and an unspecified amount of damages, interest, fees and costs. The federal action was dismissed with prejudice on January 10, 2007, and has since been appealed. Oral argument on the appeal was held before the Ninth Circuit Court of Appeals on October 22, 2008.

On February 5, 2009, plaintiffs in the state case, plaintiff in the federal case, and the Textainer defendants reached a settlement agreement under which Textainer’s insurer would pay a total of \$10.0 million to the plaintiffs on defendants’ behalf. On May 5, 2009, the Court granted final approval of the global settlement agreement. On July 7, 2009, the time for class members to appeal the class action settlement agreement expired.

On November 24, 2008, the Ninth Circuit granted the federal parties’ joint motion for a stay in proceedings and deferral of decision in order to finalize settlement proceedings. The motion to stay was continued on May 8, 2009, and the parties stipulated to a voluntary dismissal of the appeal on July 10, 2009. That dismissal was approved on August 12, 2009, upon which date the settlement agreement became effective and final.

One of our subsidiaries, Textainer Equipment Management U.S. Limited is currently being audited by the U.S. Internal Revenue Service (the “IRS”). We first received notice from the IRS regarding the audit for the 2007 fiscal year in May 2009. We are fully cooperating with the IRS regarding this audit. The examination is currently ongoing and to date, no matters have arisen to alter our accounting for income taxes.

In addition, from time to time we are a party to litigation matters arising in connection with the normal course of our business. While we cannot predict the outcome of these matters, in the opinion of our management, any liability arising from these matters will not have a material adverse effect on our business. Nevertheless, unexpected adverse future events, such as an unforeseen development in our existing proceedings, new claims brought against us or changes in our current insurance arrangements could result in liabilities that have a material adverse impact on our business.

Environmental

We are subject to federal, state, local and foreign laws and regulations relating to the protection of the environment, including those governing the discharge of pollutants to air and water, the management and disposal of hazardous substances and wastes and the cleanup of contaminated sites. We could incur substantial costs, including cleanup costs, fines and third-party claims for property damage and personal injury, as a result of violations of or liabilities under environmental laws and regulations in connection with our or our lessees’ current or historical operations or the storage of our containers. Under some environmental laws in the U.S. and certain other countries, the owner or operator of a leased container may be liable for environmental damage, cleanup or other costs in the event of a spill or discharge of material from a container without regard to the fault of the owner or operator. While we maintain certain limited liability insurance coverage as well as require our lessees to provide us with indemnity against certain losses, the insurance coverage is subject to large deductibles, limits on maximum coverage and significant exclusions and may not be sufficient to protect against any or all liabilities and such indemnities may not cover or be sufficient to protect us against losses arising from environmental damage and/or systems or services we may be required to install.

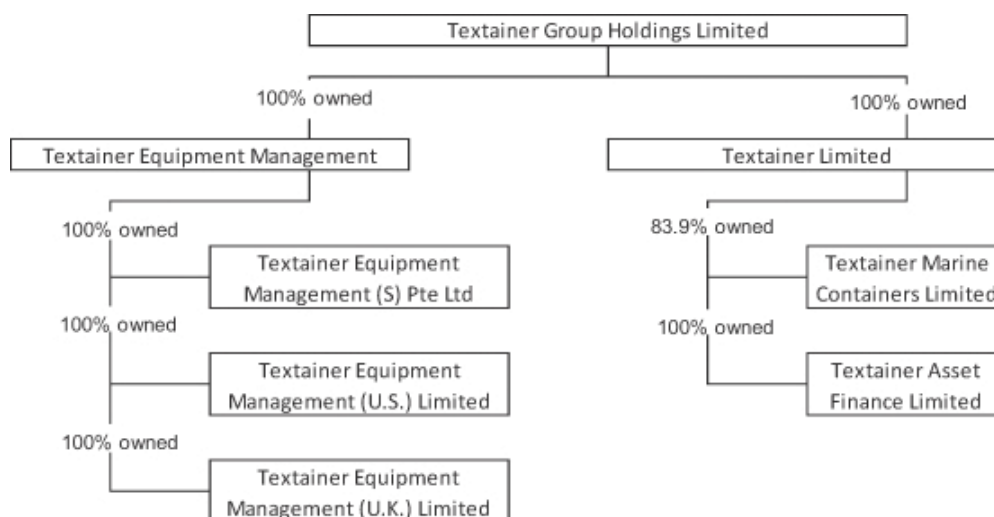

Regulation

We may be subject to regulations promulgated in various countries, including the U.S., seeking to protect the integrity of international commerce and prevent the use of containers for international terrorism or other illicit activities. For example, the Container Security Initiative, the Customs-Trade Partnership Against Terrorism and Operation Safe Commerce are among the programs administered by the U.S. Department of Homeland Security that are designed to enhance security for cargo moving throughout the international transportation system by identifying existing vulnerabilities in the supply chain and developing improved methods for ensuring the security of containerized cargo entering and leaving the U.S. Moreover, the International Convention for Safe Containers, 1972, as amended, adopted by the International Maritime Organization, applies to new and existing containers and seeks to maintain a high level of safety of human life in the transport and handling of containers by providing uniform international safety regulations. As these regulations develop and change, we may incur increased compliance costs due to the acquisition of new, compliant containers and/or the adaptation of existing containers to meet any new requirements imposed by such regulations.

We may also be affected by legal or regulatory responses to potential global climate change. Please see Item 3, “*Key Information — Risk Factors — We may also be affected by potential global climate change or by legal, regulatory or market responses to such potential change.*”

C. Organizational Structure

Our current corporate structure is as follows:

We currently own 100% of all of our direct and indirect subsidiaries, except for TMCL. TMCL, a joint venture involving TL and Fortis, a subsidiary of Fortis Bank (Nederland) N.V. As of December 31, 2009, TL held an 83.9% economic ownership interest and TCG held a 16.1% economic ownership interest in TMCL. TL also holds 75% of the voting rights and Fortis holds 25% of the voting rights of TMCL.

Our principal shareholder, Halco Holdings Inc. (“Halco”), is owned by a discretionary trust with an independent trustee in which Trencor Limited and certain of its affiliates are the sole discretionary beneficiaries.

Halco, which owned approximately 62.3% of our outstanding share capital as of December 31, 2009, is the wholly-owned subsidiary of the Halco Trust. Tencor is a South African container public company, listed on the JSE in Johannesburg, South Africa. Tencor was founded in 1929, and currently has businesses owning, leasing and managing marine cargo containers and finance related activities. Mobile Industries Limited ("Mobile Industries"), a holding company listed on the JSE, owns a 46.2% interest of Tencor and the family interests of our directors Neil I. Jowell and Cecil Jowell have a significant percentage in Mobile Industries with Neil and Cecil Jowell being directors of that company. In addition, the protectors of the Halco Trust are Neil I. Jowell, the chairman of both our board of directors and the board of directors of Tencor, Cecil Jowell, James E. McQueen and David M. Nurek, members of our board of directors and the board of directors of Tencor and Edwin Oblowitz, a member of the board of directors of Tencor. The protectors of the trust have the power, under the trust documents, to appoint or remove the trustee. The protectors cannot be removed and have the right to nominate replacement protectors. In addition, any changes to the beneficiary of the Halco Trust must be agreed to by both the independent trustee and the protectors of the trust.

D. Property, Plant and Equipment

As of December 31, 2009, our employees were located in 14 regional and area offices in 13 different countries. We have two offices in the U.S., including our administrative office in San Francisco, California and another office in Hackensack, New Jersey. We have 12 offices outside the U.S. in New Malden, United Kingdom; Hamburg, Germany; Durban, South Africa; Yokohama, Japan; Seoul, South Korea; Taipei, Taiwan; Singapore; Sydney, Australia; Jakarta, Indonesia; Port Kelang, Malaysia; Hong Kong, and Shanghai, China. We lease all of our office space. The lease for our San Francisco office expires in December 2016 and the lease for our Hackensack, New Jersey office expires in April 2012. In addition, we have agents who represent us in India, Pakistan, Sri Lanka, Thailand, and Vietnam. We also maintain a registered office in Bermuda, where Textainer Group Holdings Limited is incorporated.

We believe that our current facilities are adequate to meet current requirements and that additional or substitute space will be available as needed to accommodate our expected growth.

ITEM 4A. UNRESOLVED STAFF COMMENTS

Not applicable.

ITEM 5. OPERATING AND FINANCIAL REVIEW AND PROSPECTS

The following Operating and Financial Review and Prospects should be read in conjunction with our audited consolidated financial statements and related notes included elsewhere in this Annual Report on Form 20-F. In addition to historical consolidated financial information, the following discussion contains forward-looking statements that reflect our plans, estimates and beliefs. Our actual results may differ materially from those contained in or implied by any forward-looking statements. See "Information Regarding Forward-Looking Statements; Cautionary Language." Factors that could cause or contribute to these differences include those discussed below and elsewhere in this Annual Report on Form 20-F, particularly in Item 3, "Key Information—Risk Factors."

Dollar amounts in this section of this Annual Report on Form 20-F are expressed in thousands of U.S. dollars unless otherwise indicated.

Executive Summary

Operating since 1979, we are the world's largest lessor of intermodal containers based on fleet size, with a total fleet of more than 1.5 million containers, representing over 2.2 million TEU. We recorded impressive results in 2009, despite the economic turmoil that began in the second half of year 2008. Specifically, in 2009, we

(i) grew our total fleet, increasing the percentage of the fleet that we own, (ii) expanded our presence in the refrigerated container business, (iii) purchased containers for our trading business, (iv) entered into purchase-leaseback transactions with shipping lines and (v) retired debt. While the overall demand for our containers declined, utilization averaged 87.2% in 2009 and began to improve during the fourth quarter of 2009. This utilization for the year further supports our strategy of securing a large portion of our containers on long-term contracts with a diverse group of shipping lines. However, the challenges encountered due to the global financial crisis and global recession are expected to continue to have an impact on our 2010 business and consolidated financial position, results of operations and cash flows, as well as our future prospects in fiscal 2010. Refer to “2010 Outlook” below for further discussion.

Our business comprises four reportable segments for financial reporting purposes: Container Ownership, Container Management, Container Resale and Military Management. Our total revenues primarily consist of leasing revenues derived from the leasing of our owned containers and, to a lesser extent, fees received for managing containers owned by third parties, equipment resale and military management. The most important driver of our profitability is the extent to which revenues on our owned fleet and management fee income exceed our operating costs. The key drivers of our revenues are fleet size, rental rates and utilization. Our operating costs primarily consist of depreciation and amortization, interest expense, direct operating expenses and administrative expenses. Our lessees are generally responsible for loss of or damage to a container beyond ordinary wear and tear, and they are required to purchase insurance to cover any other liabilities.

Key Factors Affecting Our Performance

We believe there are a number of key factors that have affected, and are likely to continue to affect, our operating performance. These key factors include the following, among others:

- the demand for leased containers;
- lease rates;
- our ability to lease our new containers shortly after we purchase them;
- prices of new containers and the impact of changing prices on the residual value of our owned containers;
- remarketing risk;
- further consolidation of container manufacturers and/or decreased access to new containers; and
- terrorist attacks, the threat of such attacks or the outbreak of war and hostilities.

For further details of these and other factors which may affect our business and results of operations, see Item 3, “*Key Information—Risk Factors.*”

2010 Outlook

Industry

Customer default risk has been reduced as several major container shipping lines have been able to recapitalize. Despite the continued challenging environment, to date, we have neither seen any bankruptcies among our major customers nor seen any major container shipping line failures. Drewry, a shipping consultancy firm, is forecasting a modest expansion in container traffic of 3-4% in 2010, and has suggested that the industry may have passed through the worst of the global recession.

With respect to supply, we estimate virtually no new standard dry freight containers were manufactured from the fourth quarter of 2008 through the end of 2009. We estimate that the world container fleet declined by approximately 4% in 2009 as a result of the continued retirement of older containers in the ordinary course.

During this period, container manufacturers lost up to 60% of their skilled work force due to long shutdowns, and have limited production capacity in 2010. Additionally, we have observed that many shipping lines are still seeking to strengthen their respective balance sheets, and therefore may not have the expected capital budget to purchase new containers in 2010. Due to these factors, container manufacturers in China forecast 2010 production of only 0.6 million to 1.0 million TEU, compared to an average of about 3 million TEU per year between 2004 and 2008. With this anticipated decrease in production combined with the continued retirement of older containers in the ordinary course, the world container fleet could decline again in 2010, helping to maintain the supply and demand balance for containers, or result in a shortage of containers.

Textainer's Operations

Textainer's total fleet has a current utilization of 91%, an improvement of more than five percentage points from its low point in September 2009. Going forward, we expect demand for containers to increase among our customers. Many shipping lines do not plan to buy new containers in 2010 and new production capacity is limited, factors which we believe may result in increased lease rates and further improvement in the leasing industry utilization. We have already realized an increase in sale prices for our older containers during the last six months. This trend is expected to continue if utilization of in-fleet containers continues to improve, reducing the supply of older containers available for sale.

The refrigerated container market remained strong in 2009, and this trend is expected to continue in 2010. Textainer has invested approximately \$50 million per year in new refrigerated containers since entering into the refrigerated container market in 2008. We expect investments in this business during 2010 will be similar to past levels.

We also expect to resume buying significant quantities of new standard dry freight containers in 2010, and have already ordered 33,370 TEU for delivery through May 2010.

Except for the re-purchase of our outstanding debt, which was a non-recurring event, we expect that each of the investments we made in 2009 will contribute to net income in 2010.

Strategic Focus

With over \$286 million in available liquidity and a low debt-to-equity ratio, we intend to continue to pursue opportunities in accretive acquisitions, purchase lease-back transactions, trading deals, and the purchase of containers we currently manage. In 2010, we intend to continue to pursue any attractive opportunities in one or more of these areas as we have consistently done in the past and thereby seek to enhance our ability to further strengthen our position as the industry leader.

Revenue

Our revenue comprises lease rental income, management fees, trading container sale proceeds and gain on sale of containers, net.

Lease Rental Income. We generate lease rental income by leasing our owned containers to container shipping lines and other customers, such as the U.S. military. Lease rental income comprises daily per diem rental charges due under the lease agreements, together with payments for other charges set forth in the leases, such as handling fees, drop-off charges and pick-up charges and credits (together "geography revenue") and charges for a damage protection plan ("DPP"). The operating results of our owned container business are determined by the amount by which our container rental revenue exceeds our ownership costs, consisting primarily of depreciation, interest expense, storage, handling and other direct operating expenses and management costs.

Utilization is a key performance indicator that demonstrates how much of our equipment is on lease at a point in time or over a period of time. We measure utilization on the basis of containers on lease, using the actual number of days on hire, expressed as a percentage of containers available for lease, using the actual days available for lease. Prior to 2007, we calculated containers available for lease to include all containers in our fleet. Utilization figures in this Annual Report on Form 20-F for periods prior to 2007 are calculated in this manner. Starting in 2007, to conform to the method used by most of our competitors, we began calculating containers available for lease by excluding containers that have been manufactured for us but have not been delivered yet to a lessee and containers designated as held-for-sale units. This change in the method of calculating utilization causes our utilization rate to appear higher than under the former methodology, but has no effect on the amount of lease rental income earned. Our utilization is primarily a function of our current lease structure, overall level of container demand, the location of our available containers and prevailing lease terms by location. The location of available containers is critical because containers available in high-demand locations are more readily leased and are typically leased on more favorable terms than containers available in low-demand locations.

Lease rental income is also affected by per diem rates. The per diem rate for a lease is set at the time we enter into a lease agreement. Our long-term per diem rate for new containers has historically been strongly influenced by new container pricing (which in turn is heavily influenced by container manufacturing industry concentrations and steel and other component pricing), interest rates, the balance of supply and demand for containers at a particular time and location, our estimate of the residual value of the container at the end of its useful life in marine service, the type of the container being leased, container purchasing activities by container shipping lines and competitors and efficiencies in container utilization by container shipping lines. Average per diem rates for containers in our owned fleet and in the portfolios of containers comprising our managed fleet change slowly in response to changes in new container prices because existing lease agreements can only be re-priced upon the expiration of the lease.

Management Fees. Management fee revenue is generated by our management services, which include the acquisition, leasing, repair, repositioning, storage and disposition of containers. We provide these management services pursuant to management agreements with container investors. Under these agreements, we earn fees for the acquisition of new containers and the management of the containers, and a sales commission upon disposition of containers under management. The management agreements typically cover the entire economic life of the containers.

Our acquisition fees are calculated as a percentage of the cost of the container. Our management fees are calculated as a percentage of net operating income of the containers. Net operating income is calculated as the lease payment and any other revenue attributable to a container, minus operating expenses related to that container (but not depreciation or financing expenses of the container investor). The management fee percentage generally varies based upon the type of lease and the terms of the management agreement. Management fee percentages for long-term leases are generally lower than management fee percentages for short-term leases because less daily involvement by management personnel is required to manage long-term leases. Our sales commissions are either fixed dollar amount or based on a percentage of the sales price.

All rental operations are conducted worldwide in our name as agent for the container investors. Revenues, customer accounts receivable, operating expenses, and vendor payables arising from direct container operations of the managed portion of our fleet are excluded from our financial statements.

Trading Container Sales Proceeds. Our Container Resale Division purchases used containers from third parties, primarily shipping lines, and resells these containers to a wide variety of buyers. This activity is reported as trading container sales proceeds.

Gain on Sale of Containers, net. Gain on sale of containers, net, represents the excess of the sale price of our owned fleet containers over their net book value at the time of sale. Containers are generally sold at the end

of their useful lives in marine service or when we believe it is financially attractive for us to do so, considering the location, sale price, cost of repair and possible repositioning expenses.

Operating Expenses

Our operating expenses include direct container expenses and depreciation of container rental equipment applicable to our owned containers, as well as general and administrative expenses for our total fleet.

Direct Container Expenses. Storage, handling, maintenance, repositioning and other direct container expenses are operating costs of our owned fleet. Storage and handling expenses occur when our customers drop off containers at depots around the world. Storage and handling expenses vary significantly by location. Other direct container expenses include maintenance expenses, which are the result of normal wear and tear on the containers, and repositioning expenses, which are incurred when we contract to move containers from locations where our inventories exceed actual or expected demand to locations with higher demand. Storage, handling, maintenance, repositioning and other direct container expenses are directly related to the number of containers in our owned fleet and inversely related to our utilization rate for those containers. As utilization increases, we typically have lower storage, handling, maintenance and repositioning expenses. We use the direct expense method of accounting for maintenance and repairs.

Our leases require the lessee to pay for any damage to the container beyond normal wear and tear at the end of the lease term. We also offer a DPP pursuant to which the lessee pays a fee over the term of the lease (per diem) in exchange for not being charged for certain damages at the end of the lease term. This revenue is recognized as earned over the term of the lease. We do not recognize revenue and related expense for customers who are billed at the end of the lease term under the DPP or for other lessees who do not participate in the DPP. Based on past history, there is uncertainty as to collectability of these amounts from lessees who are billed at the end of the lease term because the amounts due under the DPP are typically re-negotiated at the end of the lease term or the lease term is extended.

Cost of Trading Containers Sold. We buy used containers for resale, primarily from shipping lines. Cost of trading containers sold represents the cost of these containers and is recognized as an expense at the time the containers are sold.

Depreciation Expense. We depreciate our containers on a straight-line basis over a period of 12 years to a fixed residual value. We regularly assess both the estimated useful life of our containers and the expected residual values, and, when warranted, adjust our depreciation estimate accordingly. Depreciation expense will vary over time based upon the number and the purchase price of containers in our owned fleet. Beginning in the third quarters of 2008 and 2006, depreciation of our existing owned fleet decreased as a result of an increase in our estimate of the residual values of our containers. However, this decrease was partially offset in the fiscal year ended December 31, 2009 as a result of an increase in the size of our owned fleet in subsequent periods.

Amortization Expense. Amortization expense represents the amortization of the price paid for the rights to manage the container fleets of Capital Intermodal Limited, Capital Intermodal GmbH, Capital Intermodal Inc., Capital Intermodal Assets Limited and Xines Limited (collectively "Capital Intermodal"); Amphibious Container Leasing Limited ("Amficon"); Capital Lease Limited, Hong Kong ("Capital"); and Gateway Management Services Limited ("Gateway"). The purchase prices are being amortized over the expected useful lives of the contracts on a pro-rata basis to the expected management fees.

General and Administrative Expense. Our general and administrative expenses are primarily employee-related costs such as salary, employee benefits, rent, travel and entertainment costs, as well as expenses incurred for outside services such as legal, consulting and audit-related fees.

Short-term Incentive Compensation Expense. Short-term incentive compensation expense is the annual bonus plan in which all company employees participate. The compensation amounts are determined on an annual basis based on the company's performance.

Long-term Incentive Compensation Expense. Long-term incentive compensation expense represents costs recorded for share-based and cash compensation that vests over several years in which most company employees participate.

Bad Debt Expense, net. Bad debt expense, net, represents the amounts recorded to provide for an allowance for the doubtful collection of accounts receivable for the owned fleet.

A. Operating Results

Comparison of the Years Ended December 31, 2009, 2008 and 2007

The following table summarizes our total revenues for the years ended December 31, 2009, 2008 and 2007 and percentage changes between those periods:

	Year Ended December 31,			% Change Between	
	2009	2008	2007	2009 and 2008	2008 and 2007
	(Dollars in thousands)				
Lease rental income	\$ 189,779	\$ 198,600	\$ 192,342	(4.4%)	3.3%
Management fees	25,228	28,603	24,125	(11.8%)	18.6%
Trading container sales proceeds	10,925	34,231	25,497	(68.1%)	34.3%
Gain on sale of containers, net	11,350	15,647	13,544	(27.5%)	15.5%
Other, net	—	—	284	N/A	(100.0%)
Total revenues	<u>\$ 237,282</u>	<u>\$ 277,081</u>	<u>\$ 255,792</u>	<u>(14.4%)</u>	<u>8.3%</u>

Lease rental income decreased \$8,821 (-4.4%) from 2008 to 2009. This included a decrease of \$25,031 due to a 7.6 percentage point decrease in utilization, a decrease of \$5,922 due to a 3.4% decrease in per diem rental rates and a \$2,456 decrease in military sublease income, partially offset by a \$19,206 increase due to a 8.8% increase in fleet size, a \$4,191 increase in finance lease income, a \$831 increase in DPP income and a \$600 increase in geography income (drop-off charges and pick-up charges and credits). Lease rental income increased \$6,258 (3.3%) from 2007 to 2008. This included a \$11,828 increase due to a 6.8% increase in fleet size, a \$2,165 increase in finance lease income, a \$1,920 increase due to a 0.9 percentage point increase in utilization and a \$847 increase in handling income, partially offset by a \$6,476 decrease due to a 3.6% decrease in per diem rental rates, a \$2,400 decrease in geography income, a \$963 increase in amortization of acquired above-market leases related to Textainer Limited's ("TL") purchase of 3,000 additional shares of Textainer Marine Containers Limited ("TMCL") on November 1, 2007, a \$496 decrease in DPP income and a \$398 decrease in military sublease income.

Management fees decreased \$3,375 (-11.8%) from 2008 to 2009 primarily due to a \$4,853 decrease due to lower fleet performance, a \$981 decrease due to a 4.6% decrease in the size of the fleets managed for container investors other than the Amficon and Capital Intermodal fleets, a \$397 net decrease due to lower acquisition fees due to fewer container purchases and a \$67 decrease in sales commissions, partially offset by \$3,150 in additional fees earned from managing the Amficon and Capital Intermodal fleets. Managements fees increased \$4,478 (18.6%) from 2007 to 2008 primarily due to \$5,899 in additional fees earned from managing the Capital lease fleet, partially offset by a \$1,421 decrease due to a 4.4% net decrease in the size of the fleets managed for other container investors.

Trading container sales proceeds decreased \$23,306 (-68.1%) from 2008 to 2009. \$19,471 of this decrease was due to a 56.9% decrease in unit sales due to a decrease in the number of trading containers that we were able

to source and sell and \$3,835 of this decrease was due to a decrease in average proceeds of \$383 per unit. Trading container sales proceeds increased \$8,734 (34.3%) from 2007 to 2008. \$4,084 of this increase was due to a 16.0% increase in unit sales due to an increase in the number of trading containers that we were able to source and sell and \$4,650 of this increase was due to an increase in average proceeds of \$216 per unit.

Gain on sale of containers, net, decreased \$4,297 (-27.5%) from 2008 to 2009. \$10,561 of the decrease was due to a decrease of \$250 in average sales proceed per unit, partially offset by a \$6,264 increase due to a 40% increase in the number of containers sold. Gain on sale of containers, net, increased \$2,103 (15.5%) from 2007 to 2008. \$4,751 of the increase was due to an increase of \$158 in average sales proceeds per unit, partially offset by a \$2,648 decrease due to a 19.6% decrease in the number of containers sold.

The following table summarizes our total operating expenses for the years ended December 31, 2009, 2008 and 2007 and percentage changes between those periods:

	Year Ended December 31,			% Change Between	
	2009	2008	2007	2009 and 2008	2008 and 2007
	(Dollars in thousands)				
Direct container expense	\$ 39,062	\$ 25,709	\$32,895	51.9%	(21.8%)
Cost of trading containers sold	8,907	26,596	20,753	(66.5%)	28.2%
Depreciation expense	48,473	48,900	48,757	(0.9%)	0.3%
Amortization expense	7,080	6,979	3,677	1.4%	89.8%
General and administrative expense	20,304	20,991	18,063	(3.3%)	16.2%
Short-term incentive compensation expense	2,924	4,257	4,094	(31.3%)	4.0%
Long-term incentive compensation expense	3,575	3,148	932	13.6%	237.8%
Bad debt expense, net	3,304	3,663	1,133	(9.8%)	223.3%
Total operating expenses	<u>\$133,629</u>	<u>\$140,243</u>	<u>\$130,304</u>	<u>(4.7%)</u>	<u>7.6%</u>

Direct container expense increased \$13,353 (51.9%) from 2008 to 2009 primarily due to a \$12,535 increase in storage expense, a \$827 increase in maintenance expense, a \$753 increase in handling expense, and a \$618 increase in repositioning expense partially offset by a \$1,340 decrease in military sublease expense. Direct container expense decreased \$7,186 (-21.8%) from 2007 to 2008 primarily due to a \$6,019 decrease in repositioning expense, a \$1,081 decrease in storage expense and a \$917 decrease in military sublease expense, partially offset by a \$632 increase in DPP repair expense and a \$320 increase in insurance expense.

Cost of trading containers sold decreased \$17,689 (-66.5%) from 2008 to 2009. \$15,128 of the decrease was due to a 56.9% decrease in unit sales due to a decrease in the number of trading containers that we were able to source and sell and \$2,561 of the decrease was due to a 22.3% decrease in the average cost per unit of sold containers. Cost of trading containers sold increased \$5,843 (28.2%) from 2007 to 2008. \$3,324 of the increase was due to a 16.0% increase in unit sales due to an increase in the number of trading containers that we were able to source and sell and \$2,519 of the increase was due to a 10.5% increase in the average cost per unit of sold containers.

Depreciation expense decreased \$427 (-0.9%) from 2008 to 2009. \$6,173 of the decrease was due to an increase in estimated future residual values used in the calculation of depreciation expense in July 2008, partially offset by a \$4,411 increase due to an increase in fleet size and an \$1,427 increase in impairments to write down the value of certain containers identified for sale to their estimated fair value. Depreciation expense increased \$143 (0.3%) from 2007 to 2008. \$7,387 of the increase was due to an increase in fleet size and a higher average cost for new container purchases, partially offset by a \$7,200 decrease due to an increase in estimated future residual values used in the calculation of depreciation expense in July 2008.

Amortization expense was \$7,080, \$6,979 and \$3,677 in 2009, 2008 and 2007, respectively. This expense represents the amortization of the amounts paid to acquire the rights to manage the Amficon, Capital Intermodal, Capital and Gateway fleets.

General and administrative expense decreased \$687 (-3.3%) from 2008 to 2009 primarily due to a \$383 decrease in travel costs, a \$190 decrease due to inspection costs and a \$99 decrease in insurance expense. General and administrative expense increased \$2,928 (16.2%) from 2007 to 2008 primarily due to a \$739 increase in compensation cost, a \$726 increase in professional fees, a \$548 increase in insurance expense and a \$278 increase in board of directors' fees primarily related to operating as a public company following our October 2007 initial public offering, a \$197 increase in facilities cost and a \$179 increase in travel costs.

Short-term incentive compensation expense decreased \$1,333 (-31.3%) from 2008 to 2009 due to a lower expected incentive compensation award for fiscal 2009 compared to fiscal year 2008. Short-term incentive compensation expense increased \$163 (4.0%) from 2007 to 2008 due to an incentive compensation award for 2008 that was relatively flat compared to the incentive compensation award for 2007.

Long-term incentive compensation expense increased \$427 (13.6%) from 2008 to 2009 due to share options and restricted share units that were granted under the 2007 Share Incentive Plan in November 2008 and 2009. Long-term incentive compensation expense increased \$2,216 (237.8%) from 2007 to 2008 due to share options and restricted share units that were granted under the 2007 Share Incentive Plan in October 2007 and November 2008.

Bad debt expense, net, decreased \$359 (-9.8%) from 2008 to 2009 primarily due to a lower net increase for the year in the allowance for doubtful accounts. Bad debt expense, net, increased \$2,530 (223.3%) from 2007 to 2008 primarily due to a net increase for the year in the allowance for doubtful accounts primarily resulting from the default of one customer and bankruptcies of three customers.

The following table summarizes other income (expenses) for the years ended December 31, 2009, 2008 and 2007 and percentage changes between those periods:

	Year Ended December 31,			% Change Between	
	2009	2008	2007	2009 and 2008	2008 and 2007
	(Dollars in thousands)				
Interest expense	\$(11,750)	\$(26,227)	\$(37,094)	(55.2%)	(29.3%)
Gain on early extinguishment of debt	19,398	—	—	N/A	N/A
Interest income	61	1,482	3,422	(95.9%)	(56.7%)
Realized (losses) gains on interest rate swaps and caps, net	(14,608)	(5,986)	3,204	144.0%	(286.8%)
Unrealized gains (losses) on interest rate swaps, net	11,147	(15,105)	(8,274)	(173.8%)	82.6%
Gain on lost military containers, net	865	2,252	4,639	(61.6%)	(51.5%)
Other, net	35	(203)	56	(117.2%)	(462.5%)
Net other expense	<u>\$ 5,148</u>	<u>\$ (43,787)</u>	<u>\$ (34,047)</u>	<u>(111.8%)</u>	<u>28.6%</u>

Interest expense decreased \$14,477 (-55.2%) from 2008 to 2009. \$16,364 of the decrease was due to a decrease in average interest rates of 2.42 points, partially offset by an increase of \$1,887 due to an increase in average debt balances of \$45,428. Interest expense decreased \$10,867 (-29.3%) from 2007 to 2008. \$14,083 of the decrease was due to a decrease in average interest rates of 2.23 percentage points, partially offset by an increase of \$3,216 due to an increase in average debt balances of \$50,380.

During the first half of 2009, we repurchased \$65,000 in original face amount, or \$39,917 in outstanding principal amount, of our 2005-1 Bonds for \$20,234 and recorded a gain on early extinguishment of debt of \$19,398, net of the write-off of deferred debt financing costs of \$285.

Interest income decreased \$1,421 (-95.9%) from 2008 to 2009. \$1,130 of the decrease was due to a decrease in average interest rates of 1.55 percentage points and \$291 of the decrease was due to a decrease in average cash balances of \$17,669. Interest income decreased \$1,940 (-56.7%) from 2007 to 2008. \$2,626 of the decrease was due to a decrease in average interest rates of 2.91 percentage points, partially offset by an increase of \$686 due to an increase in average cash balances of \$15,098. We intend to hold our interest rate swap agreements until maturity and over the life of an interest rate swap agreement held to maturity the unrealized gains (losses) will net to zero.

Realized losses on interest rate swaps and caps, net increased \$8,622 (144.0%) from 2008 to 2009. \$8,381 of the increase was due to a decrease in average interest rates of 2.13 percentage points and an increase of \$241 due to an increase in average interest rate swap notional amounts of \$15,246. Realized (losses) gains on interest rate swaps and caps, net changed from a net gain of \$3,204 in 2007 to a net loss of \$5,986 in 2008. \$9,481 of the change was due to a decrease in average interest rates of 2.50 percentage points, partially offset by an increase of \$291 due to an increase in average interest rate swap notional amounts of \$31,571.

Unrealized gains (losses) on interest rate swaps, net changed from a net loss of \$15,105 in 2008 to a net gain of \$11,147 in 2009 due to an increase in the net fair value liability of interest rate swap agreements held in 2008 compared to a decrease in the net fair value liability of interest rate swap agreements held in 2009 resulting from an increase in long-term interest rates during 2009. Unrealized losses on interest rate swaps, net increased \$6,831 (82.6%) from 2007 to 2008 due to a greater increase in the net fair value liability of interest rate swap agreements held resulting from a decrease in long-term interest rates during 2008.

The U.S. military informed us in 2009, 2008 and 2007 that 3,663, 11,144 and 27,925 containers, respectively, that they leased from us were unaccounted for. Of this total, 17,116 were owned containers, 18,981 were managed for third party owners and 6,635 were subleased. Per the terms of our contract with the U.S. military, they paid a stipulated value for each of these containers. Due to the loss of these containers, future rental income from the U.S. military on these containers will cease, but we did record gains of \$865, \$2,252 and \$4,639 on the owned and subleased portion of these unaccounted for containers during the fiscal years ended December 31, 2009, 2008 and 2007, respectively.

The following table summarizes income tax expense (benefit) and net income attributable to the noncontrolling interest for the years ended December 31, 2009, 2008 and 2007 and percentage changes between those periods:

	Year Ended December 31,			% Change Between	
	2009	2008	2007	2009 and 2008	2008 and 2007
	(Dollars in thousands)				
Income tax expense (benefit)	\$ 3,471	\$ (871)	\$ 6,847	(498.5%)	(112.7%)
Net income attributable to the noncontrolling interest	\$14,554	\$8,681	\$16,926	67.7%	(48.7%)

Income tax expense (benefit) changed from an income tax benefit of \$871 in 2008 to income tax expense of \$3,471 in 2009. Income tax (benefit) expense changed from income tax expense of \$6,847 in 2007 to an income tax benefit of \$871 in 2008. The 2004 United States tax return for one of the Company's subsidiaries and the 2004 and 2005 United States tax returns for another one of the Company's subsidiaries, were examined by the Internal Revenue Service (the "IRS"). In May 2008, the Company received notification from the IRS that they had completed their examination and made no changes to the amount of tax reported. As a result, income tax expense for the fiscal year ended 2008 reflects a decrease of \$4,480 related to the Company's reduction of unrecognized tax benefits. In addition, \$473 of the change from 2008 to 2009 was due to a lower effective tax rate, partially offset by a \$611 increase due to a higher level of income before tax and noncontrolling interest. Also, \$3,359 of the change from 2007 to 2008 is also due to a lower effective tax rate, partially offset by an increase in income tax expense of \$121 due to a higher level of income before tax and noncontrolling interest.

Net income attributable to the noncontrolling interest increased \$5,873 (67.7%) from 2008 to 2009 due to a higher level of net income generated by one of the Company's subsidiaries, TMCL. Net income attributable to

the noncontrolling interest decreased \$8,245 (-48.7%) from 2007 to 2008 primarily due to TL's purchase of 3,000 additional shares of TMCL on November 1, 2007, as a result of which TL now owns 75% of TMCL's Class A shares compared to 50% prior to the purchase. This decrease was partially offset by a higher level of net income generated by TMCL for 2008 compared to 2007. See Item 4, "Information on the Company—History and Development of the Company—Significant Events."

Segment Information

The following table summarizes our income before taxes attributable to each of our business segments for the years ended December 31, 2009 and 2008 and 2007 (before inter-segment eliminations) and percentage changes between those periods:

	Year Ended December 31,			% Change Between	
	2009	2008	2007	2009 and 2008	2008 and 2007
	(Dollars in thousands)				
Container ownership	\$95,178	\$67,908	\$65,043	40.2%	4.4%
Container management	\$ 8,815	\$ 16,047	\$ 17,770	(45.1%)	(9.7%)
Container resale	\$ 7,993	\$ 13,223	\$ 9,826	(39.6%)	34.6%
Military management	\$ 1,166	\$ 1,551	\$ 2,161	(24.8%)	(28.2%)

Income before taxes attributable to the container ownership segment increased \$27,270 (40.2%) from 2008 to 2009. This increase consisted of a change in unrealized gains (losses) on interest rate swaps, net from a net loss of \$15,105 in 2008 to a net gain of \$11,147 in 2009, a \$19,398 gain on early extinguishment of debt and a \$14,477 decrease in interest expense, partially offset by a \$12,574 increase in direct container expense, a \$8,622 increase in realized losses on interest rate swaps and caps, net, a \$6,364 decrease in lease rental income, a \$4,296 decrease in gain on sale of containers, net and a \$1,413 decrease in gain on disposal of lost military containers, net.

Income before taxes attributable to the container ownership segment increased \$2,865 (4.4%) from 2007 to 2008. This increase consisted primarily of a \$10,867 decrease in interest expense due to lower average interest rates partially offset by higher average debt balances, a \$6,656 increase in container lease rental income resulting from a larger fleet size and higher utilization partially offset by lower rental rates, a \$6,539 decrease in direct container expense, a \$2,099 increase in gain on sale of containers, net and a \$923 increase in other, net due to the release of a \$750 reserve and recognition of a \$173 gain for TGH's share of proceeds from the sale of Trenchor's South African container manufacturing plant. These increases to income before taxes attributable to the container ownership segment were partially offset by a change in realized (losses) gains on interest rate swaps and caps, net from a loss of \$5,986 in 2007 from a gain of \$3,204 in 2008, a \$6,831 increase in unrealized losses on interest rate swaps, net, a \$2,547 increase in bad debt expense, net, a \$1,927 decrease in gain on lost military containers, net, a \$1,629 decrease in interest income, a \$992 increase in structuring fees paid by TMCL to FB Transportation Capital ("Fortis") for container purchases, a \$408 increase in overhead expenses and a \$405 increase in depreciation expense.

Income before taxes attributable to the container management segment decreased \$7,232 (-45.1%) from 2008 to 2009 primarily due to a \$7,309 decrease in management fees, a \$736 decrease in interest income and a \$427 increase in long-term incentive compensation expense, partially offset by a \$1,333 decrease in short-term incentive compensation expense.

Income before taxes attributable to the container management segment decreased \$1,723 (-9.7%) from 2007 to 2008. This decrease consisted primarily of a \$2,430 increase in amortization expense due to the amortization of intangible assets related to the acquisition of the rights to manage the Capital fleet, \$2,216 increase in long-term incentive compensation expense, a \$1,507 decrease in management fees due to a net decrease in the fleet size of managed fleets other than the Capital fleet, a \$608 increase in overhead expenses, a \$297 decrease in interest income and a \$163 decrease in short-term incentive compensation expense. These decreases were partially offset by an increase of \$5,899 in additional management fees earned on the Capital fleet.

Income before taxes attributable to the container resale segment decreased \$5,230 (-39.6%) from 2008 to 2009. This decrease consisted of a \$5,914 decrease in gains on container trading, net due to both a lower volume of containers sales and a decrease in average gross margin of \$139 per unit, partially offset by a \$488 increase in sales commissions primarily due to a higher volume of managed container sales partially offset by a decrease in average managed container sales prices and a \$196 decrease in overhead expenses.

Income before taxes attributable to the container resale segment increased \$3,397 (34.6%) from 2007 to 2008. This increase consisted primarily of a \$3,350 increase in gains on container trading, net due to both a higher volume of container sales and an increase in average gross margin of \$99 per unit and a \$1,091 increase in sales commissions due to a higher volume of managed container sales, partially offset by a \$578 increase in overhead expenses and a \$558 increase in amortization expense.

Income before taxes attributable to the military management segment decreased \$385 (-24.8%) from 2008 to 2009 primarily due to a \$1,114 decrease in sublease income, partially offset by a \$337 increase in gain on lost military containers, net, a \$287 decrease in overhead expense and a \$54 decrease in depreciation expense.

Income before taxes attributable to the military management segment decreased \$610 (-28.2%) from 2007 to 2008 primarily due to a \$901 decrease in the gain on lost military containers, net and a \$282 increase in overhead expenses, partially offset by a \$518 increase in subleasing net income.

Currency

As in previous years, almost all of our revenues are denominated in U.S. dollars and approximately 38% of our direct container expenses in 2009 were denominated in U.S. dollars. Our operations in locations outside of the U.S. have some exposure to foreign currency fluctuations, and trade growth and the direction of trade flows can be influenced by large changes in relative currency values. However, part of our non-U.S. dollar operating expenses is transportation and other costs incurred as a result of the SDDC contract. The SDDC contract contains an adjustment feature such that we are effectively protected against most foreign currency risks for the expenses incurred under the SDDC contract. In 2009, our non-U.S. dollar operating expenses were spread among 17 currencies, resulting in some level of self-hedging. We do not engage in currency hedging.

Critical Accounting Policies and Estimates

The preparation of financial statements in conformity with GAAP requires management to use judgment in making estimates and assumptions that affect reported amounts of assets and liabilities, the reported amounts of income and expenses during the reporting period and the disclosure of contingent assets and liabilities as of the date of the financial statements. We have identified the policies and estimates below as among those critical to our business operations and the understanding of our results of operations. These policies and estimates are considered critical due to the existence of uncertainty at the time the estimate is made, the likelihood of changes in estimates from period to period and the potential impact that these estimates can have on our financial statements. The following accounting policies and estimates include inherent risks and uncertainties related to judgments and assumptions made by us. Our estimates are based on the relevant information available at the end of each period.

Revenue Recognition

Lease Rental Income. We recognize revenue from operating leases of our owned containers as earned over the term of the lease. Where minimum lease payments vary over the lease term, revenue is recognized on a straight-line basis over the term of the lease. We cease recognition of lease revenue if and when a container lessee defaults in making timely lease payments or we otherwise determine that future lease payments are not likely to be collected from the lessee. Our determination of the collectability of future lease payments is made by management on the basis of available information, including the current creditworthiness of container shipping

lines that lease containers from us, historical collection results and review of specific past due receivables. If we experience unexpected payment defaults from our container lessees, we will cease revenue recognition for those leases, which will reduce container rental revenue. Finance lease income is recognized using the effective interest method, which generates a constant rate of interest over the period of the lease. The same risks of collectability discussed above apply to our collection of finance lease income. If we experience unexpected payment defaults under our finance leases, we will cease revenue recognition for those leases that will reduce finance lease income.

Our leases typically require the lessee to pay, at the end of the lease term, for any damage to the container beyond normal wear and tear. We also offer a DPP pursuant to which the lessee pays a fee over the term of the lease, primarily on a daily basis, in exchange for not being charged for certain damages at the end of the lease term. It is our policy to recognize these revenues as earned on a daily basis over the related term of the lease. We have not recognized revenue for customers who are billed at the end of the lease term under our DPP or for other lessees who do not participate in the DPP. Based on past history, there is uncertainty as to collectability of these amounts because the amounts due under the DPP are typically re-negotiated at the end of the lease term or when the lease term is extended.

Management Fee Revenue. We recognize revenue from management fees earned under management agreements on an as earned basis. Fees are typically calculated as a percentage of net operating income, which is revenue from the containers under management minus direct operating expense related to those containers. If a lessee of a managed container defaults in making timely lease payments or we otherwise determine that future lease payments are not likely to be collected from the lessee, then we will cease to record lease revenue, which in turn will result in reduced management fee revenue.

Accounting for Container Leasing Equipment

Accounting for container leasing equipment includes depreciation, impairment of held for use equipment and the impairment of containers held for sale.

Depreciation. When we acquire containers, we record the cost of the container on our balance sheet. We then depreciate the container over its estimated useful life (which represents the number of years we expect to be able to lease the container to shipping lines) to its estimated “residual value” (which represents the amount we estimate we will recover upon the sale or other disposition of the equipment at the end of its “useful life” as a shipping container). Our estimates of useful life are based on our actual experience with our fleet, and our estimates of residual value are based on a number of factors including disposal price history.

We review our depreciation policies, including our estimates of useful lives and residual values, on a regular basis to determine whether a change in our estimates of useful lives and residual values is warranted. Prior to July 1, 2008, we estimated that standard dry freight containers, which represent substantially all the containers in our fleet, have a useful life of 12 years and had residual values of \$850 for a 20’, \$950 for a 40’ and \$1,000 for a 40’ high cube. Beginning July 1, 2008, we changed our residual value estimates again to \$950 for a 20’, \$1,100 for a 40’ and \$1,200 for a 40’ high cube. Our change in residual value estimates was based on recent sales history and current market conditions for the sale of used containers, which we believe is currently the best indicator of the residual value we will realize. The effect of these changes has been and will continue to be a reduction in both depreciation expense and gains on sales of containers, net, as compared to what would have been reported using the previous estimates. We continue to estimate a container’s “useful life” in marine service to be 12 years from the first lease out date after manufacture.

If market conditions in the future warrant a further change of our estimates of the useful lives or residual values of our containers, we may be required to again recognize increased or decreased depreciation expense. A decrease in either the useful life or residual value of our containers would result in increased depreciation expense and decreased net income.

Impairment. We periodically evaluate our containers held for use to determine whether there has been any event that would cause the book value of our containers to be impaired based on the age and location of those containers. Any such impairment would be expensed in our results of operations. Impairment exists when the future undiscounted cash flows generated by an asset are estimated to be less than the net book value of that asset. If impairment exists, the containers are written down to their fair value. This fair value then becomes the containers' new cost basis and is depreciated over their remaining useful life in marine services to their estimated residual values. Any impairment charge would result in decreased net income.

Containers Held for Sale. We also evaluate all off-lease containers to determine whether the containers will be repaired and returned to service or sold based upon what we estimate will be the best economic alternative. If we designate a container as held for sale, depreciation on the container ceases, and the container is reported at the lower of (1) its recorded value or (2) the amount we expect to receive upon sale (less the estimated cost to sell the container). Any write-down of containers held for sale is reflected in our statement of operations as an expense. If a large number of containers are identified for sale or prices for used containers drop, impairment charges for containers held for sale may increase which would result in decreased net income.

Allowance for Doubtful Accounts

Our allowance for doubtful accounts is reviewed regularly by our management and is based on the risk profile of the receivables, credit quality indicators such as the level of past due amounts and economic conditions. Our credit committee meets regularly to assess performance of our container lessees and to recommend actions to be taken in order to reduce credit risks. Changes in economic conditions or other events may necessitate additions or deductions to the allowance for doubtful accounts. The allowance is intended to provide for losses inherent in the owned fleet's accounts receivable, and requires the application of estimates and judgments as to the outcome of collection efforts and the realization of collateral, among other things. If the financial condition of our container lessees were to deteriorate, reducing their ability to make payments, additional allowances may be required, which would decrease our net income or increase our net loss in the period of the adjustment.

Income Taxes

Deferred tax liabilities and assets are recognized for the expected future tax consequences of events that have been reflected in our consolidated financial statements. Deferred tax liabilities and assets are determined based on the differences between the book values and the tax basis of particular assets and liabilities, using tax rates in effect for the years in which the differences are expected to reverse. A valuation allowance would be recorded to reduce our deferred tax assets to an amount we determine is more likely than not to be realized, based on our analyses of past operating results, future reversals of existing taxable temporary differences and projected taxable income. Our analyses of future taxable income are subject to a wide range of variables, many of which involve estimates. Uncertainty regarding future events and changes in tax regulation could materially alter our valuation of deferred tax liabilities and assets. If we determine that we would not be able to realize all or part of our deferred tax assets in the future, we would record a valuation allowance and make a corresponding change to our earnings in the period in which we make such determination. If we later determine that we are more likely than not to realize our deferred tax assets, we would reverse the applicable portion of the previously provided valuation allowance.

In certain situations, a taxing authority may challenge positions adopted in our income tax filings. For transactions that we believe may be challenged, we may apply a different tax treatment for financial reporting purposes. We account for income tax positions by recognizing the effect of income tax positions only if those positions are more likely than not of being sustained. Recognized income tax positions are measured at the largest amount that is greater than 50% likely of being realized. Changes in the recognition or measurement are reflected in the period in which the change in judgment occurs.

Recent Accounting Pronouncements

The FASB issued Accounting Standards Update (“ASU”) 2009-16 (“ASU 2009-16”) *Transfers and Servicing (Topic 860)—Accounting for Transfers and Services of Financial Assets*, which formally codifies FASB Statement of Financial Accounting Standards (“SFAS”) No. 166, *Accounting for Transfers of Financial Assets—An Amendment of FASB Statement No. 140* that was issued in June 2009, into the FASB *Accounting Standards Codification*™ (“ASC”). The objective of ASU 2009-16 is to improve the relevance, representational faithfulness, and comparability of the information that a reporting entity provides in its financial statements about a transfer of financial assets; the effects of a transfer on its financial position, financial performance, and cash flows; and a transferor’s continuing involvement, if any, in transferred financial assets. ASU 2009-16 is effective for financial statements issued for years beginning after November 15, 2009, and for interim periods within those years. Earlier application is prohibited. The Company does not believe the adoption of ASU 2009-16 will have a material effect on the Company’s consolidated financial position, results of operations or cash flows.

The FASB issued ASU 2009-17 *Consolidations (Topic 810)—Improvements to Financial Reporting by Enterprises Involved with Variable Interest Entities*, which formally codifies FASB SFAS No. 167, *Amendments to FASB Interpretation No. 46(R)* that was issued in June 2009, into the FASB’s ASC. The objective of ASU 2009-17 is to improve financial reporting by companies involved with variable interest entities. ASU 2009-17 will require companies to perform an analysis to determine whether the companies’ variable interest or interests give it a controlling financial interest in a variable interest entity. ASU 2009-17 is effective for financial statements issued for years beginning after November 15, 2009, and for interim periods within those years. Earlier application is prohibited. The Company does not believe the adoption of ASU 2009-17 will have a material effect on the Company’s consolidated financial position, results of operations or cash flows.

In August 2009, the FASB issued ASU 2009-05, *Fair Value Measurements and Disclosures*. ASU 2009-05 provided amendments to ASC Topic 820-10, *Fair Value Measurements and Disclosures — Overall*, for the fair value measurement of liabilities. The purpose of ASU 2009-05 is to clarify that in circumstances in which a quoted price in an active market for the identical liability is not available, a reporting entity is required to measure fair value using a valuation technique that uses either the quoted price of the identical liability when traded as an asset, quoted prices for similar liabilities or similar liabilities when traded as assets, or another valuation technique that is consistent with the principles of ASC Topic 820 Fair Value Measurements and Disclosures. This guidance was effective upon issuance. There was no effect on the Company’s consolidated financial position, results of operations or cash flows from the adoption of this update.

The FASB issued ASU 2009-13 *Revenue Recognition (Topic 605)—Multiple-Deliverable Revenue Arrangements*, which formally codifies the FASB’s ratification in September 2009 of Emerging Issues Task Force (“EITF”) Issue No. 08-1, *Revenue Arrangements with Multiple Deliverable*. ASU 2009-13 updates the current guidance pertaining to multiple-element revenue arrangements included in the FASB’s ASC Topic 605-25 *Revenue Recognition —Multiple-Element Arrangements*, which originated primarily from EITF Issue No. 00-21, *Revenue Arrangements with Multiple Deliverables*. ASU 2009-13 will be effective for annual reporting periods beginning January 1, 2011 for calendar-year entities. The Company is currently assessing the impact of ASU 2009-13 on its consolidated financial position, results of operations or cash flows.

B. Liquidity and Capital Resources

As of December 31, 2009, we had cash and cash equivalents of \$56,819. Our principal sources of liquidity have been (1) cash flows from operations, (2) proceeds from the issuance of common shares in connection with our October 2007 initial public offering, (3) the sale of containers, (4) the issuance of variable rate amortizing bonds (the “2005-1 Bonds”) by one of our subsidiaries, TMCL, (5) borrowings under a conduit facility (which allows for recurring borrowings and repayments) granted to TMCL (the “Secured Debt Facility”) and (6) borrowings under the revolving credit facility extended to one of our subsidiaries, TL (the “2008 Credit

Facility”). As of December 31, 2009, we had the following outstanding borrowings and borrowing capacities under the 2008 Credit Facility, the Secured Debt Facility and the 2005-1 Bonds (in thousands):

Facility	Current Borrowing	Additional Borrowing Commitment	Total Commitment	Current Borrowing	Additional Available Borrowing, as Limited by our Borrowing Base	Total Current and Available Borrowing
2008 Credit Facility	\$ 79,000	\$ 126,000	\$ 205,000	\$ 79,000	\$ 26,386	\$ 105,386
2005-1 Bonds	278,958	—	278,958	278,958	—	278,958
Secured Debt Facility	330,000	145,000	475,000	330,000	141,867	471,867
Total	\$ 687,958	\$ 271,000	\$ 958,958	\$ 687,958	\$ 168,253	\$ 856,211

We have typically funded a significant portion of the purchase price of new containers through borrowings under our revolving credit facilities and our Secured Debt Facility and intend to continue to do so in the future. In 2001 and again in 2005, at such time as the Secured Debt Facility reached an appropriate size, the facility was refinanced through the issuance of bonds to institutional investors. We anticipate a similar refinancing at such time as the Secured Debt Facility reaches a balance of between \$450,000 and \$475,000. This timing will depend on our level of future purchases of containers.

Our cash inflows from operations are affected by the utilization rate of our fleet and the per diem rates of our leases, whereas the cash inflows from proceeds for the sale of containers are affected by market demand for used containers and our available inventory of containers for sale. Our cash outflows are affected by payments and expenses related to our purchasing of containers, interest on our debt obligations or other contingencies discussed in Note 13 “Commitments and Contingencies” to our consolidated financial statements included elsewhere in this Annual Report on Form 20-F, which may place demands on our short-term liquidity.

The recent disruption in the credit market has had a significant adverse impact on a number of financial institutions. To date, our liquidity has not been impacted by the current credit environment. Assuming that our lenders remain solvent, we currently believe that cash flow from operations, proceeds from the sale of containers and borrowing availability under our debt facilities are sufficient to meet our liquidity needs, including for the payment of dividends, for the next twelve months. We will continue to monitor our liquidity and the credit markets. However, we cannot predict with any certainty the impact to the Company of further disruptions in the credit environment.

Description of Indebtedness

2008 Credit Facility. TL has a credit agreement with Bank of America, N.A. and other lenders to provide it with a revolving credit facility in the amount of \$205,000 (the “2008 Credit Agreement”). The 2008 Credit Agreement also provides for a \$50,000 letter of credit facility included within the \$205,000 commitment (together, the “2008 Credit Facility”). The 2008 Credit Facility provides for payments of interest only during its term, beginning on its inception date through April 22, 2013, the Maturity Date. There is a commitment fee of 0.20% to 0.30% on the unused portion of the 2008 Credit Facility, which varies based on the leverage of TGH and is payable quarterly in arrears. In addition, there is an agent’s fee on the commitment amount, which is payable annually in advance.

Under the terms of the 2008 Credit Facility, the total outstanding principal amount available to be drawn there under is calculated pursuant to a formula based on a percentage of the net book value of our containers and our outstanding debt with respect thereto. Any outstanding letter of credit not cash collateralized will reduce the amount available in the form of cash borrowings under the 2008 Credit Facility. The 2008 Credit Facility provided a total commitment available in the amount of \$26,386 as of December 31, 2009.

The 2008 Credit Facility contains restrictive covenants, including limitations on certain liens, indebtedness and investments. In addition the 2008 Credit Facility contains certain restrictive financial covenants on TL and

TGH. The credit facility covenants require TGH to maintain (1) a minimum consolidated tangible net worth of \$268,068, plus 30% of consolidated net income after December 31, 2007, plus 100% of the increase in net worth resulting from the sale of any equity interests in TGH or any subsidiary thereof; (2) a consolidated leverage ratio of 3.50 to 1.00 or less; and (3) a minimum consolidated debt service ratio of 1.10 to 1.00. The credit facility covenants also require TL to maintain (1) a consolidated leverage ratio of 3.50 to 1.00 or less and (2) a minimum consolidated interest coverage ratio of 1.35 to 1.00. We were in compliance with all such covenants at December 31, 2009.

Interest on the borrowings under the 2008 Credit Facility at December 31, 2009 was based on either the U.S. prime rate or LIBOR plus a spread between 0.5% and 1.5%. As of December 31, 2009, \$79,000 was outstanding under the 2008 Credit Facility.

Although no repayment of the principal amount of outstanding borrowings is required until April 22, 2013, we may make optional prepayments prior to this date. Mandatory prepayments are required prior to the Maturity Date if the amount of outstanding loans and letters of credit exceeds the amount of the borrowing base. Any such prepayment will be in the amount required to reduce the amount of outstanding loans and letters of credit to the amount of the borrowing base.

The 2008 Credit Facility is secured by certain container-related assets of TL. Textainer Group Holdings Limited acts as a guarantor of the 2008 Credit Facility. The guaranty is secured by ordinary shares of TL, cash, assets readily convertible into cash and amounts due to us from our subsidiaries.

We have made certain representations and warranties in the 2008 Credit Agreement and are subject to certain reporting requirements and financial performance and other covenants. We are required to reaffirm certain representations and warranties as a condition to borrowing. If we are not able to do so, the committed borrowing amounts may not be available. The 2008 Credit Agreement restricts, among other things, our ability to consummate mergers, sell and acquire assets, make certain types of payments relating to our share capital, including dividends, incur indebtedness, permit liens on assets, make investments, enter into or amend certain contracts, enter into certain transactions with affiliates or negative pledge with respect to TMCL shares.

Events of default under the 2008 Credit Agreement include, among others:

- a default in required payment by TL or TGH on any indebtedness or guarantee in excess of \$15,000 (other than the 2008 Credit Facility and interest rate swap agreements);
- a material adverse change of the company;
- unsatisfied judgments against us that could result in a material adverse change or that equal at least \$15,000 to the extent not subject to a policy of insurance;
- failure of any of the security documents or a default under the guaranty;
- early termination of interest rate swap agreements by TGH or any of its subsidiaries or counterparties with a termination value owed by TGH or any of its subsidiaries in excess of \$5,000; and
- the occurrence of certain ERISA events.

Secured Debt Facility. TMCL has a securitization facility pursuant to which it has issued Floating Rate Asset Backed Notes, Series 2000-1 ("2000-1 Notes") with a total commitment of \$475,000 pursuant to the Third Amended and Restated Series 2000-1 Supplement, dated as of July 2, 2008 (the "2000-1 Supplement"), to its Second Amended and Restated Indenture, dated as of May 26, 2005 (as amended as of June 3, 2005, June 8, 2006 and July 2, 2008, the "Indenture"). Our primary ongoing container financing requirements are funded by commitments under the Secured Debt Facility. The Secured Debt Facility provided a total commitment in the amount of \$475,000 as of December 31, 2009. Of this amount, \$330,000 had been drawn on as of December 31, 2009.

Prior to the conversion date (currently defined as July 1, 2010), each of the 2000-1 Notes is a revolving note with a maximum principal amount equal to the amount of that 2000-1 Note. As a result, the amount funded under such 2000-1 Note may be less than the face amount of that 2000-1 Note. TMCL may request funding under the 2000-1 Notes from time to time prior to the conversion date. Each of the 2000-1 Notes provides for payments of interest only during the period from its inception until its conversion date. Given a conversion date of July 1, 2010, the first principal payment would be on July 15, 2010. However, we have the option of repaying principal of the 2000-1 Notes at any time. After the conversion date, the 2000-1 Notes fully amortize over a payment term that is scheduled to equal 10 years after the conversion date, but shall not exceed a maximum payment term of 15 years thereafter. We are currently assessing refinancing options for the 2000-1 Notes prior to or upon the conversion date and, if we are unable to refinance the 2000-1 Notes, it could limit our ability to grow our business.

Payments of interest on the 2000-1 Notes are due monthly in arrears. Interest on the outstanding amounts of the 2000-1 Notes equal LIBOR plus 1.25%. Overdue payments of principal and interest of the 2000-1 Notes accrue interest at a rate of 2.0% above the interest rate ordinarily applicable to such amounts. There is a commitment fee on the unused portion of the commitments under the 2000-1 Notes, which is payable in arrears.

Under the Indenture, TMCL, Textainer Equipment Management (“TEM”), one of TGH’s subsidiaries, and TGH must maintain certain financial covenants, including the following (i) TMCL must maintain at least a 1.10 to 1.00 ratio of earnings (before interest expense and taxes) to interest expense; (ii) TEM may not incur more than \$1,000 of consolidated funded debt (iii) TEM must make at least \$2,000 in after-tax profits annually and (iv) TGH must maintain a ratio of consolidated funded debt to consolidated tangible net worth that is no greater than 4.00 to 1.00. We were in compliance with these requirements at December 31, 2009.

2005-1 Bonds. TMCL has also issued \$580,000 in Floating Rate Asset Backed Notes, Series 2005-1 (“bonds”) pursuant to its Series 2005-1 Supplement, dated as of May 26, 2005, to the Indenture. The bonds are term notes. The bonds were purchased by various institutional investors.

Payments of principal and interest on the bonds are due monthly. The bonds fully amortize on a straight-line basis over a payment term that is scheduled to equal 10 years (with a target final payment date of May 15, 2015), but shall not exceed a maximum payment term of 15 years (with a legal final payment date of May 15, 2020). Under a 10-year amortization schedule, \$51,500 of principal of the bonds will amortize per year. The interest rate applicable to the bonds equals one-month LIBOR plus 0.25%. Overdue payments of principal and interest on the bonds accrue interest at a rate of 2.0% above the interest rate ordinarily applicable to such amounts. Ultimate repayment of the bonds has been insured by Ambac Assurance Corporation and the cost of this insurance coverage, which is equal to 0.275% on the outstanding principal balance of the 2005-1 Bonds, is recognized as incurred on a monthly basis.

The Secured Debt Facility and the bonds are both governed by the Indenture and are secured by a pledge of, among other things, TMCL’s containers, certain contracts related to TMCL’s containers and the securitization facility, certain bank accounts, proceeds from the operation of TMCL’s containers, and all other assets of TMCL to the extent that they relate to the containers. Under the terms of the Secured Debt Facility and the bonds, the total outstanding principal of these two programs may not exceed an amount that is calculated by a formula based on TMCL’s book value of equipment, restricted cash and direct financing and sales-type leases. The Secured Debt Facility and the bonds also contain restrictive covenants regarding the average age of TMCL’s container fleet, ability to incur other obligations and to distribute earnings, and overall asset base minimums, with which TMCL and TEM were in compliance at December 31, 2009.

We have made certain representations and warranties and are subject to certain reporting requirements and other covenants in connection with the Indenture and the Secured Debt Facility and bonds. In addition, we are required to reaffirm certain representations and warranties as a condition to borrowing. If we are not able to do so, the committed borrowing amounts may not be available. These covenants restrict, among other things,

TMCL's ability to transfer the collateral, permit liens on collateral, engage in activities within the U.S., incur indebtedness, make loans or guarantees, consummate mergers, sell assets, enter into or amend certain contracts, create subsidiaries and make investments. We were in compliance with all such covenants at December 31, 2009.

Events of default under the 2000-1 Notes and the bonds include, among others:

- invalidity of the lien on collateral;
- certain defaults under other documents related to each of the notes;
- the funded notes exceeding the asset base;
- payment on the notes by the insurer thereof;
- TMCL becoming obligated to register as an investment company under the Investment Company Act; and
- the occurrence of certain ERISA events.

Cash Flow

The following table summarizes historical cash flow information for the years ended December 31, 2009, 2008 and 2007:

	December 31,		
	2009	2008	2007
	(Dollars in thousands)		
Net income	\$ 105,330	\$ 93,922	\$ 84,594
Adjustments to reconcile net income to net cash provided by operating activities	(5,636)	42,487	57,238
Net cash provided by operating activities	99,694	136,409	141,832
Net cash used in investing activities	(61,420)	(231,902)	(253,906)
Net cash (used in) provided by financing activities	(53,058)	98,339	140,159
Effect of exchange rate changes	113	(803)	199
Net (decrease) increase in cash and cash equivalents	(14,671)	2,043	28,284
Cash and cash equivalents at beginning of year	71,490	69,447	41,163
Cash and cash equivalents at end of year	<u>\$56,819</u>	<u>\$ 71,490</u>	<u>\$ 69,447</u>

Operating Activities

Net cash provided by operating activities decreased \$36,715 (-26.9%) from 2008 to 2009 primarily due to a decrease in net income attributable to Textainer Group Holdings Limited common shareholders excluding unrealized gains (losses) on interest rate swaps, net and an increase in accounts receivable. Net cash provided by operating activities decreased \$5,423 (-3.8%) from 2007 to 2008 primarily due to larger payments to owners, partially offset by higher net income attributable to Textainer Group Holdings Limited common shareholders and improved working capital management.

Investing Activities

Net cash used in investing activities decreased \$170,482 (-73.5%) from 2008 to 2009 due to lower new container purchases and a decrease in proceeds from the sale of containers and fixed assets, partially offset by a higher receipt of principal payments on direct financing and sales-type leases and an increase in the purchase of intangible assets. Net cash used in investing activities decreased \$22,004 (-8.7%) from 2007 to 2008 due to the

purchase of additional shares of TMCL in 2007, a decrease in purchases of intangible assets and a decrease in proceeds from sales of containers, partially offset by a higher amount of container purchases and higher receipt of principal payments on direct financing and sales-type leases.

Financing Activities

Net cash (used in) provided by financing activities changed from net cash provided by financing activities of \$98,399 in 2008 to net cash used in financing activities of \$53,058 in 2009 primarily due to a \$140,300 decrease in net proceeds from our Secured Debt Facility, the extinguishment of 2005-1 Bonds for \$20,234 in 2009, a decrease in proceeds from our 2008 Credit Facility of \$5,500, a \$1,572 increase in dividends paid and a \$432 decrease in repayments of notes receivable from shareholders, partially offset by a \$9,521 decrease in restricted cash in 2009 compared to a \$635 decrease in restricted cash in 2008 and a \$3,017 decrease in debt issuance costs. Net cash provided by financing activities decreased \$41,820 (-29.8%) from 2007 to 2008 primarily due to proceeds, net of initial public offering expenses, of \$137,967 that we received in 2007 from the issuance of common shares in connection with our initial public offering in 2007, a \$635 decrease in restricted cash in 2008 compared to a \$5,247 decrease in restricted cash in 2007, a \$2,832 increase in debt issuance costs and a \$1,191 decrease in repayments of notes from shareholders, partially offset by a \$90,600 increase in net proceeds from our secured debt facility, a \$10,000 increase in net proceeds from our 2008 Credit Facility and a \$4,213 decrease in dividends paid.

C. Research and Development, Patents and Licenses, etc.

We do not carry out research and development activities and our business and profitability are not materially dependent upon any patents or licenses. We have registered “TEXTAINER,” “TEX” and “tex” (logo) in the U.S. Patent and Trademark Office and in the patent and trademark agencies of thirteen countries as trademarks.

D. Trend Information

Please see Item 5, “*Operating and Financial Review and Prospects – Tabular Disclosure of Contractual Obligations*” for a description of identifiable trends, demands, commitments, events or uncertainties that will result in, or that are reasonably likely to result in, our liquidity either increasing or decreasing at present or in the foreseeable future. We will require sufficient capital in the future to meet our payments and other obligations under our contractual obligations and commercial commitments. The need to make such payments is a “Trend” as it is unlikely that all such obligations will be eliminated from our future business activities. We intend to utilize cash on hand in order to meet our obligations under our contractual obligations and commercial commitments. It is likely that we will generate sufficient operating cash flow to meet these ongoing obligations in the foreseeable future. From time to time, we may issue additional debt in order to raise capital for future requirements.

E. Off-Balance Sheet Arrangements

At December 31, 2009 we had no off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, change in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that is material to investors.

F. Tabular Disclosure of Contractual Obligations

The following table sets forth our contractual obligations and commercial commitments by due date as of December 31, 2009:

	Payments Due by Period						
	Total	1 year	1-2 years	2-3 years	3-4 years	4-5 years	>5 years
(Dollars in thousands)							
(Unaudited)							
Total debt obligations:							
Secured Debt Facility	\$ 330,000	\$ 16,500	\$ 33,000	\$ 33,000	\$ 33,000	\$ 33,000	\$ 181,500
2005-1 Bonds	278,958	51,500	51,500	51,500	51,500	51,500	21,458
2008 Credit Facility	79,000	—	—	—	79,000	—	—
Interest obligation(1)	36,253	7,812	6,984	6,095	4,508	3,332	7,522
Interest rate swaps payable(2)	28,282	8,976	7,177	6,698	4,148	1,283	—
Office lease obligations	9,091	1,323	1,300	1,253	1,240	1,263	2,712
Trading container purchase commitments	3,575	3,575	—	—	—	—	—
Container purchase commitments	8,398	8,398	—	—	—	—	—
Container contracts payable	13,140	13,140	—	—	—	—	—
Total contractual obligations	\$786,697	\$111,224	\$99,961	\$98,546	\$173,396	\$90,378	\$213,192

- (1) Assuming an estimated current interest rate of LIBOR plus a margin, which equals an all-in interest rate of 1.16%.
- (2) Calculated based on the difference between our fixed contractual rates and the counterparties' estimated average LIBOR rate of 0.23%, for all periods, for all interest rate contracts outstanding as of December 31, 2009.

G. Safe Harbor

This Annual Report on Form 20-F contains forward-looking statements. See "Information Regarding Forward-Looking Statements; Cautionary Language."

ITEM 6. DIRECTORS, SENIOR MANAGEMENT AND EMPLOYEES

A. Directors and Senior Management

The following table sets forth information regarding our executive officers and directors as of March 17, 2010. Our board of directors is elected annually and each director holds office until his successor has been duly elected, except in the event of his death, resignation, removal or earlier termination of his office. Our bye-laws provide for, among other things, the election of our board of directors on a staggered basis. The business address of each of our executive officers is c/o Textainer Equipment Management (U.S.) Limited, 650 California Street, 16th Floor, San Francisco, California 94108. The business address for each of our non-management directors is Century House, 16 Par-La-Ville Road, Hamilton HM 08, Bermuda.

In accordance with our bye-laws, our board of directors are elected annually on a staggered basis, with each director holding office until his successor has been duly elected, except in the event of his death, resignation, removal or earlier termination of his office. John A. Maccarone, Dudley R. Cottingham, Hyman Shwiel and James E. Hoelter are designated Class III directors, to hold office until our 2010 annual general meeting of shareholders, Neil I. Jowell, Cecil Jowell, David M. Nurek and Hendrik R. van der Merwe are designated Class II directors, to hold office until our 2011 annual general meeting of shareholders and James A. Owens, Isam K. Kabbani and James E. McQueen are designated Class I directors, to hold office until our 2012 annual general meeting of shareholders. Thereafter, directors in each class will be elected for three-year terms. Directors may be re-elected when their term of office expires.

Trencor, through the Halco Trust and Halco, holds beneficiary interest in approximately 62.1% of our outstanding share capital. See Item 4, “*Information on the Company— Organizational Structure*” for an explanation of the relationship between us and Trencor. As indicated below, six of our directors are also directors of Trencor.

<u>Executive Officers and Directors</u>	<u>Age</u>	<u>Position</u>
Neil I. Jowell(1)(2)(3)(4)	76	Chairman
Dudley R. Cottingham(1)(2)(3)	58	Director
James E. Hoelter(1)(2)(3)(4)	70	Director
Cecil Jowell(4)	74	Director
Isam K. Kabbani	75	Director
John A. Maccarone	65	Director, President and Chief Executive Officer
James E. McQueen(1)(4)	65	Director
David M. Nurek(2)(3)(4)	60	Director
James A. Owens	70	Director
Hyman Shwiel(1)(2)(3)	65	Director
Hendrik R. van der Merwe(4)	62	Director
Philip K. Brewer	52	Executive Vice President
Robert D. Pedersen	50	Executive Vice President
Ernest J. Furtado	54	First Vice President, Senior Vice President, Chief Financial Officer & Secretary

- (1) Member of the audit committee. Messrs. Cottingham and Shwiel are voting members and Messrs. Hoelter, Neil Jowell and McQueen are non-voting members.
- (2) Member of the compensation committee.
- (3) Member of the nominating and governance committee.
- (4) Director of Trencor, the indirect beneficiary of a majority of our share interest.

Certain biographical information about each of these individuals is set forth below.

Directors

Neil I. Jowell has served as our director and chairman since December 1993. Mr. N. Jowell also serves on the board of directors of Trencor. He has been a director of Trencor since 1966, and was appointed chairman in 1973. He is also a director of Mobile Industries, and has served on its board of directors since 1969. Mr. N. Jowell has over 50 years experience in the transportation industry. He holds a M.B.A. from Columbia University and Bachelor of Commerce and L.L.B. degrees from the University of Cape Town. Mr. Neil I. Jowell and Mr. Cecil Jowell are brothers.

Dudley R. Cottingham has been a member of our board of directors and previously served as assistant secretary or secretary since December 1993. He has also served in the past as president of certain of our subsidiaries. Mr. Cottingham has over 30 years of experience in public accounting for a variety of international and local clients. He is a director and the audit committee chairman of Bermuda Press (Holdings) Ltd., a newspaper publishing and commercial printing company listed on the Bermuda Stock Exchange and is chairman of the listing committee of the Bermuda Stock Exchange. He has been a partner with Arthur Morris and Company, a provider of audit and accounting services for international clients, since 1982, and has served as vice president and director of Continental Management Ltd., a Bermuda company providing corporate representation, administration and management services, since 1982 and Continental Trust Corporation Ltd., a Bermuda company that provides corporate and individual trust administration services, since 1994. He is a partner in Grant Thornton and Morris Cottingham & Co. and a director of Caribbean Management Limited located in Grand Cayman, Cayman Islands and is a director of Morris, Cottingham & Co. Ltd. and their other group companies in Turks & Caicos Islands. Mr. Cottingham is a chartered accountant.

James E. Hoelter has been a member of our board of directors since December 1993 and was our president and chief executive officer from that time until his retirement in December 1998. Mr. Hoelter is a non-executive member of the board of directors of Trencor and a member of Trencor's audit committee. He is the president of Freightmasters Associates, Inc., a company that provides consulting services for the international freight carrying industry. Mr. Hoelter received a Bachelor of Business Administration degree from the University of Wisconsin and a M.B.A. from the Harvard Business School.

Cecil Jowell has been a member of our board of directors since March 2003. Mr. C. Jowell is also a director and chairman of Mobile Industries, a public company quoted on the JSE. Mr. C. Jowell has been a director of Mobile Industries since 1969 and was appointed chairman in 1973. Mobile Industries holds an approximately 46% interest in Trencor. Mr. C. Jowell is a non-executive director of Trencor and was an executive of Trencor for over 40 years. He has also served as a director and chairman of WACO International Ltd., an international industrial group previously listed on the JSE. Mr. C. Jowell holds a Bachelor of Commerce and L.L.B. degrees from the University of Cape Town and is a graduate of the Institute of Transport.

Isam K. Kabbani has been a member of our Board of Directors since December 1993. Mr. Kabbani is the Chairman and principal stockholder of the IKK Group, Jeddah, Saudi Arabia, a manufacturing, trading and construction group active both in Saudi Arabia and internationally. In 1959, Mr. Kabbani joined the Saudi Arabian Ministry of Foreign Affairs, and in 1960 moved to Ministry of Petroleum for a period of ten years. During this time, he was seconded to the Organization of Petroleum Exporting Countries ("OPEC"). After a period as Chief Economist of OPEC, in 1967 he became the Saudi Arabian member of OPEC's Board of Governors. In 1970, he left the Ministry of Petroleum to establish his own business starting with National Marketing, a small trading company in specialized building materials. The IKK Group has been for the past decade consistently among the largest 35 Saudi Companies. Mr. Kabbani holds a B.A. from Swarthmore College and a M.A. in Economics and International Relations from Columbia University.

John A. Maccarone has served as our president and chief executive officer since January 1999, and has been a member of our board of directors since December 1993. Mr. Maccarone is a member of the board of directors of the Institute of International Container Lessors, a trade association for the container and chassis leasing industry, and served as its chairman from January 2006 to December 2006. Mr. Maccarone co-founded Intermodal Equipment Associates, a marine container leasing company based in San Francisco, and held a variety of executive positions with the company from 1979 until 1987, when he joined the Textainer Group as president and chief executive officer of Textainer Equipment Management Limited, now a subsidiary of our company. From 1977 through 1978, Mr. Maccarone was director of marketing based in Hong Kong for Trans Ocean Leasing Corporation, a San Francisco-based company. From 1969 to 1976, Mr. Maccarone was a marketing representative for IBM Corporation in Chicago, Illinois. From 1966 to 1968, he served as a Lieutenant in the U.S. Army Corps of Engineers in Thailand and Virginia. Mr. Maccarone holds a B.S. in Engineering Management from Boston University and a M.B.A. from Loyola University of Chicago.

James E. McQueen has been a member of our board of directors since March 2003. Mr. McQueen joined Trencor in June 1976 and has served as financial director of Trencor since April 1984. Mr. McQueen is also a director of a number of Trencor's subsidiaries. Prior to joining Trencor, Mr. McQueen was an accountant in public practice. Mr. McQueen received a Bachelor of Commerce degree and a Certificate in the Theory of Accounting from the University of Cape Town and is a Chartered Accountant (South Africa).

David M. Nurek has been a member of our board of directors since September 2007. Mr. Nurek was appointed as an alternate director of Trencor in November 1992 and as a non-executive member of its board of directors in July 1995 and is chairman of Trencor's remuneration and nomination committees and a member of its audit committee. Mr. Nurek is an executive of Investec Bank Limited, a subsidiary of Investec Limited, which is listed on the JSE. Investec Limited has entered into a dual listed company structure with Investec plc, which is quoted on the London Stock Exchange (collectively, the "Investec Group"). He is the regional chairman of Investec Limited's various businesses in the Western Cape, South Africa, and is also the Investec Group's

worldwide head of legal risk. Prior to joining Investec Limited in June 2000, Mr. Nurek served as chairman of the South African legal firm Sonnenberg Hoffman & Galombik, which has since changed its name to Edward Nathan Sonnenbergs Inc. Mr. Nurek serves as a non-executive on the boards of directors of various listed and unlisted companies in South Africa and holds a Diploma in Law and a Graduate Diploma in Company Law from the University of Cape Town, and completed a Program of Instruction for Lawyers at Harvard Law School and a Leadership in Professional Services Firms program at Harvard Business School.

James A. C. Owens has served as a member of our board of directors since May 1998. Mr. Owens has served as an insurance broker and director of Foreign Business Indemnity Ltd. since 1988. He has also served as a senior consultant on international business for the Heath Lambert Group (Lloyd's Brokers) since November 2006. Mr. Owens has been associated with us (or our predecessor companies and affiliates) since 1980, and for a time represented one of our predecessor companies as a director of the Institute of International Container Lessors. He has for many years been, and continues to be, actively involved in insurance brokerage companies and captive insurance companies. He is a member of a number of boards of directors of non-U.S. companies, including Ferrosure (Isle of Man) Insurance Company Limited, a captive insurance subsidiary of a large international public company. Mr. Owens holds a Bachelor of Commerce degree from the University of South Africa.

Hyman Shwiel has been a member of our board of directors since September 2007. Mr. Shwiel was a partner in Ernst & Young LLP for 25 years. He served during that period in various roles, including Area Managing Partner and as National Director of Enterprise and Professional Risk. Upon his retirement in 2005, he became a consultant to Ernst & Young until 2007. Mr. Shwiel holds a C.T.A. and a M.B.A. from the University of Cape Town and is a Chartered Accountant (South Africa) and a CPA.

Hendrik Roux van der Merwe has been a member of our board of directors since March 2003. He is managing director of Trencor and a director of TrenStar, Inc. Mr. van der Merwe joined Trencor in 1997 and began serving as a director of Trencor in 1998. From 1991 to 1998, Mr. van der Merwe served as deputy chairman for Waco International Ltd., an international industrial group listed on the JSE with subsidiaries listed on the Sydney and London Stock Exchanges. From 1984 to 1991, he held various senior executive positions in the banking sector in South Africa, lastly as chief executive officer of Senbank, the corporate/merchant banking arm of Bankorp Group Ltd. Prior to entering the business world, Mr. van der Merwe practiced as an attorney at law in Johannesburg, South Africa. Mr. van der Merwe holds Bachelor of Arts and L.L.B degrees in Law from the University of Stellenbosch in South Africa, and a Master of Law in Tax Law from the University of the Witwatersrand in South Africa.

Executive Officers

For certain biographical information about John A. Maccarone, see "Directors" above.

Philip K. Brewer has served as our executive vice president since January 2006. He is responsible for managing our capital structure and identifying new sources of finance for our company, as well as overseeing the management and coordinating the activities of our risk management and resale divisions. Mr. Brewer was senior vice president of our asset management group from 1999 to 2005 and senior vice president of our capital markets group from 1996 to 1998. Prior to joining our company in 1996, Mr. Brewer worked at Bankers Trust starting in 1990 as a vice president and ending as a managing director and president of its Indonesian subsidiary. From 1989 to 1990, he was vice president in corporate finance at Jardine Fleming. From 1987 to 1989, he was capital markets advisor to the United States Agency for International Development in Indonesia. From 1984 to 1987, he was an associate with Drexel Burnham Lambert, an investment banking firm. Mr. Brewer holds a B.A. in Economics and Political Science from Colgate University and a M.B.A. in Finance from Columbia University.

Robert D. Pedersen has served as our executive vice president responsible for worldwide sales and marketing related activities and operations since January 2006. Mr. Pedersen was senior vice president of our

leasing group from 1999 to 2005. From 1991 to 1999, Mr. Pedersen held several positions within our company, and from 1978 through 1991, he worked in various capacities for Klinge Cool, a manufacturer of refrigerated container cooling units, XTRA, a container lessor, and Maersk Line, a container shipping line. Mr. Pedersen is a graduate of the A.P. Moller Shipping and Transportation Program and the Merkonom Business School in Copenhagen, where he majored in Company Organization.

Ernest J. Furtado has served as our first vice president, senior vice president, chief financial officer and secretary or assistant secretary since 1999. Prior to joining our company in 1991, Mr. Furtado was controller for Itel Instant Space, a container leasing company based in San Francisco, California, and manager of accounting for Itel Containers International Corporation, a container leasing company based in San Francisco, California. Mr. Furtado is a Certified Public Accountant and holds a B.S. in Business Administration from the University of California at Berkeley and a M.B.A. in Information Systems from Golden Gate University.

Board of Directors

Our board of directors currently consists of eleven members. Our bye-laws provide that our board of directors shall consist of five to twelve directors, as the board of directors may determine from time to time.

B. Compensation

The aggregate direct compensation we paid to our executive officers as a group (four persons) for the year ended December 31, 2009 was approximately \$3.2 million, which included approximately \$1.4 million in bonuses and approximately \$82 in funds set aside or accrued to provide for health and life insurance, retirement, or similar benefits. On November 18, 2009, our executive officers as a group were also granted 90,965 share options, with an exercise price of \$16.97 and an expiration date of November 17, 2019, and 90,965 restricted share units through our 2007 Share Incentive Plan. This amount does not include expenses we incurred for other payments, including dues for professional and business associations, business travel and other expenses. We did not pay our officers who also serve as directors any separate compensation for their directorship during 2009, other than reimbursements for travel expenses.

All of our full-time employees, including employees of our direct and indirect subsidiaries and dedicated agents and our executive officers, were eligible to participate in our 2009 Short Term Incentive Plan. Under that plan, all eligible employees received an incentive award based on their respective job classification and our return on assets and earnings per share. In 2009, each of our executive officers received 200% of his target incentive award.

The aggregate direct compensation we paid to our directors who are not officers for their services as directors as a group for the year ended December 31, 2009 was approximately \$543. Some directors were also reimbursed for expenses incurred in order to attend board or committee meetings.

2007 Share Incentive Plan

Our board of directors adopted the 2007 Share Incentive Plan on August 9, 2007, and our shareholders approved the 2007 Share Incentive Plan on September 4, 2007. The maximum number of common shares of Textainer Group Holdings Limited that may be granted pursuant to the 2007 Share Incentive Plan is 3,808,371 shares, representing 8% of the number of common shares issued and outstanding 45 days following our initial public offering on October 9, 2007, subject to adjustments for share splits, share dividends or other similar changes in our common shares or our capital structure. The shares to be issued pursuant to awards under the 2007 Share Incentive Plan may be authorized, but unissued, or reacquired common shares.

The 2007 Share Incentive Plan provides for the grant of share options, restricted shares, restricted share units, share appreciation rights and dividend equivalent rights, collectively referred to as “awards.” Share options

granted under the 2007 Share Incentive Plan may be either incentive share options under the provisions of Section 422 of the Code, or non-qualified share options. We may grant incentive share options only to our employees or employees of any parent or subsidiary of Textainer Group Holdings Limited. Awards other than incentive share options may be granted to our employees, directors and consultants or the employees, directors and consultants of any parent or subsidiary of Textainer Group Holdings Limited.

Our board of directors or a committee designated by our board of directors, referred to as the “plan administrator,” will administer the 2007 Share Incentive Plan, including selecting the award recipients, determining the number of shares to be subject to each award, determining the exercise or purchase price of each award and determining the vesting and exercise periods of each award. Awards under the plan may vest upon the passage of time or upon the attainment of certain performance criteria. The performance criteria established by the plan administrator may be based on any one of, or combination of, the following: (i) increase in share price, (ii) earnings per share, (iii) total shareholder return, (iv) operating margin, (v) gross margin, (vi) return on equity, (vii) return on assets, (viii) return on investment, (ix) operating income, (x) net operating income, (xi) pre-tax profit, (xii) cash flow, (xiii) revenue, (xiv) expenses, (xv) earnings before interest, taxes and depreciation, (xvi) economic value added and (xvii) market share.

The exercise price of all share options granted under the 2007 Share Incentive Plan will be at least equal to 100% of the fair market value of our common shares on the date of grant. If, however, incentive share options are granted to an employee who owns shares possessing more than 10% of the voting power of all classes of our common shares or the shares of any parent or subsidiary, the exercise price of any incentive share option granted must equal at least 110% of the fair market value on the grant date and the maximum term of these incentive share options must not exceed five years. The maximum term of all other awards under the 2007 Share Incentive Plan will be ten years. The base appreciation amount of any share appreciation right and the exercise price or purchase price, if any, of any awards intended to be performance-based compensation (within the meaning of Section 162(m) of the Code) will be at least equal to 100% of the fair market value of our common shares on the date of grant. The plan administrator will determine the term and exercise or purchase price of any other awards granted under the 2007 Share Incentive Plan.

Under the 2007 Share Incentive Plan, incentive share options may not be sold, pledged, assigned, hypothecated, transferred or disposed of in any manner other than by will or by the laws of descent or distribution and may be exercised during the lifetime of the participant only by the participant. Other awards shall be transferable by will or by the laws of descent or distribution and to the extent provided in the award agreement. The 2007 Share Incentive Plan permits the designation of beneficiaries by holders of awards, including incentive share options.

In the event a participant in the 2007 Share Incentive Plan terminates employment or is terminated by us (or by our parent or subsidiary) without cause, any options which have become exercisable prior to the time of termination will remain exercisable for three months from the date of termination (unless a shorter or longer period of time is determined by the plan administrator). In the event a participant in the 2007 Share Incentive Plan is terminated by us (or by our parent or subsidiary) for cause, any options which have become exercisable prior to the time of termination will immediately terminate. If termination was caused by death or disability, any options which have become exercisable prior to the time of termination, will remain exercisable for twelve months from the date of termination (unless a shorter or longer period of time is determined by the plan administrator). Unless an individual award agreement otherwise provides, all vesting of all other awards will generally terminate upon the date of termination.

Following the date that the exemption from application of Section 162(m) of the Code ceases to apply, the maximum number of common shares with respect to which options and share appreciation rights may be granted to a participant in any calendar year will be two million common shares. In connection with a participant’s commencement of service with us, a participant may be granted options and share appreciation rights for up to an additional two million common shares that will not count against the foregoing limitation. In addition and also

following the date that the exemption from application of Section 162(m) of the Code ceases to apply, for awards of restricted shares and restricted share units that are intended to be “performance-based compensation” (within the meaning of Section 162(m)), the maximum number of common shares with respect to which such awards may be granted to a participant in any calendar year will be two million common shares.

Subject to any required action by our shareholders, the number of common shares covered by outstanding awards, the number of common shares that have been authorized for issuance under the 2007 Share Incentive Plan, the exercise or purchase price of each outstanding award, the maximum number of common shares that may be granted subject to awards to a participant in any calendar year, and the like, shall be proportionally adjusted by the plan administrator in the event of any increase or decrease in the number of issued common shares resulting from certain changes in our capital structure as described in the 2007 Share Incentive Plan.

In the event of a corporate transaction or a change in control of Textainer Group Holdings Limited, all outstanding awards under the 2007 Share Incentive Plan will terminate unless the acquirer assumes or replaces such awards. In addition and except as otherwise provided in an individual award agreement, assumed or replaced awards will automatically become fully vested if a participant is terminated by the acquirer without cause within twelve months after a corporate transaction. In the event of a corporate transaction where the acquirer does not assume or replace awards granted under the 2007 Share Incentive Plan, all of these awards become fully vested immediately prior to the consummation of the corporate transaction. In the event of a change in control and except as otherwise provided in an individual award agreement, outstanding awards will automatically become fully vested if a participant is terminated by the acquirer without cause within twelve months after such change in control.

Under the 2007 Share Incentive Plan, a “corporate transaction” is generally defined as:

- acquisition of 50% or more of the common shares by any individual or entity including by tender offer;
- a reverse merger or amalgamation in which 40% or more of the common shares by an individual or entity is acquired;
- a sale, transfer or other disposition of all or substantially all of the assets of Textainer Group Holdings Limited;
- a merger, amalgamation or consolidation in which Textainer Group Holdings Limited is not the surviving entity; or
- a complete liquidation or dissolution.

Under the 2007 Share Incentive Plan, a “change in control” is generally defined as:

- acquisition of 50% or more of the common shares by any individual or entity which a majority of our board of directors (who have served on the board for at least 12 months) do not recommend that our shareholders accept, or
- a change in the composition of the board of directors as a result of contested elections over a period of 12 months or less.

Unless terminated sooner, the 2007 Share Incentive Plan will automatically terminate in 2017. The board of directors will have authority to amend or terminate the 2007 Share Incentive Plan. To the extent necessary to comply with applicable provisions of federal securities laws, state corporate and securities laws, the Code, the rules of any applicable stock exchange or national market system, and the rules of any non-U.S. jurisdiction applicable to awards granted to residents therein, we will obtain shareholder approval of any such amendment to the 2007 Share Incentive Plan in such a manner and to such a degree as required.

2008 Bonus Plan

On September 21, 2007, our board of directors approved the Textainer Group Holdings Limited 2008 Bonus Plan (the “Bonus Plan”). The Bonus Plan provides for incentive payments to our employees and those of our affiliates, including our dedicated agents and key executives who may be affected by Section 162(m) of the Internal Revenue Code of 1986, as amended (“Code”). Although the Bonus Plan permits the awards to be paid in shares, we expect that the awards will be cash-based. The Bonus Plan is designed to provide incentive awards based on the achievement of goals relating to our performance and the performance of our individual business units, and to qualify certain components of compensation paid to certain of our key executives for the tax deductibility exception under Code Section 162(m) while maintaining a degree of flexibility in the amount of incentive compensation paid to such individuals. Under the Bonus Plan, performance goals may relate to one or more of the following measures, for the company as a whole, a line of business, service or product: increase in share price, earnings per share, total shareholder return, operating margin, gross margin, return on equity, return on assets, return on investment, operating income, net operating income, pre-tax income, cash flow, revenue, expenses, earnings before interest, taxes and depreciation, economic value added, market share, corporate overhead costs, liquidity management, net interest income, net interest income margin, return on capital invested, shareholders’ equity, income before income tax expense, residual earnings after reduction for certain compensation expenses, net income, profitability of an identifiable business unit or product, or performance relative to a peer group of companies on any of the foregoing measures. The Bonus Plan replaced our 2007 Short Term Incentive Plan for the fiscal year beginning in 2008.

Code Section 162(m) generally disallows a Federal income tax deduction to any publicly held corporation for non-performance based compensation paid in excess of \$1,000,000 in any taxable year to the chief executive officer or any of the four other most highly compensated executive officers employed on the last day of the taxable year. We intend to structure awards under the Bonus Plan so that compensation resulting from awards would be qualified “performance based compensation” eligible for continued deductibility. The Bonus Plan will be administered by a committee to be appointed by our board of directors, which will select the employees who will be eligible to receive awards, the target pay-out level and the performance targets. The maximum performance award payable to any individual for any performance period is \$2,000,000. Each performance period will be a period of three years or less, as determined by the committee. The committee may establish programs under the Bonus Plan permitting select participants to defer receipt of awards.

Employment and Consulting Agreements with Executive Officers and Directors

We have entered into employment agreements with all of our executive officers. Each of these employment agreements contains provisions requiring us to make certain severance payments in case the executive officer is terminated without cause. The agreements terminate upon termination of employment. Employment is at-will for each of our executive officers and they may be terminated at any time for any reason.

We have entered into a management agreement with Halco, our majority shareholder, for provision of management services in connection with certain directors acting as representatives of Halco. In addition, in the past we have entered into consulting arrangements with Mr. Hoelter, one of our directors. Other than as disclosed above, none of our directors has service contracts with us or any of our subsidiaries providing for benefits upon termination of employment.

Indemnification Agreements

We have entered into separate indemnification agreements with our directors and senior management to give such directors and officers, as well as their immediate family members, additional contractual assurances regarding the scope of indemnification set forth in our bye-laws, and to provide additional procedural protections which may, in some cases, be broader than the specific indemnification provisions contained in our bye-laws. The indemnification agreements may require us, among other things, to indemnify such directors and officers, as

well as their immediate family members, against liabilities that may arise by reason of their status or service as directors or officers and to advance expenses as a result of any proceeding against them as to which they could be indemnified.

C. Board Practices

Our corporate governance practices are in compliance with, and are not prohibited by, the laws of Bermuda. Therefore, we are exempt from many of the New York Stock Exchange's ("NYSE") corporate governance practices, other than the establishment of a formal audit committee satisfying the requirements of Rule 10A-3 under the Exchange Act and notification of non-compliance with NYSE listing requirements. The practices that we follow in lieu of the NYSE's corporate governance rules are described below.

- We do not, and are not required under Bermuda law to, maintain a board of directors with a majority of independent directors. Currently, a majority of our directors are not independent, as that term is defined by the NYSE.
- We are not required by Bermuda law to hold regular meetings of the board of directors at which only independent directors are present.
- Under Bermuda law, compensation of executive officers does need to be determined by an independent committee. We have established a compensation committee that reviews and approves the compensation and benefits for our executive officers and other key executives, makes recommendations to the board regarding compensation matters and is responsible for awarding compensation to our executive officers and other employees under our share compensation plans. The committee also has the discretion to interpret and amend the terms of, and take all other actions necessary to administer, the 2007 Share Incentive Plan. However, our compensation committee is not comprised solely of independent directors. The members of our compensation committee are Messrs. Cottingham, Hoelter, Neil Jowell, Nurek and Shwiel. Messrs. Neil Jowell, Hoelter and Nurek are directors of Tencor.
- In accordance with NYSE rules, we have formed an audit committee responsible for advising the board regarding the selection of independent auditors and evaluating our internal controls. Our audit committee need not have three members and the members need not comply with the NYSE's standards of independence for domestic issuers. Our audit committee has five members, Messrs. Shwiel, Cottingham, Neil Jowell, McQueen and Hoelter. Messrs. Shwiel and Cottingham are voting members of the committee and are independent as that term is defined in Rule 10A-3 under the Exchange Act. The other three members are representatives of Tencor and have no voting rights.
- We have established a nominating and governance committee, although this committee is not comprised solely of independent directors, as would be required of a domestic issuer. Our board of directors has adopted a nominating and governance committee charter.
- Under Bermuda law, we are not required to obtain shareholder consent prior to issuing securities or adopting share compensation plans. However, we sought and received the approval of our shareholders for our 2007 Share Incentive Plan on September 4, 2007. We are also required under Bermuda law to obtain the consent of the Bermuda Monetary Authority for the issuance of securities in certain circumstances.
- Under Bermuda law, we are not required to adopt corporate governance guidelines or a code of business conduct. However, we have adopted both corporate governance guidelines and a code of business conduct.

D. Employees

As of December 31, 2009, we employed 155 people. We believe that our relations with our employees are good, and we are not a party to any collective bargaining agreements.

E. Share Ownership

See Item 7, “Major Shareholders and Related Party Transactions” for information regarding director and senior management ownership of our common shares.

ITEM 7. MAJOR SHAREHOLDERS AND RELATED PARTY TRANSACTIONS

A. Major Shareholders

The following table presents information regarding the beneficial ownership of our common shares as of March 8, 2010:

- each person or entity that we know beneficially owns more than 5% of our issued and outstanding shares;
- each director, director nominee and executive officer; and
- all of our directors, director nominees and executive officers as a group.

Beneficial ownership is determined in accordance with the rules of the SEC and generally includes any shares over which a person exercises sole or shared voting or investment power. The percentage of beneficial ownership of our common shares owned is based on 47,976,219 common shares issued and outstanding on March 8, 2010. We do not believe that we are directly or indirectly owned or controlled by any foreign government. The voting rights of our common shares held by major shareholders are the same as the voting rights of shares held by all other shareholders. We are unaware of any arrangement that might result in a change of control.

Holders	Number of Common Shares Beneficially Owned	
	Shares(1)	% (2)
5% or More Shareholders		
Halco Holdings Inc.(3)	29,778,802	62.1%
Trencor Limited(3)	29,778,802	62.1%
Executive Officers and Directors		
Dudley R. Cottingham	3,000	*
James E. Hoelter(4)	31,663,948	66.0%

Philip K. Brewer(13)	444,738	0.9%
Robert D. Pederson(14)	402,343	0.8%
Current directors and executive officers (14 persons) as a group	38,456,900	80.4%

* Less than 1%

(1) Beneficial ownership by a person assumes the exercise of all share options, warrants and rights held by such person.

(2) Percentage ownership is based on 47,976,219 shares outstanding as of March 8, 2010.

-
- (3) Includes 29,778,802 shares held by Halco Holdings Inc. (“Halco”). Halco is wholly owned by Halco Trust, a discretionary trust with a independent trustee. Tencor and certain of Tencor’s subsidiaries are the sole discretionary beneficiaries of Halco Trust. The protectors of the trust are Mr. Neil Jowell, the chairman of both our board of directors and the board of directors of Tencor, Mr. Cecil Jowell, Mr. McQueen and Mr. Nurek, all members of our board of directors and the board of directors of Tencor and Mr. Edwin Oblowitz, a member of the board of directors of Tencor.
 - (4) Includes 29,778,802 shares held by Halco, 101,244 shares held by the James E. Hoelter & Virginia S. Hoelter Trust, 986,156 shares held by the JEH-VSH Limited Partnership #1, and 797,746 shares held by the JEH-VSH Limited Partnership #2. The general partners of each of the partnerships are James and Virginia Hoelter. Mr. Hoelter is one of our directors and a member of the board of directors of Tencor. Mr. Hoelter disclaims beneficial ownership, except to the extent of his pecuniary interest therein, if any, of the shares held by Halco.
 - (5) Includes 29,778,802 shares held by Halco and 596,956 shares held by EA Finance, a company owned by a trust in which members of Mr. Cecil Jowell’s family are discretionary beneficiaries. Mr. Cecil Jowell is one of our directors, a director of Halco, a protector of the Halco Trust and a member of the board of directors of Tencor. In addition, Mr. Cecil Jowell has a significant ownership interest in Tencor both directly and indirectly, including indirectly through interests in Mobile Industries, which owns approximately 46% of Tencor. Mr. Cecil Jowell is also the chairman of Mobile Industries. Mr. Cecil Jowell disclaims beneficial ownership, except to the extent of his pecuniary interest therein, if any, of the shares held by EA Finance and Halco.
 - (6) Includes 29,778,802 shares held by Halco and 596,956 shares held by EA Finance, a company owned by a trust in which members of Mr. Neil Jowell’s family are discretionary beneficiaries. Mr. Neil Jowell is one of our directors, a protector of the Halco Trust and a member of the board of directors of Tencor. In addition, Mr. Neil Jowell has a significant ownership interest in Tencor both directly and indirectly, including indirectly through interests in Mobile Industries, which owned approximately 46% of Tencor as of December 31, 2009. Mr. Neil Jowell is also a director of Mobile Industries. Mr. Neil Jowell disclaims beneficial ownership, except to the extent of his pecuniary interest therein, if any, of the shares held by EA Finance and Halco.
 - (7) All shares are held by IKK Foundation, an affiliate of Mr. Kabbani.
 - (8) Includes 2,059,416 shares held by the Maccarone Family Partnership L.P., 87,430 shares held by the Maccarone Revocable Trust, 1,100 shares held by the Maccarone Charitable Trust, 1,000 shares held by the John Maccarone IRA Rollover and 350 shares held by the Bryan Maccarone UTMA. Also includes 183,232 restricted share units and 261,760 share options granted on October 9, 2007, 27,625 restricted share units and 32,500 share options granted on November 19, 2008 and 31,215 share restricted shares and 31,215 share options granted on November 18, 2009 under the 2007 Share Incentive Plan (the “2007 Plan”). Share options were awarded at an exercise price equal to the fair market value of our common shares on the grant date of \$16.50, \$7.10 and \$16.97 per share on October 9, 2007, November 19, 2008 and November 18, 2009, respectively. Options awarded on October 9, 2007, November 19, 2008 and November 18, 2009 expire on October 8, 2017, November 18, 2018 and November 17, 2019, respectively.
 - (9) All shares are held by Halco. Mr. McQueen is one of our directors, a director of Halco, a protector of the Halco Trust and a member of the board of directors of Tencor. Mr. McQueen disclaims beneficial ownership, except to the extent of his pecuniary interest therein, if any, of the shares held by Halco.
 - (10) All shares are held by Halco. Mr. Nurek is one of our directors, a protector of the Halco Trust and a member of the board of directors of Tencor. Mr. Nurek disclaims beneficial ownership, except to the extent of his pecuniary interest therein, if any, of the shares held by Halco.
 - (11) All shares are held by Halco. Mr. van der Merwe is one of our directors and a member of the board of directors of Tencor. Mr. van der Merwe disclaims beneficial ownership, except to the extent of his pecuniary interest therein, if any, of the shares held by Halco.

-
- (12) Includes 191,750 shares held by Ernest James Furtado and Barbara Ann Pelletreau, Trustees of the Furtado-Pelletreau 2003 Revocable Living Trust UDT dated November 28, 2003, 200 shares held by Ernest James Furtado as custodian for David Furtado UGMA, and 100 shares held by Ernest James Furtado as custodian for Michelle Pelletreau UGMA. Includes 49,000 restricted share units and 70,000 share options granted on October 9, 2007, 14,875 restricted share units and 17,500 share options granted on November 19, 2008 and 15,050 restricted share units and 15,050 share options granted on November 18, 2009 under the 2007 Plan. Share options were awarded at exercise prices equal to the fair market value of our common shares on the grant dates of \$16.50, \$7.10 and \$16.97 per share on October 9, 2007, November 19, 2008 and November 18, 2009, respectively. Options awarded on October 9, 2007, November 19, 2008 and November 18, 2009 expire on October 8, 2017, November 18, 2018 and November 17, 2019, respectively.
- (13) Includes 73,500 restricted share units and 52,500 share options granted on October 9, 2007, 22,100 restricted share units and 19,500 share options granted on November 19, 2008 and 22,350 restricted share units and 22,350 share options granted on November 18, 2009 under the 2007 Plan. Share options were awarded at exercise prices equal to the fair market value of our common shares on the grant date of \$16.50, \$7.10 and \$16.97 per share on October 9, 2007, November 19, 2008 and November 18, 2009, respectively. Options awarded on October 9, 2007, November 19, 2008 and November 18, 2009 expire on October 8, 2017, November 18, 2018 and November 17, 2019, respectively.
- (14) Includes 73,500 restricted share units and 52,500 share options granted on October 9, 2007, 22,100 restricted share units and 19,500 share options granted on November 19, 2008 and 22,350 restricted share units and 22,350 share options granted on November 18, 2009 under the 2007 Plan. Share options were awarded at exercise prices equal to the fair market value of our common shares on the grant date of \$16.50, \$7.10 and \$16.97 per share on October 9, 2007, November 19, 2008 and November 18, 2009, respectively. Options awarded on October 9, 2007, November 19, 2008 and November 18, 2009 expire on October 8, 2017, November 18, 2018 and November 17, 2019, respectively.

B. Related Party Transactions

We do not have a corporate policy regarding related party transactions, nor are there any provisions in our memorandum of association or bye-laws regarding related party transactions, other than the provision, as permitted by Bermuda law, that we, or one of our subsidiaries, may enter into a contract in which our directors or officers are directly or indirectly interested if the director or officer discloses his interest to our board of directors at the first opportunity at a meeting of directors or in writing.

Loans to Executive Officers

As permitted by Bermuda law, in the past, we have extended loans to our employees in connection with their acquisition of our common shares in accordance with our various employees' share schemes. As of December 31, 2008 and December 31, 2009, no amounts were outstanding on such loans to employees. Since January 1, 2007, the largest amount previously outstanding under any loan to an executive officer was \$336,573. Since January 1, 2007, we provided loans of \$56,000 to each of Mr. Brewer and Mr. Furtado on March 13, 2007 in connection with this program. Since January 1, 2007, Mr. Brewer had owed us up to \$336,573 (on March 14, 2007). Mr. Brewer paid off his entire remaining loan balance on July 16, 2007. As of January 1, 2007, we had no outstanding loans with Mr. Furtado and on March 23, 2007, he paid off the entire balance of the loan that we extended to him on March 13, 2007. Currently, there are no loans outstanding to our directors or executive officers, and we will not extend loans to our directors or executive officers in the future, in compliance with the requirements of Section 402 of the Sarbanes-Oxley Act of 2002 and Section 13(k) of the Securities Exchange Act of 1934, as amended. The interest rate on these loans to executive officers had been calculated annually on or about March 1 of each year at a rate equal to 0.5% per annum above our effective interest rate before tax.

Indemnification of Officers and Directors

We have entered into indemnification agreements with each of our directors and executive officers to give such directors and officers, as well as their immediate family members, additional contractual assurances regarding the scope of indemnification set forth in our bye-laws, and to provide additional procedural protections which may, in some cases, be broader than the specific indemnification provisions contained in our bye-laws. The indemnification agreements may require us, among other things, to indemnify such directors and officers, as well as their immediate family members, against liabilities that may arise by reason of their status or service as directors or officers and to advance expenses as a result of any proceeding against them as to which they could be indemnified.

Agreements with IKK Group

Textainer Equipment Management Limited has entered into a management agreement with IKK Foundation, related to Textainer Equipment Management Limited's management of containers owned by IKK Foundation. Director Isam Kabbani is the beneficial owner of IKK Foundation. In 2009, 2008 and 2007, we managed approximately 9,800 TEU (for which we received approximately \$146 in management fees), 9,800 TEU (for which we received approximately \$183 in management fees) and 10,200 TEU (for which we received approximately \$229 in management fees), respectively, for IKK Foundation.

Relationships and Agreements with Entities Related to Trencor Limited

Halco is wholly owned by Halco Trust, a discretionary trust with an independent trustee. Trencor and certain of Trencor's subsidiaries are the sole discretionary beneficiaries of Halco Trust. The protectors of the trust are Neil I. Jowell, Cecil Jowell, David Nurek and James McQueen, all of whom are members of our board of directors and the board of directors of Trencor. In addition, two of our directors, Cecil Jowell and James McQueen, are also members of the board of directors of Halco. Prior to our initial public offering, we paid approximately \$72,000 for the year ended December 31, 2007, to Halco as a management fee for the services of the directors who are representatives of Halco.

We have entered into an agreement with LAPCO, an associate of Halco, related to our management of containers owned by LAPCO. Pursuant to this agreement, LAPCO has the right, but not an obligation, to require us to purchase containers on its behalf, within guidelines specified in the agreement and for as long as the management agreement is in place. In 2009, 2008 and 2007, we received the following fees or commissions from LAPCO: (i) \$3,095, \$4,027 and \$4,743, respectively, in management fees, (ii) \$1,474, \$1,471 and \$1,258, respectively, in sales commissions and (iii) \$87, \$452 and \$287, respectively, in acquisition fees. In 2009, 2008 and 2007, fees received under the LAPCO agreement accounted for 8.3%, 6.9% and 9.2%, respectively, of total combined container management and container resale segment revenue and 2.0%, 2.1% and 2.5%, respectively, of total revenue. LAPCO is free to compete against us with respect to its investment in containers and uses our competitors to manage some of its containers.

Halco acquired 2,100,000 common shares in the Company's initial public offering at the initial public offering price. The underwriters did not receive any discount or commission on these shares. The common shares that were purchased by Halco in the offering are not freely tradable in the public market due to Halco's status as our "affiliate," as such term is defined in Rule 144 under the Securities Act. See Item 14. "*Material Modifications to the Rights of Security Holders and Use of Proceeds*" for further details on these trading restrictions.

Interests of Experts and Counsel

ITEM 8. FINANCIAL INFORMATION

A. Consolidated Statements and Other Financial Information

Financial Statements

Our audited consolidated financial statements which are comprised of our consolidated balance sheets as of December 31, 2009 and 2008 and the related consolidated statements of income, shareholders' equity and comprehensive income and cash flows for each of the years in the three-year period ended December 31, 2009 and the notes to those statements and the report of independent registered public accounting firm thereon, are included under Item 18, "Financial Statements" of this Annual Report on Form 20-F. Also, see Item 5, "Operating and Financial Review and Prospects" for additional financial information.

Legal Proceedings

See Item 4, "Information on the Company — Business Overview—Legal Proceedings" for information on our legal proceedings which may have, or have had in the recent past, significant effects on our financial position or profitability.

Dividend Policy

The following table summarizes dividends that we have declared and paid since January 1, 2007:

Date Declared	Dividend per Outstanding Common Share	Total Dividend
March 2007	\$ 0.52	\$ 20,267
May 2007	\$ 0.21	\$ 8,107
August 2007	\$ 0.23	\$ 8,686
November 2007(1)	\$ 0.20	\$ 9,521
February 2008(1)	\$ 0.21	\$ 9,997
May 2008(1)	\$ 0.22	\$ 10,473
August 2008(1)	\$ 0.23	\$ 10,949
November 2008(1)	\$ 0.23	\$ 10,949
February 2009(1)	\$ 0.23	\$ 10,985
May 2009(1)	\$ 0.23	\$ 10,985
August 2009(1)	\$ 0.23	\$ 10,985
November 2009(1)	\$ 0.23	\$ 10,985
February 2010(1)	\$ 0.23	\$ 11,035

(1) Represents dividends declared and paid after the completion of our initial public offering on October 15, 2007.

Our board of directors has adopted a dividend policy which reflects its judgment that our shareholders would be better served if we distributed to them, as quarterly dividends payable at the discretion of our board of directors, a portion of the cash generated by our business in excess of our expected cash needs, including cash needs for potential acquisitions or other growth opportunities, rather than retaining such excess cash or using such cash for other purposes. On an annual basis we expect to pay dividends with cash flow from operations, but due to seasonal or other temporary fluctuations in cash flow, we may from time to time use temporary short-term borrowings to pay quarterly dividends.

We are not required to pay dividends, and our shareholders will not be guaranteed, or have contractual or other rights, to receive dividends. The timing and amount of future dividends will be at the discretion of our board of directors and will be dependent on our future operating results and the cash requirements of our

business. There are a number of factors that can affect our ability to pay dividends and there is no guarantee that we will pay dividends in any given year. See Item 3, “*Key Information — Risk Factors*,” for a discussion of these factors. Our board of directors may decide, in its discretion, at any time, to decrease the amount of dividends, otherwise modify or repeal the dividend policy or discontinue entirely the payment of dividends.

In addition, we will not pay dividends in the event we are not allowed to do so under Bermuda law, are in default under (or such payment would cause a default under) our revolving credit facility, or if such payment would cause us to breach any of our covenants. These covenants include certain financial covenants, which would be directly affected by the payment of dividends, such as (i) a minimum tangible net worth level (which level would decrease by the amount of any dividend paid), (ii) a maximum ratio of consolidated funded debt to consolidated tangible net worth (which amount would decrease by the amount of any dividend paid) and (iii) a minimum ratio of certain income (which amount would decrease by the amount of any dividend paid) to current obligations. Please see Item 5, “*Operating and Financial Review and Prospects—Liquidity and Capital Resources*” for a description of these covenants. Furthermore, since we are a holding company, substantially all of the assets shown on our consolidated balance sheet are held by our subsidiaries. Accordingly, our earnings and cash flow and our ability to pay dividends are largely dependent upon the earnings and cash flows of our subsidiaries and the distribution or other payment of such earnings to us in the form of dividends.

B. Significant Changes

Except as disclosed in the Annual Report on Form 20-F, no significant changes have occurred since December 31, 2009, which is the date of our audited consolidated financial statements included in this Annual Report on Form 20-F.

ITEM 9. THE OFFER AND LISTING

A. Offer and Listing Details

Trading Markets and Price History

Our common shares have been listed on the New York Stock Exchange (“NYSE”) under the symbol “TGH” since October 10, 2007. Prior to that time, there was no public market for our common shares. The following table sets forth the high and low closing sale prices, as reported on the NYSE for our common shares for the periods indicated:

	High	Low
Annual Highs and Lows:		
Fiscal 2009	\$ 17.25	\$ 4.30
Fiscal 2008	\$ 22.35	\$ 6.36
Fiscal 2007	\$ 17.00	\$ 13.42
Quarterly Highs and Lows (Fiscal 2009):		
First quarter	\$ 10.45	\$ 4.30
Second quarter	\$ 12.81	\$ 6.50
Third quarter	\$ 16.09	\$ 10.31
Fourth quarter	\$ 17.25	\$ 14.75
Monthly Highs and Lows (over the most recent six month period):		
September 2009	\$ 16.09	\$ 13.84
October 2009	\$ 17.25	\$ 14.75
November 2009	\$ 16.97	\$ 14.51
December 2009	\$ 16.94	\$ 16.04
January 2010	\$ 17.04	\$ 14.72
February 2010	\$ 21.25	\$ 15.99

Transfer Agent

A register of holders of our common shares is maintained by Continental Management Limited in Bermuda and a branch register is maintained in the United States by Computershare Limited. The transfer agent and branch registrar for our common shares is Computershare Shareholder Services, Inc. and its fully owned subsidiary Computershare Trust Company, N.A., having its principal office at 250 Royall Street, Canton, MA 02021.

ITEM 10. ADDITIONAL INFORMATION**A. Share Capital**

Not applicable.

B. Memorandum and Articles of Association

We are an exempted company incorporated under the laws of Bermuda. We are registered with the Registrar of Companies in Bermuda under registration number EC18896. We were incorporated on December 3, 1993 under the name Textainer Group Holdings Limited. Our registered office is located at 16 Par-La-Ville Road, Hamilton HM HX Bermuda.

We incorporate by reference into this Annual Report on Form 20-F the description of our memorandum of association and our bye-laws contained in “Description of Share Capital” of our Registration Statement on Form F-1 filed with the SEC on September 26, 2007. Such information is a summary which does not purport to be complete and is qualified in its entirety by reference to our memorandum of association and our bye-laws, copies of which have been filed as Exhibits 3.1 and 3.2, respectively, to such Registration Statement.

C. Material Contracts

We have not entered into any material contracts during the two years immediately preceding the date of this Annual Report on Form 20-F other than contracts entered into in the ordinary course of business and other than those described in Item 4, “*Information on the Company—History and Development of the Company—Significant Events*” or elsewhere in this Annual Report on Form 20-F.

D. Exchange Controls

Trencor, a South African company listed on the JSE, has beneficiary interest in a majority of our share capital. Trencor currently has an indirect beneficiary interest in 62.1% of our issued and outstanding shares. South Africa's exchange control regulations provide for restrictions on exporting capital from South Africa. These restrictions require Trencor to obtain approval from South African exchange control authorities before engaging in transactions that would result in dilution of their share interest in us below certain thresholds, whether through their sale of their own shareholdings or through the approval of our issuance of new shares. The exchange control authorities may decide not to grant such approval if a proposed transaction were to dilute Trencor's beneficiary interest in us below certain levels. While the South African government has, to some extent, relaxed exchange controls in recent years, it is difficult to predict whether or how it will further relax or abolish exchange control measures in the future. The above requirements could restrict or limit our ability to issue new shares. In addition, Trencor is required to comply with JSE Listings Requirements in connection with its holding or sale of our common shares.

E. Taxation

The following discussion is a summary of the material Bermuda and U.S. federal income tax consequences of an investment in our common shares. This discussion is not exhaustive of all possible tax considerations. In particular, this discussion does not address the tax consequences under state, local, and other national (e.g., non-Bermuda and non-U.S.) tax laws. Accordingly, we urge you to consult your own tax advisor regarding your particular tax circumstances and the tax consequences under state, local, and other national tax laws. The following discussion is based upon laws and relevant interpretations thereof in effect as of the date hereof, all of which are subject to change, possibly with retroactive effect.

Bermuda Tax Consequences

The following is a summary of the material Bermuda tax consequences of an investment in our common shares. The following discussion is not exhaustive of all possible tax considerations. We urge you to consult your own tax advisor regarding your particular tax circumstances.

Taxation of the Companies

We and our Bermuda subsidiaries have obtained an assurance from the Bermuda Minister of Finance under the Exempted Undertakings Tax Protection Act 1966 that, if any legislation is enacted in Bermuda imposing any tax computed on profits on income, or computed on any capital asset, gain, or appreciation, or any tax in the nature of estate duty or inheritance tax, then such tax will not until March 28, 2016 be applicable to us or any of our operations, or to any of our shares, debentures, or other obligations, except insofar as such tax applies to persons ordinarily resident in Bermuda or is payable by us in respect of real property owned or leased by us in Bermuda. Given the limited duration of the Minister of Finance's assurance, we cannot be certain that we will not be subject to any Bermuda tax after March 28, 2016. As an exempted company, we are required to pay to the Bermuda government an annual fee presently not to exceed \$31, based on our assessable capital.

Taxation of Holders

Currently, there is no Bermuda income or profits tax, withholding tax, capital gains tax, capital transfer tax, estate duty or inheritance tax payable by our shareholders in respect of our common shares. The issue, transfer, or redemption of our common shares is not currently subject to stamp duty.

United States Federal Income Tax Consequences

The following is a summary of the material U.S. federal income tax consequences of an investment in our common shares. The following discussion is not exhaustive of all possible tax considerations. This summary is

based upon the Code, regulations promulgated under the Code by the U.S. Treasury Department (including proposed and temporary regulations), rulings, current administrative interpretations and official pronouncements of the IRS, and judicial decisions, all as currently in effect and all of which are subject to differing interpretations or to change, possibly with retroactive effect. Such change could materially and adversely affect the tax consequences described below. No assurance can be given that the IRS will not assert, or that a court will not sustain, a position contrary to any of the tax consequences described below.

This summary does not address all aspects of the U.S. federal income taxation that may be important to a particular holder in light of its investment or tax circumstances or to holders subject to special tax rules, such as: banks; financial institutions; insurance companies; dealers in stocks, securities, or currencies; traders in securities that elect to use a mark-to-market method of accounting for their securities holdings; tax-exempt organizations; real estate investment trusts; regulated investment companies; qualified retirement plans, individual retirement accounts, and other tax-deferred accounts; expatriates of the U.S.; persons subject to the alternative minimum tax; persons holding common shares as part of a straddle, hedge, conversion transaction, or other integrated transaction; persons who acquired common shares pursuant to the exercise of any employee share option or otherwise as compensation for services; persons actually or constructively holding 10% or more of our voting shares; and U.S. Holders (as defined below) whose functional currency is other than the U.S. dollar.

This discussion is not a comprehensive description of all of the U.S. federal tax consequences that may be relevant with respect to an investment in common shares. We urge you to consult your own tax advisor regarding your particular circumstances and the U.S. federal income and estate tax consequences to you of owning and disposing of common shares, as well as any tax consequences arising under the laws of any state, local, or foreign or other tax jurisdiction and the possible effects of changes in U.S. federal or other tax laws.

This summary is directed solely to persons who hold their common shares as capital assets within the meaning of Section 1221 of the Code, which includes property held for investment. For purposes of this discussion, the term “U.S. Holder” means a beneficial owner of common shares that is any of the following:

- a citizen or resident of the U.S. or someone treated as a U.S. citizen or resident for U.S. federal income tax purposes;
- a corporation (or other entity taxable as a corporation for U.S. federal income tax purposes) created or organized in or under the laws of the U.S., any state thereof, or the District of Columbia;
- an estate, the income of which is subject to U.S. federal income taxation regardless of its source;
- a trust if a U.S. court can exercise primary supervision over the trust’s administration and one or more U.S. persons have the authority to control all substantial decisions of the trust; or
- a trust in existence on August 20, 1996 that has a valid election in effect under applicable Treasury Regulations to be treated as a U.S. person.

The term “Non-U.S. Holder” means a beneficial owner of common shares that is not a U.S. Holder. As described in “—Taxation of Non-U.S. Holders” below, the tax consequences to a Non-U.S. Holder may differ substantially from the tax consequences to a U.S. Holder.

If a partnership (including for this purpose any entity treated as a partnership for U.S. federal income tax purposes) is a beneficial owner of common shares, the U.S. federal income tax consequences to a partner in the partnership will depend on the status of the partner and the activities of the partnership. A holder of common shares that is a partnership and the partners in such partnership should consult their own tax advisors regarding the U.S. federal income tax consequences of an investment in common shares.

Taxation of the Companies

Textainer and Non-U.S. Subsidiaries

A non-U.S. corporation deemed to be engaged in a trade or business within the U.S. is subject to U.S. federal income tax on income which is treated as effectively connected with the conduct of that trade or business. Such income tax, if imposed, is based on effectively connected income computed in a manner similar to the manner in which the income of a domestic corporation is computed, except that a foreign corporation will be entitled to deductions and credits for a taxable year only if it timely files a U.S. federal income tax return for that year. In addition, a non-U.S. corporation may be subject to the U.S. federal branch profits tax on the portion of its effectively connected earnings and profits, with certain adjustments, deemed repatriated out of the U.S. Currently, the maximum U.S. federal income tax rates are 35% for a corporation's effectively connected income and 30% for the branch profits tax.

A portion of our income is treated as effectively connected with the conduct of a trade or business within the U.S., and such effectively connected income is subject to U.S. federal income tax. U.S. federal income tax returns have been filed declaring such effectively connected income.

The determination of whether a person is engaged in a U.S. trade or business is based on a highly factual analysis. There is no direct guidance as to which activities constitute being engaged in a U.S. trade or business, and it is unclear how a court would construe the existing indirect authorities. Accordingly, it is possible that the IRS will conclude that our non-U.S. subsidiaries that are treated as corporations for U.S. federal income tax purposes are engaged in a U.S. trade or business and earn effectively connected income that is subject to U.S. federal income tax.

In addition to U.S. federal income tax on income associated with a U.S. trade or business, our non-U.S. subsidiaries are also subject to U.S. federal income tax imposed via 30% withholding on the gross amount of certain "fixed or determinable annual or periodic gains, profits and income" derived from sources within the U.S. (such as dividends and certain interest on investments), to the extent such amounts are not effectively connected income. This 30% U.S. withholding tax is subject to reduction by applicable treaties. Distributions by our U.S. subsidiaries to us and our non-U.S. subsidiaries are expected to be subject to this 30% U.S. withholding tax.

U.S. Subsidiaries

Our U.S. subsidiaries are subject to U.S. federal income tax at regular corporate rates on their worldwide income, regardless of its source, subject to reduction by allowable foreign tax credits.

Furthermore, any of our U.S. subsidiaries could be subject to additional U.S. tax on a portion of its income if it is considered to be a PHC for U.S. federal income tax purposes. A U.S. corporation will be classified as a PHC for U.S. federal income tax purposes in a given taxable year if (i) at any time during the last half of such taxable year, five or fewer individuals (without regard to their citizenship or residency) own or are deemed to own (pursuant to certain constructive ownership rules) more than 50% of the stock of the corporation by value; and (ii) at least 60% of the corporation's adjusted ordinary gross income, as determined for U.S. federal income tax purposes, for such taxable year consists of "personal holding company income." Personal holding company income includes, among other things, dividends, interest, royalties, annuities and, under certain circumstances, rents. The PHC rules do not apply to non-U.S. corporations.

If any of our U.S. subsidiaries is or becomes a PHC in a given taxable year, such corporation will be subject to an additional 15% tax on its "undistributed personal holding company income," which includes the company's taxable income, subject to certain adjustments. For taxable years beginning after December 31, 2010, the tax rate on "undistributed personal holding company income" is scheduled to increase to the highest marginal rate applicable to the ordinary income of individuals, which is currently 35%.

We believe that none of our U.S. subsidiaries should be considered PHCs except for one dormant and immaterial subsidiary that may be considered a PHC. In addition, we intend to cause our U.S. subsidiaries to manage their affairs in a manner that reduces the possibility that they will meet the 60% income threshold. However, because of the lack of complete information regarding our ultimate share ownership (i.e., particularly as determined by constructive ownership rules), we cannot assure you that none of our U.S. subsidiaries will become PHCs in the future, or that the amount of U.S. federal income tax that would be imposed would be immaterial.

Transfer Pricing

Under U.S. federal income tax laws, transactions among taxpayers that are owned or controlled directly or indirectly by the same interests generally must be at arm's-length terms. We consider the transactions among our subsidiaries and us to be at arm's-length terms. However, the IRS may distribute, apportion, or allocate gross income, deductions, credits, or allowances between or among such taxpayers if it determines that such transactions are not at arm's-length terms and that such distribution, apportionment, or allocation is necessary in order to clearly reflect the income of any of such taxpayers. In such a situation, we may incur increased tax liability, possibly materially, thereby reducing our profitability and cash flows.

Taxation of U.S. Holders

The discussion in “—Distributions on Common Shares” and “—Dispositions of Common Shares” below assumes that we will not be treated as a PFIC for U.S. federal income tax purposes. For a discussion of the rules that apply if we are treated as a PFIC, see the discussion in “—Passive Foreign Investment Company” below.

Distributions on Common Shares

General. Subject to the discussion in “—Passive Foreign Investment Company” below, if you actually or constructively receive a distribution on common shares, you must include the distribution in gross income as a taxable dividend on the date of your receipt of the distribution, but only to the extent of our current or accumulated earnings and profits, as calculated under U.S. federal income tax principles. Such amount must be included without reduction for any foreign taxes withheld. Dividends paid by us are not expected to be eligible for the dividends received deduction allowed to corporations with respect to dividends received from certain domestic corporations. Dividends paid by us may or may not be eligible for preferential rates applicable to qualified dividend income, as described below.

To the extent a distribution exceeds our current and accumulated earnings and profits, it will be treated first as a non-taxable return of capital to the extent of your adjusted tax basis in the common shares, and thereafter as capital gain. Preferential tax rates for long-term capital gain may be applicable to non-corporate U.S. Holders.

We do not intend to calculate our earnings and profits under U.S. federal income tax principles. Therefore, you should expect that a distribution will be reported as a dividend even if that distribution would otherwise be treated as a non-taxable return of capital or as capital gain under the rules described above.

Qualified Dividend Income. With respect to non-corporate U.S. Holders (i.e., individuals, trusts, and estates), for taxable years beginning before January 1, 2011, dividends that are treated as qualified dividend income (“QDI”) are taxable at a maximum tax rate of 15%. Among other requirements, dividends will be treated as QDI if either (i) our common shares are readily tradable on an established securities market in the U.S., or (ii) we are eligible for the benefits of a comprehensive income tax treaty with the U.S. which includes an information exchange program and which is determined to be satisfactory by the Secretary of the U.S. Treasury. The income tax treaty between the U.S. and Bermuda (the jurisdiction of our incorporation) does not qualify for these purposes. However, it is expected that our common shares are “readily tradable” as a result of being listed on the NYSE, although there can be no assurance that our common shares are “readily tradable” or will continue to be “readily tradable” in the future.

In addition, for dividends to be treated as QDI, we must not be a PFIC (as discussed below) for either the taxable year in which the dividend was paid or the preceding taxable year. We do not believe that we were a PFIC for our prior taxable year and we do not expect that we should be treated as a PFIC for our current taxable year. However, we can be treated as a PFIC. Please see the discussion under “—Passive Foreign Investment Company” below. Additionally, in order to qualify for QDI treatment, you generally must have held the common shares for more than 60 days during the 121-day period beginning 60 days prior to the ex-dividend date. However, your holding period will be reduced for any period during which the risk of loss is diminished.

Moreover, a dividend will not be treated as QDI to the extent you are under an obligation (whether pursuant to a short sale or otherwise) to make related payments with respect to positions in substantially similar or related property. Since the QDI rules are complex, you should consult your own tax advisor regarding the availability of the preferential tax rates for dividends paid on common shares.

In-Kind Distributions. Distributions to you of new common shares or rights to subscribe for new common shares that are received as part of a pro rata distribution to all of our shareholders will not be subject to U.S. federal income tax. The adjusted tax basis of the new common shares or rights so received will be determined by allocating your adjusted tax basis in the old common shares between the old common shares and the new common shares or rights received, based on their relative fair market values on the date of distribution. However, in the case of a distribution of rights to subscribe for common shares, the adjusted tax basis of the rights will be zero if the fair market value of the rights is less than 15% of the fair market value of the old common shares on the date of distribution and you do not make an election to determine the adjusted tax basis of the rights by allocation as described above. Your holding period for the new common shares or rights should include the holding period for the old common shares on which the distribution was made.

Foreign Tax Credits. Subject to certain conditions and limitations, any foreign taxes paid on or withheld from distributions from us and not refundable to you may be credited against your U.S. federal income tax liability or, alternatively, may be deducted from your taxable income. This election is made on a year-by-year basis and applies to all foreign taxes paid by you or withheld from you that year.

Distributions will constitute foreign source income for foreign tax credit limitation purposes. The foreign tax credit limitation is calculated separately with respect to two specific classes of income. For this purpose, distributions characterized as dividends distributed by us are expected to constitute “passive category income” or, in the case of certain U.S. Holders, “general category income.” Special limitations may apply if a dividend is treated as QDI (as defined above).

Special rules may apply to electing individuals whose foreign source income during the taxable year consists entirely of “qualified passive income” and whose creditable foreign taxes paid or accrued during the taxable year do not exceed \$0.3 (\$0.6 in the case of a joint return).

Since the rules governing foreign tax credits are complex, you should consult your own tax advisor regarding the availability of foreign tax credits in your particular circumstances.

Dispositions of Common Shares

Subject to the discussion in “—Passive Foreign Investment Company” below, you will recognize taxable gain or loss realized on the sale or other taxable disposition of common shares equal to the difference between the U.S. dollar value of (i) the amount realized on the disposition (i.e., the amount of cash plus the fair market value of any property received), and (ii) your adjusted tax basis in the common shares. Such gain or loss will be capital gain or loss.

If you have held the common shares for more than one year at the time of disposition, such capital gain or loss will be long-term capital gain or loss. Preferential tax rates for long-term capital gain (currently, with a

maximum rate of 15% for taxable years beginning before January 1, 2011) will apply to non-corporate U.S. Holders. If you have held the common shares for one year or less, such capital gain or loss will be short-term capital gain or loss taxable as ordinary income at your marginal income tax rate. The deductibility of capital losses is subject to limitations.

Any gain or loss recognized is not expected to give rise to foreign source income for U.S. foreign tax credit purposes.

You should consult your own tax advisor regarding the U.S. federal income tax consequences if you receive currency other than U.S. dollars upon the disposition of common shares.

Passive Foreign Investment Company

We will be a PFIC under Section 1297 of the Code if, for a taxable year, either (a) 75% or more of our gross income for such taxable year is passive income (the “income test”) or (b) 50% or more of the average percentage, generally determined by fair market value, of our assets during such taxable year either produce passive income or are held for the production of passive income (the “asset test”). “Passive income” includes, for example, dividends, interest, certain rents and royalties, certain gains from the sale of stock and securities, and certain gains from commodities transactions.

Certain “look through” rules apply for purposes of the income and asset tests described above. If we own, directly or indirectly, 25% or more of the total value of the outstanding shares of another corporation, we will be treated as if we (a) held directly a proportionate share of the other corporation’s assets, and (b) received directly a proportionate share of the other corporation’s income. In addition, passive income does not include any interest, dividends, rents, or royalties that are received or accrued by us from a “related person” (as defined in Section 954(d)(3) of the Code), to the extent such items are properly allocable to income of such related person that is not passive income.

Under the income and asset tests, whether or not we are a PFIC will be determined annually based upon the composition of our income and the composition and valuation of our assets, all of which are subject to change. In analyzing whether we should be treated as a PFIC, we are relying on our projected revenues and projected capital expenditures, the valuation of our assets, and our expected election to treat certain of our subsidiaries as disregarded entities for U.S. federal income tax purposes. If our actual revenues and capital expenditures do not match our projections, we may be a PFIC. For example, if we do not spend enough of the cash (a passive asset) we raise from any financing transactions we may undertake, the relative percentage of our passive assets will increase. In these calculations, we have valued our total assets based on our market capitalization, determined using the market price of our common shares. Such market price may fluctuate. If our market capitalization is less than anticipated or subsequently declines, this will decrease the value of our total assets and we may be a PFIC. Furthermore, we have made a number of assumptions regarding the value of our total assets. We believe our valuation approach is reasonable. However, it is possible that the IRS will challenge the valuation of our total assets, which may result in our being a PFIC.

We do not believe that we were a PFIC for our prior taxable year, we do not expect that we should be treated as a PFIC for our current taxable year and we intend to use reasonable efforts to avoid PFIC status. However, because the PFIC determination is highly fact intensive and made at the end of each taxable year, it is possible that we may be a PFIC for the current or any future taxable year or that the IRS may challenge our determination concerning our PFIC status.

Default PFIC Rules under Section 1291 of the Code. If we are a PFIC, the U.S. federal income tax consequences to a U.S. Holder of an investment in common shares will depend on whether such U.S. Holder makes an election to treat us as a qualified electing fund (“QEF”) under Section 1295 of the Code (a “QEF Election”) or a mark-to-market election under Section 1296 of the Code (a “Mark-to-Market Election”). A U.S. Holder owning common shares while we were or are a PFIC that has not made either a QEF Election or a Mark-to-Market Election will be referred to in this summary as a “Non-Electing U.S. Holder.”

If you are a Non-Electing U.S. Holder, you will be subject to the default tax rules of Section 1291 of the Code with respect to:

- any “excess distribution” paid on common shares, which means the excess (if any) of the total distributions received by you during the current taxable year over 125% of the average distributions received by you during the three preceding taxable years (or during the portion of your holding period for the common shares prior to the current taxable year, if shorter); and
- any gain recognized on the sale or other taxable disposition (including a pledge) of common shares.

Under these default tax rules:

- any excess distribution or gain will be allocated ratably over your holding period for the common shares;
- the amount allocated to the current taxable year and any period prior to the first day of the first taxable year in which we were a PFIC will be treated as ordinary income in the current year;
- the amount allocated to each of the other years will be treated as ordinary income and taxed at the highest applicable tax rate in effect for that year; and
- the resulting tax liability from any such prior years will be subject to the interest charge applicable to underpayments of tax.

In addition, notwithstanding any election you may make, dividends that you receive from us will not be eligible for the preferential tax rates applicable to QDI (as discussed above in “—Distributions on Common Shares”) if we are a PFIC either in the taxable year of the distribution or the preceding taxable year, but will instead be taxable at rates applicable to ordinary income.

Special rules for Non-Electing U.S. Holders will apply to determine U.S. foreign tax credits with respect to foreign taxes imposed on distributions on common shares.

If we are a PFIC for any taxable year during which you hold common shares, we will continue to be treated as a PFIC with respect to you for all succeeding years during which you hold common shares, regardless of whether we actually continue to be a PFIC. You may terminate this deemed PFIC status by electing to recognize gain (which will be taxed under the default tax rules of Section 1291 of the Code discussed above) as if your common shares had been sold on the last day of the last taxable year for which we were a PFIC.

If we are a PFIC in any year with respect to you, you will be required to file an annual return on IRS Form 8621 regarding distributions received on common shares and any gain realized on the disposition of common shares.

QEF Election. If you make a QEF Election, you generally will not be subject to the default rules of Section 1291 of the Code discussed above. Instead, you will be subject to current U.S. federal income tax on your pro rata share of our ordinary earnings and net capital gain, regardless of whether such amounts are actually distributed to you by us. However, you can make a QEF Election only if we agree to furnish you annually with certain tax information, and we currently do not intend to prepare or provide such information.

Mark-to-Market Election. U.S. Holders may make a Mark-to-Market Election, but only if the common shares are marketable stock. The common shares will be “marketable stock” as long as they remain listed on the NYSE and are regularly traded. Shares are “regularly traded” for any calendar year during which it is traded (other than in *de minimis* quantities) on at least fifteen days during each calendar quarter. There can be no assurances, however, that our common shares will be treated, or continue to be treated, as regularly traded.

If you make a Mark-to-Market Election, you generally will not be subject to the default rules of Section 1291 of the Code discussed above. Rather, you will be required to recognize ordinary income for any

increase in the fair market value of the common shares for each taxable year that we are a PFIC. You will also be allowed to deduct as an ordinary loss any decrease in the fair market value to the extent of net marked-to-market gain previously included in prior years. Your adjusted tax basis in the common shares will be adjusted to reflect the amount included or deducted.

The Mark-to-Market Election will be effective for the taxable year for which the election is made and all subsequent taxable years, unless the common shares cease to be marketable stock or the IRS consents to the revocation of the election. You should consult your own tax advisor regarding the availability of, and procedure for making, a Mark-to-Market Election.

Since the PFIC rules are complex, you should consult your own tax advisor regarding them and how they may affect the U.S. federal income tax consequences of an investment in common shares.

Information Reporting and Backup Withholding

Information reporting requirements will apply to distributions on common shares or proceeds from the disposition of common shares paid within the U.S. (and, in certain cases, outside the U.S.) to a U.S. Holder unless such U.S. Holder is an exempt recipient, such as a corporation. Furthermore, backup withholding (currently at 28%) may apply to such amounts unless such U.S. Holder (i) is an exempt recipient that, if required, establishes its right to an exemption, or (ii) provides its taxpayer identification number, certifies that it is not currently subject to backup withholding, and complies with other applicable requirements. A U.S. Holder may avoid backup withholding if it furnishes a properly completed IRS Form W-9 and is able to make the required certifications.

Backup withholding is not an additional tax. Rather, amounts withheld under the backup withholding rules may be credited against your U.S. federal income tax liability. Furthermore, you may obtain a refund of any excess amounts withheld by filing an appropriate claim for refund with the IRS and furnishing any required information in a timely manner.

Taxation of Non-U.S. Holders

Distributions on Common Shares

Subject to the discussion in “—Information Reporting and Backup Withholding” below, as a Non-U.S. Holder, you generally will not be subject to U.S. federal income tax, including withholding tax, on distributions received on common shares, unless the distributions are effectively connected with a trade or business that you conduct in the U.S. and (if an applicable income tax treaty so requires) attributable to a permanent establishment that you maintain in the U.S.

If distributions are effectively connected with a U.S. trade or business and (if applicable) attributable to a U.S. permanent establishment, you will be subject to tax on such distributions in the same manner as a U.S. Holder, as described in “Taxation of U.S. Holders – Distributions on Common Shares” above. In addition, any such distributions received by a corporate Non-U.S. Holder may also, under certain circumstances, be subject to an additional “branch profits tax” at a 30% rate or such lower rate as may be specified by an applicable income tax treaty.

Dispositions of Common Shares

Subject to the discussion in “—Information Reporting and Backup Withholding” below, as a Non-U.S. Holder, you generally will not be subject to U.S. federal income tax, including withholding tax, on any gain recognized on a sale or other taxable disposition of common shares, unless (i) the gain is effectively connected with a trade or business that you conduct in the U.S. and (if an applicable income tax treaty so

requires) attributable to a permanent establishment that you maintain in the U.S., or (ii) you are an individual and are present in the U.S. for at least 183 days in the taxable year of the disposition, and certain other conditions are met.

If you meet the test in clause (i) above, you generally will be subject to tax on any gain that is effectively connected with your conduct of a trade or business in the U.S. in the same manner as a U.S. Holder, as described in “Taxation of U.S. Holders—Dispositions of Common Shares” above. Effectively connected gain realized by a corporate Non-U.S. Holder may also, under certain circumstances, be subject to an additional “branch profits tax” at a 30% rate or such lower rate as may be specified by an applicable income tax treaty.

If you meet the test in clause (ii) above, you generally will be subject to tax at a 30% rate on the amount by which your U.S. source capital gain exceeds your U.S. source capital loss.

Information Reporting and Backup Withholding

Payments to Non-U.S. Holders of distributions on, or proceeds from the disposition of, common shares are generally exempt from information reporting and backup withholding. However, a Non-U.S. Holder may be required to establish that exemption by providing certification of non-U.S. status on an appropriate IRS Form W-8.

Backup withholding is not an additional tax. Rather, amounts withheld under the backup withholding rules may be credited against your U.S. federal income tax liability. Furthermore, you may obtain a refund of any excess amounts withheld by filing an appropriate claim for refund with the IRS and furnishing any required information in a timely manner.

G. Statement by Experts

Not applicable.

H. Documents on Display

Whenever a reference is made in this Annual Report on Form 20-F to any contract, agreement or other document, the reference may not be complete and you should refer to the copy of that contract, agreement or other document filed as an exhibit to one of our previous SEC filings. You can read our SEC filings over the Internet at the SEC’s website at <http://www.sec.gov>. You may also read and copy any document we file with the SEC at its public reference facilities at 100 F Street N.E., Washington, D.C. 20549. You may also obtain copies of these documents at prescribed rates by writing to the Public Reference Section of the SEC at 100 F Street N.E., Washington, D.C. 20549. Please call the SEC at 1-800-SEC-0330 for further information on the operation of the public reference facilities. Copies of reports and other information may also be inspected in the offices of the NYSE, 20 Broad Street, New York, New York 10005.

I. Subsidiary Information

Not applicable.

ITEM 11. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Market risk represents the risk of changes in value of a financial instrument, derivative or non-derivative, caused by fluctuations in foreign exchange rates and interest rates. Changes in these factors could cause fluctuations in our results of operations and cash flows. We are exposed to the market risks described below.

Foreign Exchange Rate Risk. Although we have significant foreign-based operations, the U.S. dollar is our primary operating currency. Thus, substantially all of our revenue and the majority of our expenses in 2009, 2008 and 2007 were denominated in U.S. dollars. For the years ended December 31, 2009, 2008 and 2007, 38%, 38% and 38%, respectively, of our direct container expenses were paid in 17 different foreign currencies for the year ended December 31, 2009 and 15 different foreign currencies for the years ended December 31, 2008 and 2007. We do not hedge these container expenses as there are no significant payments made in any one foreign currency and our contract with the Surface Deployment and Distribution Command ("SDDC") contains a provision to protect us from fluctuations in exchange rates for payments made in foreign currencies for services rendered under the SDDC contract. Foreign exchange fluctuations did not materially impact our financial results in those periods.

Interest Rate Risk. We have entered into various interest rate swap and cap agreements to mitigate our exposure associated with our variable rate debt. The swap agreements involve payments by us to counterparties at fixed rates in return for receipts based upon variable rates indexed to the London Inter Bank Offered Rate ("LIBOR"). The differentials between the fixed and variable rate payments under these agreements are recognized in realized (losses) gains on interest rate swaps and caps, net in the consolidated statement of income.

As of December 31, 2009, 2008 and 2007, none of the derivative instruments we have entered into qualify for hedge accounting. The fair value of the derivative instruments is measured at each of these balance sheet dates and the change in fair value is recorded in the consolidated statements of income as unrealized gains (losses) on interest rate swaps, net.

We utilize a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value into three broad levels. This hierarchy prioritizes the inputs into three broad levels as follows: Level 1 inputs which are observable inputs such as quoted prices (unadjusted) in active markets for identical assets or liabilities; Level 2 inputs which are inputs other than quoted prices that are observable for the asset or liability, either directly or indirectly, which include quoted prices for similar assets or liabilities in active markets and quoted prices for identical or similar assets or liabilities in markets that are not active; and Level 3 inputs which are unobservable inputs that reflect the reporting entity's own assumptions.

We use the exchange price notion, which is the price in an orderly transaction between market participants to sell an asset or transfer a liability in the market in which the reporting entity would transact for the asset or liability, that is, the principal or most advantageous market for the asset or liability. The transaction to sell the asset or transfer the liability is a hypothetical transaction at the measurement date, considered from the perspective of a market participant that holds the asset or owes the liability. Therefore, the definition focuses on the price that would be received to sell the asset or paid to transfer the liability (an exit price), not the price that would be paid to acquire the asset or received to assume the liability (an entry price).

We changed from measuring the fair value of its interest rate swaps under a Level 3 input to a Level 2 input during the three months ended June 30, 2009 because we began determining the fair value estimate using observable market inputs. In addition, our liability valuation reflects our credit standing and the credit standing of the counterparties to the interest rate swaps. The valuation technique we utilized to calculate the fair value of the interest rate swaps was the income approach. This approach represents the present value of future cash flows based upon current market expectations. The increase in the interest rate swap agreements' fair value liability during the year ended December 31, 2009 primarily reflects a decrease in rates in the future portion of the swaps' curves as of December 31, 2009.

The notional amount of the interest rate swap agreements was \$359,740 as of December 31, 2009, with expiration dates between January 2010 and December 2014. We receive fixed rates between 2.32% and 4.95% under the interest rate swap agreements. The net fair value liability of these agreements was \$8,240 and \$19,387 as of December 31, 2009 and 2008, respectively

The notional amount of the interest rate cap agreements was \$162,000 as of December 31, 2009, with expiration dates between March 2010 and November 2015.

Based on the debt balances and derivative instruments as of December 31, 2009, it is estimated that a 1% increase in interest rates would result in a decrease in the fair value of interest rate swaps of \$7,681, an increase in interest expense of \$6,836 and a decrease in realized losses on interest rate swaps, net of \$3,990.

Quantitative and Qualitative Disclosures About Credit Risk

We maintain detailed credit records about our container lessees. Our credit policy sets different maximum exposure limits for our container lessees. Credit criteria may include, but are not limited to, container lessee trade route, country, social and political climate, assessments of net worth, asset ownership, bank and trade credit references, credit bureau reports, including those from Dynamar B.V. or "Dynamar," and Lloyd's Marine Intelligence Unit (common credit reporting agencies used in the maritime sector), operational history and financial strength. We monitor our container lessees' performance and our lease exposures on an ongoing basis, and our credit management processes are aided by the long payment experience we have with most of our container lessees and our broad network of long-standing relationships in the shipping industry that provide current information about our container lessees. In managing this risk, we also make an allowance for doubtful accounts. The allowance for doubtful accounts is developed based on two key components:

- specific reserves for receivables which are impaired for which management believes full collection is doubtful; and
- reserves for estimated losses inherent in the receivables based upon historical trends.

As of December 31, 2009, approximately 95.8% of accounts receivable for our total fleet and 99.8% of the finance lease receivables were from container lessees and customers outside of the U.S. Customers in the PRC (including Hong Kong), France and Taiwan accounted for approximately 18.8%, 12.4% and 10.7%, respectively, of our total fleet container leasing revenue for the year ended December 31, 2009. Customers in no other country accounted for greater than 10.0% of our total fleet container leasing revenue for the same period. Total fleet container leasing revenue differs from our reported container rental revenue in that total fleet container leasing revenue comprises revenue earned from leases on containers in our total fleet, including revenue earned by our investors from leases on containers in our managed fleet, while our reported container revenue only comprises container leasing revenue associated with our owned fleet. We derive revenue with respect to container leasing revenue associated with our managed fleet from management fees based upon the operating performance of the managed containers.

Lease billings from our 25 largest container lessees represented \$317,334, or 74.7% of our total owned and managed fleet container lease billings for the year ended December 31, 2009, with lease billings from our single largest container lessee accounting for \$51,351, or 12.1% of our owned and managed fleet container lease billings during such period.

An allowance for doubtful accounts of \$8,347 has been established against receivables as of December 31, 2009 for our owned fleet. For the year ended December 31, 2009, receivable write-offs, net of recoveries, totaled \$2,492 for our owned fleet.

ITEM 12. DESCRIPTION OF SECURITIES OTHER THAN EQUITY SECURITIES

Not applicable.

PART II

ITEM 13. DEFAULTS, DIVIDEND ARREARAGES AND DELINQUENCIES

None.

ITEM 14. MATERIAL MODIFICATIONS TO THE RIGHTS OF SECURITY HOLDERS AND USE OF PROCEEDS

On October 15, 2007, we completed our initial public offering of our common shares at a price of \$16.50 per share and listed our common shares on the New York Stock Exchange under the symbol “TGH.” We sold an aggregate of 9,000,000 of our common shares and generated proceeds of \$138.0 million, after deducting underwriting discounts and other offering expenses. The managing underwriters of our initial public offering were Credit Suisse Securities (USA) LLC, Wachovia Capital Markets, LLC, Jefferies & Company, Inc., Piper Jaffray & Co. and Fortis Securities LLC.

The registration statement on Form F-1 (File No. 333-146304) filed by us in connection with our initial public offering was declared effective on October 9, 2007. The amount of expenses incurred by us in connection with the issuance and distribution of the registered securities totaled \$10.5 million, consisting of \$7.6 million for underwriting discounts and commissions, and approximately \$2.9 million for other expenses. None of the payments were direct or indirect payments to our directors, officers, general partners of our associates, persons owning 10% or more of any class of our shares, or any of our affiliates.

ITEM 15. CONTROLS AND PROCEDURES

A. Disclosure Controls and Procedures

Textainer’s Chief Executive Officer and Chief Financial Officer, after evaluating the effectiveness of our disclosure controls and procedures (as defined in Exchange Act Rule 13a-15(e)) as of December 31, 2009, have concluded that, as of such date, our disclosure controls and procedures were effective.

Disclosure controls are controls and procedures designed to reasonably assure that information required to be disclosed in our reports filed under the Exchange Act, such as this Annual Report on Form 20-F, is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission’s rules and forms. Disclosure controls are also designed to reasonably assure that this information is accumulated and communicated to our management, including the Chief Executive Officer and the Chief Financial Officer, to allow timely decisions regarding required disclosure.

B. Management’s Annual Report on Internal Control Over Financial Reporting

Textainer’s management, with oversight by the Board of Directors, is responsible for establishing and maintaining adequate internal control over financial reporting. Textainer’s internal control system was designed to provide reasonable assurance regarding the reliability of our financial reporting and the preparation and fair presentation of financial statements in accordance with generally accepted accounting principles in the United States.

Textainer’s management assessed the effectiveness of our internal control over financial reporting as of December 31, 2009. In making this assessment, management used the criteria established in *Internal Control—Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on this assessment, our management concluded that our internal control over financial reporting was effective as of December 31, 2009.

All internal control systems, no matter how well designed, have inherent limitations. Therefore, even those systems determined to be effective may not prevent or detect misstatements and can provide only reasonable assurance with respect to financial statement preparation and presentation. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

C. Report of the Registered Public Accounting Firm

Our internal controls over financial reporting as of December 31, 2009 have been audited by KPMG LLP, an independent registered public accounting firm, as stated in their report, which is included under Item 18, “*Financial Statements*” on page F-2 in this Annual Report on Form 20-F.

D. Changes in Internal Control Over Financial Reporting

There have been no changes in the Company’s internal control over financial reporting during the period covered by this Annual Report on Form 20-F that have materially affected, or are reasonably likely to materially affect, the Company’s internal control over financial reporting.

ITEM 16. [RESERVED]

ITEM 16A. AUDIT COMMITTEE FINANCIAL EXPERT

In accordance with New York Stock Exchange (“NYSE”) rules, we have an audit committee responsible for advising the board regarding the selection of independent auditors and evaluating our internal controls. As a foreign private issuer, we are not required to comply with NYSE requirements that our audit committee has a minimum of three members and that all of our audit committee members satisfy the NYSE’s requirements for independence. Our audit committee has five members, Messrs. Shwiel, Cottingham, Jowell, McQueen and Hoelter. Messrs. Shwiel and Cottingham are voting members of the audit committee and are independent as that term is defined in Rule 10A-3 under the Exchange Act. The board affirmatively determined that Mr. Shwiel and Mr. Cottingham are audit committee financial experts. The other three members (Messrs. Hoelter, Neil Jowell and McQueen) are representatives of Tencor and have no voting rights. Our board of directors has adopted an audit committee charter effective October 9, 2007.

ITEM 16B. CODE OF ETHICS

We have adopted the Textainer Group Holdings Limited Code of Business Conduct and Ethics (the “Code of Business Conduct and Ethics”), which covers members of our board of directors and all of our employees (including our principal executive officer, principal financial officer, principal accounting officer or controller, and persons performing similar functions).

The Code of Business Conduct and Ethics addresses, among other things, the following items:

- honest and ethical conduct, including the ethical handling of actual or apparent conflicts of interest between personal and professional relationships;
- full, fair, accurate, timely and understandable disclosure in reports and documents that we file with, or submit to, the Securities and Exchange Commission and in other public communications made by us;
- compliance with applicable governmental laws, rules and regulations
- the prompt internal reporting of violations of the code to an appropriate person or persons identified in the code; and
- accountability for adherence to the code.

During fiscal year 2009, no waivers or amendments were made to the Code of Business Conduct and Ethics for any of our directors or executive officers. We have posted the text of the Code of Business Conduct and Ethics on our website at www.textainer.com.

ITEM 16C. PRINCIPAL ACCOUNTANT FEES AND SERVICES

Our audit committee pre-approves all services provided by our principal accountants, KPMG LLP. All of the services and fees described below were reviewed and pre-approved by our audit committee. Our audit committee has delegated to the chairman of the audit committee certain limited authority to grant pre-approvals. These decisions to pre-approve a service must be presented to the full audit committee at its next scheduled meeting.

The following is a summary of the fees billed to us by our principal accountants for professional services rendered for the fiscal years ended December 31, 2009 and 2008:

<u>Fee Category</u>	<u>2009 Fees</u>	<u>2008 Fees</u>
Audit Fees	\$ 1,133	\$1,138
Tax Fees	19	10
All Other Fees	—	—
Total Fees	<u>\$1,152</u>	<u>\$1,148</u>

Audit Fees—Consists of fees billed for professional services rendered for the audit of our financial statements and services that are normally provided by our principal accountants in connection with statutory and regulatory filings or engagements.

Tax Fees—Consists of fees billed for professional services for tax compliance, tax advice and tax planning.

All Other Fees—Consists of fees for product and services other than the services reported above. KPMG LLP did not provide any other services to Textainer for the fiscal years ended December 31, 2009 or 2008.

ITEM 16D. EXEMPTIONS FROM THE LISTING STANDARDS FOR AUDIT COMMITTEES

We rely on the exemption afforded by Rule 10A-3(b)(1)(iv)(D) under the Exchange Act. Three of the five members of our audit committee (Messrs. Hoelter, Neil Jowell and McQueen) are directors of Trencor, which, together with certain of its subsidiaries, are the discretionary beneficiaries of a trust that indirectly owns a majority of our common shares. Each of Messrs. Hoelter, Neil Jowell and McQueen is neither a voting member or chairperson of our audit committee nor one of our executive officers. We believe that such reliance does not materially adversely affect the ability of the audit committee to act independently or to satisfy the other requirements of Rule 10A-3.

ITEM 16E. PURCHASES OF EQUITY SECURITIES BY THE ISSUER AND AFFILIATED PURCHASERS

None.

ITEM 16F. CHANGE IN REGISTRANT'S CERTIFYING ACCOUNTANT

None.

ITEM 16G. CORPORATE GOVERNANCE

Our corporate governance practices are in compliance with, and are not prohibited by, the laws of Bermuda. Therefore, we are exempt from many of the New York Stock Exchange's ("NYSE") corporate governance practices, other than the establishment of a formal audit committee satisfying the requirements of Rule 10A-3 under the Exchange Act and notification of non-compliance with NYSE listing requirements. The practices that we follow in lieu of the NYSE's corporate governance rules are described below.

- We do not, and are not required under Bermuda law to, maintain a board of directors with a majority of independent directors. Currently, a majority of our directors are not independent, as that term is defined by the NYSE.
- We are not required by Bermuda law to hold regular meetings of the board of directors at which only independent directors are present.
- Under Bermuda law, compensation of executive officers need not be determined by an independent committee. We have established a compensation committee that reviews and approves the compensation and benefits for our executive officers and other key executives, makes recommendations to the board regarding compensation matters and is responsible for awarding compensation to our executive officers and other employees under our share compensation plans. The committee also has the discretion to interpret and amend the terms of, and take all other actions necessary to administer, the 2007 Share Incentive Plan. However, our compensation committee is not comprised solely of independent directors. The members of our compensation committee are Messrs. Neil Jowell, Cottingham, Hoelter, Nurek and Shwiel. Messrs. Neil Jowell, Hoelter and Nurek are directors of Trencor. Our board of directors has also adopted a compensation committee charter.
- In accordance with NYSE rules, we have formed an audit committee responsible for advising the board regarding the selection of independent auditors and evaluating our internal controls. Our audit committee need not have three members and the members need not comply with the NYSE's standards of independence for domestic issuers. Our audit committee has five members, Messrs. Neil Jowell, Cottingham, Hoelter, McQueen and Shwiel. Messrs. Cottingham and Shwiel are voting members of the committee and are independent as that term is defined in Rule 10A-3 under the Exchange Act. The other three members are representatives of Trencor and have no voting rights. Our board of directors has also adopted an audit committee charter.
- We have established a nominating and governance committee, although this committee is not comprised solely of independent directors, as would be required of a domestic issuer. Our nominating and governance committee has five members, Messrs. Neil Jowell, Cottingham, Hoelter, Nurek and Shwiel. Our board of directors has also adopted a nominating and governance committee charter.
- Under Bermuda law, we are not required to obtain shareholder consent prior to issuing securities or adopting share compensation plans. However, we sought and received the approval of our shareholders for our 2007 Share Incentive Plan on September 4, 2007. We are also required under Bermuda law to obtain the consent of the Bermuda Monetary Authority for the issuance of securities in certain circumstances.
- Under Bermuda law, we are not required to adopt corporate governance guidelines or a code of business conduct. However, we have adopted both corporate governance guidelines and a code of business conduct.
- As a foreign private issuer, we are not required to solicit proxies or provide proxy statements to the NYSE. However, we have provided a proxy statement to the NYSE and expect to continue to do so in the future.

Report of Independent Registered Public Accounting Firm

The Board of Directors and shareholders
Textainer Group Holdings Limited:

We have audited the accompanying consolidated balance sheets of Textainer Group Holdings Limited and subsidiaries as of December 31, 2009 and 2008, and the related consolidated statements of income, shareholders' equity and comprehensive income, and cash flows for each of the years in the three-year period ended December 31, 2009. In connection with our audits of the consolidated financial statements, we have also audited financial statement schedules I and II. We also have audited Textainer Group Holdings Limited's internal control over financial reporting as of December 31, 2009, based on criteria established in *Internal Control—Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission ("COSO"). Textainer Group Holdings Limited's management is responsible for these consolidated financial statements, for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management's Annual Report on Internal Control Over Financial Reporting. Our responsibility is to express an opinion on the consolidated financial statements and financial statement schedules and an opinion on Textainer Group Holdings Limited's internal control over financial reporting based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement and whether effective internal control over financial reporting was maintained in all material respects. Our audits of the consolidated financial statements included examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audits also included performing such other procedures as we considered necessary in the circumstances. We believe that our audits provide a reasonable basis for our opinions.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Textainer Group Holdings Limited and subsidiaries as of December 31, 2009 and 2008, and the results of their operations and their cash flows for each of the years in the three-year period ended December 31, 2009, in conformity with U.S. generally accepted accounting principles. Also in our opinion, the related financial statement schedules, when considered in relation to the basic consolidated financial statements taken as a whole, presents fairly, in all material respects, the information set forth therein. Also in our opinion, Textainer Group Holdings Limited maintained, in all material respects, effective internal control over financial reporting as of December 31, 2009, based on criteria established in *Internal Control—Integrated Framework* issued by COSO.

As discussed in Note 1(v) to the consolidated financial statements, effective January 1, 2009 the Company adopted ASC Topic 810-10 *Noncontrolling Interests in Consolidated Financial Statements*. The adoption was retrospectively applied to all periods presented.

TEXTAINER GROUP HOLDINGS LIMITED AND SUBSIDIARIES

Notes to Consolidated Financial Statements
December 31, 2009, 2008, and 2007
(All currency expressed in U.S. dollars in thousands)

(1) Nature of Business and Summary of Significant Accounting Policies

(a) Nature of Operations

Textainer Group Holdings Limited ("TGH") is incorporated in Bermuda. TGH is the holding company of a group of corporations, Textainer Group Holdings Limited and subsidiaries (the Company), involved in the purchase, management, leasing and resale of a fleet of marine cargo containers. The Company manages and provides administrative support to the affiliated and unaffiliated owners (the "Owners") of the containers and structures and manages container leasing investment programs.

The Company conducts its business activities in four main areas: container ownership, container management, container resale and military management. These activities are described below (also see Note 12 "Segment Information").

The Company completed an initial public offering ("IPO") of its common shares at \$16.50 per share on October 15, 2007 and listed its common shares on the New York Stock Exchange under the symbol "TGH." The Company sold 9,000,000 common shares and generated proceeds of \$137,936, after deducting underwriting discounts and other offering expenses. The Company used a portion of the proceeds to repay borrowings of \$56,000 incurred in the Capital Transaction described in Note 8 "Intangible Assets."

Container Ownership

The Company's containers consist primarily of standard dry freight containers, but also include special-purpose containers. These containers are financed through reinvested earnings, a revolving credit facility and a secured debt facility provided by banks, and bonds payable to investors. Expenses related to lease rental income include direct container expenses, depreciation expense and interest expense.

Container Management

The Company manages, on a worldwide basis, a fleet of containers for and on behalf of the Owners.

All rental operations are conducted worldwide in the name of the Company who, as agent for the Owners, acquires and sells containers, enters into leasing agreements and depot service agreements, bills and collects lease rentals from the lessees, disburses funds to depots for container handling, and remits net amounts, less management fees and commissions, to the Owners. Revenues, customer accounts receivable, fixed assets, depreciation and other operating expenses, and vendor payables arising from direct container operations of the managed portion of the Owners' fleet have been excluded from the Company's financial statements.

Management fees are typically a percentage of net operating income of each Owner's fleet and consist of fees earned by the Company for services related to management of the containers, and net acquisition fees earned on the acquisition of containers. Expenses related to the provision of management services include general and administrative expense, short-term and long-term incentive compensation expense and amortization expense.

TEXTAINER GROUP HOLDINGS LIMITED AND SUBSIDIARIES

Notes to Consolidated Financial Statements—Continued
December 31, 2009, 2008, and 2007
(All currency expressed in U.S. dollars in thousands)

Container Resale

The Company buys and subsequently resells used containers (trading containers) from third parties. Container sales revenue represents the proceeds on the sale of containers purchased for resale. Cost of containers sold represents only the cost of equipment purchased for resale that were sold as well as the related selling costs. The Company earns sales commissions related to the sale of the containers that it manages.

Military Management

During June 2003, the Company entered into a management agreement to provide a management information system and source containers and related equipment for the U.S. military. In the event that containers are not available within the managed fleet, the Company will fulfill its obligations to this customer by subleasing containers and equipment from shipping lines and other leasing companies. The contract is renewable annually. Management fees earned from this contract for the years ended December 31, 2009, 2008 and 2007 were \$1,833, \$1,782 and \$1,731, respectively.

(b) Principles of Consolidation

The consolidated financial statements of the Company include TGH and all its subsidiaries. All material intercompany balances have been eliminated in consolidation.

The majority of the container equipment included in the accompanying consolidated financial statements is owned by Textainer Marine Containers Limited (“TMCL”) in which the Company held a 83.92% and 83.85% economic ownership as of December 31, 2009 and 2008, respectively. FB Transportation Capital LLC held the remaining 16.08% and 16.15% economic ownership as of December 31, 2009 and 2008, respectively.

(c) Cash and Cash Equivalents and Restricted Cash

Cash and cash equivalents is comprised of interest-bearing deposits or money market securities with original maturities of three months or less. The Company maintains cash and cash equivalents and restricted cash (see Note 13 “Commitments and Contingencies—Restricted Cash”) with various financial institutions. These financial institutions are located in the United States, Canada, Bermuda, Singapore, the United Kingdom, the Netherlands and Malaysia. A significant portion of the Company’s cash and cash equivalents and restricted cash is maintained with a small number of banks and, accordingly, the Company is exposed to the credit risk of these counterparties in respect of the Company’s cash and cash equivalents and restricted cash. Furthermore, the deposits maintained at some of these financial institutions exceed the amount of insurance provided on the deposits. Restricted cash is excluded from cash and cash equivalents and is included in long-term assets.

(d) Intangible Assets

Intangible assets, consisting primarily of exclusive rights to manage container fleets, are amortized over the expected life of the contracts based on forecasted income to the Company. The contract terms range from 11 to 13 years. The Company reviews its intangible assets for impairment if events and circumstances indicate that the carrying amount of the intangible assets may not be

TEXTAINER GROUP HOLDINGS LIMITED AND SUBSIDIARIES

Notes to Consolidated Financial Statements—Continued
December 31, 2009, 2008, and 2007
(All currency expressed in U.S. dollars in thousands)

recoverable. The Company compares the carrying value of the intangible assets to expected future undiscounted cash flows for the purpose of assessing the recoverability of the recorded amounts. If the carrying amount exceeds expected undiscounted cash flows, the intangible assets shall be reduced to their fair value.

(e) Lease Rental Income

Leasing income arises principally from the renting of containers owned by the Company to various international shipping lines. Revenue is recorded when earned according to the terms of the container rental contracts. These contracts are typically for terms of five years or less and are generally classified as operating leases.

Under long-term lease agreements, containers are usually leased from the Company for periods of three to five years. Such leases are generally cancelable with a penalty at the end of each 12-month period. Under master lease agreements, the lessee is not committed to leasing a minimum number of containers from the Company during the lease term and may generally return the containers to the Company at any time, subject to certain restrictions in the lease agreement. Under long-term lease and master lease agreements, revenue is earned and recognized evenly over the period that the equipment is on lease. Under direct finance and sales-type leases, the containers are usually leased from the Company for the remainder of the container's useful life with a bargain purchase option at the end of the lease term. Revenue is earned and recognized on direct finance leases over the lease terms so as to produce a constant periodic rate of return on the net investment in the leases. Under sales-type leases, a gain or loss is recognized at the inception of the leases by subtracting the book value of the containers from the estimated fair value of the containers and the remaining revenue is earned and recognized over the lease terms so as to produce a constant periodic rate of return on the net investment in the leases.

Container leases do not include step-rent provisions or lease concessions, nor do they depend on indices or rates.

The following is a schedule, by year, of future minimum lease payments receivable under the long-term leases as of December 31, 2009:

Year ending December 31:	
2010	\$ 65,130
2011	50,143
2012	34,737
2013	19,265
2014 and thereafter	27,153
Total future minimum lease payments receivable	<u>\$ 196,428</u>

The Company maintains allowances for doubtful accounts for estimated losses resulting from the inability of its lessees to make required payments. These allowances are based on management's current assessment of the financial condition of the Company's lessees and their ability to make their required payments. If the financial condition of the Company's lessees were to deteriorate, resulting in an impairment of their ability to make payments, additional allowances may be required.

TEXTAINER GROUP HOLDINGS LIMITED AND SUBSIDIARIES

Notes to Consolidated Financial Statements—Continued
December 31, 2009, 2008, and 2007
(All currency expressed in U.S. dollars in thousands)

(f) Direct Container Expense

Direct container expense represents the operating costs arising from the containers owned by the Company and includes storage, handling, maintenance, Damage Protection Plan (“DPP”) repair, agent and insurance expense.

(g) Containers Held for Resale

The Company, through one or more of its subsidiaries, buys trading containers for resale, which are valued at the lower of cost or market value. The cost of trading containers sold is specifically identified.

(h) Foreign Currencies

A functional currency is determined for each of the entities within the Company based on the currency of the primary economic environment in which the entity operates. The Company’s functional currency, excluding its foreign subsidiaries, is the U.S. dollar. Assets and liabilities denominated in a currency other than the entity’s functional currency are re-measured into its functional currency at the balance sheet date with a gain or loss recognized in current year net income. Foreign currency exchange gains and losses that arise from exchange rate changes on transactions denominated in a foreign currency are recognized in net income as incurred. Foreign currency exchange gains (losses), reported in Other, net in the consolidated statements of income were \$38, \$17, and \$183 for the years ended December 31, 2009, 2008 and 2007, respectively. For consolidation purposes, the financial statements are then translated into U.S. dollars using the current exchange rate for the assets and liabilities and a weighted average exchange rate for the revenues and expenses recorded during the year with any translation adjustment shown as an element of accumulated other comprehensive income (loss).

(i) Containers and Fixed Assets

Capitalized container costs include the container cost payable to the manufacturer and the associated transportation costs incurred in moving the containers from the manufacturer to the containers’ first destined port. Containers purchased new are depreciated using the straight-line method over their estimated useful lives of 12 years to an estimated dollar residual value. Containers purchased used are depreciated based upon their remaining useful lives at the date of acquisition to an estimated dollar residual value. The Company evaluates the estimated residual values and remaining estimated useful lives on an ongoing basis. During several years prior to the year ended December 31, 2009, the Company experienced a significant increase in resale prices, as a result of (i) a lower number of containers available for sale due to higher utilization and (ii) the increased cost of new containers. Based on this extended period of higher container resale values and an expectation that new equipment prices will remain near current levels, the Company increased the estimated future residual values of its containers during 2008. These increases in residual values caused a decrease in depreciation expense of \$7,200 (\$6,984 after tax or \$0.15 per diluted share) for the year ended December 31, 2008. No such adjustment of residual values was necessary for the year ended December 31, 2009 and these newest residual values were used for the year ended December 31, 2009. Depreciation expense may fluctuate in future periods based on fluctuations in these estimates.

Fixed assets are recorded at cost and depreciated on a straight-line basis over the estimated useful lives of the assets, ranging from three to seven years.

TEXTAINER GROUP HOLDINGS LIMITED AND SUBSIDIARIES

Notes to Consolidated Financial Statements—Continued
December 31, 2009, 2008, and 2007
(All currency expressed in U.S. dollars in thousands)

The Company reviews its containers and fixed assets for impairment whenever events or circumstances indicate that the carrying amount may not be recoverable. The Company compares the carrying value of the containers to expected future undiscounted cash flows for the purpose of assessing the recoverability of the recorded amounts. If the carrying value exceeds expected future undiscounted cash flows, the assets are reduced to fair value. In addition, containers identified as being available for sale are valued at the lower of carrying value or fair value, less costs to sell.

The Company has evaluated the recoverability of the recorded amount of container rental equipment at December 31, 2009 and 2008, and determined that a reduction in the carrying values of containers held for continued use was not required, but a write-down in the value of certain containers identified for sale was required.

During the years ended December 31, 2009, 2008 and 2007, the Company recorded impairments of \$1,973, \$546 and \$566, which are included in depreciation expense in the accompanying consolidated statements of income, to write down the value of 11,958, 2,671 and 2,552 containers identified for sale, respectively, to their estimated fair value. The fair value was estimated based on recent gross sales proceeds. When containers are retired or otherwise disposed of, the cost and related accumulated depreciation are removed from the accounts and any resulting gain or loss is recognized. At December 31, 2009 and 2008, the carrying value of 3,156 and 451 containers identified for sale included impairment charges of \$628 and \$73, respectively. The carrying value of these containers identified for sale amounted to \$2,851 and \$418 as of December 31, 2009 and 2008, respectively, and is included in Containers, net on the consolidated balance sheets.

During the years ended December 31, 2009, 2008 and 2007, the Company recorded the following net gain on sales of containers:

	2009		2008		2007	
	Units	Amount	Units	Amount	Units	Amount
Gain on sales of previously written down containers, net	9,221	\$ 1,140	2,585	\$ 1,339	3,004	\$ 1,415
Gain on sales of containers not written down, net	33,650	10,210	27,526	14,308	34,491	12,129
Gain on sales of containers, net	42,871	\$ 11,350	30,111	\$ 15,647	37,495	\$ 13,544

If other containers are subsequently identified as available for sale, the Company may incur additional write-downs or may incur losses on the sale of these containers if they are sold. The Company will continue to evaluate the recoverability of recorded amounts of containers and a write-down of certain containers held for continued use and/or an increase in its depreciation rate may be required in future periods for some or all containers.

(j) *Income Taxes*

The Company uses the asset and liability method to account for income taxes. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and operating loss. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered.

TEXTAINER GROUP HOLDINGS LIMITED AND SUBSIDIARIES

Notes to Consolidated Financial Statements—Continued
December 31, 2009, 2008, and 2007
(All currency expressed in U.S. dollars in thousands)

or settled. The effect on deferred tax assets and liabilities of a change in the tax rates is recognized in income in the period that includes the enactment date. A valuation allowance is recorded when the realization of a deferred tax asset is unlikely.

The Company also accounts for income tax positions by recognizing the effect on income tax positions only if those positions are more likely than not of being sustained. Recognized income tax positions are measured at the largest amount that is greater than 50% likely of being realized. Changes in the recognition or measurement are reflected in the period in which the change in judgment occurs. If there are findings in future regulatory examinations of the Company's tax returns, those findings may result in additional income tax expense.

The Company records interest and penalties related to unrecognized tax benefits in income tax expense.

(k) Maintenance and Repair Expense and Damage Protection Plan

The Company's leases generally require the lessee to pay for any damage to the container beyond normal wear and tear at the end of the lease term. The Company offers a DPP to certain lessees of its containers. Under the terms of the DPP, the Company charges lessees an additional amount primarily on a daily basis and the lessees are no longer obligated for certain future repair costs for containers subject to the DPP. It is the Company's policy to recognize these revenues as earned on a daily basis over the related term of its lease. The Company has not recognized revenue and related expense for customers who are billed at the end of the lease term under the DPP or for other lessees who do not participate in the DPP. Based on past history, there is uncertainty as to collectability of these amounts from lessees who are billed at the end of the lease term because the amounts due under the DPP are typically re-negotiated at the end of the lease term or the lease term is extended. The Company uses the direct expense method of accounting for maintenance and repairs.

(l) Concentrations

Although substantially all of the Company's income from operations is derived from assets employed in foreign countries, virtually all of this income is denominated in U.S. dollars. The Company does pay some of its expenses in various foreign currencies. For the years ended December 31, 2009, 2008 and 2007, \$15,013 or 38%, \$9,791 or 38% and \$12,491 or 38%, respectively, of the Company's direct container expenses were paid in 17 different foreign currencies for the year ended December 31, 2009 and 15 different foreign currencies for the years ended December 31, 2008 and 2007. The Company does not hedge these container expenses as there are no significant payments made in any one foreign currency and the Company's contract with the U.S. military contains a provision to protect it from fluctuations in exchange rates for payments made in foreign currencies.

The Company's customers are international shipping lines, which transport goods on international trade routes. Once the containers are on hire with a lessee, the Company does not track their location. The domicile of the lessee is not indicative of where the lessee is transporting the containers. The Company's business risk in its foreign concentrations lies with the creditworthiness of the lessees rather than the geographic location of the containers or the domicile of the lessees. Except for the major lessees noted in the table below, no other single lessees made up greater than 10% of the Company's lease rental income for the years ended December 31, 2009, 2008 and 2007.

TEXTAINER GROUP HOLDINGS LIMITED AND SUBSIDIARIES

Notes to Consolidated Financial Statements—Continued
December 31, 2009, 2008, and 2007
(All currency expressed in U.S. dollars in thousands)

<u>Lessee</u>	<u>2009</u>	<u>2008</u>	<u>2007</u>
Customer A	12%	10%	n/a
Customer B	n/a	n/a	11%

Two single lessees (Customer A and Customer B) accounted for 19% and 16%, respectively, of the Company's accounts receivable, net as of December 31, 2009 and one single lessee (Customer A) accounted for 17% of the Company's accounts receivable, net as of December 31, 2008.

(m) Customers

The Company's largest customer represented approximately 12.1% of the Company's total owned and managed fleet's 2009 leasing billings. The Company had no other customers that individually accounted for over 10% of the lease billings of the Company's owned and managed fleet in 2009 and no customer that individually accounted for over 10% of the lease billings of the Company's owned and managed fleet in 2008 and 2007. The Company currently has containers on-hire to more than 400 customers. The Company's customers are mainly international shipping lines, but the Company also leases containers to freight forwarding companies and the U.S. military. The Company's five largest customers accounted for approximately 34.8% of the Company's total owned and managed fleet's 2009 leasing billings. For the fiscal years ended December 31, 2009, 2008 and 2007, revenue from the Company's 25 largest container lessees by lease billings represented 74.8%, 75.9% and 78.4% of the Company's total owned and managed fleet's container lease billings, respectively, with revenue from the Company's single largest container lessee accounting for \$51.4 million, \$44.7 million and \$33.0 million or 12.1%, 9.8% and 8.4% of the Company's total owned and managed fleet's container lease billings during the respective periods. A default by any of these major customers could have a material adverse impact on the Company's business, results from operations and financial condition. In addition, the largest lessees of the Company's owned fleet are often among the largest lessees of the Company's managed fleet. The largest lessees of the Company's managed fleet are responsible for a significant portion of the billings that generate the Company's management fee revenue.

(n) Fair Value of Financial Instruments

The Company calculates the fair value of financial instruments and includes this additional information in the notes to the consolidated financial statements when the fair value is different from the book value of those financial instruments. The Company's financial instruments include cash and cash equivalents, restricted cash, accounts receivable and payable, net investment in direct financing and sales-type leases, due from affiliates, net, container contracts payable, due to owners, net, debt and interest rate swaps. At December 31, 2009 and 2008, the fair value of the Company's financial instruments approximates the related book value of such instruments except that, the fair value of net investment in direct financing and sales-type leases (including the short-term balance) was approximately \$74,698 and \$78,411 at December 31, 2009 and 2008, respectively, compared to a book value of \$80,551 and \$91,719 at December 31, 2009 and 2008, respectively, and the fair value of long-term debt (including current maturities) based on the borrowing rates available to the Company was approximately \$639,591 and \$641,281 at December 31, 2009 and 2008, respectively, compared to a book value of \$686,896 and \$724,643 at December 31, 2009 and 2008, respectively.

(o) Derivative Instruments

The Company has entered into various interest rate swap and cap agreements to mitigate its exposure associated with its variable rate debt. The swap agreements involve payments by the

TEXTAINER GROUP HOLDINGS LIMITED AND SUBSIDIARIES

Notes to Consolidated Financial Statements—Continued
December 31, 2009, 2008, and 2007
(All currency expressed in U.S. dollars in thousands)

Company to counterparties at fixed rates in return for receipts based upon variable rates indexed to the London Inter Bank Offered Rate (“LIBOR”). The differentials between the fixed and variable rate payments under these agreements are recognized in Realized (losses) gains on derivative instruments, net in the consolidated statement of income.

As of the balance sheet dates, none of the derivative instruments is designated by the Company for hedge accounting. The fair value of the derivative instruments is measured at each balance sheet date and the change in fair value is recorded in the consolidated statements of income as Unrealized gains (losses) on interest rate swaps, net.

(p) *Share Options and Restricted Share Units*

The Company estimates the fair value of all employee share options awarded under its 2007 Share Incentive Plan (the “2007 Plan”) on the grant date using an option-pricing model. The value of the portion of the award that is ultimately expected to vest is recognized as expense over the requisite service periods in the Company’s consolidated statements of income.

The Company uses the Black-Scholes-Merton (“Black-Scholes”) option-pricing model as a method for determining the estimated fair value for employee share option awards. Compensation expense for employee share awards is recognized on a straight-line basis over the vesting period of the award. Share-based compensation expense of \$3,493, \$3,022 and \$911 was recorded as a part of long-term incentive compensation for the years ended December 31, 2009, 2008 and 2007 for share options and restricted share units awarded to employees under the 2007 Plan.

(q) *Comprehensive Income (Loss)*

The Company reports changes in equity from all sources. The Company discloses the effect of its foreign currency translation adjustment as a component of other comprehensive income (loss).

(r) *Estimates*

The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires the Company’s management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. The Company’s management evaluates its estimates on an ongoing basis, including those related to the container rental equipment, intangible assets, accounts receivable, income taxes, and accruals.

These estimates are based on historical experience and on various other assumptions that are believed to be reasonable under the circumstances, the results of which form the basis for making judgments regarding the carrying values of assets and liabilities. Actual results could differ from those estimates under different assumptions or conditions.

(s) *Reclassifications*

Certain reclassifications of 2008 and 2007 amounts have been made in order to conform with the 2009 financial statement presentation. On the Company’s consolidated statement of cash flow for the

TEXTAINER GROUP HOLDINGS LIMITED AND SUBSIDIARIES

Notes to Consolidated Financial Statements—Continued
December 31, 2009, 2008, and 2007
(All currency expressed in U.S. dollars in thousands)

year ended December 31, 2008, receipt of principal payments on direct financing and sales-type leases of \$5,855 was reclassified to amortization of unearned income on direct financing and sales-type leases. On the Company's consolidated statement of cash flow for the year ended December 31, 2007, receipt of principal payments on direct financing and sales-type leases of \$2,602 was reclassified to amortization of unearned income on direct financing and sales-type leases.

(t) Net income per share

Basic net income per share is computed by dividing net income by the weighted average number of shares outstanding during the period. Diluted net income per share reflects the potential dilution that could occur if all outstanding share options were exercised or converted into common shares. For the years ended December 31, 2009, 2008 and 2007, 1,062,438, 1,038,624 and 1,044,734 share options were excluded, respectively from the computation of diluted earnings per share because they were anti-dilutive under the treasury stock method. A reconciliation of the numerator and denominator of basic earnings per share ("EPS") with that of diluted EPS for the years ended December 31, 2009, 2008 and 2007 is presented as follows:

<i>Share amounts in thousands</i>	<u>2009</u>	<u>2008</u>	<u>2007</u>
Numerator			
Net income attributable to Textainer Group Holdings Limited common shareholders—basic and diluted EPS	\$90,776	\$85,241	\$67,668
Denominator			
Weighted average common shares outstanding—basic	47,761	47,605	40,800
Dilutive share options and restricted share units	<u>424</u>	<u>222</u>	<u>41</u>
Weighted average common shares outstanding—diluted	<u>\$48,185</u>	<u>\$47,827</u>	<u>\$ 40,841</u>
Net income attributable to Textainer Group Holdings Limited common shareholders per common share			
Basic	\$ 1.90	\$ 1.79	\$ 1.66
Diluted	\$ 1.88	\$ 1.78	\$ 1.66

(u) Fair value measurements

The Company utilizes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value into three broad levels. The following is a brief description of those levels:

- Level 1: Observable inputs such as quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: Inputs other than quoted prices which are observable for the asset or liability, either directly or indirectly. These include quoted prices for similar assets or liabilities in active markets and quoted prices for identical or similar assets or liabilities in markets that are not active.
- Level 3: Unobservable inputs that reflect the reporting entity's own assumptions.

TEXTAINER GROUP HOLDINGS LIMITED AND SUBSIDIARIES

Notes to Consolidated Financial Statements—Continued
December 31, 2009, 2008, and 2007
(All currency expressed in U.S. dollars in thousands)

The Company uses the exchange price notion, which is the price in an orderly transaction between market participants to sell an asset or transfer a liability in the market in which the reporting entity would transact for the asset or liability, that is, the principal or most advantageous market for the asset or liability. The transaction to sell the asset or transfer the liability is a hypothetical transaction at the measurement date, considered from the perspective of a market participant that holds the asset or owes the liability. Therefore, the definition focuses on the price that would be received to sell the asset or paid to transfer the liability (an exit price), not the price that would be paid to acquire the asset or received to assume the liability (an entry price).

The following table summarizes the Company's assets and liabilities measured at fair value as of December 31, 2009 and 2008:

	<u>Quoted Prices in Active Markets for Identical Assets (Level 1)</u>	<u>Significant Other Observable Inputs (Level 2)</u>	<u>Significant Unobservable Inputs (Level 3)</u>
December 31, 2009			
Assets			
Trading containers held for resale (1)	\$ —	\$ 1,271	\$ —
Containers identified for sale (2)	—	2,851	—
Interest rate swaps	—	731	—
Total assets accounted for at fair value	<u>\$ —</u>	<u>\$ 4,853</u>	<u>\$ —</u>
Liabilities			
Interest rate swaps	\$ —	\$ 8,971	\$ —
Total liabilities accounted for at fair value	<u>\$ —</u>	<u>\$ 8,971</u>	<u>\$ —</u>
December 31, 2008			
Assets			
Trading containers held for resale (1)	\$ —	\$ 1,596	\$ —

- (1) Included in "Containers held for sale" in the accompanying consolidated balance sheets.
(2) Included in "Containers, net" in the accompanying consolidated balance sheets.

TEXTAINER GROUP HOLDINGS LIMITED AND SUBSIDIARIES

Notes to Consolidated Financial Statements—Continued
December 31, 2009, 2008, and 2007
(All currency expressed in U.S. dollars in thousands)

The following table below presents additional information about liabilities measured at fair value for which Level 3 inputs were utilized to determine fair value for the years ended December 31, 2009 and 2008:

	<u>Asset</u>	<u>Liability</u>
Balance as of December 31, 2007	\$ 127	\$ 4,409
Unrealized losses (1)	(127)	14,978
Balance as of December 31, 2008	—	\$ 19,387
Unrealized gains (1)		(3,903)
Transfer out of Level 3		(15,484)
Balance as of December 31, 2009	<u>\$ —</u>	<u>\$ —</u>

- (1) Included in “Unrealized gains (losses) on interest rate swaps, net” in the accompanying consolidated balance sheets.

When the Company is required to write down the cost basis of its trading containers held for resale to fair value less cost to sell, the Company measures the fair value of its trading containers held for resale under a Level 2 input. The Company relies on its recent sales prices for identical or similar assets in markets, by geography, that are active. During the years ended December 31, 2009, 2008 and 2007, impairments to write down the value of trading containers held for resale to their estimated fair value was nil.

When the Company is required to write down the cost basis of its containers identified for sale to fair value less cost to sell, the Company measures the fair value of its containers identified for sale under a Level 2 input. The Company relies on its recent sales prices for identical or similar assets in markets, by geography, that are active. The Company recorded impairments during years ended December 31, 2009, 2008 and 2007 of \$1,973, \$546 and \$566, respectively, as a part of depreciation expense to write down the value of containers identified for sale to their estimated fair value less cost to sale.

The Company measures the fair value of its \$359,740 notional amount of interest rate swaps under a Level 2 input. The Company changed from measuring the fair value of its interest rate swaps under a Level 3 input to a Level 2 input during the three months ended June 30, 2009 because it began determining the fair value estimate using observable market inputs. In addition, the liability valuation reflects the credit standing of the Company and the counterparties to the interest rate swaps. The valuation technique utilized by the Company to calculate the fair value of the interest rate swaps was the income approach. This approach represents the present value of future cash flows based upon current market expectations. The Company’s interest rate swap agreements had a net fair value liability of \$8,240 and \$19,387 as of December 31, 2009 and 2008, respectively. The credit valuation adjustment (which was a reduction in the liability) was determined to be \$10 as of December 31, 2009. The change in fair value for the years ended December 2009, 2008 and 2007 of \$11,147, (\$15,105) and (\$8,274), respectively, was recorded in the consolidated statement of income as part of Unrealized gains (losses) on interest rate swaps, net.

(v) *Recently Issued Accounting Standards*

The FASB issued *FASB Accounting Standards Codification*TM (“ASC”) Topic 810-10 (“ASC Topic 810-1”) *Noncontrolling Interests in Consolidated Financial Statements*, which formally codifies FASB Statement of Financial Accounting Standards (“SFAS”) No. 160 *Noncontrolling Interests in Consolidated Financial Statements—an amendment of ARB No. 51* that was issued in December 2007. ASC Topic 810-10 requires a company to clearly identify and present ownership interests in subsidiaries held by parties other than the company within the equity section of the company’s balance sheets but separate from the company’s equity. It also requires the amounts of consolidated net income attributable to the parent and to the noncontrolling interest to be clearly identified and presented on the face of the consolidated statement of income; changes in ownership interest to be accounted for as equity transactions; and when a subsidiary is deconsolidated, any retained noncontrolling equity investment in the former subsidiary and the gain or loss on the deconsolidation of the subsidiary must be measured at fair value. ASC Topic 810-10 establishes accounting and reporting standards for the noncontrolling interest in a subsidiary and for the deconsolidation of a subsidiary. The Company adopted ASC Topic 810-10 on January 1, 2009 and it resulted in a \$58,398 reclassification of “Minority interest” from a separate line item located between “Total liabilities” and “Total shareholders’ equity” to “Noncontrolling interest” in a separate line item located between “Total Textainer Group Holdings Limited and shareholders’ equity” and “Total equity” on the December 31, 2008 consolidated balance sheet and a reclassification of “Minority interest expense” of \$8,681 and \$16,926 for the years ended December 31, 2008 and 2007, respectively from a line item between “Income before income tax and minority interest expense” and “Net income” to “Noncontrolling interest” between “Net income” and “Net income attributable to Textainer Group Holdings Limited common shareholders” consolidated statements of income.

The FASB issued Accounting Standards Update (“ASU”) 2009-16 (“ASU 2009-16”) *Transfers and Servicing (Topic 860)—Accounting for Transfers and Services of Financial Assets*, which formally codifies FASB SFAS No. 166, *Accounting for Transfers of Financial Assets— an Amendment of FASB Statement No. 140* that was issued in June 2009, into the FASB’s ASC. The objective of ASU 2009-16 is to improve the relevance, representational faithfulness, and comparability of the information that a reporting entity provides in its financial statements about a transfer of financial assets; the effects of a transfer on its financial position, financial performance, and cash flows; and a transferor’s continuing involvement, if any, in transferred financial assets. ASU 2009-16 is effective for financial statements issued for years beginning after November 15, 2009, and for interim periods within those years. Earlier application is prohibited. The Company does not believe the adoption of ASU 2009-16 will have a material effect on the Company’s consolidated financial position, results of operations or cash flows.

The FASB issued ASU 2009-17 *Consolidations (Topic 810)—Improvements to Financial Reporting by Enterprises Involved with Variable Interest Entities*, which formally codifies FASB SFAS No. 167, *Amendments to FASB Interpretation No. 46(R)* that was issued in June 2009, into the FASB’s ASC. The objective of ASU 2009-17 is to improve financial reporting by companies involved with variable interest entities. ASU 2009-17 will require companies to perform an analysis to determine whether the companies’ variable interest or interests give it a controlling financial interest in a variable interest entity. ASU 2009-17 is effective for financial statements issued for years beginning after November 15, 2009, and for interim periods within those years. The Company does not believe the adoption of ASU 2009-17 will have a material effect on the Company’s consolidated financial position, results of operations or cash flows.

TEXTAINER GROUP HOLDINGS LIMITED AND SUBSIDIARIES

Notes to Consolidated Financial Statements—Continued
December 31, 2009, 2008, and 2007
(All currency expressed in U.S. dollars in thousands)

In August 2009, the FASB issued ASU 2009-05, *Fair Value Measurements and Disclosures*. ASU 2009-05 provided amendments to ASC Topic 820-10, *Fair Value Measurements and Disclosures — Overall*, for the fair value measurement of liabilities. The purpose of ASU 2009-05 is to clarify that in circumstances in which a quoted price in an active market for the identical liability is not available, a reporting entity is required to measure fair value using a valuation technique that uses either the quoted price of the identical liability when traded as an asset, quoted prices for similar liabilities or similar liabilities when traded as assets, or another valuation technique that is consistent with the principles of ASC Topic 820 Fair Value Measurements and Disclosures. This guidance was effective upon issuance. There was no effect on the Company's consolidated financial position, results of operations or cash flows from the adoption of this update.

The FASB issued ASU 2009-13 *Revenue Recognition (Topic 605)—Multiple-Deliverable Revenue Arrangements*, which formally codifies the FASB's ratification in September 2009 of Emerging Issues Task Force ("EITF") Issue No. 08-1, *Revenue Arrangements with Multiple Deliverables*. ASU 2009-13 updates the current guidance pertaining to multiple-element revenue arrangements included in the FASB's ASC Topic 605-25 *Revenue Recognition—Multiple-Element Arrangements*, which originated primarily from EITF Issue No. 00-21, *Revenue Arrangements with Multiple Deliverables*. ASU 2009-13 will be effective for annual reporting periods beginning January 1, 2011 for calendar-year entities. The Company is currently assessing the impact of ASU 2009-13 on its consolidated financial position, results of operations or cash flows.

(2) Step Acquisition

On November 1, 2007, the Company's wholly owned subsidiary, Textainer Limited ("TL") purchased 3,000 additional Class A shares of TMCL for cash consideration of \$71,131. TL's total ownership interest in Class A common shares before and after the step acquisition was 50% and 75%, respectively. The Company has consolidated TMCL since the inception of the entity in 2001. The Company accounted for this transaction as a step acquisition, allocating the purchase price based on the fair value of the assets and liabilities acquired in proportion to the percentage of shares acquired. The Company also recorded an adjustment to the purchase price allocation to reduce the carrying value of containers by \$3,002 for the year ended December 31, 2008 as a result of a change in the Company's tax basis in those containers. As a result of this purchase, TL and Fortis now hold voting interests in TMCL of 75% and 25%, respectively. In addition, voting matters related to commencing bankruptcy proceedings and amending related board and shareholder meeting requirements require the approval of a separate Class C common shareholder, which does not have any economic ownership interest in TMCL. The step acquisition was recorded on November 1, 2007 as follows:

Purchase method adjustment to carrying values:	
Noncontrolling interest acquired	\$ 53,131
Tangible assets—containers	13,594
Intangible assets—lease contracts	2,362
Discount on Secured Debt Facility	751
Discount on 2005-1 Bonds	1,293
	<u>\$ 71,131</u>

(All currency expressed in U.S. dollars in thousands)

(3) Container Purchases

On October 1, 2009, the Company purchased approximately 30,900 containers that it had been managing for Amphibious Container Leasing Limited (“Amficon”) for \$63,676.

On August 1, 2009, the Company purchased approximately 28,700 containers that it had been managing for a large institutional investor, including related accounts receivable, due from owners, net, accounts payable and accrued expenses for a total purchase price equal to \$34,173. The total purchase price, which was allocated based on the fair value of the assets and liabilities acquired, was recorded as follows:

Containers, net of accumulated depreciation	\$ 33,015
Other net assets	1,158
Purchase price	<u>\$ 34,173</u>

(4) Purchase-leaseback Transactions

On March 31, 2009 and July 16, 2009, the Company completed purchase-leaseback transactions for approximately 5,900 and 28,900 containers, respectively, with an Asian shipping line for total purchase prices of \$1,361 and \$11,914, respectively. The purchase price and leaseback rental rates were below market rates. The prepayment of the lease by the lessee by selling the containers at below-market prices to the Company was recorded as follows:

Containers, net of accumulated depreciation	\$ 40,291
Deferred revenue—operating lease contracts	(27,016)
Purchase price	<u>\$ 13,275</u>

The deferred revenue is being amortized to lease rental income over the three-year term of the lease contract.

(5) Transactions with Affiliates and Owners

Amounts due from affiliates, net generally result from cash advances and the payment of affiliated companies’ administrative expenses by the Company on behalf of such affiliates. Balances are generally paid within 30 days.

Management fees, including acquisition fees and sales commissions for the years ended December 31, 2009, 2008 and 2007 were as follows:

	2009	2008	2007
Fees from affiliated Owner	\$ 4,727	\$ 6,014	\$ 6,351
Fees from unaffiliated Owners	18,668	20,807	16,043
Fees from Owners	23,395	26,821	22,394
Other fees	1,833	1,782	1,731
Total management fees	<u>\$ 25,228</u>	<u>\$ 28,603</u>	<u>\$ 24,125</u>

TEXTAINER GROUP HOLDINGS LIMITED AND SUBSIDIARIES

Notes to Consolidated Financial Statements—Continued
December 31, 2009, 2008, and 2007
(All currency expressed in U.S. dollars in thousands)

Due to Owners, net represents lease rentals collected on behalf of and payable to Owners, net of direct expenses and management fees receivable. Due to Owners, net at December 31, 2009 and 2008 consisted of the following:

	<u>2009</u>	<u>2008</u>
Affiliated Owner	\$ 1,114	\$ 902
Unaffiliated Owners	<u>13,027</u>	<u>9,975</u>
Total due to Owners, net	<u>\$ 14,141</u>	<u>\$ 10,877</u>

(6) Direct Financing and Sales-type Leases

The Company leases containers under direct financing and sales-type leases. The Company had 41,868 and 40,391 containers under direct financing and sales-type leases as of December 31, 2009 and 2008, respectively.

The components of the net investment in direct financing and sales-type leases as of December 31, 2009 and 2008 were as follows:

	<u>2009</u>	<u>2008</u>
Future minimum lease payments receivable	\$ 96,550	\$ 117,747
Residual value of containers on sales-type leases	1,595	—
Less unearned income	<u>(17,594)</u>	<u>(26,028)</u>
Net investment in direct financing and sales-type leases	<u>\$ 80,551</u>	<u>\$ 91,719</u>
Amounts due within one year	\$ 17,225	\$ 17,086
Amounts due beyond one year	<u>63,326</u>	<u>74,633</u>
Net investment in direct financing and sales-type leases	<u>\$ 80,551</u>	<u>\$ 91,719</u>

The following is a schedule by year of future minimum lease payments receivable under these direct financing and sales-type leases as of December 31, 2009:

Year ending December 31:	
2010	\$ 22,949
2011	20,117
2012	18,420
2013	11,980
2014 and thereafter	<u>23,084</u>
Total future minimum lease payments receivable	<u>\$ 96,550</u>

Lease rental income includes income earned from direct financing and sales-type leases in the amount of \$10,691, \$6,499 and \$4,092 for the years ended December 31, 2009, 2008 and 2007 respectively.

TEXTAINER GROUP HOLDINGS LIMITED AND SUBSIDIARIES

Notes to Consolidated Financial Statements—Continued

(All currency expressed in U.S. dollars in thousands)

(7) Containers and Fixed Assets

Containers, net at December 31, 2009 and 2008 consisted of the following:

	2009	2008
Containers	\$1,415,135	\$1,337,601
Less accumulated depreciation	(343,513)	(338,190)
Containers, net	<u>\$1,071,622</u>	<u>\$ 999,411</u>

Containers, net included containers identified for sale that had a carrying value of \$2,851 and \$418 as of December 31, 2009 and 2008 and are not subject to depreciation. Trading containers classified as containers held for resale had a carrying value of \$1,271 and \$1,596 as of December 31, 2009 and 2008 and are also not subject to depreciation. All owned containers are pledged as collateral for debt as of December 31, 2009 and 2008.

Fixed assets, net at December 31, 2009 and 2008 consisted of the following:

	2009	2008
Computer equipment and software	\$ 6,852	\$6,385
Office furniture and equipment	1,796	1,757
Automobiles	176	167
Leasehold improvements	1,674	1,105
	10,498	9,414
Less accumulated depreciation	(8,512)	(8,008)
Fixed assets, net	<u>\$ 1,986</u>	<u>\$ 1,406</u>

(8) Intangible Assets

On July 23, 2007, the Company purchased the exclusive rights to manage the approximately 500,000 twenty-foot equivalent unit (“TEU”) container fleet of Capital Lease Limited, Hong Kong (“Capital”) for \$56,000. The Company began managing the Capital fleet on September 1, 2007. The purchase price is being fully amortized over the expected 13-year life of the contract on a pro-rata basis to the expected management fees. Amortization expense for the years ended December 31, 2009, 2008 and 2007 was \$4,776, \$4,458 and \$1,489, respectively.

On April 15, 2009, the Company purchased the exclusive rights to manage the approximately 145,000 TEU container fleet of Amficon for \$10,600. The purchase price is being amortized over the expected approximate 11-year life of the contract on a pro-rata basis to the expected management fees. On October 1, 2009, the Company purchased approximately 53,000 TEU of the containers that it had been managing for Amficon for \$63,676 cash and relinquished management rights for those containers previously recorded as an intangible asset of \$3,378. Amortization expense for the year ended December 31, 2009 was \$814.

On June 12, 2009, the Company purchased for \$2,954 the exclusive rights to manage the approximately 154,000 TEU container fleet of Capital Intermodal Limited, Capital Intermodal GmbH, Capital Intermodal Inc., Capital Intermodal Assets Limited and Xines Limited (collectively “Capital Intermodal”). The purchase price is being amortized over the expected approximate 11-year life of the contract on a pro-rata basis to the expected management fees. Amortization expense for the year ended December 31, 2009 was \$99.

TEXTAINER GROUP HOLDINGS LIMITED AND SUBSIDIARIES

Notes to Consolidated Financial Statements—Continued
December 31, 2009, 2008, and 2007
(All currency expressed in U.S. dollars in thousands)

The changes in the carrying amount of intangible assets during the years ended December 31, 2009, 2008 and 2007 are as follows:

Balance as of December 31, 2006	\$ 17,960
Addition arising from the Capital Transaction	56,000
Step acquisition adjustment related to lease contracts (1)	2,363
Amortization expense	<u>(3,677)</u>
Balance as of December 31, 2007	72,646
Amortization expense of step acquisition adjustment related to lease	(916)
Amortization expense	<u>(6,979)</u>
Balance as of December 31, 2008	64,751
Additions arising from the Amficon, Capital Intermodal and other transactions	13,795
Amortization expense of step acquisition adjustment related to lease contracts and other	(1,396)
Reduction arising from the relinquishment of management rights from the purchase of containers from Amficon	(3,378)
Amortization expense	<u>(7,080)</u>
Balance as of December 31, 2009	<u>\$66,692</u>

- (1) Represents a step acquisition adjustment related to the Company's wholly owned subsidiary, Textainer Limited ("TL") purchase of 3,000 additional Class A shares of TMCL on November 1, 2007. The adjustment was recorded to increase the balance of lease contracts to an amount that equaled the fair market value of the lease contracts on the date of the acquisition. See Note 2 "Step Acquisition" for further discussion.

The following is a schedule, by year, of future amortization of intangible assets as of December 31, 2009:

Year ending December 31:	
2010	\$ 6,632
2011	6,938
2012	7,057
2013	7,245
2014 and thereafter	<u>38,820</u>
Total future amortization of intangible assets	<u>\$66,692</u>

Notes to Consolidated Financial Statements—Continued
December 31, 2009, 2008, and 2007
(All currency expressed in U.S. dollars in thousands)

(9) Accrued Expenses

Accrued expenses at December 31, 2009 and 2008 consisted of the following:

	<u>2009</u>	<u>2008</u>
Accrued compensation	\$ 4,042	\$ 6,032
Direct container expense	3,106	2,227
Interest payable	1,045	1,369
Other	1,547	584
Total accrued expenses	<u>\$ 9,740</u>	<u>\$ 10,212</u>

(10) Income Taxes

The Company is not subject to taxation in its country of incorporation; however, the Company is subject to taxation in certain other jurisdictions due to the nature of the Company's operations. The Company estimates its tax liability based upon its understanding of the tax laws of the various countries in which it operates. Income tax (benefit) expense for the years ended December 31, 2009, 2008 and 2007 consisted of the following:

	<u>2009</u>	<u>2008</u>	<u>2007</u>
Current			
Bermuda	\$ —	\$ —	\$ —
Foreign	3,657	972	6,661
	<u>3,657</u>	<u>972</u>	<u>6,661</u>
Deferred			
Bermuda	—	—	—
Foreign	(186)	(1,843)	186
	<u>(186)</u>	<u>(1,843)</u>	<u>186</u>
	<u>\$ 3,471</u>	<u>\$ (871)</u>	<u>\$ 6,847</u>

The components of income before income taxes and noncontrolling interest were as follows:

	<u>2009</u>	<u>2008</u>	<u>2007</u>
Bermuda sources	\$ —	\$ —	\$ —
Foreign sources	108,801	93,051	91,441
	<u>\$ 108,801</u>	<u>\$ 93,051</u>	<u>\$ 91,441</u>

A reconciliation of the differences between the Bermuda statutory income tax rate and the effective tax rate as provided in the consolidated statements of income is as follows:

	<u>2009</u>	<u>2008</u>	<u>2007</u>
Bermuda tax rate	0.00%	0.00%	0.00%
Foreign tax rate	1.05%	-1.60%	1.24%
Tax uncertainties	2.14%	0.66%	6.58%
Other	0.00%	0.00%	-0.33%
	<u>3.19%</u>	<u>-0.94%</u>	<u>7.49%</u>

(All currency expressed in U.S. dollars in thousands)

The tax effects of temporary differences that give rise to significant portions of the deferred tax assets and deferred tax liabilities at December 31, 2009 and 2008 are presented below:

	2009	2008
Deferred tax assets:		
Net operating loss	\$ 5,495	\$ 4,420
Other	2,837	3,650
Deferred tax assets	<u>8,332</u>	<u>8,070</u>
Deferred tax liabilities:		
Containers, net	13,243	12,345
Other	520	1,341
Deferred tax liabilities	<u>13,763</u>	<u>13,686</u>
Net deferred tax liability	<u>\$ 5,431</u>	<u>\$ 5,616</u>

In assessing the realizability of deferred tax assets, the Company's management considers whether it is more likely than not that the deferred tax assets will be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income during the periods in which those temporary differences become deductible. The Company's management considers the projected future taxable income for making this assessment. Based upon the level of historical taxable income and projections for future taxable income over the periods in which the deferred tax assets are deductible, the Company's management believes it is more likely than not the Company will realize the benefits of these deductible differences noted above.

On October 1, 2007, the Company purchased an additional interest in TMCL, a partnership for US tax purposes. During the year ended December 31, 2008, the Company recognized a fair market value adjustment to its container equipment for U.S tax purposes and recorded a deferred tax asset of \$3,003 as an adjustment to the original purchase accounting.

The Company has net operating loss carry-forwards of \$17,030 that will begin to expire from December 31, 2017 through December 31, 2029 if not utilized.

The accompanying consolidated financial statements do not reflect the income taxes that would be payable to foreign taxing jurisdictions if the earnings of a group of corporations operating in those jurisdictions were to be transferred out of such jurisdictions, because such earnings are intended to be permanently reinvested in those countries. At December 31, 2009, cumulative earnings of approximately \$33,972 would be subject to income taxes of approximately \$9,681 if such earnings of foreign corporations were transferred out of such jurisdictions in the form of dividends.

The Company's foreign tax returns, including the United States, State of California, State of New Jersey, State of Texas, State of Illinois, Malaysia, Singapore, and United Kingdom, are subject to examination by the various tax authorities. With the exception of two foreign tax returns of two foreign subsidiaries, the Company's foreign tax returns are no longer subject to examinations by taxing authorities for years before 2003.

The 2004 United States tax return for TGH's subsidiary Textainer Equipment Management (U.S.) Limited and the 2004 and 2005 United States tax returns for TGH's subsidiary TL were examined by the Internal Revenue Service (the "IRS"). In May 2008, the Company received notification from the IRS that

TEXTAINER GROUP HOLDINGS LIMITED AND SUBSIDIARIES

Notes to Consolidated Financial Statements—Continued
December 31, 2009, 2008, and 2007
(All currency expressed in U.S. dollars in thousands)

they had completed their examination and made no changes to the amount of tax reported. As a result, the Company reduced the amount of unrecognized tax benefits and recognized a tax provision reduction during the year ended December 31, 2008. The Company's effective tax rate reflects the recognition of this \$4,191 tax provision reduction.

In May of 2009, the Company received notification from the Internal Revenue Service that the 2007 United States tax return for TGH's subsidiary Textainer Equipment Management (U.S.) Limited has been selected for examination. The examination is currently ongoing and to date, no matters have arisen to alter the Company's accounting for income taxes.

A reconciliation of the beginning and ending unrecognized tax benefit amounts for 2009 and 2008 are as follows:

Balance at January 1, 2008	\$ 14,757
Increases related to prior year tax positions	103
Decreases related to prior year tax positions	(4,191)
Increases related to current year tax positions	4,320
Settlements	—
Lapse of statute of limitations	(297)
Balance at December 31, 2008	14,692
Increases related to prior year tax positions	152
Decreases related to prior year tax positions	—
Increases related to current year tax positions	3,211
Settlements	—
Lapse of statute of limitations	(967)
Balance at December 31, 2009	<u>\$ 17,088</u>

If the unrecognized tax benefits of \$17,088 at December 31, 2009 were recognized, tax benefits in the amount of \$16,803 would reduce our annual effective tax rate. The Company believes the total amount of unrecognized tax benefit as of December 31, 2009 will decrease by \$861 in the next twelve months due to expiration of the statute of limitations, of which \$848 would reduce our annual effective tax rate.

Interest and penalty expense (benefit) recorded during 2009 amounted to \$115 and \$(41), respectively. Total accrued interest and penalties as of December 31, 2009 were \$1,031 and \$0, respectively, and were included in non-current income taxes payable. Interest and penalty expense (benefit) recorded during 2008 amounted to \$48 and \$0, respectively. Total accrued interest and penalties as of December 31, 2008 were \$916 and \$41, respectively, and were included in non-current income taxes payable.

(11) Revolving Credit Facilities, Bonds Payable and Secured Debt Facility, and Derivative Instruments

The following represents the Company's debt obligations as of December 31, 2009 and 2008:

Revolving Credit Facilities, Bonds Payable and Secured Debt Facility	2009	2008
Revolving Credit Facilities, weighted average interest at 1.25% and 2.67% at December 31, 2009 and 2008, respectively	\$ 79,000	\$ 53,000
2005-1 Bonds, interest at 0.76% and 1.73% at December 31, 2009 and 2008, respectively	278,375	371,241
Secured Debt Facility, weighted average interest at 1.48% and 2.45% at December 31, 2009 and 2008, respectively	329,521	300,402
Total debt obligations	<u>\$686,896</u>	<u>\$ 724,643</u>
Amount due within one year	<u>\$ 68,000</u>	<u>\$ 58,000</u>
Amounts due beyond one year	<u>\$618,896</u>	<u>\$666,643</u>

Revolving Credit Facilities

A Company subsidiary, TL, has a credit agreement with a group of banks that provides for a revolving credit facility with an aggregate commitment amount of up to \$205,000 (which includes a \$50,000 letter of credit facility) (the "Credit Facility"). The Credit Facility provides for payments of interest only during its term beginning on its inception date through April 22, 2013 when all borrowings are due in full. Interest on the outstanding amount due under the Credit Facility at December 31, 2009 was based either on the U.S. prime rate or LIBOR plus a spread between 0.5% and 1.5%, which varies based on TGH's leverage. Total outstanding principal under the Credit Facility was \$79,000 and \$53,000 as of December 31, 2009 and 2008, respectively. The Company had no outstanding letters of credit under the Credit Facility as of December 31, 2009 and 2008.

The Credit Facility is secured by the Company's containers and under the terms of the Credit Facility, the total outstanding principal may not exceed the lesser of the commitment amount and a formula based on the Company's net book value of containers and outstanding debt. The additional amount available for borrowing under the Credit Facility, as limited by the Company's borrowing base, was \$26,386 as of December 31, 2009.

TGH acts as a guarantor of the Credit Facility. The Credit Facility contains restrictive covenants, including limitations on certain liens, indebtedness and investments. In addition, the Credit Facility contains certain restrictive financial covenants on TGH's tangible net worth, leverage, debt service coverage and on TL's leverage and interest coverage. The Company was in compliance with all such covenants at December 31, 2009. There is a commitment fee of 0.20% to 0.30% on the unused portion of the Credit Facility, which varies based on the leverage of TGH and is payable in arrears. In addition, there is an agent's fee, which is payable annually in advance.

Bonds Payable and Secured Debt Facility

In 2005, one of the Company's subsidiaries, TMCL, issued \$580,000 in variable rate amortizing bonds (the "2005-1 Bonds") to institutional investors. The \$580,000 in 2005-1 Bonds represent fully amortizing notes payable on a straight-line basis over a scheduled payment term of 10 years, but not to exceed the

TEXTAINER GROUP HOLDINGS LIMITED AND SUBSIDIARIES

Notes to Consolidated Financial Statements—Continued
December 31, 2009, 2008, and 2007
(All currency expressed in U.S. dollars in thousands)

maximum payment term of 15 years. During the year ended December 31, 2009, the Company repurchased \$65,000 of aggregate original face amount or \$39,917 in aggregate outstanding principal amount of its 2005-1 Bonds at a purchase price of \$20,234. As a result of these purchases, the Company recognized a gain on early extinguishment of debt during the year ended December 31, 2009 of \$19,938, net of the write-off of deferred debt financing costs of \$285. Based on the outstanding principal amount at December 31, 2009 and under a 10-year amortization schedule, \$51,500 in 2005-1 Bond principal will amortize per year. Under the terms of the 2005-1 Bonds, both principal and interest incurred are payable monthly. TMCL is permitted to make voluntary prepayments of all, or a portion of, the principal balance of the 2005-1 Bonds. Ultimate payment of the 2005-1 Bond principal has been insured by Ambac Assurance Corporation and the cost of this insurance coverage, which is equal to 0.275% on the outstanding principal balance of the 2005-1 Bonds, is recognized as incurred on a monthly basis. The interest rate for the outstanding principal balance of the 2005-1 Bonds equals one-month LIBOR plus 0.25%. The target final payment date and legal final payment date are May 15, 2015 and May 15, 2020, respectively.

The Company's primary ongoing container financing requirements are funded by revolving notes issued by TMCL (the "Secured Debt Facility"). The Secured Debt Facility provided a total commitment in the amount of \$475,000 as of December 31, 2009. The additional amount available for borrowing under the Secured Debt Facility, as limited by the Company's borrowing base, was \$141,867 as of December 31, 2009. The Secured Debt Facility provides for payments of interest only during the period from its inception until its Conversion Date (i.e. July 1, 2010), with a provision for the Secured Debt Facility to amortize over a 10-year, but not to exceed the maximum term of a 15-year period beginning on the Conversion Date. The interest rate on the Secured Debt Facility, payable monthly in arrears, is LIBOR plus 1.25% during the revolving period prior to the Conversion Date. If the Secured Debt Facility is not refinanced or renewed prior to the Conversion Date, the interest rate would increase to LIBOR plus 2.25% during the 10 or 15 year amortization period that follows.

Under the terms of the 2005-1 Bonds and Secured Debt Facility, the total outstanding principal of these two programs may not exceed an amount (the "Asset Base"), which is calculated by a formula based on TMCL's book value of equipment, restricted cash and direct financing and sales-type leases. The total obligations under the 2005-1 Bonds and the Secured Debt Facility are secured by a pledge of TMCL's assets. TMCL's total assets amounted to \$1,099,764 as of December 31, 2009. The 2005-1 Bonds and the Secured Debt Facility also contain restrictive covenants regarding the average age of TMCL's container fleet, certain earnings ratios, ability to incur other obligations and to distribute earnings, TGH's container management subsidiary net income and debt levels, and overall Asset Base minimums, in which TMCL and TGH's container management subsidiary were in full compliance at December 31, 2009.

TEXTAINER GROUP HOLDINGS LIMITED AND SUBSIDIARIES

Notes to Consolidated Financial Statements—Continued
December 31, 2009, 2008, and 2007
(All currency expressed in U.S. dollars in thousands)

The following is a schedule by year, of future scheduled repayments, as of December 31, 2009:

	<u>Revolving Credit Facility</u>	<u>2005-1 Bonds (1)</u>	<u>Secured Debt Facility (1)</u>
Year ending December 31:			
2010	\$ —	\$ 51,500	\$ 16,500
2011	—	51,500	33,000
2012	—	51,500	33,000
2013	79,000	51,500	33,000
2014 and thereafter	—	72,958	214,500
	<u>\$ 79,000</u>	<u>\$ 278,958</u>	<u>\$ 330,000</u>

- (1) Future scheduled payments for the 2005-1 Bonds and the Secured Debt Facility exclude step acquisition adjustments of \$583 and \$479, respectively, related to TL's purchase of 3,000 additional shares of TMCL. The adjustments were recorded to reduce the balance of both the 2005-1 Bonds and the Secured Debt Facility to an amount that equaled the fair market value of the debt on the date of the acquisition. See Note 2 "Step Acquisition" for further discussion.

The future repayments schedule for the Secured Debt Facility is based on the assumption that the facility will not be extended on its Conversion Date and will then convert into a ten-year fully amortizing note payable.

Derivative Instruments

The Company has entered into several interest rate cap and swap agreements with several banks to reduce the impact of changes in interest rates associated with its bonds payable and Secured Debt Facility. The following is a summary of the Company's derivative instruments as of December 31, 2009:

<u>Derivative instruments</u>	<u>Notional amount</u>
Interest rate cap contracts with several banks with fixed rates between 3.24% and 5.63% per annum, nonamortizing notional amounts, with termination dates through November 2015	\$ 162,000
Interest rate swap contracts with several banks, with fixed rates between 2.32% and 4.95% per annum, amortizing notional amounts, with termination dates through December 2014	359,740
Total notional amount as of December 31, 2009	<u>\$ 521,740</u>

During March 2010, the Company entered into an interest rate swap contract with a bank, with a one-month LIBOR rate fixed at 1.62% per annum, in amortizing notional amount with initial notional amount of \$48,000 and a term from March 15, 2010 through March 15, 2013.

During March 2010, the Company entered into an interest rate cap contract with a bank, which caps one-month LIBOR fixed rate at 3.23% per annum, in non-amortizing notional amount of \$10,000 and a term from March 15, 2010 through March 15, 2011.

The Company's interest rate swap agreements had a net fair value liability of \$8,240 and \$19,387 as of December 31, 2009 and December 31, 2008, respectively, which is inclusive of counterparty risk. The primary external risk the Company's interest rate swap agreements is the counterparty credit exposure, as

TEXTAINER GROUP HOLDINGS LIMITED AND SUBSIDIARIES

Notes to Consolidated Financial Statements—Continued
December 31, 2009, 2008, and 2007
(All currency expressed in U.S. dollars in thousands)

defined as the ability of a counterparty to perform its financial obligations under a derivative contract. The Company monitors its counterparties' credit ratings on an on-going basis and they were in compliance with the related derivative agreements at December 31, 2009. The Company does not have any master netting arrangements with its counterparties. The change in fair value was recorded in the consolidated statement of income as Unrealized gains (losses) on interest rate swaps, net.

(12) Segment Information

As described in Note 1(a) "Nature of Operations", the Company operates in four reportable segments: container ownership, container management, container resale and military management. The following tables show segment information for the years ended December 31, 2009, 2008 and 2007, reconciled to the Company's income before taxes as shown in its consolidated statements of income:

	Container Ownership	Container Management	Container Resale	Military Management	Other	Eliminations	Totals

General and administrative expenses are allocated to the reportable business segments based on direct overhead costs incurred by those segments. Amounts reported in the “Other” column represent activity unrelated to the active reportable business segments. Amounts reported in the “Eliminations” column represent inter-segment management fees between the Container Management and Container Ownership segments.

Geographic Segment Information

The Company’s container lessees use containers for their global trade utilizing many worldwide trade routes. The Company earns its revenue from international carriers when the containers are in use and carrying cargo around the world. Substantially all of the Company’s leasing related revenue are denominated in U.S. dollars. As all of the Company’s containers are used internationally, where no one container is domiciled in one particular place for a prolonged period of time, all of the Company’s long-lived assets are considered to be international with no single country of use.

(13) Commitments and Contingencies

(a) Leases

The Company has entered into several operating leases for office space. Rent expense amounted to \$1,655, \$1,642 and \$1,445 for the years ended December 31, 2009, 2008 and 2007, respectively.

Future minimum lease payment obligations under the Company’s noncancelable operating leases at December 31, 2009 were as follows:

	Operating leasing
Year ending December 31:	
2010	\$ 1,323
2011	1,300
2012	1,253
2013	1,240
2014 and thereafter	3,975
Total	<u>\$9,091</u>

TEXTAINER GROUP HOLDINGS LIMITED AND SUBSIDIARIES

Notes to Consolidated Financial Statements—Continued
December 31, 2009, 2008, and 2007
(All currency expressed in U.S. dollars in thousands)

(b) Restricted Cash

Restricted interest-bearing cash accounts were established by the Company as additional collateral for outstanding borrowings under the Company's Secured Debt Facility and 2005-1 Bonds. The total balance of these restricted cash accounts was \$6,586 and \$16,107 as of December 31, 2009 and 2008, respectively.

(c) Container Commitments

At December 31, 2009, the Company had placed orders with manufacturers for containers to be delivered subsequent to December 31, 2009 in the total amount of \$8,398.

(d) Trading Container Purchase and Commitments

On September 1, 2009, the Company entered into an agreement with a shipping line to purchase up to \$9,172 of containers to be resold. The agreement expires at the end of August 2010 or when all the equipment has been delivered. At December 31, 2009, \$3,575 of containers remain to be purchased.

(e) Legal Proceedings on the Sale of the Partnerships' Assets

On April 18, 2005, six California limited partnerships formed to invest in transportation equipment sold substantially all of their assets to RFH, Ltd. ("RFH"). As part of this sale transaction, RFH engaged Textainer Equipment Management Ltd., one of the general partners, to manage the containers RFH bought.

Five lawsuits were filed between March 2005 and June 2007 in state and federal court, initiated by certain limited partners. The state cases were consolidated into one action. The limited partners in the state action alleged that the general partners breached their fiduciary duties by selling the assets for less than their fair value, retaining management rights over the assets following the sale, and making materially false or misleading statements in proxy statements issued in connection with the sale of assets. In the federal case, plaintiffs alleged a breach of fiduciary duty claim similar to that in the state action and also alleged that the general partners violated federal securities laws. The lawsuits sought to recover damages for the limited partners based on the allegedly inadequate purchase price paid for the assets.

On February 5, 2009, the plaintiffs in the state case, plaintiff in the federal case, and the Textainer defendants reached a settlement agreement under which Textainer's insurer would pay a total of \$10,000 to the plaintiffs on defendants' behalf. On May 5, 2009, the Court granted final approval of the global settlement agreement. On July 7, 2009, the time for class members to appeal the class action settlement agreement expired.

On November 24, 2008, the Ninth Circuit granted the federal parties' joint motion for a stay in proceedings and deferral of decision in order to finalize settlement proceedings. The motion to stay was continued on May 8, 2009, and the parties stipulated to a voluntary dismissal of the appeal on July 10, 2009. That dismissal was approved on August 12, 2009, upon which date the settlement agreement became effective and final.

(All currency expressed in U.S. dollars in thousands)

(14) Share Option and Restricted Share Unit Plans

As of December 31, 2009, the Company maintained one active share option and restricted share unit plan, the 2007 Plan. The 2007 Plan provides for the grant of share options, restricted share units, restricted shares, share appreciation rights and dividend equivalent rights. The 2007 Plan provides for grants of incentive share options only to the Company's employees or employees of any parent or subsidiary of TGH. Awards other than incentive share options may be granted to the Company's employees, directors and consultants or the employees, directors and consultants of any parent or subsidiary of TGH. Under the 2007 Plan, which was approved by the Company's shareholders on September 4, 2007, a maximum of 3,808,371 share awards may be granted under the plan. At December 31, 2009, 612,378 shares were available for future issuance under the 2007 Plan. On February 23, 2010, the Company's Board of Directors approved an increase in the number of shares available for future issuance by 1,468,500 shares.

Share options are granted at exercise prices equal to the fair market value of the shares on the grant date. Each employee's options vest in increments of 25% per year beginning approximately one year after an option's grant date. Unless terminated pursuant to certain provisions within the share option plans, including discontinuance of employment with the Company, all unexercised options expire ten years from the date of grant.

Beginning approximately one year after a restricted share unit's grant date, each employee's restricted share units vest in increments of 15% per year for the first two years, 20% for the third year and 25% for the fourth and fifth year.

The following is a summary of activity in the Company's 2007 Plan for the years ended December 31, 2009 and 2008:

	Share options (common share equivalents)	Weighted average exercise price
Balances, December 31, 2006	—	\$ —
Options granted during the period	1,052,618	\$ 16.50
Options forfeited during the period	(7,884)	\$ 16.50
Balances, December 31, 2007	1,044,734	\$ 16.50
Options granted during the period	251,418	\$ 7.19
Options forfeited during the period	(12,140)	\$ 16.50

Share units vested during the period	(156,031)	\$ 12.34
Balances, December 31, 2009	1,346,506	\$ 12.59
Share units outstanding and expected to vest at December 31, 2009	1,224,256	\$ 12.63

The estimated weighted average grant date fair value of share options granted during 2009, 2008 and 2007 was \$4.69, \$0.60 and \$3.62 per share, respectively. As of December 31, 2009, \$13,295 of total compensation cost related to non-vested share option and restricted share unit awards not yet recognized is expected to be recognized over a weighted average period of 3.0 years. The aggregate intrinsic value of all options exercisable and outstanding, which represents the total pre-tax intrinsic value, based on the Company's closing common share price of \$16.90 per share as of December 31, 2009 was \$106 and \$2,853, respectively. The aggregate intrinsic value is calculated as the difference between the exercise prices of the Company's share options that were in-the-money and the market value of the common shares that would have been issued if those share options were exercised as of December 31, 2009.

The following table summarizes information about share options exercisable and outstanding at December 31, 2009:

	<u>Share options exercisable</u>		<u>Share options outstanding</u>	
	<u>Number of shares (in thousands)</u>	<u>Weighted average exercise price</u>	<u>Number of shares (in thousands)</u>	<u>Weighted average exercise price</u>
Range of per-share exercise prices				
\$7.10 - \$7.10	—	\$ —	247,962	\$ 7.10
\$14.01 - \$14.01	864	14.01	3,456	14.01
\$16.50 - \$16.50	259,265	16.50	1,032,594	16.50
\$16.97 - \$16.97	—	—	218,904	16.97
	<u>260,129</u>	<u>\$ 16.49</u>	<u>1,502,916</u>	<u>\$ 15.01</u>

The weighted average contractual life of options exercisable and outstanding as of December 31, 2009 was 7.7 years and 8.2 years, respectively.

TEXTAINER GROUP HOLDINGS LIMITED AND SUBSIDIARIES

Notes to Consolidated Financial Statements—Continued
December 31, 2009, 2008, and 2007
(All currency expressed in U.S. dollars in thousands)

The fair value of each share option granted under the 2007 Plan was estimated on the date of grant using the Black-Scholes option pricing model for the years ended December 31, 2009, 2008 and 2007 with the following assumptions:

	2009	2008	2007
Risk-free interest rates	2.6%	2.5%	4.5%
Expected terms (in years)	6.3	6.3	6.4
Expected common share price volatilities	46.0%	35.3%	31.3%
Expected dividends	5.4%	13.0%	4.9%
Expected forfeitures	5.0%	5.0%	5.0%

The risk-free interest rate is based on the implied yield on a U.S. Treasury zero-coupon issue with a remaining term equal to the expected term of the share option life. The short-cut method is used to calculate the expected term because the Company does not have historical information to calculate the expected terms. The expected common share price volatility for the 2007 Plan is based on the historical volatility of publicly traded companies within the Company's industry. The dividend yield reflects the estimated future yield on the date of grant. The Company only recognizes expense for share-based awards that are ultimately expected to vest. The forfeiture rate is based on the Company's estimate of share options that are expected to cancel prior to vesting.

(15) Dividend

On February 8, 2010, the Company's board of directors approved and declared a quarterly cash dividend of \$0.23 per share on the Company's issued and outstanding common shares, payable on March 3, 2010 to shareholders of record as of February 22, 2010.

NOTICE OF 2010 ANNUAL GENERAL MEETING OF SHAREHOLDERS TO BE HELD ON MAY 19, 2010

TO OUR SHAREHOLDERS:

NOTICE IS HEREBY GIVEN that the 2010 Annual General Meeting of Shareholders of Textainer Group Holdings Limited, a Bermuda company (“we,” “our,” “us,” or the “**Company**”) will be held at The Fairmont Southampton, 101 South Shore Road, Southampton, Bermuda SN02, at 9:00 a.m. (local time) on Wednesday, May 19, 2010. The 2010 Annual General Meeting of Shareholders of the Company, including any postponement or adjournment(s) thereof (the “**2010 Annual Meeting**”) will be held for the following purposes:

1. To approve the re-election of Messrs. John A. Maccarone, Dudley R. Cottingham, Hyman Shwiel and James E. Hoelter as our Class I directors;
2. To approve our annual audited financial statements for the fiscal year ended December 31, 2009, a copy of which is included in the enclosed 2009 Annual Report to Shareholders and will be laid before our shareholders at the 2010 Annual Meeting;
3. To approve the re-appointment of KPMG LLP, an independent registered public accounting firm, to act as our independent auditors for the fiscal year ending December 31, 2010 and the authorization for our board of directors, acting through our audit committee to fix the remuneration of our independent auditors for the fiscal year ending December 31, 2010;
4. To approve an amendment to our 2007 Share Incentive Plan to increase the maximum number of our common shares, \$0.01 par value per share, that may be granted pursuant to such plan by 1,468,500 shares from 3,808,371 shares to 5,276,871 shares and effect certain technical clarifications to such plan; and
5. To transact such other business as may properly be brought before the 2010 Annual Meeting (including any postponement or adjournment(s) thereof).

The close of business on April 5, 2010 has been fixed as the record date for determining the shareholders of record entitled to notice of and to vote at the 2010 Annual Meeting (including any postponement or adjournment(s) thereof).

Whether or not you plan to attend the 2010 Annual Meeting, in order to ensure that your shares will be voted in accordance with your wishes and the presence of a quorum at the 2010 Annual Meeting may be assured, please promptly complete, sign, date and promptly return the enclosed proxy card in the enclosed envelope. The proxy card must be properly dated, signed and returned in order to be counted. You can also submit your proxy to vote your shares via the Internet or by telephone as provided in the instructions set forth on the enclosed proxy card. Following submission of your signed proxy, you may revoke your signed proxy at any time before it is voted by: (i) delivering to the Secretary of the Company at c/o Textainer Equipment Management (U.S.) Limited, 650 California Street, 16th Floor, San Francisco, California 94108 U.S.A., a written statement revoking such proxy, (ii) executing and delivering a later-dated proxy, or (iii) voting in person at the 2010 Annual Meeting.

Important Notice Regarding the Availability of Proxy Materials for the 2010 Annual Meeting to be held on May 19, 2010. The Company’s proxy materials for the 2010 Annual Meeting, including this notice, the accompanying proxy statement and the accompanying form of proxy card, along with the Company’s 2009 Annual Report to Shareholders, are available at www.textainer.com.

By Order of the Board of Directors,

Ernest J. Furtado
First Vice President, Senior Vice President,
Chief Financial Officer and Secretary

Hamilton, Bermuda
April 20, 2010

Textainer Group Holdings Limited

PROXY STATEMENT

2010 ANNUAL GENERAL MEETING OF SHAREHOLDERS TO BE HELD MAY 19, 2010

This Proxy Statement is being furnished in connection with the solicitation on behalf of the board of directors of Textainer Group Holdings Limited, a Bermuda company (“**we**,” “**our**,” “**us**,” or the “**Company**”) of proxies to be voted at the 2010 Annual General Meeting of Shareholders to be held at The Fairmont Southampton, 101 South Shore Road, Southampton, Bermuda SN02, at 9:00 a.m. (local time) on Wednesday, May 19, 2010, including any postponement or adjournment(s) thereof (the “**2010 Annual Meeting**”). The 2010 Annual Meeting will be held for the purposes set forth in the accompanying Notice of 2010 Annual General Meeting of Shareholders and as more specifically described in this Proxy Statement. This Proxy Statement, the accompanying Notice of 2010 Annual General Meeting of Shareholders, the accompanying form of proxy card and our 2009 Annual Report to Shareholders are being first mailed to shareholders on or about April 20, 2010. These proxy materials are also available for viewing at www.textainer.com.

The close of business on April 5, 2010 has been fixed as the record date for determining the shareholders of record (“**Shareholders**”) of our common shares, \$0.01 par value per share (“**Common Shares**”) entitled to notice of and to vote at the 2010 Annual Meeting (including any postponement or adjournment(s) thereof). As of April 5, 2010, there were 48,005,013 Common Shares issued and outstanding. Common Shares are our only class of equity securities issued and outstanding and entitled to vote at the 2010 Annual Meeting. Each Shareholder is entitled to one vote on each matter to be voted upon by the Shareholders at the 2010 Annual Meeting for each Common Share held by such Shareholder.

At the 2010 Annual Meeting, two or more persons present in person at the start of the 2010 Annual Meeting and representing in person or by proxy in excess of 50% of the total issued voting shares in the Company shall form a quorum for the transaction of business at the 2010 Annual Meeting.

At the 2010 Annual Meeting, Shareholders will receive the report of KPMG LLP, our independent auditors and may be asked to consider and take action with respect to such other matters as may properly come before the 2010 Annual Meeting.

Adoption of each proposal set forth in the accompanying Notice of 2010 Annual General Meeting of Shareholders and as more specifically described in this Proxy Statement requires the affirmative vote of a majority of the votes cast at the 2010 Annual Meeting.

In this Proxy Statement, unless otherwise specified, all monetary amounts are in U.S. dollars.

SOLICITATION AND REVOCATION

PROXY CARDS IN THE FORM ENCLOSED WITH THIS PROXY STATEMENT ARE BEING SOLICITED ON BEHALF OF OUR BOARD OF DIRECTORS. OUR BOARD OF DIRECTORS HAS DESIGNATED THE PERSON(S) NAMED IN THE ACCOMPANYING FORM OF PROXY CARD AS A PROXY. Each such person designated as a proxy serves as a director and/or executive officer of the Company.

Each Common Share represented by a properly executed proxy that is returned and not revoked will be voted in accordance with the instructions, if any, given thereon and in accordance with the proxyholder's best judgment as to any other business as may properly come before the 2010 Annual Meeting. If no instructions are provided in a properly executed proxy, it will be voted FOR the approval of the re-election of each of the nominees identified in this Proxy Statement as a Class I director of the Company (Proposal One), and FOR the approval of each of Proposals Two, Three and Four. Any Shareholder who executes a proxy may revoke it at any time before it is voted by: (i) delivering to the Secretary of the Company at c/o Textainer Equipment Management (U.S.) Limited, 650 California Street, 16th Floor, San Francisco, California 94108 U.S.A., a written statement revoking such proxy, (ii) executing and delivering a later-dated proxy, or (iii) voting in person at the 2010 Annual Meeting. Attendance at the 2010 Annual Meeting by a Shareholder who has executed and delivered a proxy to us shall not in and of itself constitute a revocation of such proxy. For Common Shares held in "street name" by a broker, bank or other nominee, new voting instructions must be delivered to the broker, bank or nominee prior to the 2010 Annual Meeting.

If within half an hour from the time appointed for the 2010 Annual Meeting a quorum is not present, then the 2010 Annual Meeting shall stand adjourned to the same day one week later, at the same time and place or to such other day, time or place as the Secretary of the Company may determine. Unless the 2010 Annual Meeting is adjourned to a specific date, place and time announced at the 2010 Annual Meeting being adjourned, fresh notice of the date, place and time for the resumption of the adjourned 2010 Annual Meeting shall be given to each Shareholder entitled to attend and vote thereat in accordance with the Company's bye-laws as currently in effect.

We will bear the cost of solicitation of proxies. We have not engaged a proxy solicitation agent. Solicitation may be made by our directors, officers and employees personally, by telephone, Internet or otherwise, but such persons will not be specifically compensated for such services. We may also make, through bankers, brokers or other persons, a solicitation of proxies of beneficial holders of Common Shares. Upon request, we will reimburse brokers, dealers, banks or similar entities acting as nominees for reasonable expenses incurred in forwarding copies of the proxy materials relating to the 2010 Annual Meeting to the beneficial owners of Common Shares which such persons hold of record.

**BENEFICIAL OWNERSHIP OF COMMON SHARES
BY MAJOR SHAREHOLDERS AND MANAGEMENT**

The following table presents information regarding the beneficial ownership of our Common Shares as of April 5, 2010 by:

- each person or entity that we know beneficially owns more than 5% of our issued and outstanding Common Shares;
- each director, director nominee and executive officer; and
- all of our directors, director nominees and executive officers as a group.

For the purposes of the following table, beneficial ownership of our Common Shares is determined in accordance with the rules of the United States Securities and Exchange Commission (the “SEC”) and generally includes any Common Shares over which a person exercises sole or shared voting or investment power. The percentage of beneficial ownership of our Common Shares is based on 48,005,013 Common Shares issued and outstanding on April 5, 2010. We do not believe that we are directly or indirectly owned or controlled by any foreign government. The voting rights of our Common Shares held by major shareholders are the same as the voting rights of Common Shares held by all other shareholders. We are unaware of any arrangement that might result in a change of control of the Company.

Holders	Number of Common Shares Beneficially Owned

- (1) Beneficial ownership by a person assumes the exercise of all share options, warrants and rights held by such person.
- (2) Percentage ownership is based on 48,005,013 shares outstanding as of April 5, 2010.
- (3) Includes 29,778,802 shares held by Halco Holdings Inc. (“**Halco**”). Halco is wholly owned by Halco Trust, a discretionary trust with an independent trustee. Trencor and certain of Trencor’s subsidiaries are the sole discretionary beneficiaries of Halco Trust. The protectors of the trust are Mr. Neil Jowell, the chairman of

both our board of directors and the board of directors of Tencor, and Mr. Cecil Jowell and Mr. McQueen, both members of our board of directors and the board of directors of Tencor.

- (4) Includes 29,778,802 shares held by Halco, 101,244 shares held by the James E. Hoelter & Virginia S. Hoelter Trust, 986,156 shares held by the JEH-VSH Limited Partnership #1, and 797,746 shares held by the JEH-VSH Limited Partnership #2. The general partners of each of the partnerships are James and Virginia Hoelter. Mr. Hoelter is one of our directors and a member of the board of directors of Tencor. Mr. Hoelter disclaims beneficial ownership, except to the extent of his pecuniary interest therein, if any, of the shares held by Halco.
- (5) Includes 29,778,802 shares held by Halco and 596,956 shares held by EA Finance, a company owned by a trust in which members of Mr. Cecil Jowell's family are discretionary beneficiaries. Mr. Cecil Jowell is one of our directors, a director of Halco, a protector of the Halco Trust and a member of the board of directors of Tencor. In addition, Mr. Cecil Jowell has a significant ownership interest in Tencor both directly and indirectly, including indirectly through interests in Mobile Industries, which owns approximately 46.2% of Tencor. Mr. Cecil Jowell is also the chairman of Mobile Industries. Mr. Cecil Jowell disclaims beneficial ownership, except to the extent of his pecuniary interest therein, if any, of the shares held by EA Finance and Halco.
- (6) Includes 29,778,802 shares held by Halco and 596,956 shares held by EA Finance, a company owned by a trust in which members of Mr. Neil Jowell's family are discretionary beneficiaries. Mr. Neil Jowell is one of our directors, a protector of the Halco Trust and a member of the board of directors of Tencor. In addition, Mr. Neil Jowell has a significant ownership interest in Tencor both directly and indirectly, including indirectly through interests in Mobile Industries, which owns approximately 46.2% of Tencor. Mr. Neil Jowell is also a director of Mobile Industries. Mr. Neil Jowell disclaims beneficial ownership, except to the extent of his pecuniary interest therein, if any, of the shares held by EA Finance and Halco.
- (7) All shares are held by IKK Foundation, an affiliate of Mr. Kabbani.
- (8) Includes 2,059,416 shares held by the Maccarone Family Partnership L.P., 87,430 shares held by the Maccarone Revocable Trust, 1,100 shares held by the Maccarone Charitable Trust, 1,000 shares held by the John Maccarone IRA Rollover and 350 shares held by the Bryan Maccarone UTMA. Also includes 183,232 restricted share units and 261,760 share options granted on October 9, 2007, 27,625 restricted share units and 32,500 share options granted on November 19, 2008 and 31,215 share restricted shares and 31,215 share options granted on November 18, 2009 under the 2007 Share Incentive Plan. Share options were awarded at an exercise price equal to the fair market value of our Common Shares on the grant date of \$16.50, \$7.10 and \$16.97 per share on October 9, 2007, November 19, 2008 and November 18, 2009, respectively. Options awarded on October 9, 2007, November 19, 2008 and November 18, 2009 expire on October 8, 2017, November 18, 2018 and November 17, 2019, respectively.
- (9) All shares are held by Halco. Mr. McQueen is one of our directors, a director of Halco, a protector of the Halco Trust and a member of the board of directors of Tencor. Mr. McQueen disclaims beneficial ownership, except to the extent of his pecuniary interest therein, if any, of the shares held by Halco.
- (10) All shares are held by Halco. Mr. Nurek is one of our directors, a protector of the Halco Trust and a member of the board of directors of Tencor. Mr. Nurek disclaims beneficial ownership, except to the extent of his pecuniary interest therein, if any, of the shares held by Halco.
- (11) All shares are held by Halco. Mr. van der Merwe is one of our directors and a member of the board of directors of Tencor. Mr. van der Merwe disclaims beneficial ownership, except to the extent of his pecuniary interest therein, if any, of the shares held by Halco.
- (12) Includes 191,750 shares held by Ernest James Furtado and Barbara Ann Pelletreau, Trustees of the Furtado-Pelletreau 2003 Revocable Living Trust UDT dated November 28, 2003, 200 shares held by Ernest James Furtado as custodian for David Furtado UGMA, and 100 shares held by Ernest James Furtado as custodian for Michelle Pelletreau UGMA. Includes 49,000 restricted share units and 70,000 share options granted on October 9, 2007, 14,875 restricted share units and 17,500 share options granted on November 19, 2008 and 15,050 restricted share units and 15,050 share options granted on November 18, 2009 under the 2007 Share

Incentive Plan. Share options were awarded at exercise prices equal to the fair market value of our Common Shares on the grant dates of \$16.50, \$7.10 and \$16.97 per share on October 9, 2007, November 19, 2008 and November 18, 2009, respectively. Options awarded on October 9, 2007, November 19, 2008 and November 18, 2009 expire on October 8, 2017, November 18, 2018 and November 17, 2019, respectively.

- (13) Includes 73,500 restricted share units and 52,500 share options granted on October 9, 2007, 22,100 restricted share units and 19,500 share options granted on November 19, 2008 and 22,350 restricted share units and 22,350 share options granted on November 18, 2009 under the 2007 Share Incentive Plan. Share options were awarded at exercise prices equal to the fair market value of our Common Shares on the grant date of \$16.50, \$7.10 and \$16.97 per share on October 9, 2007, November 19, 2008 and November 18, 2009, respectively. Options awarded on October 9, 2007, November 19, 2008 and November 18, 2009 expire on October 8, 2017, November 18, 2018 and November 17, 2019, respectively.
- (14) Includes 73,500 restricted share units and 52,500 share options granted on October 9, 2007, 22,100 restricted share units and 19,500 share options granted on November 19, 2008 and 22,350 restricted share units and 22,350 share options granted on November 18, 2009 under the 2007 Share Incentive Plan. Share options were awarded at exercise prices equal to the fair market value of our Common Shares on the grant date of \$16.50, \$7.10 and \$16.97 per share on October 9, 2007, November 19, 2008 and November 18, 2009, respectively. Options awarded on October 9, 2007, November 19, 2008 and November 18, 2009 expire on October 8, 2017, November 18, 2018 and November 17, 2019, respectively.

PROPOSAL ONE

APPROVAL OF THE RE-ELECTION OF OUR CLASS I DIRECTORS

At the 2010 Annual Meeting, Shareholders will be asked to approve the re-election of each of John A. Maccarone, Dudley R. Cottingham, Hyman Shwiel and James E. Hoelter as a Class I director of the Company. In accordance with our bye-laws as currently in effect, our board of directors is elected annually on a staggered basis, with each director holding office until the annual general meeting for the year in which such director's term expires, except in the event of his death, resignation, removal or earlier termination of his office. Our bye-laws as currently in effect provide for a classified board of directors, divided into three classes, which are designated as Class I, Class II and Class III.

Messrs. John A. Maccarone, Dudley R. Cottingham, Hyman Shwiel and James E. Hoelter are designated Class I directors, each of whom holds office until our 2010 Annual Meeting. Messrs. Neil I. Jowell, Cecil Jowell, David M. Nurek and Hendrik R. van der Merwe are designated as Class III directors, each of whom holds office until our 2011 annual general meeting of shareholders. Messrs. James A. Owens, Isam K. Kabbani and James E. McQueen are designated as Class II directors, each of whom holds office until our 2012 annual general meeting of shareholders. At each such annual general meeting of shareholders, directors in the class whose term expires at that annual general meeting of shareholders are elected for three-year terms. Directors may be re-elected when their term of office expires.

The terms of the Class I directors are set to expire at the 2010 Annual Meeting. Accordingly, based upon the recommendation of the corporate governance and nominating committee of our board of directors, our board of directors has nominated Messrs. John A. Maccarone, Dudley R. Cottingham, Hyman Shwiel and James E. Hoelter to stand for re-election, in each case, as a Class I director of the Company, at the 2010 Annual Meeting. Proposal One calls for a vote FOR the approval of the re-election of each of Messrs. John A. Maccarone, Dudley R. Cottingham, Hyman Shwiel and James E. Hoelter as a Class I director of the Company at the 2010 Annual Meeting. If re-elected at the 2010 Annual Meeting, each of Messrs. John A. Maccarone, Dudley R. Cottingham, Hyman Shwiel and James E. Hoelter will each serve for a three-year term expiring at our 2013 annual general meeting of shareholders, subject to his office being vacated earlier.

Biographical information relating to the directors under Proposal One is presented in this Proxy Statement below under "Directors and Senior Management—Directors."

Directors and Senior Management

The following table sets forth information regarding our executive officers and directors as of April 5, 2010. One of the three classes of our board of directors is elected annually and each director holds office until the annual general meeting for the year in which his term expires, except in the event of his death, resignation, removal or earlier termination of his office. The business address of each of our executive officers is c/o Textainer Equipment Management (U.S.) Limited, 650 California Street, 16th Floor, San Francisco, California 94108, United States. The business address for each of our non-management directors is Century House, 16 Par-La-Ville Road, Hamilton HM 08, Bermuda.

As of April 5, 2010, our principal shareholder, Halco, beneficially owned approximately 62.0% of our issued and outstanding Common Shares. Accordingly, Halco has the ability to influence the outcome of matters submitted to our shareholders for approval, including the proposals to be voted on at the 2010 Annual Meeting, and may support proposals and actions with which other shareholders may disagree or which are not in such other shareholders' interests. Halco is owned by a discretionary trust with an independent trustee in which Trenchor Limited and certain of its affiliates are the sole discretionary beneficiaries. Halco is the wholly-owned subsidiary of the Halco Trust. Trenchor is a South African container public company, listed on the Johannesburg Stock Exchange ("JSE") in Johannesburg, South Africa. Trenchor was founded in 1929, and currently has businesses owning, leasing and managing marine cargo containers and finance related activities. Mobile

Industries Limited, a holding company listed on the JSE (“**Mobile Industries**”), owns approximately 46.2% of Trecor and the family interests of our directors Neil I. Jowell and Cecil Jowell have a significant percentage in Mobile Industries with Neil and Cecil Jowell being directors of that company. In addition, the protectors of the Halco Trust are Neil I. Jowell, the chairman of both our board of directors and the board of directors of Trecor, and Cecil Jowell and James E. McQueen, members of our board of directors and the board of directors of Trecor. The protectors of the trust have the power, under the trust documents, to appoint or remove the trustee. The protectors cannot be removed and have the right to nominate replacement protectors. In addition, any changes to the beneficiary of the Halco Trust must be agreed to by both the independent trustee and the protectors of the trust. As indicated below, six of our eleven directors are also directors of Trecor.

<u>Executive Officers and Directors</u>	<u>Age</u>	<u>Position</u>
Neil I. Jowell(1)(2)(3)(4)	76	Chairman
Dudley R. Cottingham(1)(2)(3)	58	Director
James E. Hoelter(1)(2)(3)(4)	70	Director
Cecil Jowell(4)	74	Director
Isam K. Kabbani	75	Director
John A. Maccarone	65	Director, President and Chief Executive Officer
James E. McQueen(1)(4)	65	Director
David M. Nurek(2)(3)(4)	60	Director
James A. Owens	70	Director
Hyman Shwiel(1)(2)(3)	65	Director
Hendrik R. van der Merwe(4)	62	Director
Philip K. Brewer	52	Executive Vice President
Robert D. Pedersen	51	Executive Vice President
Ernest J. Furtado	54	First Vice President, Senior Vice President, Chief Financial Officer & Secretary

- (1) Member of the audit committee. Messrs. Cottingham and Shwiel are voting members and Messrs. Hoelter, Neil Jowell and McQueen are non-voting members.
- (2) Member of the compensation committee.
- (3) Member of the nominating and governance committee.
- (4) Director of Trecor, the indirect beneficiary of a majority of our share interest.

Certain biographical information about each of these individuals is set forth below.

Directors

Neil I. Jowell has served as our director and chairman since December 1993. Mr. N. Jowell also serves on the board of directors of Trecor. He has been a director of Trecor since 1966, and was appointed chairman in 1973. He is also a director of Mobile Industries, and has served on its board of directors since 1969. Mr. N. Jowell has over 50 years experience in the transportation industry. He holds a M.B.A. from Columbia University and Bachelor of Commerce and L.L.B. degrees from the University of Cape Town. Mr. Neil I. Jowell and Mr. Cecil Jowell are brothers.

Dudley R. Cottingham has been a member of our board of directors and previously served as assistant secretary or secretary since December 1993. He has also served in the past as president of certain of our subsidiaries. Mr. Cottingham has over 30 years of experience in public accounting for a variety of international and local clients. He is a director and the audit committee chairman of Bermuda Press (Holdings) Ltd., a newspaper publishing and commercial printing company listed on the Bermuda Stock Exchange and is chairman of the listing committee of the Bermuda Stock Exchange. He has been a partner with Arthur Morris and Company, a provider of audit and accounting services for international clients, since 1982, and has served as vice

president and director of Continental Management Ltd., a Bermuda company providing corporate representation, administration and management services, since 1982 and Continental Trust Corporation Ltd., a Bermuda company that provides corporate and individual trust administration services, since 1994. He is a partner in Grant Thornton and Morris Cottingham & Co. and a director of Caribbean Management Limited located in Grand Cayman, Cayman Islands and is a director of Morris, Cottingham & Co. Ltd. and their other group companies in Turks & Caicos Islands. Mr. Cottingham is a Chartered Accountant.

James E. Hoelter has been a member of our board of directors since December 1993 and was our president and chief executive officer from that time until his retirement in December 1998. Mr. Hoelter is a non-executive member of the board of directors of Trencor and a member of Trencor's audit committee. He is the president of Freightmasters Associates, Inc., a company that provides consulting services for the international freight carrying industry. Mr. Hoelter received a Bachelor of Business Administration degree from the University of Wisconsin and a M.B.A. from the Harvard Business School.

Cecil Jowell has been a member of our board of directors since March 2003. Mr. C. Jowell is also a director and chairman of Mobile Industries, a public company quoted on the JSE. Mr. C. Jowell has been a director of Mobile Industries since 1969 and was appointed chairman in 1973. Mobile Industries holds an approximately 46.2% interest in Trencor. Mr. C. Jowell is a non-executive director of Trencor and was an executive of Trencor for over 40 years. He has also served as a director and chairman of WACO International Ltd., an international industrial group previously listed on the JSE. Mr. C. Jowell holds a Bachelor of Commerce and L.L.B. degrees from the University of Cape Town and is a graduate of the Institute of Transport.

Isam K. Kabbani has been a member of our Board of Directors since December 1993. Mr. Kabbani is the Chairman and principal stockholder of the IKK Group, Jeddah, Saudi Arabia, a manufacturing, trading and construction group active both in Saudi Arabia and internationally. In 1959, Mr. Kabbani joined the Saudi Arabian Ministry of Foreign Affairs, and in 1960 moved to Ministry of Petroleum for a period of ten years. During this time, he was seconded to the Organization of Petroleum Exporting Countries ("OPEC"). After a period as Chief Economist of OPEC, in 1967 he became the Saudi Arabian member of OPEC's Board of Governors. In 1970, he left the Ministry of Petroleum to establish his own business starting with National Marketing, a small trading company in specialized building materials. The IKK Group has been for the past decade consistently among the largest 35 Saudi Companies. Mr. Kabbani holds a B.A. from Swarthmore College and a M.A. in Economics and International Relations from Columbia University.

John A. Maccarone has served as our president and chief executive officer since January 1999, and has been a member of our board of directors since December 1993. Mr. Maccarone is a member of the board of directors of the Institute of International Container Lessors, a trade association for the container and chassis leasing industry, and served as its chairman from January 2006 to December 2006. Mr. Maccarone co-founded Intermodal Equipment Associates, a marine container leasing company based in San Francisco, and held a variety of executive positions with the company from 1979 until 1987, when he joined the Textainer Group as president and chief executive officer of Textainer Equipment Management Limited, now a subsidiary of our company. From 1977 through 1978, Mr. Maccarone was director of marketing based in Hong Kong for Trans Ocean Leasing Corporation, a San Francisco-based company. From 1969 to 1976, Mr. Maccarone was a marketing representative for IBM Corporation in Chicago, Illinois. From 1966 to 1968, he served as a Lieutenant in the U.S. Army Corps of Engineers in Thailand and Virginia. Mr. Maccarone holds a B.S. in Engineering Management from Boston University and a M.B.A. from Loyola University of Chicago.

James E. McQueen has been a member of our board of directors since March 2003. Mr. McQueen joined Trencor in June 1976 and has served as financial director of Trencor since April 1984. Mr. McQueen is also a director of a number of Trencor's subsidiaries. Prior to joining Trencor, Mr. McQueen was an accountant in public practice. Mr. McQueen received a Bachelor of Commerce degree and a Certificate in the Theory of Accounting from the University of Cape Town and is a Chartered Accountant (South Africa).

David M. Nurek has been a member of our board of directors since September 2007. Mr. Nurek was appointed as an alternate director of Trecor in November 1992 and as a non-executive member of its board of directors in July 1995 and is chairman of Trecor's remuneration and nomination committees and a member of its audit committee. Mr. Nurek is an executive of Investec Bank Limited, a subsidiary of Investec Limited, which is listed on the JSE. Investec Limited has entered into a dual listed company structure with Investec plc, which is quoted on the London Stock Exchange (collectively, the "**Investec Group**"). He is the regional chairman of Investec Limited's various businesses in the Western Cape, South Africa, and is also the Investec Group's worldwide head of legal risk. Prior to joining Investec Limited in June 2000, Mr. Nurek served as chairman of the South African legal firm Sonnenberg Hoffman & Galombik, which has since changed its name to Edward Nathan Sonnenbergs Inc. Mr. Nurek serves as a non-executive on the boards of directors of various listed and unlisted companies in South Africa and holds a Diploma in Law and a Graduate Diploma in Company Law from the University of Cape Town, and completed a Program of Instruction for Lawyers at Harvard Law School and a Leadership in Professional Services Firms program at Harvard Business School.

James A. C. Owens has served as a member of our board of directors since May 1998. Mr. Owens has served as an insurance broker and director of Foreign Business Indemnity Ltd. since 1988. He has also served as a senior consultant on international business for the Heath Lambert Group (Lloyd's Brokers) since November 2006. Mr. Owens has been associated with us (or our predecessor companies and affiliates) since 1980, and for a time represented one of our predecessor companies as a director of the Institute of International Container Lessors. He has for many years been, and continues to be, actively involved in insurance brokerage companies and captive insurance companies. He is a member of a number of boards of directors of non-U.S. companies, including Ferrosure (Isle of Man) Insurance Company Limited, a captive insurance subsidiary of a large international public company. Mr. Owens holds a Bachelor of Commerce degree from the University of South Africa.

Hyman Shwiel has been a member of our board of directors since September 2007. Mr. Shwiel was a partner in Ernst & Young LLP for 25 years. He served during that period in various roles, including Area Managing Partner and as National Director of Enterprise and Professional Risk. Upon his retirement in 2005, he became a consultant to Ernst & Young until 2007. Mr. Shwiel holds a C.T.A. and a M.B.A. from the University of Cape Town and is a Chartered Accountant (South Africa) and a CPA.

Hendrik Roux van der Merwe has been a member of our board of directors since March 2003. He is managing director of Trecor and a director of TrenStar, Inc. Mr. van der Merwe joined Trecor in 1997 and began serving as a director of Trecor in 1998. From 1991 to 1998, Mr. van der Merwe served as deputy chairman for Waco International Ltd., an international industrial group listed on the JSE with subsidiaries listed on the Sydney and London Stock Exchanges. From 1984 to 1991, he held various senior executive positions in the banking sector in South Africa, lastly as chief executive officer of Senbank, the corporate/merchant banking arm of Bankorp Group Ltd. Prior to entering the business world, Mr. van der Merwe practiced as an attorney at law in Johannesburg, South Africa. Mr. van der Merwe holds Bachelor of Arts and L.L.B degrees in Law from the University of Stellenbosch in South Africa, and a Master of Law in Tax Law from the University of the Witwatersrand in South Africa.

Executive Officers

For certain biographical information about John A. Maccarone, see "Directors" above.

Philip K. Brewer has served as our executive vice president since January 2006. He is responsible for managing our capital structure and identifying new sources of finance for our company, as well as overseeing the management and coordinating the activities of our risk management and resale divisions. Mr. Brewer was senior vice president of our asset management group from 1999 to 2005 and senior vice president of our capital markets group from 1996 to 1998. Prior to joining our company in 1996, Mr. Brewer worked at Bankers Trust starting in 1990 as a vice president and ending as a managing director and president of its Indonesian subsidiary. From 1989

to 1990, he was vice president in corporate finance at Jardine Fleming. From 1987 to 1989, he was capital markets advisor to the United States Agency for International Development in Indonesia. From 1984 to 1987, he was an associate with Drexel Burnham Lambert, an investment banking firm. Mr. Brewer holds a B.A. in Economics and Political Science from Colgate University and a M.B.A. in Finance from Columbia University.

Robert D. Pedersen has served as our executive vice president responsible for worldwide sales and marketing related activities and operations since January 2006. Mr. Pedersen was senior vice president of our leasing group from 1999 to 2005. From 1991 to 1999, Mr. Pedersen held several positions within our company, and from 1978 through 1991, he worked in various capacities for Klinge Cool, a manufacturer of refrigerated container cooling units, XTRA, a container lessor, and Maersk Line, a container shipping line. Mr. Pedersen is a graduate of the A.P. Moller Shipping and Transportation Program and the Merkonom Business School in Copenhagen, where he majored in Company Organization.

Ernest J. Furtado has served as our first vice president, senior vice president, chief financial officer and secretary or assistant secretary since 1999. Prior to joining our company in 1991, Mr. Furtado was controller for Itel Instant Space, a container leasing company based in San Francisco, California, and manager of accounting for Itel Containers International Corporation, a container leasing company based in San Francisco, California. Mr. Furtado is a Certified Public Accountant and holds a B.S. in Business Administration from the University of California at Berkeley and a M.B.A. in Information Systems from Golden Gate University.

Board Practices

Our corporate governance practices are in compliance with, and are not prohibited by, the laws of Bermuda. Therefore, we are exempt from many of the New York Stock Exchange's ("NYSE") corporate governance practices, other than the establishment of a formal audit committee satisfying the requirements of Rule 10A-3 under the Securities Exchange Act of 1934, as amended (the "**Exchange Act**") and notification of non-compliance with NYSE listing requirements. The practices that we follow in lieu of the NYSE's corporate governance rules are described below.

- We do not, and are not required under Bermuda law to, maintain a board of directors with a majority of independent directors. Currently, a majority of our directors are not independent, as that term is defined by the NYSE.
- We are not required by Bermuda law to hold regular meetings of the board of directors at which only independent directors are present.
- Under Bermuda law, compensation of executive officers does need to be determined by an independent committee. We have established a compensation committee that reviews and approves the compensation and benefits for our executive officers and other key executives, makes recommendations to the board regarding compensation matters and is responsible for awarding compensation to our executive officers and other employees under our share compensation plans. The committee also has the discretion to interpret and amend the terms of, and take all other actions necessary to administer, the 2007 Share Incentive Plan. However, our compensation committee is not comprised solely of independent directors. The members of our compensation committee are Messrs. Cottingham, Hoelter, Neil Jowell, Nurek and Shwiel. Messrs. Neil Jowell, Hoelter and Nurek are directors of Tencor.
- In accordance with NYSE rules, we have formed an audit committee responsible for the selection, retention, termination, compensation and oversight of the work of our independent auditors and evaluating our internal controls. Our audit committee need not have three members and the members need not comply with the NYSE's standards of independence for domestic issuers. Our audit committee has five members, Messrs. Shwiel, Cottingham, Neil Jowell, McQueen and Hoelter. Messrs. Shwiel and Cottingham are voting members of the committee and are independent as that term is defined in Rule 10A-3 under the Exchange Act. The other three members are representatives of Tencor and have no voting rights.

-
- We have established a nominating and governance committee, although this committee is not comprised solely of independent directors, as would be required of a domestic issuer. Our board of directors has adopted a nominating and governance committee charter.
 - Under Bermuda law, we are not required to obtain shareholder consent prior to issuing securities or adopting share compensation plans. However, we sought and received the approval of our shareholders for our 2007 Share Incentive Plan on September 4, 2007. We are also required under Bermuda law to obtain the consent of the Bermuda Monetary Authority for the issuance of securities in certain circumstances.
 - Under Bermuda law, we are not required to adopt corporate governance guidelines or a code of business conduct. However, we have adopted both corporate governance guidelines and a code of business conduct.

Director and Senior Management Compensation

The aggregate direct compensation we paid to our executive officers as a group (four persons) for the year ended December 31, 2008 was approximately \$3.2 million, which included approximately \$1.4 million in bonuses and approximately \$82,000 in funds set aside or accrued to provide for health and life insurance, retirement, or similar benefits. On November 18, 2009, our executive officers as a group were also granted 90,965 share options, with an exercise price of \$16.97 and an expiration date of November 17, 2019, and 90,965 restricted share units through our 2007 Share Incentive Plan. This amount does not include expenses we incurred for other payments, including dues for professional and business associations, business travel and other expenses. We did not pay our officers who also serve as directors any separate compensation for their directorship during 2009, other than reimbursements for travel expenses.

All of our full-time employees, including employees of our direct and indirect subsidiaries and dedicated agents and our executive officers, were eligible to participate in our 2007 Short Term Incentive Plan. Under that plan, all eligible employees received an incentive award based on their respective job classification and our return on assets and earnings per share. In 2009, each of our executive officers received 200% of his target incentive award.

The aggregate direct compensation we paid to our directors who are not officers for their services as directors as a group for the year ended December 31, 2009 was approximately \$543,000. Some directors were also reimbursed for expenses incurred in order to attend board or committee meetings.

Vote Required

Approval of the re-election of each of Messrs. John A. Maccarone, Dudley R. Cottingham, Hyman Shwiell and James E. Hoelter as a Class I director requires the affirmative vote of a majority of the votes cast at the 2010 Annual Meeting.

Our board of directors unanimously recommends a vote FOR the approval of the re-election of each of Messrs. John A. Maccarone, Dudley R. Cottingham, Hyman Shwiell and James E. Hoelter as a Class I director as set forth in Proposal One.

PROPOSAL TWO
APPROVAL OF OUR ANNUAL AUDITED FINANCIAL STATEMENTS FOR THE FISCAL
YEAR ENDED DECEMBER 31, 2009

At the 2010 Annual Meeting, Shareholders will be asked to approve the Company's annual audited financial statements for the fiscal year ended December 31, 2009, a copy of which is included in the enclosed 2009 Annual Report to Shareholders and will be laid before the Shareholders at the 2010 Annual Meeting. Proposal Two calls for a vote FOR the approval of the Company's annual audited financial statements for the fiscal year ended December 31, 2009.

Vote Required

Adoption of Proposal Two requires the affirmative vote of a majority of the votes cast at the 2010 Annual Meeting.

Our board of directors unanimously recommends a vote FOR the approval of the Company's annual audited financial statements for the fiscal year ended December 31, 2009 as set forth in Proposal Two.

PROPOSAL THREE

APPROVAL OF THE RE-APPOINTMENT OF KPMG LLP TO ACT AS OUR INDEPENDENT AUDITORS FOR THE FISCAL YEAR ENDING DECEMBER 31, 2010 AND THE AUTHORIZATION FOR OUR BOARD OF DIRECTORS, ACTING THROUGH OUR AUDIT COMMITTEE, TO FIX THE REMUNERATION OF OUR INDEPENDENT AUDITORS FOR THE FISCAL YEAR ENDING DECEMBER 31, 2010

At the 2010 Annual Meeting, Shareholders will be asked to approve the re-appointment of KPMG LLP, an independent registered public accounting firm, to act as the Company's independent auditors for the fiscal year ending December 31, 2010 and the authorization for the board of directors, acting through our audit committee, to fix the remuneration of the Company's independent auditors for the fiscal year ending December 31, 2010.

Independent Auditors Fees and Services

Our audit committee pre-approves all services provided by KPMG LLP. All of the services and fees described below were reviewed and pre-approved by our audit committee. Our audit committee has delegated to the chairman of the audit committee certain limited authority to grant pre-approvals. These decisions to pre-approve a service must be presented to the full audit committee at its next scheduled meeting.

The following is a summary of the fees billed to us by KPMG LLP for professional services rendered for the fiscal years ended December 31, 2009 and 2008:

<u>Fee Category</u>	<u>2009 Fees</u>	<u>2008 Fees</u>
Audit Fees	\$ 1,133,000	\$ 1,138,000
Tax Fees	19,000	10,000
All Other Fees	—	—
Total Fees	<u>\$ 1,152,000</u>	<u>\$ 1,148,000</u>

Audit Fees—Consists of fees billed for professional services rendered for the audit of our financial statements and services that are normally provided by the principal accountants in connection with statutory and regulatory filings or engagements.

Tax Fees—Consists of fees billed for professional services for tax compliance, tax advice and tax planning.

All Other Fees—Consists of fees for product and services other than the services reported above. KPMG LLP did not provide any other services to Textainer for the fiscal years ended December 31, 2009 or 2008.

Vote Required

Adoption of Proposal Three requires the affirmative vote of a majority of the votes cast at the 2010 Annual Meeting.

Our board of directors unanimously recommends a vote FOR the approval of the re-appointment of KPMG LLP, an independent registered public accounting firm, to act as the Company's independent auditors for the fiscal year ending December 31, 2010 and the authorization for our board of directors, acting through our audit committee, to fix the remuneration of the Company's independent auditors for the fiscal year ending December 31, 2010 as set forth in Proposal Three.

PROPOSAL FOUR

APPROVAL OF AN AMENDMENT TO THE 2007 SHARE INCENTIVE PLAN TO INCREASE THE MAXIMUM NUMBER OF COMMON SHARES THAT MAY BE GRANTED PURSUANT TO SUCH PLAN BY 1,468,500 SHARES AND EFFECT CERTAIN TECHNICAL CLARIFICATIONS TO SUCH PLAN

General

At the 2010 Annual meeting, Shareholders will be asked to approve an amendment to the Company's 2007 Share Incentive Plan (the "**Plan**") in order to (i) increase the maximum number of Common Shares that may be granted pursuant to the Plan by 1,468,500 shares from 3,808,371 shares to 5,276,871 shares and (ii) effect certain technical clarifications to the Plan to clarify our exemption from the application of Section 162(m) of the Internal Revenue Code of 1986, as amended (the "**Code**"), based on our status as a "foreign private issuer". Upon the recommendation of the compensation committee of our board of directors, our board of directors has unanimously approved this proposed amendment for submission to a vote of our shareholders.

The Plan was originally adopted by our board of directors on August 9, 2007 and subsequently approved by our shareholders on September 4, 2007. The Company adopted the Plan to provide a means whereby employees, officers, directors and consultants of the Company and its affiliates and others performing services to the Company may be given an opportunity to purchase and/or receive Common Shares of the Company. The maximum aggregate number of Common Shares subject to the Plan which may be issued pursuant to awards was originally approved at eight percent of the number of shares issued and outstanding as of the date which is 45 days following our initial public offering, which was equal to 3,808,371 shares, to be awarded over a period of four years: 2007, 2008, 2009, and 2010. 1,522,940 share options, 1,524,433 restricted share units and 203,000 equivalent shares in the form of cash awards have been granted through three separate grants on October 9, 2007, November 19, 2008, and November 18, 2009. There currently remain approximately 612,000 shares to be awarded subject to the Plan. The proposed increase of the maximum number of Common Shares that may be granted pursuant to the Plan by 1,468,500 shares as set forth in Proposal Four would represent approximately three percent of our outstanding and issued Common Shares. The addition of 1,468,500 shares to the Plan would result in approximately 2,080,500 shares available to be awarded over a four-year period: 2011, 2012, 2013, and 2014.

The increase of 1,468,500 shares is being requested for future awards to existing employees, directors and consultants, and additional employees, directors and consultants which may become eligible to participate in the Plan.

Any shares covered by an award (or portion of an award) which is forfeited, canceled or expires (whether voluntarily or involuntarily) shall be deemed not to have been issued for purposes of determining the maximum aggregate number of shares which may be issued under the Plan. Shares that actually have been issued under the Plan pursuant to an award shall not be returned to the Plan and shall not become available for future issuance under the Plan, except that if unvested shares are forfeited, or repurchased by the Company at the lower of their original purchase price or their fair market value at the time of repurchase, such shares shall become available for future grant under the Plan. To the extent not prohibited by the listing requirements of the NYSE or applicable laws, any shares covered by an award which are tendered to the Plan (i) in payment of the award exercise or purchase price (including pursuant to the "net exercise" of an option as provided by the Plan) or (ii) in satisfaction of tax withholding obligations incident to the exercise of an award shall be deemed not to have been issued for purposes of determining the maximum aggregate number of shares which may be issued pursuant to all awards under the Plan, unless otherwise determined by the administrator of the Plan.

The Plan

The following is a summary of major features of the Plan, as proposed to be amended. The following summary does not purport to be a complete description of all of the provisions of the Plan (as proposed to be

amended) and is qualified in its entirety by reference to the actual text of the Plan (as proposed to be amended), a black-lined copy of which is included as Exhibit A to this Proxy Statement. The black-lined copy included as Exhibit A is marked to show changes against the current Plan. You are urged to read Exhibit A in its entirety.

Awards under the Plan include share options, share appreciation rights, restricted shares, restricted share units, dividend equivalent rights or other rights or benefits under the Plan (each an “**Award**” and collectively, “**Awards**”).

Administration. The Plan is administered by our board of directors or any of the committees (composed of members of our board of directors) appointed to administer the Plan (the “**Administrator**”). The Administrator has full and exclusive discretionary authority to construe, interpret and apply the terms of the Plan, to determine the number of shares to be subject to each Award, determine the exercise or purchase price of each Award, determine the vesting and exercise periods of each Award and to determine eligibility under the Plan, including selecting the Award recipients (each, a “**Grantee**”).

With respect to grants of Awards to directors or employees who are also officers or directors of the Company, the Plan shall be administered by (i) our board of directors or (ii) a committee designated by our board of directors, which committee shall be constituted in such a manner as to satisfy the applicable laws.

With respect to grants of Awards to employees or consultants who are neither directors nor officers of the Company, the Plan shall be administered by (i) our board of directors or (ii) a committee designated by our board of directors, which committee shall be constituted in such a manner as to satisfy the applicable laws. Our board of directors may authorize one or more officers to grant such Awards and may limit such authority as our board of directors determines from time to time.

Notwithstanding the foregoing, as of and after the date that the exemption for the Plan under Section 162(m) of the Code (or another exemption) is no longer available, grants of Awards to any Covered Employee (as defined in the Plan) intended to qualify as performance-based compensation shall be made only by a committee (or subcommittee of a committee) which is comprised solely of two (2) or more directors eligible to serve on a committee making Awards qualifying as performance-based compensation as set forth under Section 162(m) of the Code.

Subject to any required action by our shareholders, the number of Common Shares covered by outstanding Awards, the number of Common Shares that have been authorized for issuance under the Plan, the exercise or purchase price of each outstanding Award, the maximum number of Common Shares that may be granted subject to Awards to a Grantee in any calendar year, and the like, shall be proportionally adjusted by the Administrator in the event of any increase or decrease in the number of issued Common Shares resulting from certain changes in the Company’s capital structure as described in the Plan.

Eligibility. The Administrator determines who will receive Awards under the Plan as well as the terms and conditions of any Award. Awards other than incentive stock options may be granted to the Company’s employees, directors and consultants or the employees, directors and consultants of any parent or subsidiary of the Company (each parent or subsidiary of the Company, a “**Related Entity**”). The Company may grant incentive stock options only to the Company’s employees or employees of any Related Entity.

Share Options. A share option gives a Grantee the right to purchase a specific number of Common Shares of the Company at a price per share (the “**exercise price**”) that is equal to the fair market value of the Common Shares on the day the Grantee’s option is granted. When the Grantee purchases the Common Shares subject to the option, the Grantee has “exercised” the option. If the value of the Common Shares has increased since the grant of the share option, the Grantee has the opportunity to realize a gain. Share options granted under the Plan may be either incentive stock options under the provisions of Section 422 of the Code, or non-qualified options.

Restricted Share Units. A restricted share unit (“RSU”) does not represent any actual ownership interest in the Company. RSUs granted correspond in number and value to a specified number of Common Shares of the Company. A Grantee will not be required to pay for the shares. RSUs are tracked in a bookkeeping account until vested. RSUs have no voting rights and may or may not have dividend rights. Prior to vesting, the RSUs are non-transferable and will be forfeited to the Company if the Grantee terminates Continuous Service before the RSUs have vested. Upon vesting, the RSUs may be settled in Common Shares of the Company or in cash. After vesting, the shares (if the RSUs are settled in Common Shares) are freely transferable subject to applicable securities laws restrictions. RSUs will vest and be released from the risk of forfeiture over a period determined by the Administrator.

Vesting of Awards. Awards will vest only during the time of a Grantee’s Continuous Service, as explained below. The Administrator will set the vesting schedule for each Award. Awards may vest upon the passage of time or upon the attainment of certain performance criteria. The performance criteria established by the Administrator may be based on any one of, or combination of, the following: (i) increase in share price, (ii) earnings per share, (iii) total shareholder return, (iv) operating margin, (v) gross margin, (vi) return on equity, (vii) return on assets, (viii) return on investment, (ix) operating income, (x) net operating income, (xi) pre-tax profit, (xii) cash flow, (xiii) revenue, (xiv) expenses, (xv) earnings before interest, taxes and depreciation, (xvi) economic value added and (xvii) market share.

Continuous Service. Continuous Service means that the service a Grantee provides to the Company or a Related Entity in any capacity of employee, director or consultant is not interrupted or terminated. In jurisdictions requiring notice in advance of an effective termination as an employee, director or consultant, the Grantee’s Continuous Service will be deemed terminated upon the actual cessation of his/her provisions of services to the Company or a Related Entity notwithstanding any required notice period that must be fulfilled before his/her termination as an employee, director or consultant can be effective under applicable laws. The Grantee’s Continuous Service shall be deemed to have terminated either upon an actual termination of his/her Continuous Service or upon the entity for which he/she provides services ceasing to be a Related Entity. The Grantee’s Continuous Service shall not be considered interrupted in the case of (i) any approved leave of absence, (ii) transfers among the Company, any Related Entity, or any successor, in any capacity of employee, director or consultant, or (iii) any change in status as long as he/she remains in the service of the Company or a Related Entity in any capacity of employee, director or consultant. An approved leave of absence will include sick leave, military leave, or any other authorized personal leave. For purposes of each incentive stock option granted to the Grantee under the Plan, if such leave exceeds three (3) months, and his/her reemployment upon expiration of such leave is not guaranteed by statute or contract, then the incentive stock option shall be treated as a non-qualified option on the day three (3) months and one (1) day following the expiration of such three (3) month period.

Exercise Price. The exercise price of all share options granted under the Plan will be at least equal to 100% of the fair market value of the Company’s Common Shares on the date of grant. If, however, incentive stock options are granted to an employee who owns shares possessing more than ten percent of the voting power of all classes of the Company’s Common Shares or the shares of any Related Entity, the exercise price of any incentive stock option granted must equal at least 110% of the fair market value on the grant date and the maximum term of such incentive stock options must not exceed five years. The maximum term of all other Awards under the Plan will be ten years. The base appreciation amount of any share appreciation right and the exercise price or purchase price, if any, of any Awards intended to be performance-based compensation (within the meaning of Section 162(m) of the Code) will be at least equal to 100% of the fair market value of the Company’s Common Shares on the date of grant. The Administrator will determine the term and exercise or purchase price of any other Awards granted under the Plan.

Transferability. Incentive stock options may not be sold, pledged, assigned, hypothecated, transferred, or disposed of in any manner other than by will or by the laws of descent or distribution and may be exercised only by the Grantee during his/her lifetime. Other Awards may be transferable by will or by the laws of descent or

distribution and during the Grantee's lifetime, to the extent provided in the Award agreement or in the manner authorized by the Administrator. The Plan permits the designation of beneficiaries by holders of Awards, including incentive stock options.

Corporate Transactions and Changes in Control. In the event of a Corporate Transaction or a Change in Control of the Company, all outstanding Awards under the Plan will terminate unless the acquirer assumes or replaces such Awards. In addition and except as otherwise provided in an individual Award agreement, assumed or replaced Awards will automatically become fully vested if a Grantee's Continuous Service is terminated by the acquirer without Cause (as defined in the Plan) within twelve (12) months after a Corporate Transaction. In the event of a Corporate Transaction where the acquirer does not assume or replace Awards, all such Awards become fully vested immediately prior to the consummation of the Corporate Transaction. Following a Change in Control, except as otherwise provided in an individual Award agreement, outstanding Awards will automatically become fully vested and exercisable and be released from any repurchase or forfeiture rights (other than repurchase rights exercisable at fair market value) immediately upon the termination of a Grantee's Continuous Service if such Grantee's Continuous Service is terminated by the Company or by a Related Entity without Cause within twelve (12) months following such a Change in Control.

A "Corporate Transaction" is generally defined, under the Plan, as: (i) acquisition of 50% or more of the Company's Common Shares by any individual or entity including by tender offer; (ii) a reverse merger or amalgamation in which 40% or more of the Company's Common Shares is acquired by an individual or entity; (iii) a sale, transfer or other disposition of all or substantially all of the assets of the Company; (iv) a merger, amalgamation or consolidation in which the Company is not the surviving entity; or (v) a complete liquidation or dissolution of the Company. A "Change in Control" is generally defined, under the Plan, as: (i) acquisition of 50% or more of the Company's Common Shares by any individual or entity which our shareholders are not recommended to accept by a majority of our board of director members who have served on our board of directors for at least twelve (12) months; or (ii) a change in the composition of our board of directors as a result of contested elections over a period of twelve (12) months or less.

Term of Plan; Amendment to the Plan. The Plan will continue to be in effect until 2017 unless sooner terminated by our board of directors, or with the approval of our shareholders to the extent such approval is required by applicable laws. Our board of directors may at any time amend, suspend or terminate the Plan. To the extent necessary to comply with applicable provisions of federal securities laws, state corporate and securities laws, the Code, the rules of any applicable stock exchange or national market system, and the rules of any non-U.S. jurisdiction applicable to Awards granted to residents therein, the Company shall obtain shareholder approval of any such amendment to the Plan in such a manner and to such a degree as required. No suspension or termination of the Plan will adversely affect Awards already granted, and such Awards will remain in full force and effect as if the Plan had not been suspended or terminated.

Termination of Service. In the event a Grantee terminates Continuous Service or such Continuous Service is terminated by the Company or by a Related Entity without Cause, any share options which have become exercisable prior to the time of such termination will remain exercisable for three (3) months from the date of termination (unless a shorter or longer period of time is determined by the Administrator). In the event a Grantee's Continuous Service is terminated by the Company or by a Related Entity for Cause, any share options which have become exercisable prior to such termination will immediately terminate. If termination of Continuous Service was caused by death or disability, any share options which have become exercisable prior to the time of such termination will remain exercisable for twelve (12) months from the date of termination (unless a shorter or longer period of time is determined by the Administrator). Unless an individual Award agreement otherwise provides, all vesting of all other Awards will generally terminate upon the date of termination of the Grantee's Continuous Service.

Vote Required

Adoption of Proposal Four requires the affirmative vote of a majority of the votes cast at the 2010 Annual Meeting.

Our board of directors unanimously recommends a vote FOR the approval to amend the 2007 Share Incentive Plan to increase the maximum number of Common Shares that may be granted pursuant to the plan by 1,468,500 shares and effect certain technical clarifications to such plan as set forth in Proposal Four.

OTHER MATTERS

Our board of directors is currently unaware of any other matters to come before the 2010 Annual Meeting other than as set forth in the accompanying Notice of 2010 Annual General Meeting of Shareholders and as more specifically described in this Proxy Statement. Each Common Share represented by a properly executed proxy which is returned and not revoked will be voted in accordance with the proxyholder's best judgment as to any other business as may properly come before the 2010 Annual Meeting.

TEXTAINER GROUP HOLDINGS LIMITED
2007 SHARE INCENTIVE PLAN
(as amended and restated effective May 19, 2010)

1. Purposes of the Plan. The purposes of this Plan are to attract and retain the best available personnel, to provide additional incentives to Employees, Directors and Consultants and to promote the success of the Company's business.

2. Definitions. The following definitions shall apply as used herein and in the individual Award Agreements except as defined otherwise in an individual Award Agreement. In the event a term is separately defined in an individual Award Agreement, such definition shall supercede the definition contained in this Section 2.

(a) "Administrator" means the Board or any of the Committees appointed to administer the Plan.

(b) "Affiliate" and "Associate" shall have the respective meanings ascribed to such terms in Rule 12b-2 promulgated under the Exchange Act.

(c) "Applicable Laws" means the legal requirements relating to the Plan and the Awards under applicable provisions of U.S. federal securities laws, foreign or state corporate and securities laws, the Code, the rules of any applicable share exchange or national market system, and the rules of any non-U.S. jurisdiction applicable to Awards granted to residents therein.

(d) "Assumed" means that pursuant to a Corporate Transaction either (i) the Award is expressly affirmed by the Company or (ii) the contractual obligations represented by the Award are expressly assumed (and not simply by operation of law) by the successor entity or its Parent in connection with the Corporate Transaction with appropriate adjustments to the number and type of securities of the successor entity or its Parent subject to the Award and the exercise or purchase price thereof which at least preserves the compensation element of the Award existing at the time of the Corporate Transaction as determined in accordance with the instruments evidencing the agreement to assume the Award.

(e) "Award" means the grant of an Option, SAR, Dividend Equivalent Right, Restricted Shares, Restricted Share Unit or other right or benefit under the Plan.

(f) "Award Agreement" means the written agreement evidencing the grant of an Award executed by the Company and the Grantee, including any amendments thereto.

(g) "Board" means the Board of Directors of the Company.

(h) "Cause" means, with respect to the termination by the Company or a Related Entity of the Grantee's Continuous Service, that such termination is for "Cause" as such term (or word of like import) is expressly defined in a then-effective written agreement between the Grantee and the Company or such Related Entity, or in the absence of such then-effective written agreement and definition, is based on, in the determination of the Administrator, the Grantee's: (i) performance of any act or failure to perform any act in bad faith and to the detriment of the Company or a Related Entity; (ii) dishonesty, intentional misconduct or material breach of any agreement with the Company or a Related Entity; or (iii) commission of a crime involving dishonesty, breach of trust, or physical or emotional harm to any person; provided, however, that with regard to any agreement that defines "Cause" on the occurrence of or in connection with a Corporate Transaction or a Change

in Control, such definition of “Cause” shall not apply until a Corporate Transaction or a Change in Control actually occurs.

(i) “Change in Control” means a change in ownership or control of the Company after the Registration Date effected through either of the following transactions:

(i) the direct or indirect acquisition by any person or related group of persons (other than an acquisition from or by the Company or by a Company-sponsored employee benefit plan or by a person that directly or indirectly controls, is controlled by, or is under common control with, the Company) of beneficial ownership (within the meaning of Rule 13d-3 of the Exchange Act) of securities possessing more than fifty percent (50%) of the total combined voting power of the Company’s issued and outstanding securities pursuant to a tender or exchange offer made directly to the Company’s shareholders which a majority of the Continuing Directors who are not Affiliates or Associates of the offeror do not recommend such shareholders accept, or

(ii) a change in the composition of the Board over a period of twelve (12) months or less such that a majority of the Board members (rounded up to the next whole number) ceases, by reason of one or more contested elections for Board membership, to be comprised of individuals who are Continuing Directors.

(j) “Code” means the U.S. Internal Revenue Code of 1986, as amended.

(k) “Committee” means any committee composed of members of the Board appointed by the Board to administer the Plan.

(l) “Common Shares” means the common shares of the Company.

(m) “Company” means Textainer Group Holdings Limited, a Bermuda company, or any successor entity that adopts the Plan in connection with a Corporate Transaction.

(n) “Consultant” means any person (other than an Employee or a Director, solely with respect to rendering services in such person’s capacity as a Director) who is engaged by the Company or any Related Entity to render consulting or advisory services to the Company or such Related Entity.

(o) “Continuing Directors” means members of the Board who either (i) have been Board members continuously for a period of at least twelve (12) months or (ii) have been Board members for less than twelve (12) months and were elected or nominated for election as Board members by at least a majority of the Board members described in clause (i) who were still in office at the time such election or nomination was approved by the Board.

(p) “Continuous Service” means that the provision of services to the Company or a Related Entity in any capacity of Employee, Director or Consultant is not interrupted or terminated. In jurisdictions requiring notice in advance of an effective termination as an Employee, Director or Consultant, Continuous Service shall be deemed terminated upon the actual cessation of providing services to the Company or a Related Entity notwithstanding any required notice period that must be fulfilled before a termination as an Employee, Director or Consultant can be effective under Applicable Laws. A Grantee’s Continuous Service shall be deemed to have terminated either upon an actual termination of Continuous Service or upon the entity for which the Grantee provides services ceasing to be a Related Entity. Continuous Service shall not be considered interrupted in the case of (i) any approved leave of absence, (ii) transfers among the Company, any Related Entity, or any successor, in any capacity of Employee, Director or Consultant, or (iii) any change in status as long as the individual remains in the service of the Company or a Related Entity in any capacity of Employee, Director or Consultant (except as otherwise provided in the Award Agreement). An approved leave of absence shall include sick leave, military leave, or any other authorized personal leave. For purposes of each Incentive Stock Option granted under the Plan, if such leave exceeds three (3) months, and reemployment upon expiration of such leave

is not guaranteed by statute or contract, then the Incentive Stock Option shall be treated as a Non-Qualified Stock Option on the day three (3) months and one (1) day following the expiration of such three (3) month period.

(q) “Corporate Transaction” means any of the following transactions, provided, however, that the Administrator shall determine under parts (iv) and (v) whether multiple transactions are related, and its determination shall be final, binding and conclusive:

(i) a merger, amalgamation or consolidation in which the Company is not the surviving entity, except for a transaction the principal purpose of which is to change the jurisdiction in which the Company is incorporated;

(ii) the sale, transfer or other disposition of all or substantially all of the assets of the Company;

(iii) the complete liquidation or dissolution of the Company;

(iv) any reverse merger or amalgamation or series of related transactions culminating in a reverse merger or amalgamation (including, but not limited to, a tender offer followed by a reverse merger or amalgamation) in which the Company is the surviving or continuing entity but (A) the Common Shares issued and outstanding immediately prior to such merger or amalgamation are converted or exchanged by virtue of the merger or amalgamation into other property, whether in the form of securities, cash or otherwise, or (B) in which securities possessing more than forty percent (40%) of the total combined voting power of the Company’s issued and outstanding securities are transferred to a person or persons different from those who held such securities immediately prior to such merger or amalgamation or the initial transaction culminating in such merger or amalgamation; or

(v) acquisition in a single or series of related transactions by any person or related group of persons (other than the Company or by a Company-sponsored employee benefit plan) of beneficial ownership (within the meaning of Rule 13d-3 of the Exchange Act) of securities possessing more than fifty percent (50%) of the total combined voting power of the Company’s issued and outstanding securities but excluding any such transaction or series of related transactions that the Administrator determines shall not be a Corporate Transaction.

(r) “Covered Employee” means an Employee who is a “covered employee” under Section 162(m)(3) of the Code.

(s) “Director” means a member of the Board or the board of directors of any Related Entity.

(t) “Disability” means as defined under the long-term disability policy of the Company or the Related Entity to which the Grantee provides services regardless of whether the Grantee is covered by such policy. If the Company or the Related Entity to which the Grantee provides service does not have a long-term disability plan in place, “Disability” means that a Grantee is unable to carry out the responsibilities and functions of the position held by the Grantee by reason of any medically determinable physical or mental impairment for a period of not less than ninety (90) consecutive days. A Grantee will not be considered to have incurred a Disability unless he or she furnishes proof of such impairment sufficient to satisfy the Administrator in its discretion.

(u) “Dividend Equivalent Right” means a right entitling the Grantee to compensation measured by dividends paid with respect to Common Shares.

(v) “Employee” means any person, including an Officer or Director, who is in the employ of the Company or any Related Entity, subject to the control and direction of the Company or any Related Entity as to

both the work to be performed and the manner and method of performance. The payment of a director's fee by the Company or a Related Entity shall not be sufficient to constitute "employment" by the Company.

(w) "Exchange Act" means the U.S. Securities Exchange Act of 1934, as amended.

(x) "Fair Market Value" means, as of any date, the value of Common Shares determined as follows:

(i) If the Common Shares are listed on one or more established stock exchanges or national market systems, including without limitation, the New York Stock Exchange, its Fair Market Value shall be the closing sales price for such shares (or the closing bid, if no sales were reported) as quoted on the principal exchange or system on which the Common Shares are listed (as determined by the Administrator) on the date of determination (or, if no closing sales price or closing bid was reported on that date, as applicable, on the last trading date such closing sales price or closing bid was reported), as reported in The Wall Street Journal or such other source as the Administrator deems reliable;

(ii) If the Common Shares are regularly quoted on an automated quotation system (including the OTC Bulletin Board) or by a recognized securities dealer, its Fair Market Value shall be the closing sales price for such share as quoted on such system or by such securities dealer on the date of determination, but if selling prices are not reported, the Fair Market Value of a Common Share shall be the mean between the high bid and low asked prices for the Common Share on the date of determination (or, if no such prices were reported on that date, on the last date such prices were reported), as reported in The Wall Street Journal or such other source as the Administrator deems reliable; or

(iii) In the absence of an established market for the Common Shares of the type described in (i) and (ii), above, the Fair Market Value thereof shall be determined by the Administrator in good faith.

(y) "Grantee" means an Employee, Director or Consultant who receives an Award under the Plan.

(z) "Incentive Stock Option" means an Option intended to qualify as an incentive stock option within the meaning of Section 422 of the Code.

(aa) "Non-Qualified Stock Option" means an Option not intended to qualify as an Incentive Stock Option.

(bb) "Officer" means a person who is an officer of the Company or a Related Entity within the meaning of Section 16 of the Exchange Act and the rules and regulations promulgated thereunder.

(cc) "Option" means an option to purchase Shares pursuant to an Award Agreement granted under the Plan.

(dd) "Parent" means a "parent corporation", whether now or hereafter existing, as defined in Section 424(e) of the Code.

(ee) "Performance-Based Compensation" means compensation qualifying as "performance-based compensation" under Section 162(m) of the Code.

(ff) "Plan" means this 2007 Share Incentive Plan.

(gg) "Registration Date" means the first to occur of (i) the closing of the first sale to the general public pursuant to a registration statement filed with and declared effective by the Securities and Exchange Commission under the U.S. Securities Act of 1933, as amended, of (A) the Common Shares or (B) the same class

of securities of a successor or continuing corporation (or its Parent) issued pursuant to a Corporate Transaction in exchange for or in substitution of the Common Shares; and (ii) in the event of a Corporate Transaction, the date of the consummation of the Corporate Transaction if the same class of securities of the successor corporation (or its Parent) issuable in such Corporate Transaction shall have been sold to the general public pursuant to a registration statement filed with and declared effective by the Securities and Exchange Commission under the Securities Act of 1933, as amended, on or prior to the date of consummation of such Corporate Transaction.

(hh) “Related Entity” means any Parent or Subsidiary of the Company.

(ii) “Replaced” means that pursuant to a Corporate Transaction the Award is replaced with a comparable share award or a cash incentive program of the Company, the successor entity (if applicable) or Parent of either of them which preserves the compensation element of such Award existing at the time of the Corporate Transaction and provides for subsequent payout in accordance with the same (or a more favorable) vesting schedule applicable to such Award. The determination of Award comparability shall be made by the Administrator and its determination shall be final, binding and conclusive.

(jj) “Restricted Shares” means Shares issued under the Plan to a Grantee for such consideration, if any, and subject to such restrictions on transfer, rights of first refusal, repurchase provisions, forfeiture provisions, and other terms and conditions as established by the Administrator.

(kk) “Restricted Share Units” means an Award which may be earned in whole or in part upon the passage of time or the attainment of performance criteria established by the Administrator and which may be settled for cash, Shares or other securities or a combination of cash, Shares or other securities as established by the Administrator.

(ll) “Rule 16b-3” means Rule 16b-3 promulgated under the Exchange Act or any successor thereto.

(mm) “SAR” means a share appreciation right entitling the Grantee to Shares or cash compensation, as established by the Administrator, measured by appreciation in the value of Common Shares.

(nn) “Share” means a Common Share.

(oo) “Subsidiary” means a “subsidiary corporation”, whether now or hereafter existing, as defined in Section 424(f) of the Code.

3. Shares Subject to the Plan.

(a) Subject to the provisions of Section 10, below, the maximum aggregate number of Shares ~~which that~~ may be issued pursuant to Awards shall be **5,276,871** ~~eight percent (8%) of the number of Shares issued and outstanding as of the date which is forty-five (45) days following the Registration Date, but in no event shall the maximum aggregate number of Shares which may be issued pursuant to Awards exceed four million (4,000,000) Shares (the “Maximum Limit”); and of these four million shares, as many as four million all of which~~ may be available for grant as Incentive Stock Options. The Shares to be issued pursuant to Awards may be authorized, but unissued, or reacquired Common Shares.

(b) Any Shares covered by an Award (or portion of an Award) which is forfeited, canceled or expires (whether voluntarily or involuntarily) shall be deemed not to have been issued for purposes of determining the maximum aggregate number of Shares which may be issued under the Plan. Shares that actually have been issued under the Plan pursuant to an Award shall not be returned to the Plan and shall not become available for future issuance under the Plan, except that if unvested Shares are forfeited, or repurchased by the Company at the lower of their original purchase price or their Fair Market Value at the time of repurchase, such

Shares shall become available for future grant under the Plan. To the extent not prohibited by the listing requirements of the New York Stock Exchange (or other established stock exchange or national market system on which the Common Shares are traded) or Applicable Law, any Shares covered by an Award which are tendered to the Plan (i) in payment of the Award exercise or purchase price (including pursuant to the “net exercise” of an option pursuant to Section 7(b)(v)) or (ii) in satisfaction of tax withholding obligations incident to the exercise of an Award shall be deemed not to have been issued for purposes of determining the maximum number of Shares which may be issued pursuant to all Awards under the Plan, unless otherwise determined by the Administrator.

4. Administration of the Plan.

(a) Plan Administrator.

(i) Administration with Respect to Directors and Officers. With respect to grants of Awards to Directors or Employees who are also Officers or Directors of the Company, the Plan shall be administered by (A) the Board or (B) a Committee designated by the Board, which Committee shall be constituted in such a manner as to satisfy the Applicable Laws and to permit such grants and related transactions under the Plan to be exempt from Section 16(b) of the Exchange Act in accordance with Rule 16b-3. Once appointed, such Committee shall continue to serve in its designated capacity until otherwise directed by the Board.

(ii) Administration With Respect to Consultants and Other Employees. With respect to grants of Awards to Employees or Consultants who are neither Directors nor Officers of the Company, the Plan shall be administered by (A) the Board or (B) a Committee designated by the Board, which Committee shall be constituted in such a manner as to satisfy the Applicable Laws. Once appointed, such Committee shall continue to serve in its designated capacity until otherwise directed by the Board. The Board may authorize one or more Officers to grant such Awards and may limit such authority as the Board determines from time to time.

(iii) Administration With Respect to Covered Employees. Notwithstanding the foregoing, as of and after the date that the exemption for the Plan under Section 162(m) of the Code **(or another exemption) is no longer available**~~expires~~, as set forth in Section 18 below, grants of Awards to any Covered Employee intended to qualify as Performance-Based Compensation shall be made only by a Committee (or subcommittee of a Committee) which is comprised solely of two or more Directors eligible to serve on a committee making Awards qualifying as Performance-Based Compensation. In the case of such Awards granted to Covered Employees, references to the “Administrator” or to a “Committee” shall be deemed to be references to such Committee or subcommittee.

(iv) Administration Errors. In the event an Award is granted in a manner inconsistent with the provisions of this subsection (a), such Award shall be presumptively valid as of its grant date to the extent permitted by the Applicable Laws.

(b) Powers of the Administrator. Subject to Applicable Laws and the provisions of the Plan (including any other powers given to the Administrator hereunder), and except as otherwise provided by the Board, the Administrator shall have the authority, in its discretion:

- (i) to select the Employees, Directors and Consultants to whom Awards may be granted from time to time hereunder;
- (ii) to determine whether and to what extent Awards are granted hereunder;
- (iii) to determine the number of Shares or the amount of other consideration to be covered by each Award granted hereunder;

(iv) to approve forms of Award Agreements for use under the Plan;

(v) to determine the terms and conditions of any Award granted hereunder;

(vi) to amend the terms of any outstanding Award granted under the Plan, provided that (A) any amendment that would adversely affect the Grantee's rights under an outstanding Award shall not be made without the Grantee's written consent, provided, however, that an amendment or modification that may cause an Incentive Stock Option to become a Non-Qualified Stock Option shall not be treated as adversely affecting the rights of the Grantee, (B) the reduction of the exercise price of any Option awarded under the Plan and the base appreciation amount of any SAR awarded under the Plan shall be subject to shareholder approval and (C) canceling an Option or SAR at a time when its exercise price or base appreciation amount (as applicable) exceeds the Fair Market Value of the underlying Shares, in exchange for another Option, SAR, Restricted Shares, or other Award shall be subject to shareholder approval, unless the cancellation and exchange occurs in connection with a Corporate Transaction. Notwithstanding the foregoing, canceling an Option or SAR in exchange for another Option, SAR, Restricted Shares, or other Award with an exercise price, purchase price or base appreciation amount (as applicable) that is equal to or greater than the exercise price or base appreciation amount (as applicable) of the original Option or SAR shall not be subject to shareholder approval;

(vii) to construe and interpret the terms of the Plan and Awards, including without limitation, any notice of award or Award Agreement, granted pursuant to the Plan;

(viii) to grant Awards to Employees, Directors and Consultants employed outside the United States on such terms and conditions different from those specified in the Plan as may, in the judgment of the Administrator, be necessary or desirable to further the purpose of the Plan; and

(ix) to take such other action, not inconsistent with the terms of the Plan, as the Administrator deems appropriate.

The express grant in the Plan of any specific power to the Administrator shall not be construed as limiting any power or authority of the Administrator; provided that the Administrator may not exercise any right or power reserved to the Board. Any decision made, or action taken, by the Administrator or in connection with the administration of this Plan shall be final, conclusive and binding on all persons having an interest in the Plan.

(c) Indemnification. In addition to such other rights of indemnification as they may have as members of the Board or as Officers or Employees of the Company or a Related Entity, members of the Board and any Officers or Employees of the Company or a Related Entity to whom authority to act for the Board, the Administrator or the Company is delegated shall be defended and indemnified by the Company to the extent permitted by law (but not, for the avoidance of doubt, for their fraud or dishonesty) on an after-tax basis against all reasonable expenses, including attorneys' fees, actually and necessarily incurred in connection with the defense of any claim, investigation, action, suit or proceeding, or in connection with any appeal therein, to which they or any of them may be a party by reason of any action taken or failure to act under or in connection with the Plan, or any Award granted hereunder, and against all amounts paid by them in settlement thereof (provided such settlement is approved by the Company) or paid by them in satisfaction of a judgment in any such claim, investigation, action, suit or proceeding, except in relation to matters as to which it shall be adjudged in such claim, investigation, action, suit or proceeding that such person is liable for gross negligence, bad faith or intentional misconduct; provided, however, that within thirty (30) days after the institution of such claim, investigation, action, suit or proceeding, such person shall offer to the Company, in writing, the opportunity at the Company's expense to defend the same.

5. Eligibility. Awards other than Incentive Stock Options may be granted to Employees, Directors and Consultants. Incentive Stock Options may be granted only to Employees of the Company or a Parent or a Subsidiary of the Company. An Employee, Director or Consultant who has been granted an Award may, if

otherwise eligible, be granted additional Awards. Awards may be granted to such Employees, Directors or Consultants who are residing in non-U.S. jurisdictions as the Administrator may determine from time to time.

6. Terms and Conditions of Awards.

(a) Types of Awards. The Administrator is authorized under the Plan to award any type of arrangement to an Employee, Director or Consultant that is not inconsistent with the provisions of the Plan and that by its terms involves or might involve the issuance of (i) Shares, (ii) cash or (iii) an Option, a SAR, or similar right with a fixed or variable price related to the Fair Market Value of the Shares and with an exercise or conversion privilege related to the passage of time, the occurrence of one or more events, or the satisfaction of performance criteria or other conditions. Such awards include, without limitation, Options, SARs, sales or bonuses of Restricted Shares, Restricted Share Units or Dividend Equivalent Rights, and an Award may consist of one such security or benefit, or two (2) or more of them in any combination or alternative.

(b) Designation of Award. Each Award shall be designated in the Award Agreement. In the case of an Option, the Option shall be designated as either an Incentive Stock Option or a Non-Qualified Stock Option. However, notwithstanding such designation, an Option will qualify as an Incentive Stock Option under the Code only to the extent the \$100,000 dollar limitation of Section 422(d) of the Code is not exceeded. The \$100,000 limitation of Section 422(d) of the Code is calculated based on the aggregate Fair Market Value of the Shares subject to Options designated as Incentive Stock Options which become exercisable for the first time by a Grantee during any calendar year (under all plans of the Company or any Parent or Subsidiary of the Company). For purposes of this calculation, Incentive Stock Options shall be taken into account in the order in which they were granted, and the Fair Market Value of the Shares shall be determined as of the grant date of the relevant Option. In the event that the Code or the regulations promulgated thereunder are amended after the date the Plan becomes effective to provide for a different limit on the Fair Market Value of Shares permitted to be subject to Incentive Stock Options, then such different limit will be automatically incorporated herein and will apply to any Options granted after the effective date of such amendment.

(c) Conditions of Award. Subject to the terms of the Plan, the Administrator shall determine the provisions, terms, and conditions of each Award including, but not limited to, the Award vesting schedule, repurchase provisions, rights of first refusal, forfeiture provisions, form of payment (cash, Shares, or other consideration) upon settlement of the Award, payment contingencies, and satisfaction of any performance criteria. The performance criteria established by the Administrator may be based on any one of, or combination of, the following: (i) increase in share price, (ii) earnings per share, (iii) total shareholder return, (iv) operating margin, (v) gross margin, (vi) return on equity, (vii) return on assets, (viii) return on investment, (ix) operating income, (x) net operating income, (xi) pre-tax profit, (xii) cash flow, (xiii) revenue, (xiv) expenses, (xv) earnings before interest, taxes and depreciation, (xvi) economic value added and (xvii) market share. The performance criteria may be applicable to the Company, Related Entities and/or any individual business units of the Company or any Related Entity. Partial achievement of the specified criteria may result in a payment or vesting corresponding to the degree of achievement as specified in the Award Agreement. In addition, the performance criteria shall be calculated in accordance with generally accepted accounting principles, but excluding the effect (whether positive or negative) of any change in accounting standards and any extraordinary, unusual or nonrecurring item, as determined by the Administrator, occurring after the establishment of the performance criteria applicable to the Award intended to be performance-based compensation. Each such adjustment, if any, shall be made solely for the purpose of providing a consistent basis from period to period for the calculation of performance criteria in order to prevent the dilution or enlargement of the Grantee's rights with respect to an Award intended to be performance-based compensation.

(d) Acquisitions and Other Transactions. The Administrator may issue Awards under the Plan in settlement, assumption or substitution for, outstanding awards or obligations to grant future awards in connection with the Company or a Related Entity acquiring another entity, an interest in another entity or an additional interest in a Related Entity whether by merger or amalgamation, share purchase, asset purchase or other form of transaction.

(e) Deferral of Award Payment. The Administrator may establish one or more programs under the Plan to permit selected Grantees the opportunity to elect to defer receipt of consideration upon exercise of an Award, satisfaction of performance criteria, or other event that absent the election would entitle the Grantee to payment or receipt of Shares or other consideration under an Award. The Administrator may establish the election procedures, the timing of such elections, the mechanisms for payments of, and accrual of interest or other earnings, if any, on amounts, Shares or other consideration so deferred, and such other terms, conditions, rules and procedures that the Administrator deems advisable for the administration of any such deferral program.

(f) Separate Programs. The Administrator may establish one or more separate programs under the Plan for the purpose of issuing particular forms of Awards to one or more classes of Grantees on such terms and conditions as determined by the Administrator from time to time.

(g) Individual Limitations on Awards.

(i) Individual Limit for Options and SARs. Following the date that the exemption from application of Section 162(m) of the Code described in Section 18 (or any exemption having similar effect) ceases to apply to Awards, the maximum number of Shares with respect to which Options and SARs may be granted to any Grantee in any calendar year shall be two million (2,000,000) Shares. In connection with a Grantee's commencement of Continuous Service, a Grantee may be granted Options and SARs for up to an additional two million (2,000,000) Shares which shall not count against the limit set forth in the previous sentence. The foregoing limitations shall be adjusted proportionately in connection with any change in the Company's capitalization pursuant to Section 10, below. To the extent required by Section 162(m) of the Code or the regulations thereunder, in applying the foregoing limitations with respect to a Grantee, if any Option or SAR is canceled, the canceled Option or SAR shall continue to count against the maximum number of Shares with respect to which Options and SARs may be granted to the Grantee. For this purpose, the repricing of an Option (or in the case of a SAR, the base amount on which the share appreciation is calculated is reduced to reflect a reduction in the Fair Market Value of the Common Shares) shall be treated as the cancellation of the existing Option or SAR and the grant of a new Option or SAR.

(ii) Individual Limit for Restricted Shares and Restricted Share Units. Following the date that the exemption from application of Section 162(m) of the Code described in Section 18 (or any exemption having similar effect) ceases to apply to Awards, for awards of Restricted Shares and Restricted Share Units that are intended to be Performance-Based Compensation, the maximum number of Shares with respect to which such Awards may be granted to any Grantee in any calendar year shall be two million (2,000,000) Shares. The foregoing limitation shall be adjusted proportionately in connection with any change in the Company's capitalization pursuant to Section 10, below.

(h) Deferral. If the vesting or receipt of Shares under an Award is deferred to a later date, any amount (whether denominated in Shares or cash) paid in addition to the original number of Shares subject to such Award will not be treated as an increase in the number of Shares subject to the Award if the additional amount is based either on a reasonable rate of interest or on one or more predetermined actual investments such that the amount payable by the Company at the later date will be based on the actual rate of return of a specific investment (including any decrease as well as any increase in the value of an investment).

(i) Early Exercise. The Award Agreement may, but need not, include a provision whereby the Grantee may elect at any time while an Employee, Director or Consultant to exercise any part or all of the Award prior to full vesting of the Award. Any unvested Shares received pursuant to such exercise may be subject to a repurchase right in favor of the Company or a Related Entity or to any other restriction the Administrator determines to be appropriate.

(j) Term of Award. The term of each Award shall be the term stated in the Award Agreement, provided, however, that the term of an Incentive Stock Option shall be no more than ten (10) years from the date

of grant thereof. However, in the case of an Incentive Stock Option granted to a Grantee who, at the time the Option is granted, owns shares representing more than ten percent (10%) of the voting power of all classes of shares of the Company or any Parent or Subsidiary of the Company, the term of the Incentive Stock Option shall be five (5) years from the date of grant thereof or such shorter term as may be provided in the Award Agreement. Notwithstanding the foregoing, the specified term of any Award shall not include any period for which the Grantee has elected to defer the receipt of the Shares or cash issuable pursuant to the Award.

(k) Transferability of Awards. Incentive Stock Options may not be sold, pledged, assigned, hypothecated, transferred, or disposed of in any manner other than by will or by the laws of descent or distribution and may be exercised, during the lifetime of the Grantee, only by the Grantee. Other Awards shall be transferable (i) by will and by the laws of descent and distribution and (ii) during the lifetime of the Grantee, to the extent and in the manner authorized by the Administrator. Notwithstanding the foregoing, the Grantee may designate one or more beneficiaries of the Grantee's Award in the event of the Grantee's death on a beneficiary designation form provided by the Administrator.

(l) Time of Granting Awards. The date of grant of an Award shall for all purposes be the date on which the Administrator makes the determination to grant such Award, or such other date as is determined by the Administrator.

7. Award Exercise or Purchase Price, Consideration and Taxes.

(a) Exercise or Purchase Price. The exercise or purchase price, if any, for an Award shall be as follows:

(i) In the case of an Incentive Stock Option:

(A) granted to an Employee who, at the time of the grant of such Incentive Stock Option owns shares representing more than ten percent (10%) of the voting power of all classes of shares of the Company or any Parent or Subsidiary of the Company, the per Share exercise price shall be not less than one hundred ten percent (110%) of the Fair Market Value per Share on the date of grant; or

(B) granted to any Employee other than an Employee described in the preceding paragraph, the per Share exercise price shall be not less than one hundred percent (100%) of the Fair Market Value per Share on the date of grant.

(ii) In the case of a Non-Qualified Stock Option, the per Share exercise price shall be not less than one hundred percent (100%) of the Fair Market Value per Share on the date of grant.

(iii) In the case of Awards intended to qualify as Performance-Based Compensation, the exercise or purchase price, if any, shall be not less than one hundred percent (100%) of the Fair Market Value per Share on the date of grant.

(iv) In the case of SARs, the base appreciation amount shall not be less than one hundred percent (100%) of the Fair Market Value per Share on the date of grant.

(v) In the case of other Awards, such price as is determined by the Administrator.

(vi) Notwithstanding the foregoing provisions of this Section 7(a), in the case of an Award issued pursuant to Section 6(d), above, the exercise or purchase price for the Award shall be determined in accordance with the provisions of the relevant instrument evidencing the agreement to issue such Award.

(b) Consideration. Subject to Applicable Laws, the consideration to be paid for the Shares to be issued upon exercise or purchase of an Award including the method of payment, shall be determined by the

Administrator. In addition to any other types of consideration the Administrator may determine, the Administrator is authorized to accept as consideration for Shares issued under the Plan the following:

(i) cash;

(ii) check;

(iii) repurchase of Shares which have a Fair Market Value on the date of repurchase equal to the aggregate exercise price of the Shares as to which said Award shall be exercised;

(iv) with respect to Options, if the exercise occurs on or after the Registration Date, payment through a broker-dealer sale and remittance procedure pursuant to which the Grantee (A) shall provide written instructions to a Company designated brokerage firm to effect the immediate sale of some or all of the purchased Shares and remit to the Company sufficient funds to cover the aggregate exercise price payable for the purchased Shares and (B) shall provide written directives to the Company to deliver the certificates for the purchased Shares directly to such brokerage firm in order to complete the sale transaction;

(v) with respect to Options, payment through a "net exercise" such that, without the payment of any funds, the Grantee may exercise the Option and receive the net number of Shares equal to (i) the number of Shares as to which the Option is being exercised, multiplied by (ii) a fraction, the numerator of which is the Fair Market Value per Share (on such date as is determined by the Administrator) less the Exercise Price per Share, and the denominator of which is such Fair Market Value per Share (the number of net Shares to be received shall be rounded down to the nearest whole number of Shares); or

(vi) any combination of the foregoing methods of payment.

The Administrator may at any time or from time to time, by adoption of or by amendment to the standard forms of Award Agreement described in Section 4(b)(iv), or by other means, grant Awards which do not permit all of the foregoing forms of consideration to be used in payment for the Shares or which otherwise restrict one or more forms of consideration.

(c) Taxes. No Shares shall be delivered under the Plan to any Grantee or other person until such Grantee or other person has made arrangements acceptable to the Administrator for the satisfaction of any non-U.S., federal, state, or local income and employment tax withholding obligations, including, without limitation, obligations incident to the receipt of Shares. Upon exercise or vesting of an Award the Company shall withhold or collect from the Grantee an amount sufficient to satisfy such tax obligations, including, but not limited to, by repurchase of the whole number of Shares covered by the Award sufficient to satisfy the minimum applicable tax withholding obligations incident to the exercise or vesting of an Award (reduced to the lowest whole number of Shares if such number of Shares withheld would result in withholding a fractional Share with any remaining tax withholding settled in cash).

8. Exercise of Award.

(a) Procedure for Exercise; Rights as a Shareholder.

(i) Any Award granted hereunder shall be exercisable at such times and under such conditions as determined by the Administrator under the terms of the Plan and specified in the Award Agreement.

(ii) An Award shall be deemed to be exercised when written notice of such exercise has been given to the Company in accordance with the terms of the Award by the person entitled to exercise the Award and full payment for the Shares with respect to which the Award is exercised has been made, including, to the

extent selected, use of the broker-dealer sale and remittance procedure to pay the purchase price as provided in Section 7(b)(iv).

(b) Exercise of Award Following Termination of Continuous Service.

(i) An Award may not be exercised after the termination date of such Award set forth in the Award Agreement and may be exercised following the termination of a Grantee's Continuous Service only to the extent provided in the Award Agreement.

(ii) Where the Award Agreement permits a Grantee to exercise an Award following the termination of the Grantee's Continuous Service for a specified period, the Award shall terminate to the extent not exercised on the last day of the specified period or the last day of the original term of the Award, whichever occurs first.

(iii) Any Award designated as an Incentive Stock Option to the extent not exercised within the time permitted by law for the exercise of Incentive Stock Options following the termination of a Grantee's Continuous Service shall convert automatically to a Non-Qualified Stock Option and thereafter shall be exercisable as such to the extent exercisable by its terms for the period specified in the Award Agreement.

9. Conditions Upon Issuance of Shares.

(a) If at any time the Administrator determines that the delivery of Shares pursuant to the exercise, vesting or any other provision of an Award is or may be unlawful under Applicable Laws, the vesting or right to exercise an Award or to otherwise receive Shares pursuant to the terms of an Award shall be suspended until the Administrator determines that such delivery is lawful and shall be further subject to the approval of counsel for the Company with respect to such compliance. The Company shall have no obligation to effect any registration or qualification of the Shares under federal or state laws.

(b) As a condition to the exercise of an Award, the Company may require the person exercising such Award to represent and warrant at the time of any such exercise that the Shares are being purchased only for investment and without any present intention to sell or distribute such Shares if, in the opinion of counsel for the Company, such a representation is required by any Applicable Laws.

10. Adjustments Upon Changes in Capitalization. Subject to any required action by the shareholders of the Company, the number of Shares covered by each outstanding Award, and the number of Shares which have been authorized for issuance under the Plan but as to which no Awards have yet been granted or which have been returned to the Plan, the exercise or purchase price of each such outstanding Award, the maximum number of Shares with respect to which Awards may be granted to any Grantee in any calendar year, as well as any other terms that the Administrator determines require adjustment shall be proportionately adjusted for (i) any increase or decrease in the number of issued Shares resulting from a share split, reverse share split, share dividend, share subdivision or consolidation, bonus issue, combination or reclassification of the Shares, or similar transaction affecting the Shares, (ii) any other increase or decrease in the number of issued Shares effected without receipt of consideration by the Company, or (iii) any other transaction with respect to Common Shares including a corporate merger, amalgamation, consolidation, acquisition of property or shares, separation (including a spin-off or other distribution of shares or property), reorganization, liquidation (whether partial or complete) or any similar transaction; provided, however, that conversion of any convertible securities of the Company shall not be deemed to have been "effected without receipt of consideration." In connection with the foregoing adjustments, the Administrator may, in its discretion, prohibit the exercise of Awards or other issuance of Shares, cash or other consideration pursuant to Awards during certain periods of time. Except as the Administrator determines, no issuance by the Company of shares of any class, or securities convertible into shares of any class, shall affect, and no adjustment by reason hereof shall be made with respect to, the number or price of Shares subject to an Award.

11. Corporate Transactions and Changes in Control.

(a) Termination of Award to Extent Not Assumed in Corporate Transaction. Effective upon the consummation of a Corporate Transaction, all outstanding Awards under the Plan shall terminate. However, all such Awards shall not terminate to the extent they are Assumed in connection with the Corporate Transaction.

(b) Acceleration of Award Upon Corporate Transaction or Change in Control.

(i) Corporate Transaction. Except as provided otherwise in an individual Award Agreement, in the event of a Corporate Transaction and:

(A) for the portion of each Award that is Assumed or Replaced, then such Award (if Assumed), the replacement Award (if Replaced), or the cash incentive program (if Replaced) automatically shall become fully vested, exercisable and payable and be released from any repurchase or forfeiture rights (other than repurchase rights exercisable at Fair Market Value) for all of the Shares (or other consideration) at the time represented by such Assumed or Replaced portion of the Award, immediately upon termination of the Grantee's Continuous Service if such Continuous Service is terminated by the successor company or the Company without Cause within twelve (12) months after the Corporate Transaction; and

(B) for the portion of each Award that is neither Assumed nor Replaced, such portion of the Award shall automatically become fully vested and exercisable and be released from any repurchase or forfeiture rights (other than repurchase rights exercisable at Fair Market Value) for all of the Shares (or other consideration) at the time represented by such portion of the Award, immediately prior to the specified effective date of such Corporate Transaction, provided that the Grantee's Continuous Service has not terminated prior to such date. For Awards that have an exercise feature, the portion of the Award that is not Assumed shall terminate under subsection (a) of this Section 11 to the extent not exercised prior to the consummation of such Corporate Transaction.

(ii) Change in Control. Except as provided otherwise in an individual Award Agreement, following a Change in Control (other than a Change in Control which also is a Corporate Transaction) and upon the termination of the Continuous Service of a Grantee if such Continuous Service is terminated by the Company or Related Entity without Cause within twelve (12) months after a Change in Control, each Award of such Grantee which is at the time outstanding under the Plan automatically shall become fully vested and exercisable and be released from any repurchase or forfeiture rights (other than repurchase rights exercisable at Fair Market Value), immediately upon the termination of such Continuous Service.

(c) Effect of Acceleration on Incentive Stock Options. Any Incentive Stock Option accelerated under this Section 11 in connection with a Corporate Transaction or Change in Control shall remain exercisable as an Incentive Stock Option under the Code only to the extent the \$100,000 dollar limitation of Section 422(d) of the Code is not exceeded.

12. Effective Date and Term of Plan. The Plan shall become effective upon the earlier to occur of its adoption by the Board or its approval by the shareholders of the Company. It shall continue in effect for a term of ten (10) years unless sooner terminated. Subject to Section 17, below, and Applicable Laws, Awards may be granted under the Plan upon its becoming effective.

13. Amendment, Suspension or Termination of the Plan.

(a) The Board may at any time amend, suspend or terminate the Plan; provided, however, that no such amendment shall be made without the approval of the Company's shareholders to the extent such approval is required by Applicable Laws, or if such amendment would lessen the shareholder approval requirements of Section 4(b)(vi) or this Section 13(a).

(b) No Award may be granted during any suspension of the Plan or after termination of the Plan.

(c) No suspension or termination of the Plan (including termination of the Plan under Section 11, above) shall adversely affect any rights under Awards already granted to a Grantee.

14. Reservation of Shares.

(a) The Company, during the term of the Plan, will at all times reserve and keep available such number of Shares as shall be sufficient to satisfy the requirements of the Plan.

(b) The inability of the Company to obtain authority from any regulatory body having jurisdiction, which authority is deemed by the Company's counsel to be necessary to the lawful issuance and sale of any Shares hereunder, shall relieve the Company of any liability in respect of the failure to issue or sell such Shares as to which such requisite authority shall not have been obtained.

15. No Effect on Terms of Employment/Consulting Relationship. The Plan shall not confer upon any Grantee any right with respect to the Grantee's Continuous Service, nor shall it interfere in any way with his or her right or the right of the Company or any Related Entity to terminate the Grantee's Continuous Service at any time, with or without Cause, and with or without notice. The ability of the Company or any Related Entity to terminate the employment of a Grantee who is employed at will is in no way affected by its determination that the Grantee's Continuous Service has been terminated for Cause for the purposes of this Plan.

16. No Effect on Retirement and Other Benefit Plans. Except as specifically provided in a retirement or other benefit plan of the Company or a Related Entity, Awards shall not be deemed compensation for purposes of computing benefits or contributions under any retirement plan of the Company or a Related Entity, and shall not affect any benefits under any other benefit plan of any kind or any benefit plan subsequently instituted under which the availability or amount of benefits is related to level of compensation. The Plan is not a "Retirement Plan" or "Welfare Plan" under the U.S. Employee Retirement Income Security Act of 1974, as amended.

17. Shareholder Approval. The grant of Incentive Stock Options under the Plan shall be subject to approval by the shareholders of the Company within twelve (12) months before or after the date the Plan is adopted excluding Incentive Stock Options issued in substitution for outstanding Incentive Stock Options pursuant to Section 424(a) of the Code. Such shareholder approval shall be obtained in the degree and manner required under Applicable Laws. The Administrator may grant Incentive Stock Options under the Plan prior to approval by the shareholders, but until such approval is obtained, no such Incentive Stock Option shall be exercisable. In the event that shareholder approval is not obtained within the twelve (12) month period provided above, all Incentive Stock Options previously granted under the Plan shall be exercisable as Non-Qualified Stock Options.

18. Effect of Section 162(m) of the Code. Section 162(m) of the Code does not apply to the Plan prior to the Registration Date. Following the Registration Date, the Plan, and all Awards issued thereunder, are intended to be exempt from the application of Section 162(m) of the Code, which restricts under certain circumstances the U.S. Federal income tax deduction for compensation paid by a public company to named executives in excess of \$1 million per year. The exemption is based on the Company's status as a "foreign private issuer" that does not file a "summary compensation table" as part of a proxy statement with the Securities and Exchange Commission. U.S. Treasury Regulation Section 1.162-27(f), in the form existing on the effective date of the Plan, with the understanding that such regulation generally exempts from the application of Section 162(m) of the Code compensation paid pursuant to a plan that existed before a company becomes publicly held. Under such Treasury Regulation, this exemption is available to the Plan for the duration of the period that lasts until the earlier of (i) the expiration of the Plan, (ii) the material modification of the Plan, (iii) the exhaustion of the maximum number of Common Shares available for Awards under the Plan, as set forth in Section 3(a), (iv) the first meeting of shareholders at which directors

~~are to be elected that occurs after the close of the third calendar year following the calendar year in which the Company first becomes subject to the reporting obligations of Section 12 of the Exchange Act, or (v) such other date required by Section 162(m) of the Code and the rules and regulations promulgated thereunder.~~ To the extent that the Administrator determines as of the date of grant of an Award that (i) the Award is intended to qualify as Performance-Based Compensation and (ii) the exemption described above (or another exemption) is no longer available with respect to such Award, such Award shall not be effective until any shareholder approval required under Section 162(m) of the Code has been obtained.

19. Unfunded Obligation. Grantees shall have the status of general unsecured creditors of the Company. Any amounts payable to Grantees pursuant to the Plan shall be unfunded and unsecured obligations for all purposes, including, without limitation, Title I of the U.S. Employee Retirement Income Security Act of 1974, as amended. Neither the Company nor any Related Entity shall be required to segregate any monies from its general funds, or to create any trusts, or establish any special accounts with respect to such obligations. The Company shall retain at all times beneficial ownership of any investments, including trust investments, which the Company may make to fulfill its payment obligations hereunder. Any investments or the creation or maintenance of any trust or any Grantee account shall not create or constitute a trust or fiduciary relationship between the Administrator, the Company or any Related Entity and a Grantee, or otherwise create any vested or beneficial interest in any Grantee or the Grantee's creditors in any assets of the Company or a Related Entity. The Grantees shall have no claim against the Company or any Related Entity for any changes in the value of any assets that may be invested or reinvested by the Company with respect to the Plan.

20. Construction. Captions and titles contained herein are for convenience only and shall not affect the meaning or interpretation of any provision of the Plan. Except when otherwise indicated by the context, the singular shall include the plural and the plural shall include the singular. Use of the term "or" is not intended to be exclusive, unless the context clearly requires otherwise.

21. Nonexclusivity of The Plan. Neither the adoption of the Plan by the Board, the submission of the Plan to the shareholders of the Company for approval, nor any provision of the Plan will be construed as creating any limitations on the power of the Board to adopt such additional compensation arrangements as it may deem desirable, including, without limitation, the granting of Awards otherwise than under the Plan, and such arrangements may be either generally applicable or applicable only in specific cases.

22. Governing Law. The Plan is to be construed in accordance with and governed by the internal laws of the State of California without giving effect to any choice of law rule that would cause the application of the laws of any jurisdiction other than the internal laws of the State of California to the rights and duties of the parties. Should any provision of the Plan be determined by a court of law to be illegal or unenforceable, such provision shall be enforced to the fullest extent allowed by law and the other provisions shall nevertheless remain effective and shall remain enforceable.

Proxy — TEXTAINER GROUP HOLDINGS LIMITED

2010 ANNUAL GENERAL MEETING OF SHAREHOLDERS TO BE HELD MAY 19, 2010

THIS PROXY CARD IS SOLICITED ON BEHALF OF THE BOARD OF DIRECTORS

This Proxy Card is solicited on behalf of the Board of Directors of Textainer Group Holdings Limited, a Bermuda company (the “**Company**”), for use only at the Company’s 2010 Annual General Meeting of Shareholders to be held on May 19, 2010 to be held at The Fairmont Southampton, 101 South Shore Road, Southampton, Bermuda, SN02 at 9:00 a.m. (local time) and at any postponement or adjournment(s) thereof (the “**2010 Annual Meeting**”).

The undersigned, being a shareholder of the Company, hereby appoints John A. Maccarone, President and Chief Executive Officer of the Company, as proxy of the undersigned (the “**Proxy**”), with full powers of substitution, to vote on the undersigned’s behalf, all common shares, \$0.01 par value per share of the Company, of the undersigned at the 2010 Annual Meeting, as designated on the reverse side of this Proxy Card.

This Proxy Card (when properly executed, returned and not revoked) will be voted in accordance with the instructions, if any, given thereon. If no instructions are provided in this Proxy Card (when properly executed, returned and not revoked) it will be voted FOR each nominee identified below to be re-elected to the Board of Directors (Proposal One), FOR each of Proposals Two, Three, and Four and in accordance with the proxyholder’s best judgment as to any other business as may properly come before the 2010 Annual Meeting.

The Board of Directors unanimously recommends a vote FOR each nominee identified below to be re-elected to the Board of Directors (Proposal One) and FOR each of Proposals Two, Three, and Four.
